[Slavery, Emancipation and Colonial Rule in South Africa](#) Oct 10 2021 Slavery, Emancipation and Colonial Rule in South Africa examines the rural Cape Colony from the earliest days of Dutch colonial rule in the mid-seventeenth century to the outbreak of the South African War in 1899. For slaves and slave owners alike, incorporation into the British Empire at the beginning of the nineteenth century brought fruits that were bittersweet. The gentry had initially done well by accepting British rule, but were ultimately faced with the legislated ending of servile labor. To slaves and Khoisan servants, British rule brought freedom, but a freedom that remained limited. The gentry accomplished this feat only with great difficulty.

Increasingly, their dominance of the countryside was threatened by English-speaking merchants and money-lenders, a challenge that stimulated early Afrikaner nationalism. The alliances that ensured nineteenth-century colonial stability all but fell apart as the descendants of slaves and Khoisan turned on their erstwhile masters during the South African War of 1899-1902.

*Cape of Storms* Jun 25 2020 He is the chieftain leader of the Khoikhoi, a nomadic people derogatorily called

"Hottentot" by European colonists. She is a white woman left behind by Portuguese explorer Vasco da Gama's crew when they rounded Africa's southern tip in 1498. Their romance is the core of this powerful novella. According to Portuguese myth, Zeus turned Adamastor into the rocky cape of the South African peninsula. André Brink's parable suggests that white Europeans have punished native Africans in the same way. With this novel, Brink takes us to the heart of the relationships that define South Africa's modern history. "Peter Carey, Garcia Marquez, Solzhenitsyn: André Brink must be considered with that class of writer." -Guardian

[First People](#) Mar 27 2023 An illuminating exploration of early Southern African hunters and herders In First People, archaeologist Andrew Smith examines what we know about Southern Africa's early people, drawing on evidence from archaeological sites and rock art, the observations of colonial-era travellers, linguistics, and the study of the human genome. Smith has studied the history and prehistory of the Khoisan throughout his long and distinguished career. These communities represent the early groups of hunter-gatherers and herders and the oldest human lineages of Africa, some migrating from as far as East Africa to settle in countries like Namibia, Botswana, and South Africa. Fully illustrated and including the latest academic research, First People is an invaluable and accessible work that reaches from the Stone Age and travels through time to the most recent history of the Khoisan. It paints a knowledgeable and fascinating portrait of their land occupation, migration, survival, culture, and practices.

"It was said that the Khoikhoi was savages while the Europeans were civil. How then is it that the 'savages' fed, clothed and healed the sea-farers arriving at the Cape while the 'civilized' Europeans illegitimately appropriated the lands of the Khoikhoi, subjugated, persecuted and sold people, brutally raping women, genocide, obliteration of cultures, confiscation of life giving resources and forced conversion along ethnic grounds? Who then should be labeled savage and who were the genuine civilized?" "The Bushmen do not know God and are not real people. It is therefore not untoward to kill them randomly. What is more: We, the Europeans, are the chosen people of God. We are being led by God and as such we have the right to annihilate these uncivilized savages." "Many whites [Christians] did not regard the San [Bushmen] as human beings, and condemned them as cruel, murderous and rapacious creatures that should preferably be exterminated". -- Extracts from the Book.

**Cape of Torments** Sep 09 2021 Cape of Torments, first published in 1983, is a detailed examination of slavery in the Colony of the Cape of Good Hope. It describes the reactions of the slaves to their conditions of slavery, concentrating on those aspects of their lives which their masters considered criminal, and above all on the large numbers of occasions when slaves ran away in an attempt to start a new life elsewhere. The book examines Cape society and slave organization; the complex relations between slaves and the other groups of population at the Cape - Khoisan, Xhosa, Sotho-Tswana, Dutch East India Co servants and sailors - and the opportunities for escape; major uprisings and rebellions. The major theme of the book is the extent to which the Cape slaves were able to build a culture of their own, and the legacy of slavery to their

descendants in modern South Africa.

**The Spirit Of Water** Mar 15 2022 This book describes a research project begun by the author in 2015 and co-authored by the chiefs of the KhoiSan peoples living in the Nelson Mandela Bay Municipality, South Africa, aided by staff and students at Nelson Mandela University. The scope of the project was to investigate methods and procedures that could help re-establish the link between the Indigenous communities and their 'forgotten' heritage sites due to the colonial segregations. Making use of a participatory and interdisciplinary method we explored the tangible and intangible heritage of the Eastern Cape province, with particular attention to the remains of precolonial fish traps located along the shoreline. Included also are important testimonies from the KhoiSan chiefs who, alongside the author, led the project.

**The Shaping of South African Society, 1652-1840.** Dec 24 2022 History is a powerful aid to the understanding of the present, and those who are concerned with the escalating crisis in South Africa will find this an invaluable source book. This is the story of the evolution of a society in which race became the dominant characteristic, the primary determinant of status, wealth, and power. Cultural chauvinism of the first European colonists - primarily the Dutch - merged with economic and demographic developments to create a society in which whites relegated all blacks - free blacks, Africans, imported slaves - to a systematic pattern of subordination and oppression that foreshadowed the apartheid of the twentieth century. From the beginning of the nineteenth century the new empire-builders, the British, reinforced the racial order. In the next century and a half the industrialized South Africa would become firmly integrated into the world economy. Published originally in South Africa in 1979 and updated and expanded now, a decade later, this book by twelve South African, British, Canadian, Dutch, and American scholars is the most comprehensive history of the early years of that troubled nation. The authors put South Africa in the comparative context of other colonial systems. Their social, political, and economic history is rich with empirical data and rests on a solid base of archival research. The story they tell is a complex drama of a racial structure that has resisted hostile impulses from without and rebellion from within.

*The Land Wars* Jan 01 2021 Perhaps the most explosive issue in South Africa today is the question of land ownership. The central theme in this country's colonial history is the dispossession of indigenous African societies by white settlers, and current calls for land restitution are based on this loss. Yet popular knowledge of the actual process by which Africans were deprived of their land is remarkably sketchy. This book recounts an important part of this history, describing how the Khoisan and Xhosa people were dispossessed and subjugated from the time that Europeans first arrived until the end of the Cape Frontier Wars (1779-1878). The Land Wars traces the unfolding hostilities involving Dutch and British colonial authorities, trekboers and settlers, and the San, Khoikhoi, Xhosa, Mfengu and Thembu people - as well as conflicts within these groups. In the process it describes the loss of land by Africans to successive waves of white settlers as the colonial frontier inexorably advanced. The book does not shy away from controversial issues such as war atrocities committed by both sides, or the expedient decision of some of the indigenous peoples to fight alongside the colonisers rather than against them. The Land Wars is an epic story, featuring well-known figures such as Ngqika, Lord Charles Somerset and his son, Henry, Andries Stockenström, Hintsa, Harry Smith, Sandile, Maqoma, Bartle Frere and Sarhili, and events such as the arrival of the 1820 Settlers and the Xhosa cattle-killing. It is essential reading for anyone who wants to understand South Africa's past and present.

**African Queen** May 25 2020 Saartjie Baartman was twenty-one years old when she was taken from her native South Africa and shipped to London. Within weeks, the striking African beauty was the talk of the social season of 1810-hailed as "the Hottentot Venus" for her exquisite physique and suggestive semi-nude dance. As her fame spread to Paris, Saartjie became a lightning rod for late Georgian and Napoleonic attitudes toward sex and race, exploitation and colonialism, prurience and science. In African Queen, Rachel Holmes recounts the luminous, heartbreaking story of one woman's journey from slavery to stardom. Born into a herding tribe known as the Eastern Cape Khoisan, Saartjie was barely out of her teens when she was orphaned and widowed by colonial war and forced aboard a ship bound for England. A pair of clever, unscrupulous showmen dressed her up in a body stocking with a suggestive fringe and put her on the London stage as a "specimen" of African beauty and sexuality. The Hottentot Venus was an overnight sensation. But celebrity brought unexpected consequences. Abolitionists initiated a lawsuit to win Saartjie's freedom, a case that electrified the English public. In Paris, a team of scientists subjected her to a humiliating public inspection as they probed the mystery of her sexual allure. Stared at, stripped, pinched, painted, worshipped, and ridiculed, Saartjie came to symbolize the erotic obsession at the heart of colonialism. But beneath the costumes and the glare of publicity, this young Khoisan woman was a person who had been torn from her own culture and sacrificed to the whims of fashionable Europe. Nearly two centuries after her death, Saartjie made headlines once again when Nelson Mandela launched a campaign to have her remains returned to the land of her birth. In this brilliant, vividly written book, Rachel Holmes traces the full arc of Saartjie's extraordinary story—a story of race, eros, oppression, and fame that resonates powerfully today.

**Envisioning the Worst** Feb 14 2022 "Tracing all the pre-colonial representations of "Hottentots" and "Hottentotism" operative in early-modern England allows us to see the birth and the development of a prejudice that became central to the nation. In their constructions of "Hottentots" the English found a way to vent their own fear, anger, and conflict about themselves and their society, particularly as they were transforming and redefining their nation as imperial Great Britain. The very invention of the "Hottentots" shows that the English needed to envision a worst people in order to imagine themselves as the world's most advanced people."--BOOK JACKET.

Shunning the predictable, Max du Preez has put on his investigative journalist's cap and examined our past from a fresh perspective. The result is a collection of extraordinary and mostly unknown stories, all meticulously researched and written in an engaging and lively style. Instead of regurgitating the story of Jan van Riebeeck's arrival at the Cape, he tells the tales of a Portuguese viscount killed on a Cape beach in 1510, of the Khoikhoi chief who was kidnapped and taken to England in 1610, and of the saucy goings-on between slave women and their European settler lovers. There's the story of King Moshoeshe's remarkable conduct when cannibals ate his beloved grandfather, and Shaka's sexuality is explored via his relationship with his mother and the woman who loved him without ever touching him. Sidestepping the old clichés about the Anglo-Boer War, Du Preez recounts the story of an Afrikaner broedertwis - General Christiaan de Wet and his brother Piet, who joined the British forces and fought his own people. The reader is taken through every stage of our history, up to the story of apartheid South Africa's nuclear bombs, and the secret dealings and intrigue during the negotiations leading up to the 1994 elections. This is South African history as you've never seen it before: a colourful mosaic of our rich heritage.
