Don't Be Stupid About Money Oct 11 2020 Money can make you happy. Or not. It all depends on you. Most money decisions are bad. They're made without critical thinking. Stupid is normal these days when it comes to money. People just keep paying without thinking until the stress wears them out. Wouldn't it be better to Think For Yourself? Stop doing what everyone else does and start making better money decisions. Your money can make you happy if you know how to use it. This is not the same advice you get everywhere else. This is for when you realize all that commonly repeated BS is not what's best for you. It's your money. You don't have to do what everyone else does. Why not Think For Yourself and choose your own course? This book will give you a real world understanding of money. Some people call it "street smart." Whatever you call it, you will make better decisions because reality makes a better foundation. For example; When did qualifying for a mortgage become the guide for buying a house? That's just stupid... read our book and you'll understand the reality. How about budgeting? Expense tracking sounds smart and the apps are easy to write, so you get plenty of advice to do it. But wouldn't you rather budget simply and effectively? That's how you make your life better instead of wasting time. And investing? You don't really think anyone playing at home beats Wall Street, do you? Wall Street is more profitable than ever, for themselves and not for you. If you're playing their game then you are just paying their salaries. Think for Yourself and invest where you get the best real returns. Our books use critical thinking to make life better. And when you think critically about money, you get different answers from the rest of the herd. We Simplify and we keep it fun. Money is just another tool we use to live. Once you understand it, money is just another hammer in the toolbox. Why not spend a couple of hours with us and be wealthier for the rest of your life? You already know that's a good investment. Read now and be smarter with your money forever. HGJ

Dollars and Sense: a Fable of Personal Finance Mar 16 2021 Want to learn about the basics of personal finance in an easy-to-understand manner? In this fable, during some normal days, this family explores many of the financial topics all families, especially children, should understand. It's written in plain, layman's terms with a little bit of humor. There doesn't seem to be anywhere in American society where the basics of personal finance are taught and emphasized over a large part of a person's life, yet we all deal with some part of personal finance every day. Knowledge and experience in this area seem to come through trial and error and perhaps through some self-study and self-exploration. But there isn't a place you get it on a consistent or persistent basis. This book was written using the author's family as protagonists in this "day-in-the-life" fable to first and foremost help teach his kids some basics about personal finance. He has taken personal responsibility to teach his children these insights – for as long as they'll let him. If you find value in this book, please model it then share it with your family, friends and associates.
