questions later in the book* mixed practice questions at the end of the book* audio download to practice listening* more topic-by-topic practice in the workbook* a complete exam-style paper* free Q&A flashcards to download online* an ebook version of the revision guide I've written this book to help all those students taking this module to feel confident with the very basics. Fully understanding these points can gain you some precious marks in the exam which could potentially be the difference to a grade. The topics in FP3 aren't any more abstract than FP2 in fact I personally find the topics in FP3 easier to grasp, although harder to fully master. There is another book written before this one which follows the same format covering the FP2 syllabus. So if you find this helpful you might want to check it out. How to use the book is completely up to you; you may use the book in line with a more in depth textbook using it to clarify any obscure points, you may choose to use the book for revision or even as a quick reference for when you get stuck on a practice paper. The book does not contain any specific exercises for you to practice as these can easily be found in other books or in past papers. Instead it shows you a clear and concise method to solve the example questions. The most up-to-date OCR Criminal Law textbook - from the number 1 A-Level Law author - that will prepare you for your exams. model answers Exam tips and coaching just like a tutor would offer Two complete practice exam papers Answers to all questions Specification references for every topic A perfect companion to our ClearRevise illustrated revision book. Make exam revision as easy as 1, 2, 3. Study the questions with model answers on the left pages Have a go at fresh questions from the same topic on the right Breeze through two complete practice papers ClearRevise is all about making your revision easy. At the end of the course, doing practice papers is useful - but an exam tutor can make a big difference. This book helps provide support from both angles and will really help you to ace the exam. The first section is your exam tutor. It shows you example questions with model answers. Just like a tutor, it gives you exam tips and lets you know what the examiner is looking for. Secondly, you are then given similar questions from the same topic for you to have a go at, applying your knowledge and tips. With over 400 marks in this section and all the answers provided you'll easily revise the topics as you go. Lastly, there are two complete exam papers written in the same style as the live OCR papers to try. They're exactly the same length and marks as the real exam, providing a realistic experience and a great opportunity to show how much you've progressed.
