For two decades, John Mighton has developed strategies for fostering intellectual potential in all children through learning math. Math, Mighton says, provides us with mental tools of incredible power. When we learn math we learn to see patterns, to think logically and systematically, to draw analogies, to perceive risk, to understand cause and effect--among many other critical skills. Yet we tolerate and in fact expect a vast performance gap in math among students, and live in a world where many adults aren't equipped with these crucial tools. This learning gap is unnecessary, dangerous and tragic, he cautions, and it has led us to a problem of intellectual poverty which is apparent everywhere--in fake news, political turmoil, floundering economies,**

*even in erroneous medical diagnoses. In All Things Being Equal, Mighton argues that math study is an ideal starting point to break down social inequality and empower individuals to build a smarter, kinder, more equitable world. Bringing together the latest cognitive research and incremental learning strategies, Mighton goes deep into the classroom and beyond to offer a hopeful--and urgent--vision for a numerate society. Metaphysics, in its classical version, deals with the basic understanding of reality i.e. things as concretely existing; it tries to give the answers to the following questions: What is being? Which are the transcendental proprieties of being and how to understand them? What is the structure of being, founding the problem of the causes and casuality as such? How to understand the analogy of being and connected with it the analogy of knowledge, in the ultimate perspective of the existence of God? The solutions of these problems go through the understanding of the interpretations of being given by Aristotle, St. Thomas Aquinas and modern thinkers. As Bill anxiously waits for his unfaithful wife and his furniture, he is visited by Jack, a divorced neighbor who suggests the loneliness of life after marriage. At first Jack appears to be a nightmare neighbor—intrusive, needy, boorish—but gradually Bill's perception of his new "friend" deepens. While it's true that Jack managed to lose his wife's trust and his children's love, Bill discovers that Jack is wrestling with circumstances that would challenge the best of us. A funny and wistful exploration of love, loss, masculinity, and the needs that bring people together and drive them apart. Reproduction of the original. Turning This Thing Around is an inspiring memoir of overcoming personal struggles. This brutally honest, deeply personal account of redemption takes readers on a moving spiritual journey. Confronted with a myriad of obstacles—a debilitating arthritic disease, narcolepsy, anxiety and depression—the author was outwardly happy, but inwardly miserable. Pushed to the lowest point of his life, Maginn shares how he gradually turned things around and used his experiences to grow as a person. Supplemented by heartfelt poetry by the author and with quotes from Gandhi to Dr. Wayne Dyer to Eckhart Tolle, Turning This Thing Around has universal themes that speak to nearly everyone, as we all must face challenges as part of being human. It is a self-help memoir of sorts: the author discusses not only what he overcame, but also*

how he did so-and how others can, too. Unlike many popular memoirs on the market, this is a story that more people can relate to. Maginn was not raised in an eccentric family (Jeannette Walls in *The Glass Castle*, memoirs by Augusten Burroughs), nor did he travel to Italy, India and Indonesia, as Elizabeth Gilbert did in *Eat, Pray, Love*. Rather, *Turning This Thing Around* is a story of a normal young man's resiliency when battling extraordinary circumstances. Lectures delivered at the Sanskrit College, Calcutta, 1972. Includes the proceedings. A collection of wise and witty quotes from and inspired by Jim Henson similar in format to *The World According to Mister Rogers*. "When I was young, it was my ambition to be one of the people who made a difference in this world. My hope is to leave the world a little better for my having been there. It's a wonderful life and I love it." -Jim Henson "Yeah, well, I've got a dream too. But it's about singing and dancing and making people happy. That's the kind of dream that gets better the more people you share it with. And, well, I've found a whole bunch of friends who have the same dream. And, it kind of makes us like a family." -Kermit the Frog, *The Muppet Movie*

*I Can Do Hard Things* is a beautiful reminder to tune into and listen to that quiet voice inside so that you can do what's right for you. I don't always feel brave, confident or strong. Sometimes it seems easier to follow others along. It's hard to navigate a world in which we get so many messages about how we should be. We pause. We listen to the quiet voice inside. I connect with the love and strength it brings. It helps me remember: I can do hard things. *I Can Do Hard Things: Mindful Affirmations for Kids* is the perfect addition to your home or school library. (The book is available in Spanish as *Yo Puedo Hacer Cosas Dificiles: Afirmaciones Concientes Para Niños*).

Widening participation and inclusive learning have become buzz words for change in continuing education. How can these recent developments be related to equal opportunities and adults with learning difficulties? Based on NIACE research sponsored by the Joseph Rowntree Foundation, *All Things Being Equal? Looks at individuals and groups of adults with learning difficulties who have tended to miss out on continuing education, ranging from older adults to those with profound and multiple learning difficulties. All Things Being equal? Gives case studies of succesful practice drawn from fieldwork visits to colleges and local education authorities, exploring the issues and challenges of widening participation. The book offers useful blueprints for building new provision via checklists of ideas, all based on practical experience. It gives resource suggestions for busy managers and practitioners working in colleges and local education authorities. There is an emphasis on partnership work in the examples given, making the book also relevant for staff from other organisations. The voices of learners are quoted throughout the book. All things Being Equal? Highlights the finding that existing provision for marginalised groups of adults with learning difficulties is scarce, fragile and vulnerable to cuts. This practical handbook is designed to help embed real learning opportunities for learners who are all too often disenfranchised. Important American periodical dating back to 1850. Contemporary scholars of Chinese philosophy often presuppose that early China possessed a naturalistic worldview, devoid of any non-natural concepts, such as transcendence. Challenging this presupposition head-on, Joshua R. Brown and Alexis McLeod argue that non-naturalism and transcendence have a robust and significant place in early Chinese thought. This book reveals that non-naturalist positions can be found in early Chinese texts, in topics including conceptions of the divine, cosmogony, and apophatic philosophy. Moreover, by closely examining a range of early Chinese texts, and providing comparative readings of a number of Western texts and thinkers, the book offers a way of reading early Chinese Philosophy as consistent with the religious philosophy of the East and West, including the Abrahamic and the Brahmanistic religions. Co-written by a philosopher and theologian, this book draws out unique*

*insights into early Chinese thought, highlighting in particular new ways to consider a range of Chinese concepts, including tian, dao, li, and you/wu. NEW YORK TIMES BESTSELLER • This joyful rhyming book encourages children to value the “different” in all people, leading the way to a kinder world in which the differences in all of us are celebrated and embraced. Macy is a girl who’s a lot like you and me, but she’s also quite different, which is a great thing to be. With kindness, grace, and bravery, Macy finds her place in the world, bringing beauty and laughter wherever she goes and leading others to find delight in the unique design of every person. Children are naturally aware of the differences they encounter at school, in their neighborhood, and in other everyday relationships. They just need to be given tools to understand and appreciate what makes us “different,” permission to ask questions about it, and eyes to see and celebrate it in themselves as well as in those around them. In his complete autobiography, All Things Being Equal, Hall of Fame running back Lenny Moore shares his entire story. Moore recounts many fascinating life experiences, beginning with his upbringing in a blue-collar family of ten in Reading, Pennsylvania. He explores his standout, yet challenging time in Happy Valley playing for an already legendary coach in Penn State’s Rip Engle, and one in training-Joe Paterno. He also delves into his professional football career with the Baltimore Colts that saw him reach new heights as the MVP of the NFL in 1964. Throughout his amateur and professional career, Moore’s toughest competitor was often racism, which battled Moore tooth for tooth. But, as Moore would learn, life would pose other significant battles once his spikes were hung up. Other immortals who played with him-like Johnny Unitas, Gino Marchetti, and Raymond Berry-would easily transition into life after football. Some became businessmen; others carved a new career path as coaches or general managers-but not Moore. In great detail, he describes his difficulties in shifting from having fame and notoriety to not being able to find employment in the town in which he was once celebrated. But Moore eventually found his calling, working with troubled Maryland juveniles, and establishing the Leslie Moore Scholarship Foundation benefiting underprivileged youths. Today, he also works toward finding a cure for scleroderma, after his son passed away from the disease in 2001. Ultimately, All Things Being Equal is the touching journey of one man’s self-discovery that, unfortunately, all things are seldom equal. 492 Great Things About Being Italian is fun, informative and catnip for 17 million Italian-Americans.
