Lieutenant James Shelley commands a high-tech squad of soldiers in a rural district within the African Sahel. They hunt insurgents each night on a harrowing patrol, guided by three simple goals: protect civilians, kill the enemy, and stay alive. In a for-profit war manufactured by the defense industry there can be no cause worth dying for. To keep his soldiers safe, Shelley uses every high-tech asset available to him, but his best weapon is a flawless sense of imminent danger as if God is with him, whispering warnings in his ear. From the publisher of the NextDraft newsletter comes a cathartic and humorous ride through the unnerving, maddening hellscape of the 2020 press cycle, reestablishing the line between "real" news and real life. Please lower your shoulder restraint and keep your hands and feet in. You're about to board a roller coaster ride through a year that was at once laughable and lethal. If you've got an anti-anxiety prescription, now would probably be a good time to call in a refill. Please Scream Inside Your Heart is a time capsule; a real-time ride through the maddening hell that was the 2020 news cycle—when historic turmoil and media mania stretched American sanity, democracy, and toilet paper. Who better to

examine this unhinged period in all of its twists and turns than news addict Dave Pell, aka the internet's Managing Editor? Fueled by the wisdom and advice of his two Holocaust-surviving parents, for whom parts of this story were all too familiar, Pell puts the key stories of 2020 into context with pith and punch; highlighting turning points that widened America's divisions, deepened our obsession with a media-driven civil war, and nearly knocked the country off its tracks. Pell also examines the role of technology in society—and how we somehow built the exact opposite of what we thought we were building. Why did the lies spread faster than the truth? How did our tech addiction contribute to the nightmare? Why do you feel a vibration in your pocket right now? In 2020, the news was everywhere, and everything was political—even the air we breathed. So brace yourself as you're hurtled through the twists and turns of the corkscrewiest year in American history; one that included two impeachment trials, a global pandemic, Black Lives Matter, the biggest election of a lifetime, a slide towards autocracy, and a warning from the makers of Lysol not to drink their products. **NEW YORK TIMES BESTSELLER** The pistol appeared in his hand the way a dove appears in the hand of a good magician, as if it materialized out of thin air. "You think I won't do it right here in the open. But you'd be surprised. . . . You'll drop before you get the breath to scream." The truck driver is decked out like a rhinestone cowboy, only instead of a guitar he's slinging a gun—and Odd Thomas is on the wrong end of the barrel. Though he narrowly dodges a bullet, Odd can't outrun the shocking vision burned into his mind . . . or the destiny that will drive him into a harrowing showdown with absolute evil. **DEEPLY ODD** How do you make sure a crime that hasn't happened yet, never does? That's the critical question facing Odd Thomas, the young man with a unique ability to commune with restless spirits and help them find justice and peace. But this time, it's the living who desperately need Odd on their side. Three helpless innocents will be brutally executed unless Odd can intervene in time. Who the potential victims are and where they can be found remain a mystery. The only thing Odd knows

for sure is who the killer will be: the homicidal stranger who tried to shoot him dead in a small-town parking lot. With the ghost of Alfred Hitchcock riding shotgun and a network of unlikely allies providing help along the way, Odd embarks on an interstate game of cat and mouse with his sinister quarry. He will soon learn that his adversary possesses abilities that may surpass his own and operates in service to infinitely more formidable foes, with murder a mere prelude to much deeper designs. Traveling across a landscape haunted by portents of impending catastrophe, Odd will do what he must and go where his path leads him, drawing ever closer to the dark heart of his long journey—and, perhaps, to the bright light beyond. Praise for Deeply Odd and Dean Koontz's Odd Thomas series "Not since *Watchers* has Dean Koontz created such an endearing and enduring character as Odd Thomas. . . . One of our contemporary masters."—*San Antonio Express-News* "[A] popular series . . . Another satisfying entry in this wildly popular series. It's Koontz, and it's Odd. Class dismissed."—*Booklist* Originally published: Honesdale, Pa.: Front Street, 2000. Welcome. Have a seat. The wolves will wait. Let us tell you a story. But be warned. Nightmareland isn't just any tale. This is a Scary Tale. Meet Aaron Wheeler, who just got a strange, new video game. A game that sucks Aaron right in. All alone, caught in a snowstorm, a howl comes from the nearby woods. And there is no way out.... Prepare yourself for the next installment of James Preller's heart-pounding scary chapter book series filled with dark and creepy illustrations from acclaimed artist Iacopo Bruno. "There was very fine, an elegant pain, hardly a pain at all, like the swift and fleeting burn of a drop of hot candle wax...Then the blood welled up and began to distort the pure, stark

edges of my delicately wrought wound. "The chaos in my head spun itself into a silk of silence. I had distilled myself to the immediacy of hand, blade, blood, flesh." There are an estimated two to three million "cutters" in America, but experts warn that, as with anorexia, this could be just the tip of the iceberg of those affected by this little-known disorder. Cutting has only just begun to enter public consciousness as a dangerous affliction that tends to take hold of adolescent girls and can last, hidden and untreated, well into adulthood. Caroline Kettlewell is an intelligent woman with a promising career and a family. She is also a former cutter, and the first person to tell her own story about living with and overcoming the disorder. She grew up on the campus of a boys' boarding school where her father taught. As she entered adolescence, the combination of a family where frank discussion was avoided and life in what seemed like a fishbowl, where she and her sister were practically the only girls the students ever saw, became unbearable for Caroline. She discovered that the only way to find relief from overpowering feelings of self-consciousness, discomfort, and alienation was to physically hurt herself. She began cutting her arms and legs in the seventh grade, and continued into her twenties. Why would a rational person resort to such extreme measures? How did she recognize and overcome her problem? In a memoir startling for its honesty, humor, and poignancy, Caroline Kettlewell offers a clear-eyed account of her own struggle to survive this debilitating affliction. Cutting is a practice that has crossed age and gender lines. It's not just depressed teens who inflict injury on themselves—it can be anyone dealing with overwhelming feelings. This book explores the complex issue of cutting without offering any pat or simple fixes. It examines the psychology of, the feelings of anger and despair behind it, and the counseling resources that can help. This book is a great tool to help those who engage in cutting, pastors who want to learn more, or those who need to understand someone who practices self-injury. Shiver-inducing science not for the faint of heart. No one studies fear quite like Margee Kerr. A sociologist who moonlights at

one of America's scariest and most popular haunted houses, she has seen grown men laugh, cry, and push their loved ones aside as they run away in terror. And she's kept careful notes on what triggers these responses and why. Fear is a universal human experience, but do we really understand it? If we're so terrified of monsters and serial killers, why do we flock to the theaters to see them? Why do people avoid thinking about death, but jump out of planes and swim with sharks? For Kerr, there was only one way to find out. In this eye-opening, adventurous book, she takes us on a tour of the world's scariest experiences: into an abandoned prison long after dark, hanging by a cord from the highest tower in the Western hemisphere, and deep into Japan's mysterious "suicide forest." She even goes on a ghost hunt with a group of paranormal adventurers. Along the way, Kerr shows us the surprising science from the newest studies of fear—what it means, how it works, and what it can do for us. Full of entertaining science and the thrills of a good ghost story, this book will make you think, laugh—and scream.

Malvina is a happy, normal thirteen-year-old. She plays in the nearby abandoned villa with her best friend, and taunts the boys from the estate who go there too. One of the boys is persistent in his pursuit of her, and inadvertently stumbles across her secret. She is the one who has to take meals to her recently widowed grandfather, and when he follows her on his bike, he realises that something is wrong. Her grandfather is very physically affectionate to her, but he touches her in places she dislikes, and his kisses to her are long and lingering. It is a long journey of developing trust and self-belief for her to grow enough to tell people what is really happening. She isn't a fussy teenager as her parents think: she needs adults to listen and take her seriously, and stop her grandfather. For the rebellion to succeed, the great Stormhawk—Bourshkanya's paranoid, seemingly unkillable fascist leader—must die. For Celka, who uses magic in ways no one believed possible; Gerrit, the Stormhawk's son, returned to his side; and Filip, Gerrit's old friend, torn between duty and loyalty, the cost may be everything they hold dear. A National Book

Award Finalist "A gentle, glowing wonder, full of love and understanding." -The New York Times Book Review It's the summer before middle school and eleven-year-old Bug's best friend Moira has decided the two of them need to use the next few months to prepare. For Moira, this means figuring out the right clothes to wear, learning how to put on makeup, and deciding which boys are cuter in their yearbook photos than in real life. But none of this is all that appealing to Bug, who doesn't particularly want to spend more time trying to understand how to be a girl. Besides, there's something more important to worry about: A ghost is haunting Bug's eerie old house in rural Vermont...and maybe haunting Bug in particular. As Bug begins to untangle the mystery of who this ghost is and what they're trying to say, an altogether different truth comes to light--Bug is transgender. Provides victims of self-inflicted violence advice and support to help them through their emotional and physical trauma and overcome the tendency to self-mutilate. "Ford built its 60 millionth car, a 1963 Galaxie 500 XL [with] sport roof, ... [It started out in Lewisville, North Carolina, touching many people throughout its life]. Heroes and villains, girlfriends and wives (ex and otherwise), a B-52 tailgunner, a preacher's daughter and an existentialist possum are ... our fellow travelers in these tales from the road. We'll do battle with busted radiator hoses, 8-tracks and bra clasps in the back seat. We'll race against the clock, travel through time, skin a few knuckles and burn some rubber."--Page 4 of cover. NATIONAL BESTSELLER • In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. Her memoir of the next two years is a "poignant, honest ... triumphantly funny ... and heartbreaking story" (The New York Times Book Review). The ward for teenage girls in the McLean psychiatric hospital was as renowned for its famous clientele--Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles--as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her

fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted, unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery. Teenage Gerald, who has spent years protecting his fragile half-sister from their abusive father, faces the prospect of one final confrontation before the problem can be solved. When the ice cream man takes a vacation during a very hot summer in Kersville, best friends Desmond and Andres search for a substitute, with frightening results. "The voice that narrates *In the Name of the Children: An F.B.I. Agent's Relentless Pursuit of the Nation's Worst Predators*, which Rinek wrote with the journalist Marilee Strong, sounds warm and humane, qualities missing from much crime writing. Their book is a professional job, filled with illuminating details about the day-to-day operations of the bureau." —New York Times Book Review

FBI Special Agent Jeff Rinek had a gift for getting child predators to confess. All he had to do was share a piece of his soul . . . *In the Name of the Children* gives an unflinching look at what it's like to fight a never-ending battle against an enemy far more insidious than terrorists: the predators, lurking amongst us, who seek to harm our children. During his 30-year career with the FBI, Jeff Rinek worked hundreds of investigations involving crimes against children: from stranger abduction to serial homicide to ritualized sexual abuse. Those who do this kind of work are required to plumb the depths of human depravity, to see things no one should ever have to see—and once seen can never forget. There is no more important—or more brutal—job in law enforcement, and few have been more successful than Rinek at solving these sort of cases. Most famously, Rinek got Cary Stayner to confess to all four of the killings known as the Yosemite Park Murders, an accomplishment made more extraordinary by the fact that the FBI nearly pinned the crimes on the wrong suspects. Rinek's recounting of the confession and what he learned about Stayner provides perhaps the most revelatory look ever

inside the psyche of a serial killer and a privileged glimpse into the art of interrogation. In the Name of the Children takes readers into the trenches of real-time investigations where every second counts and any wrong decision or overlooked fact can have tragic repercussions. Rinek offers an insider's perspective of the actual case agents and street detectives who are the boots on the ground in this war at home. By placing us inside the heart and mind of a rigorously honest and remarkably self-reflective investigator, we will see with our own eyes what it takes—and what it costs—to try to keep our children safe and to bring to justice those who prey on society's most vulnerable victims. With each chapter dedicated to a real case he worked, In the Name of the Children also explores the evolution of Rinek as a Special Agent—whose unorthodox, empathy-based approach to interviewing suspects made him extraordinarily successful in obtaining confessions—and the toll it took to have such intimate contact with child molesters and murderers. Beyond exploring the devastating impact of these unthinkable crimes on the victims and their families, this book offers an unprecedented look at how investigators and their loved ones cope while living in the specter of so much suffering. For Dr. David Beck, the loss was shattering. And every day for the past eight years, he has relived the horror of what happened. The gleaming lake. The pale moonlight. The piercing screams. The night his wife was taken. The last night he saw her alive. Everyone tells him it's time to move on, to forget the past once and for all. But for David Beck, there can be no closure. A message has appeared on his computer, a phrase only he and his dead wife know. Suddenly Beck is taunted with the impossible—that somewhere, somehow, Elizabeth is alive. Beck has been warned to tell no one. And he doesn't. Instead, he runs from the people he trusts the most, plunging headlong into a search for the shadowy figure whose messages hold out a desperate hope. But already Beck is being hunted down. He's headed straight into the heart of a dark and deadly secret—and someone intends to stop him before he gets there. Self-injury can be as addictive as any drug, and the secrecy and

Used alone or in conjunction with therapy, our books offer powerful tools readers can use to jump-start changes in their lives. Based on five years of investigative reporting and research into forensic psychology and criminology, *Erased* presents an original profile of a widespread and previously unrecognized type of murder: not a “hot-blooded,” spur-of-the-moment crime of passion, as domestic homicide is commonly viewed, but a cold-blooded, carefully planned and methodically executed form of “erasure.” These crimes are often committed by men with no criminal record or history of violence whatsoever, men leading functional and often successful lives until the moment they kill the women, and sometimes children, they claimed to love. A surprising number go on to kill a second or even third wife or girlfriend, often in exactly the same way. In more than fifty chilling case studies, Marilee Strong examines the strange and complex psychology that drives these killers—from the murder a century ago that inspired the novel *An American Tragedy* to Scott Peterson, Mark Hacking, Jeffrey MacDonald, Ira Einhorn, Charles

Stuart, Robert Durst, Michael White, Barton Corbin, and many others. Erased also looks at how these men manipulate the legal system and exploit loopholes in missing persons procedures and death investigation, exposing how easy it can be to get away with murder. A perfect bedtime book to discover American folktales. Decades after the filming of a horror movie is halted in the wake of three actor deaths and rumors about a haunted set, Claire, the daughter of a failing studio head, helps with a production on the same site and pursues a relationship with her crush before a series of accidents threaten their ambitions. "I highly recommend [A Bright Red Scream], because it's beautifully written and . . . so candid." —Amy Adams, star of HBO's Sharp Objects in Entertainment Weekly Self-mutilation is a behavior so shocking that it is almost never discussed. Yet estimates are that upwards of eight million Americans are

chronic self-injurers. They are people who use knives, razor blades, or broken glass to cut themselves. Their numbers include the actor Johnny Depp, *Girl Interrupted* author Susanna Kaysen, and the late Princess Diana. Mistakenly viewed as suicide attempts or senseless masochism—even by many health professionals—"cutting" is actually a complex means of coping with emotional pain. Marilee Strong explores this hidden epidemic through case studies, startling new research from psychologists, trauma experts, and neuroscientists, and the heartbreaking insights of cutters themselves—who range from troubled teenagers to middle-age professionals to grandparents. Strong explains what factors lead to self-mutilation, why cutting helps people manage overwhelming fear and anxiety, and how cutters can heal both their internal and external wounds and break the self-destructive cycle. *A Bright Red Scream* is a groundbreaking, essential resource for victims of self-mutilation, their families, teachers, doctors, and therapists.
