***Shetland ponies are cute, squat, intelligent little equines that originate from the Shetland Isles. They come in different colours and colour combinations and have beautiful long manes and tails. You will find them in two sizes, standard and miniature. Shetland ponies have been transformed into film, television, animation and an endless range of toys that children can't get enough of. But Shetland ponies aren't just for children, many adults compete in events, like carting and carriage racing, with Shetland ponies. Whatever the reason that you want to get a Shetland pony, you***

can't go wrong! They are friendly companions that can be easily trained, and many become keen competitors in all types of events and competitions. Shetland ponies are also gentle and understanding, so they make ideal pets and rides for children, as well as companion animals to people and other equines. Shetland ponies are known to be easy keepers, and they are. They are hardy, strong equines that have few genetic diseases, and are not inclined to diseases, other than dietary related conditions. Learning how to feed a Shetland pony properly is key to keeping it in good health, and novice owners must pay careful attention to their Shetland pony's dietary needs. Shetland ponies originate from working ponies. On the Shetland Isles they were used to pull carts, ploughs and as transport for centuries, and in the 1800's they were used in the mining industry. They are physically strong and comparing size for size, they are the strongest of all equines. That means that they have to be properly trained at an early age to get
