Looking to buy some medieval armour? In the mood for an orchestra of typewriters? Perhaps you'd like to sift through handcrafted cashmere scarves while chatting up Indiana Jones' lovely co-star? High Attention Reading offers a new way to get students of all reading levels to independently read informational texts with more effort, attention, and stamina. Hale argues that increasing the number of informational texts children read is important but not enough to achieve this goal. In order to prepare students for the reading demands of high school, it is essential that we provide strategic scaffolding for the habits of mind required

to read this genre at a high level and the motivation to do so. The author introduces elementary and middle school teachers to a format called HART (High Attention Reading through Talking) that uses purposeful, intermittent student talk to heighten engagement and accountability during independent reading. The book includes easy-to-implement lessons to get started with HART, as well as discussions about the relationships among motivation, engagement, and content area reading. Chapters describe how HART scaffolds and supports student ownership of background knowledge, content vocabulary, and critical thinking about texts. Teachers will learn how to create conditions that foster motivation and engagement with informational text, while also creating authentic accountability to help students read to their potential. Book Features: An approach to independent reading that can be incorporated into any reading curriculum, from reading workshop to more structured comprehensive programs. Practical information for how to impact a difficult to reach aspect of reading—the internal effort students make while reading complex text independently. Strategies for building students' critical thinking through

discussion and writing. Guidance for how to increase student ownership of attending to background knowledge and content vocabulary. A framework that can be used by reading and content (science and social studies) teachers in both elementary and middle school. Dedicated discussions on how to differentiate HART for English Learners. Lessons that include descriptive transcripts, reproducible supportive materials, and access to downloadable PowerPoints. When faced with a blank page in their readers' notebooks, students often fall back on what is familiar: summarizing. Despite our best efforts to model through comprehension strategies what good readers do, many students struggle to transfer this knowledge and make it their own when writing independently about books. In *Readers Writing*, Elizabeth Hale offers ninety-one practical lessons that show teachers how students of all ability levels can use readers' notebooks to think critically, on their own, one step at a time. Each of the lessons uses a fiction or nonfiction book to address a comprehension strategy--questioning, connecting, analyzing, synthesizing, evaluating, visualizing, or monitoring--by showing

students one specific way they can write about their thinking. Each lesson also provides an example of how to model the strategy. All of the lessons follow a similar format with five components--Name It, Why Do It?, Model It, Try It, and Share It--and include time for students to actively process what they learn by talking about and trying out the strategy in their readers' notebooks. Elizabeth also provides suggestions for supporting student independence, managing independent writing time, scaffolding comprehension of nonfiction texts as well as assessing and conferencing with readers' notebooks. Helpful appendices include a table that illustrates how each lesson aligns with the Common Core State Standards and a list of additional titles that can be used to demonstrate each of the ninety-one lessons. Readers Writing gives teachers a way to engage all children with readers' notebooks, to learn the language of thinking, one strategy at a time, and to become lifelong readers who can think and write critically on their own. When Amelia's mom gives her a journal for her ninth birthday, Amelia has a place to share her truest feelings at last! Describes strategies teachers can use to

promote reading comprehension in students from kindergarten through eighth grade; and includes examples of student work, illustrations, and other reference tools. Describes the autumn activities and traditions that November's cooling temperatures bring. help students improve their nonfiction  
writing--reports, articles, memoirs, essays,  
and so forth--which has taken on even  
greater importance because of the emphasis

the Common Core State Standards place on informative/explanatory writing. As Aimee explains, the prewriting work a student does is particularly important when writing informational pieces. Writer's notebooks help students capture their thoughts, develop ideas, explore mentor texts, refine a research strategy, and play with multiple outcomes--all of which lead to stronger concepts and better first drafts. Greater emphasis on the front end of the writing process also saves time and energy at the revision and editing stages. From exploring topics to gathering information to assessment, *Nonfiction Notebooks* takes teachers step-by-step through the process of how best to use notebooks for informational writing.
