Principles of Investments by Bodie, Drew, Basu,
Kane and Marcus emphasises asset allocation
while presenting the practical applications of
investment theory. The authors concentrate on
the intuition and insights that will be useful to
students throughout their careers as new ideas
and challenges emerge from the financial
marketplace. It provides a good foundation to
understand the basic types of securities and
financial markets as well as how trading in those
markets is conducted. The Portfolio
Management section is discussed towards the
end of the course and supported by a web-based

portfolio simulation with a hypothetical
\$100,000 brokerage account to buy and sell
stocks and mutual funds. Students get a chance
to use real data found in the Wall Street
Survivor simulation in conjunction with the
chapters on investments. This site is powered by
StockTrak, the leading provider of investment
simulation services to the academic
community. Principles of Investments includes
increased attention to changes in market
structure and trading technology. The theory is
supported by a wide range of exercises,
worksheets and problems. Introducing...
Essentials of Investments, 9th Global Edition, by
Zvi Bodie, Alex Kane and Alan J. Marcus. We are
pleased to present this Global Edition, which has
been developed specifically to meet the needs of
international Investment students. A market
leader in the field, this text emphasizes asset
allocation while presenting the practical
applications of investment theory without
unnecessary mathematical detail. The ninth

edition includes new coverage on the roots and fallout from the recent financial crisis and provides increased content on the changes in market structure and trading technology. Enhancements to this new Global Edition include: - New 'On the market front' boxes highlight important investment concepts in real world situations across the globe, to promote student thinking without taking a full case study approach. Topics include short-selling in Europe & Asia, credit default swaps and the debt crisis in Greece and include examples from Commerzbank, JP Morgan, Facebook, Coca-Cola, Santander, The European Energy Exchange, plus many more! - Revised worked examples illustrate problems using both real and fictional scenarios from across the world to help students develop their problem solving skills. Regional examples include Hutchinson Whampoa (Asia), The Emirates Group (The Middle East) and KLM Royal Dutch Airlines (The Netherlands). - Revised end-of chapter material includes brand

new global questions and global internet exercises that feature currencies, companies and scenarios from Europe, Middle East, Africa and Asia to increase engagement for international students. - Global Edition of Connect Plus Finance, McGraw-Hill's web-based assignment and assessment platform with eBook access, helps students learn faster, study more efficiently, and retain more knowledge. This Global Edition has been adapted to meet the needs of courses outside of the United States and does not align with the instructor and student resources available with the US edition. The market leading undergraduate investments textbook, Essentials of Investments by Bodie, Kane, and Marcus, emphasizes asset allocation while presenting the practical applications of investment theory. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge

from the financial marketplace. The Tenth Edition includes increased attention to changes in market structure and trading technology, while continuing to be organized around one basic theme - that security markets are nearly efficient. A substantially revised edition of a bestselling text combining explanation and implementation using Excel; for classroom use or as a reference for finance practitioners. Financial Modeling is now the standard text for explaining the implementation of financial models in Excel. This long-awaited fourth edition maintains the “cookbook” features and Excel dependence that have made the previous editions so popular. As in previous editions, basic and advanced models in the areas of corporate finance, portfolio management, options, and bonds are explained with detailed Excel spreadsheets. Sections on technical aspects of Excel and on the use of Visual Basic for Applications (VBA) round out the book to make Financial Modeling a complete guide for

the financial modeler. The new edition of Financial Modeling includes a number of innovations. A new section explains the principles of Monte Carlo methods and their application to portfolio management and exotic option valuation. A new chapter discusses term structure modeling, with special emphasis on the Nelson-Siegel model. The discussion of corporate valuation using pro forma models has been rounded out with the introduction of a new, simple model for corporate valuation based on accounting data and a minimal number of valuation parameters. New print copies of this book include a card affixed to the inside back cover with a unique access code. Access codes are required to download Excel worksheets and solutions to end-of-chapter exercises. If you have a used copy of this book, you may purchase a digitally-delivered access code separately via the Supplemental Material link on this page. If you purchased an e-book, you may obtain a unique access code by emailing digitalproducts-

digitaltutorials.jrn.columbia.edu

cs@mit.edu or calling 617-253-2889 or 800-207-8354 (toll-free in the U.S. and Canada). Praise for earlier editions "Financial Modeling belongs on the desk of every finance professional. Its no-nonsense, hands-on approach makes it an indispensable tool." —Hal R. Varian, Dean, School of Information Management and Systems, University of California, Berkeley "Financial Modeling is highly recommended to readers who are interested in an introduction to basic, traditional approaches to financial modeling and analysis, as well as to those who want to learn more about applying spreadsheet software to financial analysis." —Edward Weiss, Journal of Computational Intelligence in Finance "Benninga has a clear writing style and uses numerous illustrations, which make this book one of the best texts on using Excel for finance that I've seen." —Ed McCarthy, Ticker Magazine The market leading undergraduate investments textbook, "Essentials of Investments, 8/e" by

Bodie, Kane and Marcus, emphasizes asset allocation while presenting the practical applications of investment theory. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace. The eighth edition has been fully updated to reflect the recent financial crisis and includes a new chapter on Hedge Funds. Bodie, Kane, and Marcus' Investments and Portfolio Management sets the standard for graduate/MBA investments textbooks. It blends practical and theoretical coverage, while maintaining an appropriate rigor and a clear writing style. Its unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The text places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures,

options, and other derivative security markets than most investment texts. It is also the only graduate Investments text to offer an online homework management system, McGraw-Hill's Connect Plus Finance. Offers a practical and theoretical coverage of investments market. This book places emphasis on asset allocation, and offers a treatment of futures, options, and other derivative security markets. Bodie, Kane, and Marcus' Investments is the leading textbook for the graduate/MBA investments market. It is recognized as the best blend of practical and theoretical coverage, while maintaining an appropriate rigor and clear writing style. Its unifying theme is that security markets are nearly efficient, meaning that most securities are usually priced appropriately given their risk and return attributes. The text places greater emphasis on asset allocation, and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. The MznLnx Exam

Prep series is designed to help you pass your exams. Editors at MznLnx review your textbooks and then prepare these practice exams to help you master the textbook material. Unlike study guides, workbooks, and practice tests provided by the textbook publisher and textbook authors, MznLnx gives you all of the material in each chapter in exam form, not just samples, so you can be sure to nail your exam. Bodie, Kane, and Marcus' INVESTMENTS is the leading textbook for the graduate/MBA investments market. It is recognized as the best blend of practical and theoretical coverage, while maintaining an appropriate rigor and clear writing style. Its unifying theme is that security markets are nearly efficient, meaning that most securities are usually priced appropriately given their risk and return attributes. The text places greater emphasis on asset allocation, and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. The market leading

undergraduate investments textbook, Essentials of Investments, 9e by Bodie, Kane, and Marcus, emphasizes asset allocation while presenting the practical applications of investment theory. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace. The Ninth Edition includes increased attention to changes in market structure and trading technology, while continuing to be organized around one basic theme - that security markets are nearly efficient. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. The Sixth Canadian Edition of Investments by Bodie et al presents an up to date blend of the classical theory of investments combined with a

full treatment of newer topics. Instructors and students alike appreciate the Canadian perspective and the rich research that enhances the level of discussion in the classroom. Full integration of relevant technology (Excel applications, Standard & Poor's questions) and an increased internet presence helps students to understand, absorb and apply the concepts and techniques presented. The integrated solutions for Bodie, Kane, and Marcus' Investments set the standard for graduate/MBA investments textbooks. The unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The content places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and

how they need it, so that your class time is more engaging and effective. The integrated solutions for Bodie, Kane, and Marcus' Investments set the standard for graduate/MBA investments textbooks. The unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The content places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. McGraw-Hill's adaptive learning component, LearnSmart, provides assignable modules that help students master chapter core concepts and come to class more prepared. In addition, resources within Connect help students solve financial problems and apply what they've learned. Bodie Investments' blend of practical and theoretical coverage combines with a complete digital solution to help your students achieve higher outcomes in the course. Connect is the only

integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective. The market leading Essentials of Investments, 7e by Bodie, Kane and Marcus is an undergraduate textbook on investment analysis, presenting the practical applications of investment theory to convey insights of practical value. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace. Essentials maintains the theme of asset allocation (authors discuss asset pricing and trading then apply these theories to portfolio planning in real-world securities markets that are governed by risk/return relationships). Never HIGHLIGHT a Book Again! Virtually all of the testable terms, concepts, persons, places, and events from the

textbook are included. Cram101 Just the FACTS101 studyguides give all of the outlines, highlights, notes, and quizzes for your textbook with optional online comprehensive practice tests. Only Cram101 is Textbook Specific. Accompanys: 9781593858216 9781606232583 . Prepared by Bruce Swenson of Adelphi University, the student solutions manual provides detailed solutions to the end of chapter problems. The author's involvement in the completion of the Solutions Manual ensures consistency between the solution approaches in the examples featured within the text and those presented in the manual. This manual is available bundled with the text for students to purchase by permission of the instructor. The market-leading undergraduate investments textbook, Essentials of Investments by Bodie, Kane, and Marcus, continues to evolve along with the changes in the financial markets yet remains organized around one basic theme—that security markets are nearly efficient, meaning

that you should expect to find few obvious bargains in these markets. This text places great emphasis on asset allocation while presenting the practical applications of investment theory. The text also focuses on investment analysis, which allows us to present the practical applications of investment theory and convey practical value insights. A collection of Excel spreadsheets is provided to give you the tools to explore concepts more deeply. In their efforts to link theory to practice, the author team also makes their approach consistent with that of the CFA Institute. Included are questions from previous CFA exams in our end-of-chapter problems and CFA-style questions derived from the Kaplan-Schweser CFA preparation courses. Suitable for the graduate/MBA investments market, this work has as its unifying theme that security markets are nearly efficient, meaning that most securities are usually priced appropriately given their risk and return attributes. It focuses on asset allocation, and

offers a treatment of futures, options, and other derivative security markets. The integrated solutions for Bodie, Kane, and Marcus' Investments set the standard for graduate/MBA investments textbooks. The unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. The content places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. management system, McGraw-Hill's Connect Finance. The market leading Essentials of Investments, 5/e by Bodie, Kane and Marcus is an undergraduate textbook on investment analysis, presenting the practical applications of investment theory to convey insights of practical value. The authors have eliminated unnecessary mathematical detail and concentrate on the intuition and insights that will be useful to practitioners throughout their careers as new ideas and challenges emerge from the financial marketplace. ESSENTIALS maintains the theme of asset allocation (authors discuss asset pricing and trading then apply these theories to portfolio planning in real-world securities markets that are governed by risk/return relationships). ESSENTIALS continues to develop modern topics. The major objective in this revision is to maintain the current level in content and coverage, with greater emphasis on the Internet and global issues, and to improve the text's accessibility by enhancing

presentation, pedagogy, and design. SmartBook™ is the first and only adaptive reading experience designed to change the way students read and learn. It creates a personalized reading experience by highlighting the most impactful concepts a student needs to learn at that moment in time. As a student engages with SmartBook, the reading experience continuously adapts by highlighting content based on what the student knows and doesn't know. This ensures that the focus is on the content he or she needs to learn, while simultaneously promoting long-term retention of material. Use SmartBook's real-time reports to quickly identify the concepts that require more attention from individual students-or the entire class. Bodie, Kane, and Marcus' Investments sets the standard for graduate/MBA investments textbooks. It blends practical and theoretical coverage, while maintaining an appropriate rigor and a clear writing style. Its unifying theme is that security markets are nearly

efficient, meaning that most securities are priced appropriately given their risk and return attributes. The text places greater emphasis on asset allocation and offers a much broader and deeper treatment of futures, options, and other derivative security markets than most investment texts. It is also the only graduate Investments text to offer an online homework management system, McGraw-Hill's Connect Finance. A practical guide to getting personal investing right Somewhere along the way, something has gone very wrong with the way individuals save and invest. Too often, households are drawn in by promotional suggestions masquerading as impartial investment advice. Consumers get saddled with more risk than they realize. Authors Zvi Bodie and Rachelle Taqqu understand the dilemma that today's investors face, and with Risk Less and Prosper they will help you find your financial footing. Written in an accessible style, this practical guide skillfully explains why personal

investing is all about you—your goals, your values and your career path. It shows how to understand investment risk and choose the particular blend of risk and safety that is right for you. And it lays out several simple yet powerful ways for small investors to cast a reliable safety net to achieve their financial goals and truly prosper. Coauthors Bodie and Taqqu challenge the myth that all investments require risk, then highlight some important risks that families often disregard when deciding where to put their money. Later, they connect the dots between investment and investor, showing us all how to grasp our own investment risk profiles and how we may use these insights to make more fitting investment choices. Outlines a straightforward way to invest by aligning your investments with your goals and the risk levels you can bear Provides basic investment abc's for readers who are otherwise literate Lays out a simple, actionable plan for achieving your goals Explains the role of risk-

free assets and investment insurance in assuring that you reach your most essential goals. Contrary to popular belief, investing doesn't have to be complicated. You can build wealth without taking great risks. Risk Less and Prosper will show you how to make investment decisions that will make your financial life less stressful and more profitable. The authors teach readers about the new rules of investing, which include investing with inflation-protected bonds, reaching retirement goals, and investing safely for college. Prepared by Bruce Swenson of Adelphi University, provides detailed solutions to the end of chapter problems. This manual is available bundled with the text for students to purchase by permission of the instructor by ordering ISBN 0072976322. Investments sets the standard as a graduate (MBA) text intended primarily for courses in investment analysis. The guiding principle has been to present the material in a framework that is organized by a central core of consistent fundamental principles

and will introduce students to major issues currently of concern to all investors. In an effort to link theory to practice, the authors make their approach consistent with that of the CFA Institute. Many features of this text make it consistent with and relevant to the CFA curriculum. The common unifying theme is that security markets are nearly efficient, meaning that most securities are priced appropriately given their risk and return attributes. Investments is also organized around several important themes: The central theme is the near-informational-efficiency of well-developed security markets and the general awareness that competitive markets do not offer "free lunches" to participants. A second theme is the risk-return trade-off. Also, this text places great emphasis on asset allocation. Finally, this text offers a broad and deep treatment of futures, options, and other derivative security markets. The MznLnx Exam Prep series is designed to help you pass your exams. Editors at MznLnx

review your textbooks and then prepare these practice exams to help you master the textbook material. Unlike study guides, workbooks, and practice tests provided by the textbook publisher and textbook authors, MznLnx gives you all of the material in each chapter in exam form, not just samples, so you can be sure to nail your exam. This manual provides detailed solutions to the end-of-chapter problem sets. Bodie, Kane, and Marcus' Investments sets the standard for graduate/MBA investments textbooks.
