**House to House** Jun 03 2020 On 8 November 2004, the largest battle of the War on Terror began, with the US Army's assault on Fallujah and its network of tens of thousands of insurgents hiding in fortified bunkers, on rooftops, and inside booby-trapped houses. For Sgt. David Bellavia of 3rd Platoon, Alpha

Company, it quickly turned into a battle on foot, from street to street and house to house. On the second day, he and his men laid siege to a mosque, only to be driven to a rooftop and surrounded, before heavy artillery could smash through to rescue them. By the third day, Bellavia charges an insurgent-filled house and finds himself trapped with six enemy fighters. One by one, he shoots, wrestles, stabs, and kills five of them, until his men arrive to take care of the final target. It is one of the most hair-raising battle stories of any age -- yet it does not spell the end of Bellavia's service. It would take

serveral more weeks before the Battle of Fallujah finally came to a close, with Bellavia, miraculously, alive. In the words of the author: "HOUSE TO HOUSE holds nothing back. It is a raw, gritty look at killing and combat and how men react to it. It is gut-wrenching, shocking and brutal. It is honest. It is not a glorification of war. Yet it will not shy from acknowledging this: sometimes it takes something as terrible as war for the full beauty of the human spirit to emerge."

One Day I Will Write About This Place Jan 29 2020 \*A New York Times Notable Book\* \*A New York Times Book Review Editors' Choice\* \*A Publishers Weekly Top Ten Book of the Year\* Binyavanga Wainaina tumbled through his middle-class Kenyan childhood out of kilter with the world around him. This world came to him as a chaos of loud and colorful sounds: the hair dryers at his mother's beauty parlor, black mamba bicycle bells, mechanics in Nairobi, the music of Michael Jackson—all punctuated by the

infectious laughter of his brother and sister, Jimmy and Ciru. He could fall in with their patterns, but it would take him a while to carve out his own. In this vivid and compelling debut memoir, Wainaina takes us through his school days, his mother's religious period, his failed attempt to study in South Africa as a computer programmer, a moving family reunion in Uganda, and his travels around Kenya. The landscape in front of him always claims his main attention, but he also evokes the shifting political scene that unsettles his views on family, tribe, and nationhood. Throughout, reading is his refuge and his solace. And when, in 2002, a writing prize comes through, the door is opened for him to pursue the career that perhaps had been beckoning all along. A series of fascinating international reporting assignments follow. Finally he circles back to a Kenya in the throes of postelection violence and finds he is not the only one questioning the old certainties. Resolutely avoiding stereotype and cliché,

Wainaina paints every scene in *One Day I Will Write About This Place* with a highly distinctive and hugely memorable brush.

**One Million Steps** Nov 08 2020 Battalion 3/5 suffered the highest number of casualties in the war in Afghanistan. This is the story of one platoon in that distinguished battalion. Aware of U.S. plans to withdraw from the country, knowing their efforts were only a footprint in the sand, the fifty Marines of 3rd Platoon fought in Sangin, the most dangerous district in all of Afghanistan. So heavy were the casualties that the Secretary of Defense offered to pull the Marines out. Instead, they pushed forward. Each Marine in 3rd Platoon patrolled two and a half miles a day for six months—a total of one million steps—in search of a ghostlike enemy that struck without warning. Why did the Marines attack and attack, day after day? Every day brought a new skirmish. Each footfall might trigger an IED. Half the Marines in 3rd Platoon didn't make

it intact to the end of the tour. *One Million Steps* is the story of the fifty brave men who faced these grim odds and refused to back down. Based on Bing West's embeds with 3rd Platoon, as well as on their handwritten log, this is a gripping grunt's-eye view of life on the front lines of America's longest war. Writing with a combat veteran's compassion for the fallen, West also offers a damning critique of the higher-ups who expected our warriors to act as nation-builders—and whose failed strategy put American lives at unnecessary risk. Each time a leader was struck down, another rose up to take his place. How does one man instill courage in another? What welded these men together as firmly as steel plates? This remarkable book is the story of warriors caught between a maddening, unrealistic strategy and their unswerving commitment to the fight. Fearsome, inspiring, and poignant in its telling, *One Million Steps* is sure to become a classic, a unique and enduring testament to the American warrior

spirit. Praise for One Million Steps “West shows the reality of modern warfare in a way that is utterly gripping.”—Max Boot, author of Invisible Armies “A gripping, boot-level account of Marines in Afghanistan during the bloody struggle with Taliban fighters.”—Los Angeles Times “One Million Steps transcends combat narrative: It is an epic of contemporary small-unit combat.”—Eliot A. Cohen, author of Supreme Command “A blistering assault on America’s senior military leadership.”—The Wall Street Journal “A heart-pounding portrayal . . . a compelling account of what these men endured.”—The Washington Post “Stunning, sobering, and brilliantly written.”—Newt Gingrich “One of the most intrepid military journalists, Bing West, delivers a heart-wrenching account of one platoon’s fight.”—Bill Bennett, host of Morning in America “Bing West has reconfirmed his standing as one of the most intrepid and insightful observers of America’s wars. . . . One Million Steps reveals the essence

of small-unit combat, the very soul of war.”—The Weekly Standard “A searing read, but it is one that all Americans should undertake. We send our sons into battle, and few know what our warriors experience.”—The Washington Times

*Indestructible* Apr 01 2020 In this remarkable WWII story by New York Times bestselling author John R. Bruning, a renegade American pilot fights against all odds to rescue his family--imprisoned by the Japanese--and revolutionizes modern warfare along the way. From the knife fights and smuggling runs of his youth to his fiery days as a pioneering naval aviator, Paul

Irving "Pappy" Gunn played by his own set of rules and always survived on his wits and fists. But when he fell for a conservative Southern belle, her love transformed him from a wild and reckless airman to a cunning entrepreneur whose homespun engineering brilliance helped launch one of the first airlines in Asia. Pappy was drafted into MacArthur's air force when war came to the Philippines; and while he carried out a top-secret mission to Australia, the Japanese seized his family. Separated from his beloved wife, Polly, and their four children, Pappy reverted to his lawless ways. He carried out rescue missions with an almost suicidal desperation. Even after he was shot down twice and forced to withdraw to Australia, he waged a one-man war against his many enemies--including the American high command and the Japanese--and fought to return to the Philippines to find his family. Without adequate planes, supplies, or tactics, the U.S. Army Air Force suffered crushing defeats by the Japanese in the

Pacific. Over the course of his three-year quest to find his family, Pappy became the renegade who changed all that. With a brace of pistols and small band of loyal followers, he robbed supply dumps, stole aircraft, invented new weapons, and modified bombers to hit harder, fly farther, and deliver more destruction than anything yet seen in the air. When Pappy's modified planes were finally unleashed during the Battle of the Bismarck Sea, the United States scored one of the most decisive victories of World War II. Taking readers from the blistering skies of the Pacific to the jungles of New Guinea and the Philippines to one of the the war's most notorious prison camps, Indestructible traces one man's bare-knuckle journey to free the people he loved and the aerial revolution he sparked that continues to resonate across America's modern battlefields.

**Fibreglass Boats** Mar 13 2021 This masterly work will continue to be an invaluable source of reference for anyone wanting practical advice on working with GRP, in order to make repairs and improvements correctly and thus extend the life of their boat. Since it was first published 45 years ago, Hugo du Plessis' Fibreglass Boats has become a classic, relied upon by owners, surveyors and boat builders keen to understand how fibreglass behaves, and obtain practical advice on working with GRP. In a deliberately non-technical manner, he explains the peculiar nature of fibreglass, its durability, its weaknesses, where its likely to fail, the effects of

use and the weather, plus the latest research into causes of the biggest worry for owners - blistering and osmosis. 'One of the most respected works on the subject... thorough and its scope is vast' *Yachting Monthly* 'A long-established classic' Kelvin Hughes *Blistering Diseases* Nov 01 2022 This book is a comprehensive compendium of current knowledge on inherited and autoimmune blistering diseases that relates advances in our understanding of the pathogenetic mechanisms to management of the individual diseases. The aim is to provide a detailed reference for dermatologists who care for patients with these conditions and a useful "one-stop information shop" for specialists outside of dermatology. The book opens by describing the structure and biology of the epidermis and basement membrane zone and discussing the genes and proteins that are targets for mutations and autoantibodies. The role of the various diagnostic tests is explained, and clinical

manifestations of the specific diseases are presented with the aid of many high-quality illustrations. The forms of treatment appropriate in specific conditions are then described in depth, with coverage of dressings, drugs, surgical procedures, gene therapy, and other novel approaches. Helpful algorithms are included both for testing and monitoring and for treatment.

**The Blister Club** Nov 20 2021 During World War II, some 10,000 American bombers and fighters were shot down over Europe. Of the crews aboard, 26,000 men were killed, while 30,000 survived being shot down only to be captured and made prisoners of war. Against the longest of odds, nearly 3,000 airmen made it to the ground alive, evaded capture, and escaped to safety. These men proudly called themselves the Blister Club. Drawing on tens of thousands of pages of mostly untapped documents in the National Archives, Michael Lee Lanning tells the story of these courageous airmen. They had

received escape-and-evasion (E & E) training, and some were lucky enough to land with their E-&E kits—but all bets were off once they hit the ground. They landed after an air catastrophe. The geography was usually unfamiliar. Civilians might or might not be trustworthy. German soldiers and Gestapo agents hunted down airmen as well as civilians who dared help them. If an airman abandoned his uniform for civilian garb, he forfeited Geneva Convention protections. Most faced the daunting task of escaping on foot across hundreds of miles. The fortunate connected with one of the established escape routes to Spain or Switzerland or across the English Channel, or they hooked up with the underground resistance or friendly civilians. Upon return to friendly lines, these men were often able to provide valuable intelligence about enemy troop dispositions and civilian morale. Many volunteered to fly again even though regulations prohibited it. The Blister Club is history with a

punch. With a historian's eye, Lanning covers the hows and whys of escape-and-evasion and aerial combat in the European theater, but the book also vividly captures the stories of the airmen who did the escaping and evading, including that of a young pilot named Chuck Yeager, who, during his own escape, aided the French Resistance and helped another downed airman to safety—and then begged to fly again, eventually securing Eisenhower's approval to return to the air, where he achieved ace status. Stories of escape are popular, especially those set during World War II, as are stories of the war in the air. Combining both of these, *The Blister Club* should find an enthusiastic audience.

Written in "he said/she said" alternating chapters, this young couple each tell their own story They're not sure which came first -- falling

in love with each other or falling in love with the idea of hiking the Pacific Crest Trail (the length of California, Oregon, and Washington). At the trailhead, the young couple was warned that there would be tears, that each would have to find their own separate pace, and that at times the tent would seem awfully small for the two of them. They were told that their biggest obstacles to success would be . . . each other. Their first surprise: freeze-dried meals do funny things to your GI- tract. Their first fight: when Angela noticed that Duffy's long legs propel him along the trail faster than she can muster. But on they pressed -- encountering snakes, bears, and fellow thru-hikers with trail names like Crazy Legs and Catch 23. They baked in the deserts of Southern California, gazed awestruck at the snowy, serrated peaks of the High Sierra, and attempted to hide from Northern Washington's seemingly incessant rain. One hundred thirty two days of Pacific Crest Trail later, they made it -- blisters and all.
