Being taught by a great teacher is one of the great privileges of life. Teach Now! is an exciting new series that opens up the secrets of great teachers and, step-by-step, helps trainees to build the skills and confidence they need to become first-rate classroom practitioners. Written by a highly-skilled

practitioner, this practical, classroom-focused guide contains all the support you need to become a great modern foreign languages teacher. Combining a grounded, modern rationale for learning and teaching with highly practical training approaches, the book guides you through all the different aspects of MFL teaching offering clear, straightforward advice on classroom practice, lesson planning and working in schools. Teaching and learning, planning, assessment and behaviour management are all covered in detail, with a host of carefully chosen examples used to demonstrate good practice. There are also chapters on the essentials of the MFL curriculum, pedagogical techniques, strategies to engage students in language learning, and how to succeed in observations and interviews. Throughout the book, there is a great selection of ready-to-use activities, approaches and techniques which will help put you on the fast track to success in the classroom. Covering everything you need to know, this book is your essential guide as you start your exciting and rewarding career as an outstanding MFL teacher. The past half-century has witnessed a dramatic increase in the scale and complexity of scientific research. The growing scale of science has been accompanied by a shift toward collaborative research, referred to as "team science." Scientific research is increasingly conducted by small teams and larger groups rather than individual investigators, but the challenges of collaboration can slow these teams' progress in achieving their scientific goals. How does a team-based approach work, and how can

universities and research institutions support teams? Enhancing the Effectiveness of Team Science synthesizes and integrates the available research to provide guidance on assembling the science team; leadership, education and professional development for science teams and groups. It also examines institutional and organizational structures and policies to support science teams and identifies areas where further research is needed to help science teams and groups achieve their scientific and translational goals. This report offers major public policy recommendations for science research agencies and policymakers, as well as recommendations for individual scientists, disciplinary associations, and research universities. Enhancing the Effectiveness of Team Science will be of interest to university research administrators, team science leaders, science faculty, and graduate and postdoctoral students. Target XAT 2020 provides the detailed Solutions to XAT 2005 to XAT 2019 original Question Papers. The book also provides the topics of the essays asked in each of these XAT exam. "Rotella does an extraordinary job of describing both the ideology of urban planning and its actual realization in the built environment, and he shows how cultural (literary)

constructions of meaning simultaneously reflect and inform social reality."—Richard Slotkin, author of *Gunfighter Nation*

"A wonderful book, a wholly authoritative mapping of urban literature in the United States from the industrial city of the 1930s and 1940s to the post-industrial landscape of the 1960s. Fascinating and pathbreaking."—Eric Lott, author of *Love and Theft*
