Beyond Point-and-Shoot Jun 07 2021 There are two types of new photographers: those satisfied with their low-cost point-and-shoot cameras, and those more enthusiastic photographers who recognize the limitations of low-cost equipment and want to improve their pictures. No longer satisfied with simple snapshots, the enthusiast moves up to a more complex digital camera—one with interchangeable lenses and manual controls—to satisfy their artistic urge. Assuming little to no knowledge of photographic terms, techniques, or technology, Beyond Point-And-Shoot is intended to help smooth the transition from photographic newbie to "real" photographer who is experienced, in-control, and passionate about their craft.

Author Darrell Young explores various types of interchangeable-lens cameras, focusing on those with larger imaging sensors, such as digital single-lens reflex (DSLR) cameras. Learn how to get the most out of your camera's automatic and semi-automatic exposure modes, as well as how to move beyond those modes and take full, manual control of your camera. Watch your photography improve as you discover how to apply important photographic principles, such as depth of field, white balance, and metering. With this newfound knowledge you'll move beyond point-and-shoot and begin taking truly great photographs. Other topics include: Camera types Lenses Aperture, shutter speed, and ISO Metering and shooting controls Lens focal lengths and angles of view The histogram Color spaces Sensors Filters Image file formats Managing digital noise And much more!

"[Jance] continues to grow in her art.... It's no mystery why this writer is a hit."— Seattle Times A premium edition reissue of the third electrifying Joanna Brady novel by New York Times bestselling author J. A. Jance. A prisoner languishes in a Phoenix jail cell accused of slaying his estranged wife. No one believes the man is innocent, except the new female sheriff of Cochise County, in town for a crash course in police training. Joanna Brady is out of her jurisdiction—and possibly out of her league. For a human monster is on the prowl, hiding the grisly evidence of his horrific crimes in the vast emptiness of the Arizona

desert. And an impromptu investigation, with no official sanction, and no back-up, is drawing a cold, ingenious serial killer much too close to Brady for comfort—and closer, worse still, to her little girl.

anticipated.

Don't Shoot Nov 12 2021

Gang- and drug-related inner-city violence, with its attendant epidemic of incarceration, is the defining crime problem in our country. In some neighborhoods in America, one out of every two hundred young black men is shot to death every year, and few initiatives of government and law enforcement have made much difference. But when David Kennedy, a self-taught and then-unknown criminologist, engineered the "Boston Miracle" in the mid-1990s, he pointed the way toward what few had imagined: a solution. Don't Shoot tells the story of Kennedy's long journey. Riding with beat cops, hanging with gang members, and stoop-sitting with grandmothers, Kennedy found that all parties misunderstood each other, caught in a spiral of racialized anger and distrust. He envisioned an approach in which everyone--gang members, cops, and community members--comes together in what is essentially

a huge intervention. Offenders are told that the violence must stop, that even the cops want them to stay alive and out of prison, and that even their families support swift law enforcement if the violence continues. In city after city, the same miracle has followed: violence plummets, drug markets dry up, and the relationship between the police and the community is reset. This is a landmark book, chronicling a paradigm shift in how we address one of America's most shameful social problems. A riveting, page-turning read, it combines the street vérité of *The Wire*, the social science of *Gang Leader for a Day*, and the moral urgency and personal journey of *Fist Stick Knife Gun*. But unlike anybody else, Kennedy shows that there could be an end in sight.

Taking advantage of the vast informational resources available to him, Dan Gonzalez developed a passing system that combined ideas from some of the most vaunted offenses in pro and college football. He later enhanced that system so that youth players could learn and execute the same concepts and techniques. Further, the same concepts have been used to aid high schools in not only developing school record holders, but perennial playoff contenders and state champions as well. Gonzalez now delves into the theory and teaching that goes beyond the playbook and into the coaching behind the "X's and O's."

How to Choose Best Point and Shoot Digital Camera? May 26 2020
Compact digital cameras are such a craze today that almost everyone has to own one. Of all the photographs taken worldwide, up to fifty percent of them come from a compact camera. It represents a brand's entry-level variant.

Growth and Development of Trees, Volume I: Seed Germination, Ontogeny, and

Shoot Growth is a part of a two-volume treatise, which characterizes important features of growth and development of trees and other woody plants during their life cycles. Organized into eight chapters, this book describes the important events in growth of the perennial woody plant. This volume highlights the significant changes that take place in vegetative and reproductive growth as woody plants progress from juvenility to adulthood and, finally, to a senescent state. This book also describes the effects of external and internal controls of vegetative and reproductive growth. Considerable attention is given to important spatial and temporal variations in growth. This book will be useful to academicians as well as to those involved in the practice of growing trees and other woody plants for fruit crops or wood, as well as for esthetic reasons.

Hands Up, Don't Shoot Jul 28 2020 Understanding the explosive protests over police killings and the legacy of racism Following the high-profile deaths of eighteen-year-old Michael Brown in Ferguson, Missouri, and twenty-five-year-old Freddie Gray in Baltimore, Maryland, both cities erupted in protest over the unjustified homicides of unarmed black males at the hands of police officers. These local tragedies—and the protests surrounding them—assumed national significance, igniting fierce debate about the fairness and efficacy of the American criminal justice system. Yet, outside the gaze of mainstream attention, how do local residents and protestors in

Ferguson and Baltimore understand their own experiences with race, place, and policing? In *Hands Up, Don't Shoot*, Jennifer Cobbina draws on in-depth interviews with nearly two hundred residents of Ferguson and Baltimore, conducted within two months of the deaths of Brown and Gray. She examines how protestors in both cities understood their experiences with the police, how those experiences influenced their perceptions of policing, what galvanized Black Lives Matter as a social movement, and how policing tactics during demonstrations influenced subsequent mobilization decisions among protestors. Ultimately, she humanizes people's deep and abiding anger, underscoring how a movement emerged to denounce both racial biases by police and the broader economic and social system that has stacked the deck against young black civilians. *Hands Up, Don't Shoot* is a remarkably current, on-the-ground assessment of the

powerful, protestor-driven movement around race, justice, and policing in America.

Instinctive Shooting Dec 13

2021 Here, point and shoot.?

These words from his father propelled Buz Fawcett's shooting success as a child, gaining him a number of High Gun awards at local trap clubs by the time he was fourteen. Because of his success, his father awarded him his grandfather's Model 1912 Winchester, which he mastered, even though it "kicked the whey" out of him. However, his amazing shooting abilities as a kid didn't follow him into adulthood. Fawcett entered into what he calls his "Dark Ages" of shooting after accepting an associate editor position at Sports Afield in New York City, where he had

to read and edit what other gunmen were writing about shooting techniques.

Eventually, he took a position as editor of Guns & Ammo magazine, located in California.

He soon found himself in a position where he could shoot as much as he liked. After a number of years and extensive research into shooting methods, Fawcett rediscovered his talents through a technique called "Instinctive Shooting.?"

This research and a lot of practice finally led to teaching a workshop on instinctive shooting to help others become adept at this miraculous "point and shoot" method. Instinctive Shooting is Fawcett's guide for other gunmen, describing exactly how and what needs to be done to achieve the ultimate shooting instincts. Practical and hands-on, the book covers such topics as determining your dominant eye, achieving proper shotgun fit, how to correct point and shoot, selecting equipment, practice regimens, mounting, and much more.

Run and Shoot Jan 22 2020

After two heart breaking losses, football in the semi-final and basketball in the final, it was baseball's turn in the playoffs. The Crater Comets win the state title in a last inning thriller. It's a lot easier to begin the new year and a new football season while wearing a championship ring. We have twenty returning lettermen to begin with and at least two significant transfers to bolster our roster. I'll move from wide receiver to quarterback, my natural position, and three offensive line starters return. The defense looks to be a bit smaller but I think more athletic overall. We will be young on that side of the football but I believe more athletic than a year ago. Coach Nick will work that group into a force before we're too far into the season. Our coaching staff has added Dave Nook as a receiver coach and he'll be in charge of special teams. He will coach the inside receivers which leaves Coach Mack free to work exclusively with the wide receivers. For my money

this is the best coaching staff in our league and probably in the entire state of Iowa. A state title, a state runner up and a state semi-final in my three sports last year could be labeled a huge success.

However, coming as close as we did to sweeping all three our sights are set a bit higher than in the past. We have the talent and the coaching, now it's up to us to use that advantage to attempt an historic triple. Winning all three championships is our goal and we can't do that unless we win the first one.

If you're not thrilled with the photos you're getting from your digital camera—whether it's a point-and-shoot or a DSLR—the answer isn't a new camera. It's learning to use the one you've got! After all, it's not the camera that takes great shots—it's the person behind

the camera. In *Getting Started in Digital Photography: From Snapshots to Great Shots*, photographer and instructor Khara Plicanic teaches the basics of photography and digital camera functions that you can apply to any camera, anywhere, any time— answering questions like: What do all those different modes mean and when do I use them? What’s a megapixel and why should I care? Follow along with Khara, and you will: Learn about shutter speed, aperture, and shooting modes Improve those yellow dingy photos of your kids’ indoor sporting events Fix the exposure on shots that are too dark or too bright Move beyond the Auto mode to take advantage of your camera’s settings Discover that the key to great shots is to learn your way around your camera By the time you’re finished, you’ll know how to best use the features of whatever camera you already have to take great shots. And once you’ve got the shots, show them off! Join the book’s Flickr group, share your photos, and
