The papered and bordered wall was an important feature of American interiors during the 18th, 19th, and early 20th centuries. Paper hangings, both imported and of domestic manufacture, were more widely used than many of our restored buildings might lead us to believe. In the late 17th and early 18th centuries, not only were American walls whitewashed, painted, and "wainscoted," but they were also hung with a variety of

materials. An English visitor of 1750, James Birket, commented on the number of rooms in Newport, Rhode Island, that were hung with printed canvas and paper. There is also documentation in the 18th century for the use of leather and textile wall hangings in this country. As early as 1700, wallpapers were recorded among the stock of a Boston merchant, and by the late 18th century, paper hangings were available to the middle class as well as to the rich. American advertisers claimed that "the low prices at which they will be sold will make papering cheaper than whitewashing." Easily transported, papers were available at surprisingly early dates not only in the seaboard urban centers, but also in the back country. During the 1840's, industrialization transformed the business of producing wallpapers and made them affordable in the average household. An appetite for papers was stimulated by manufacturers: their advertisements in this period promoted wallpaper for use in churches, banks, and offices, as well as in houses. The resulting popularity of patterned walls is reflected in statistics of soaring production. In 1840, observers of the industry reported that this country produced two million rolls of paper. By the 1880's paper was the standard wall finish and production rose to 100 million

rolls in 1890. This wallpaper craze continued until World War I, for almost every imaginable use, from nursery to butcher shops. Architects increasingly specified wallpapers for their designs, and many examples of the late 19th-century period survive both on site and in photographs. Today, wallpaper is rarely given adequate consideration in the restoration of interiors. However, it should be remembered that 18th- and 19th-century owners, architects, and builders may have visualized certain spatial effects of light, warmth, mood, and proportion dependent on the use of wallpaper--effects which are completely distorted when the walls are painted a solid color. Therefore, attempts to create rooms in restored houses require careful consideration of the appropriate interior wall finish. The likelihood that wallpaper may have been used should be recognized and investigated. Whether the objective is to accurately restore an interior to a specific date, or to convey the feeling of a period, wallpaper can contribute positively to the overall success of a restoration. Striving for an accurate restoration, a high level of objectivity must be maintained and the evidence carefully considered. There are some pitfalls to avoid in choosing the paper. Not just any paper will achieve the proper historical ambience, and

finding the proper documented paper is not always easy. Many expensively restored late 19th-century rooms have been unwittingly papered with reproductions of distinctly 18th-century patterns which were readily available. The personal tastes of the board of directors, local decorators, influential donors or volunteer committees can pose great problems. Often, after professional research reveals the actual paper that was used in a room, the results are ignored by members of an influential committee who consider the paper ugly and therefore "inappropriate." The impulse to decorate in conformity with 20th-century taste is commonly allowed to prevail, but should be suppressed. If paper is to be hung, patterns consistent with any evidence found in situ, or contemporary to the restoration target date and the type of room, should be carefully chosen.

Wallpaper May 16 2022 Wallpaper was initially used as an affordable substitute for lavish coverings, such as frescoes, tapestries, leathers, or hangings. Its current form debuted in sixteenth-century England, and its popularity took off at the end of the eighteenth century following advances in reproduction techniques. Wallpaper transformed the world of interiors, offering depth and perspective, creating the illusion of panoramic vistas, and incorporating narrative sequences, collections of engravings, or brief morality or history lessons. It eventually developed into the wide range of styles that have marked four centuries of decorative art, from Raphael to conceptual art, and from frescoes to photography. This stunning contribution to wallpaper's current revival offers a comprehensive review of a savoir faire that continues to thrive.

Wallpaper Feb 25 2023 We agonise and argue

when choosing it; we admire, compliment and criticise it (or keep politely quiet about it); and the rest of the time we don't even notice it. Wallpaper has been the backdrop to our homes for hundreds of years. It can make a house feel cosy or trendy, modern or traditional, and it is one of the key elements of home décor through which to express personal taste. Despite the threat from plain-painted minimalism, wallpaper maintains a strong presence in modern domestic decoration. Zoë Hendon traces the history of wallpaper in Britain and its foremost designers, examining how social mobility and new technologies have influenced design trends. From early Chinoiserie, through William Morris and on to the 'feature wall', this book looks at wallpaper's surprisingly controversial place in shaping our sense of home.

Art of Wallpapers Jul 26 2020 * Collects the majority of William Morris's wallpaper designs in one volume* Accompanies an exhibition at Edinburgh's Dovecot Studios* Beautifully designed, lavishly illustrated, with text by leading authority Mary SchoeserThis extensively illustrated volume focuses on William Morris (1834-1896), placing his wallpaper designs within the context of the radical changes in taste witnessed during the Victorian era. Against a backdrop of the

fanciful, naturalistic patterns that typified fashionable papers in Morris's youth, the impact of the Reform Movement of the mid-19th century is underscored, particularly the reformers' crusade against such multi-colored ornamental decoration. Instead, the insistence on the concepts of honesty and propriety as promoted by A. W. N. Pugin and Owen Jones, are demonstrated as influences on Morris. The role of imported Japanese wallpapers is also explored, giving insight into a seldom-discussed cultural exchange evidenced within the story of Morris & Co, which produced wallpapers from 1864 until 1940 and, after a post-war hiatus, from the 1960s to the present. Amplifying Morris's role in the creation of an influential and lasting style, his work is set within a selection by other designers, including Christopher Dresser and C. F. A. Voysey. Also introduced are firms of significance including Jeffrey & Co. and Arthur Sanderson & Sons, both of whom block-printed the Morris wallpapers. In a highly visual presentation, what is revealed are influences across time and within a global context, as pertinent to the creation of wallpaper art in the 19th century as it is today.

The Art of Wallpaper Aug 27 2020 Color, complete, and create wallpaper patterns inspired by a dazzling range of historical designs The choice of wallpaper—an intricate floral motif, a complex repeat pattern, or a bold abstract design—can transform a room. The Art of Wallpaper showcases inspirational wallpapers from the V&A's outstanding collection, from intricate hand-drawn designs to bold, woodblocked prints, and invites readers to create designs of their own. The book begins with a brief history of wallpaper manufacture and design. The activities are divided into four sections, becoming

progressively more difficult: Experiment with Color, Complete the Repeat, Fill in the Gaps, and Create Your Own. Thumbnails at the end of the book identify all the featured designs. Wallpaper's ubiquity and versatility have allowed designers to innovate and experiment with color, technique, and style. The Art of Wallpaper encourages readers to explore the endless variety of this medium and provides inspiration for new designs.

The Design, Production and Reception of Eighteenth-Century Wallpaper in Britain Jun 17 2022 Wallpaper's spread across trades, class and gender is charted in this first full-length study of the material's use in Britain during the long eighteenth century. It examines the types of wallpaper that were designed and produced and the interior spaces it occupied, from the country house to the homes of prosperous townsfolk and gentry, showing that wallpaper was hung by Earls and merchants as well as by aristocratic women. Drawing on a wide range of little known examples of interior schemes and surviving wallpapers, together with unpublished evidence from archives including letters and bills, it charts wallpaper's evolution across the century from cheap textile imitation to innovative new decorative material.

Wallpaper's growth is considered not in terms of chronology, but rather alongside the categories used by eighteenth-century tradesmen and consumers, from plains to flocks, from China papers to papier mâché and from stucco papers to materials for creating print rooms. It ends by assessing the ways in which eighteenth-century wallpaper was used to create historicist interiors in the twentieth century. Including a wide range of illustrations, many in colour, the book will be of interest to historians of material culture and design, scholars of art and architectural history as well as practicing designers and those interested in the historic interior.

Wallpaper Nov 10 2021 "The practical examples of wallpapers that are offered in this book are grouped together into three trends: retro style (inspired by the aesthetics of the 1960s and 70); modern designs (which give an air of the contemporary); and classic style (with prints characteristic of the first age of wallpapers). With all of these the intention is to stimulate readers' imaginations and help them to find the best option for their own homes."--Back cover

HIROSHI HARA:WALLPAPERS Mar 22 2020 "Japanese architect Hiroshi Hara, whose major works include Kyoto Station, the Umeda Sky Building in Osaka, and other important structures in Japan, is also known for his rich doctrines on architecture, which draw connections with disciplines such as philosophy and anthropology. In this impeccably designed and densely erudite volume, he presents so-called "transcriptions" about spatial concepts and modes, applying his decades of experience and thinking, including texts from his lectures at graduate school and mathematical formulas derived from his background as an engineer, to dialectic writings centred on the theme of a special exhibition entitled "WALLPAPERS."

As she wanders happily from room to room, she finally finds a way to drift off to sleep.

William Morris Apr 03 2021

Wallpaper and the Artist Apr 22 2020 The book examines how major artists over the last five centuries have approached wallpaper design. From Durer, who conceived his designs as seriously as he did a fine woodcut, to William Morris, who believed that wallpaper, like all good design, should transform our lives, to Andy Warhol, whose fascination with multiple images inspired brilliant parodies of the wallpaper tradition, the artists represented here reveal the rich complexity inherent in the art of pattern and form that constitutes wallpaper design.

Wallpaper Mar 02 2021 Wallpaper has never been more desirable. Throughout their 300-year history, patterned paper wallcoverings have alternated wildly between being absolutely 'of

the moment' or totally out of fashion. Recently, after more than a decade of blank white walls and minimalism, wallpaper has made a grand comeback - and its popularity shows no signs of abating. In this stunning book - the ultimate guide to wallpaper - Charlotte Abrahams gets to the heart of the exciting contemporary wallpaper scene. Dividing the book into the three main areas of design - pasted pictures, fabulous florals and architectural illusions - she starts each section with what is happening now, then traces the history back through the key moments, developments, designers and manufacturers to the origins of the style. New young designers and established manufacturers, funky new layered images and classic designs, the latest visual technology and hand-painted historical scenes - all are discussed and illustrated. Each section also explains how to use this type of wallpaper in a variety of ways and rooms to obtain different effects. Expert advice on working out colour schemes, mixing florals with geometrics, using large and small prints, zoning and other techniques is included. Each section ends with full-page photographs of the 48 best wallpapers in this area (a mix of contemporary and classic). Over 200 wallpapers are included and every one is itemised in an illustrated source list giving

details of design and manufacturer, with contact details, websites and where to purchase. All the wallpapers featured are available worldwide. Illustrated throughout with stunning wallpaper designs and beautiful rooms, this book really will be the ultimate guide to wallpaper.

Half Upon a Time Oct 21 2022 In the village of Giant's Hand Jack's grandfather has been pushing him to find a princess and get married, so when a young lady falls out of the sky wearing a shirt that says "Punk Princess," and she tells Jack that her grandmother, who looks suspiciously like the long-missing Snow White, has been kidnapped, Jack decides to help her.

London Wallpapers Dec 11 2021 London Wallpapers, first published in 1992, has long been out of print. In this new, revised edition there is a substantially enlarged list of wallpaper manufacturers in all their various guises: stationers, paper stainers, paper hanging manufacturers, paper hangers, even "Thomas William Paul, fancy cabinet maker & paper stainer." The list has doubled in size to nearly 800 names covering the longer period 1690 to 1840. Also included for the first time is a particularly fine water-colour of a hand-block printer at work c.1880, a time when the process had achieved its apogee but had not

yet been totally replaced by mechanical printing methods. The book describes the method in which rag-based paper was made for wallpaper use, the manner in which wallpaper was printed using hand-carved wooden blocks - with a detailed description of printing flock papers, a fashion for which has recently re-emerged. There is a brief description of the taxes on wallpaper introduced in 1712 and which still govern the normal length of paper today. The various ways that paper were designed and the methods by which wallpaper was hung are also covered. Finally in the text there is an examination of how the London wallpaper trade worked, looking briefly at one of the great eighteenth century paper strainers, Thomas Bromwich, "at the Sign of the Golden Lyon on Ludgate Hill, near St Paul's Churchyard". The book has 16 black and white pictures, mostly of eighteenth century trade cards used by wallpaper merchants as advertisements and for writing out receipts. Most notably the book has 40 full colour plates of London made wallpapers with descriptions of each paper and the house from which it came.

Zuber Aug 19 2022 Luxurious homes, from the New York to South Carolina to Scotland and France, featuring woodblock printed panoramic wallpapers from the premier French

manufacturer Zuber & Cie. Since its founding in 1797, Zuber & Cie wallpapers' fame has spread far and wide, from King Louis Philippe awarding Jean Zuber the Legion of Honor in 1834 to Jackie Kennedy installing Zuber's "Vues de l'Amérique du Nord" in the White House. According to France Today, the company still uses the same antique woodblocks, the same paint formulas, and the same time-honored processes to create its stunning wallpapers as it did in Jean Zuber's time. Gorgeous displays of friezes, borders, ceiling roses, and architectural trompe l'oeil have been photographed for this book in homes in the U.S., France, and the U.K. Brian D. Coleman continually brings to life the biggest names in design, such as Farrow & Ball, Scalamandré, Fortuny, the Wiseman Group, Barry Dixon, and Leta Austin Foster. He lives in Seattle and NYC.
