For Cruz Livingston, becoming an FBI agent is a lifelong dream, guarding the streets of San Antonio, a calling. His latest assignment—infiltrating the Red Brothers Motorcycle Club—will

help stem the flow of illegal drugs brought into the city by the violent gang. He expects the job to be dangerous. He doesn't expect to meet the woman of his dreams while undercover. Mickie Kaiser is refreshingly sweet, but her sister is intimately involved with the RBMC's president. Cruz can't afford to come clean about his double life without putting his operation in danger, but as violence creeps ever closer to Mickie, his priority becomes crystal clear. Called in on special cases where his skills are particularly needed, he works as a tracker. The media dubs him 'The Human Bloodhound,' since Steps is renowned for his incredible ability to find and follow trails over any surface better than anyone else. But there's a secret to his success. Steps has a special ability--a kind of synesthesia--where he can see the 'essence' of a person, something he calls 'shine,' on everything they've touched ... When the remains of a murdered woman are found, Steps recognizes the shine left by the murderer from another crime scene with a physically similar victim. And he uncovers the signature at both scenes---the mark of a sad face" When he is hired to commit a high-profile mob assassination, veteran undercover FBI agent Jake Kruse is plunged into an underworld of espionage and terrorism involving a plot to crash a commercial airliner over the United States. Shares the true stories of FBI special agents who have worked together to solve some of the world's toughest crimes, including those of the poisoned letters mailed to the Supreme Court, a terrorist bombing plot and a Florida kidnapping. Original. Ten true stories give accounts of American heroes risking their lives while serving their country in the Vietnam War during the 1960s and 1970s in a hostile environment halfway across the world. In Public Enemies, bestselling author Bryan Burrough strips away the thick layer of myths put out by J. Edgar Hoover's FBI to tell the full story—for

the first time—of the most spectacular crime wave in American history, the two-year battle between the young Hoover and the assortment of criminals who became national icons: John Dillinger, Machine Gun Kelly, Bonnie and Clyde, Baby Face Nelson, Pretty Boy Floyd, and the Barkers. In an epic feat of storytelling and drawing on a remarkable amount of newly available material on all the major figures involved, Burrough reveals a web of interconnections within the vast American underworld and demonstrates how Hoover's G-men overcame their early fumbles to secure the FBI's rise to power. Her career divided their marriage... but not their attraction The Federal Bureau of Investigation was an agency devoted to American ideals, professionalism, and scientific methods, directed by a sage and selfless leader--and anyone who said otherwise was a no-good subversive, bent on discrediting the American way of life. That was the official story, and how J. Edgar Hoover made it stick--running roughshod over those same American ideals--is the story this book tells in full for the first time. From Hoover's first tentative media contacts in the 1930s to the Bureau's eponymous television series in the 1960s and 1970s, FBI officials labored mightily to control the Bureau's image--efforts that put them not-so-squarely at the forefront of the emerging field of public relations. In the face of any journalistic challenges to the FBI's legitimacy and operations, Hoover was able to create a benign, even heroic counter narrative, thanks in part to his friends in newsrooms. Matthew Cecil's own prodigious investigation through hundreds of thousands of pages from FBI files reveals the lengths to which Hoover and his lackeys went to use the press to hoodwink the American people. Even more sobering is how much help he got from so many in the press. Conservative journalists like broadcaster Fulton Lewis, Jr. and columnist George Sokolsky positioned themselves as "objective" defenders of Hoover's FBI and were rewarded with access, friendship, and other favors. Some of Hoover's friends even became adjunct-FBI agents,

designated as Special Service Contacts who discreetly gathered information for the Bureau. "Enemies," on the other hand, were closely monitored and subjected to operations that disrupted their work or even undermined and ended their careers. Noted journalists like I. F. Stone, George Seldes, James A. Wechsler, and many others found themselves the subjects of FBI investigations and, occasionally, named on the Bureau's "custodial detention index," targeted for arrest in the case of a national emergency. With experience as a political reporter, a press secretary, and a scholar and professor of journalism and public relations, Matthew Cecil is uniquely qualified to conduct us through the maze of political intrigue and influence peddling that mark--and often mask--the history of the FBI. His work serves as a cautionary tale about how manipulative government agents and compliant journalists can undermine the very institutions and ideals they are tasked with protecting. An FBI agent puts everything on the line... To keep a deadly threat at bay When FBI agent Miguel Peters and his father land squarely in the crosshairs of a bomber terrorizing Seattle, the last thing Miguel wants is to also entangle a lovely stranger in a terrorist's web. Yet while Maisy Oliver might look innocent, her father's one of the most notorious men in Washington State. Miguel knows Maisy will do anything to help him and his team catch a killer. But does that include confronting a past she's worked far too long to forget?From Harlequin Intrigue: Seek thrills. Solve crimes. Justice served. Ten African Americans recount stories about their participation in the American civil rights movement. The Wall Street Journal called him "a living legend." The London Times dubbed him "the most famous art detective in the world." In Priceless, Robert K. Wittman, the founder of the FBI's Art Crime Team, pulls back the curtain on his remarkable career for the first time, offering a real-life international thriller to rival The Thomas Crown Affair. Rising from humble roots as

the son of an antique dealer, Wittman built a twenty-year career that was nothing short of extraordinary. He went undercover, usually unarmed, to catch art thieves, scammers, and black market traders in Paris and Philadelphia, Rio and Santa Fe, Miami and Madrid. In this page-turning memoir, Wittman fascinates with the stories behind his recoveries of priceless art and antiquities: The golden armor of an ancient Peruvian warrior king. The Rodin sculpture that inspired the Impressionist movement. The headdress Geronimo wore at his final Pow-Wow. The rare Civil War battle flag carried into battle by one of the nation's first African-American regiments. The breadth of Wittman's exploits is unmatched: He traveled the world to rescue paintings by Rockwell and Rembrandt, Pissarro, Monet and Picasso, often working undercover overseas at the whim of foreign governments. Closer to home, he recovered an original copy of the Bill of Rights and cracked the scam that rocked the PBS series Antiques Roadshow. By the FBI's accounting, Wittman saved hundreds of millions of dollars worth of art and antiquities. He says the statistic isn't important. After all, who's to say what is worth more --a Rembrandt self-portrait or an American flag carried into battle? They're both priceless. The art thieves and scammers Wittman caught run the gamut from rich to poor, smart to foolish, organized criminals to desperate loners. The smuggler who brought him a looted 6th-century treasure turned out to be a high-ranking diplomat. The appraiser who stole countless heirlooms from war heroes' descendants was a slick, aristocratic con man. The museum janitor who made off with locks of George Washington's hair just wanted to make a few extra bucks, figuring no one would miss what he'd filched. In his final case, Wittman called on every bit of knowledge and experience in his arsenal to take on his greatest challenge: working undercover to track the vicious criminals behind what might be the most audacious art theft of all. Vicki Calvetti made it out of the mob—or so she hoped. But when the old family hitman, the FBI, the Justice

Department, and a smoking hot man from her past crash land on her doorstep, she learns she's not quite done. An undercover cop chasing revenge, Blake Reilly gets the shock of his life when Vicki walks back into his life and into his club full of more drug dealers than a pharmaceutical convention. Catching up doesn't take long, and their undeniable chemistry is full-speed-ahead until someone ends up dead, putting both their lives at risk unless Vicki can remember the secrets she paid to forget. The "intensively reported and fluidly written" true-crime account of the heroic security guard accused of the 1996 Centennial Olympic Park bombing (Wall Street Journal). On July 27, 1996, security guard Richard Jewell spotted a suspicious bag in Atlanta's Centennial Olympic Park, the town square of the 1996 Summer Games. Inside was a bomb, the largest of its kind in FBI and ATF history. The bomb detonated amid a crowd of fifty thousand people. But thanks to Jewell, it only wounded 111 and killed two, not the untold scores who would have otherwise died. Yet seventy-two hours later, the FBI turned Jewell from a national hero into their main suspect. The decision not only changed Jewell's life, it let the true bomber roam free to strike again. Today, most of what we remember of this tragedy is wrong. In a triumph of investigative journalism, former U.S. Attorney Kent Alexander and reporter Kevin Salwen reconstruct events before, during, and after the bombing. Drawn from law enforcement evidence and the extensive personal records of key players—including Richard himself—The Suspect, is a gripping story of domestic terrorism and an innocent man's fight to clear his name. Investigative journalist Ford Dixon is bent on finding the man who got his sister pregnant and left her high and dry. He's willing to partner with Victoria, despite the fact that the beautiful brunette gets under his skin like no other woman. He might not be looking to settle down, but there's no denying the scorching attraction between them. Still, the more time he spends with Victoria, the more he realizes that the one woman as skeptical about love as he is might be the only woman he could really fall for... In Detroit, FBI agents took point investigating the kidnapping (and safe return) of a GM executive's son and in a manhunt for an armed killer in the north woods near Escanaba. The Bureau was called in to discover who poisoned patients at the Ann Arbor Veterans Hospital and for a grisly double homicide solved by a persistent and determined fingerprint examiner. Michigan agents spearheaded the first-ever investigation and prosecution of an Internet threat, and legendary football coach Bo Schembechler inspired an epic international undercover operation targeting the illegal distribution of steroids. Retired Special Agent Greg Stejskal recalls these stories and others from more than thirty years as a G-man in Michigan. For decades, movies and television shows have portrayed FBI agents as fearless heroes leading glamorous lives, but this refreshingly original memoir strips away the fantasy and glamour and describes the day-to-day job of an FBI special agent. The book

gives a firsthand account of a career in the Federal Bureau of Investigation from the academy to retirement, with exciting and engaging anecdotes about SWAT teams, counterterrorism activities, and undercover assignments. At the same time, it challenges the stereotype of FBI agents as arrogant, case-stealing, suit-wearing stiffs with representations of real people who carry badges and guns. With honest, self-deprecating humor, Steve Moore's narrative details his successes and his mistakes, the trauma the job inflicted on his marriage, his triumph over the aggressive cancer that took him out of the field for a year, and his return to the Bureau with renewed vigor and dedication to take on some of the most thrilling assignments of his career. Steve Moore is a former agent of the Federal Bureau of Investigation who had assignments as a SWAT team operator, sniper, pilot, counterterrorist, and undercover agent. He received multiple awards from the Department of Justice before his retirement in 2008, has written two episodes for an FBI-themed TV series, and is a regular commentator for *Headline News*. He lives in Thousand Oaks, California. Now a major film from Academy Award-winning director Clint Eastwood—starring Sam Rockwell, Kathy Bates, Jon Hamm, Olivia Wilde, and Paul Walter Hauser!

This collection of captivating profiles from *Vanity Fair* writer Marie Brenner spans her award-winning career and features larger-than-life figures such as Donald Trump, Roy Cohn, Malala Yousafzai, and Richard Jewell—the security guard whose dramatic heroism at the bombing of the 1996 Olympics made him the FBI's prime suspect. Previously published as *A Private War*, Marie Brenner's *Richard Jewell* tells a gripping true story of heroism and injustice. In the early morning hours of July 27, 1996, three pipe bombs exploded at the Summer Olympics in Atlanta, Georgia, killing one person and injuring 111 others. Hundreds more potential casualties were prevented by the vigilance and quick actions of security guard Richard Jewell, who uncovered the bombs and began evacuating the area. But no good deed goes

unpunished. Desperate for a lead, investigators and journalists pursued Jewell as a potential suspect in the case, painting him as an obvious match for the infamous “lone bomber” profile. Accused of being a terrorist and a failed law enforcement officer who craved public recognition for his false heroics, he saw his reputation smeared across headlines and broadcasts nationwide. After a months-long investigation found no evidence against him, the US Attorney finally cleared Jewell’s name. Yet Jewell would not be fully exonerated in the eyes of the public until the actual bomber confessed in 2005, just two years before Jewell’s premature death at the age of forty-four. In *Richard Jewell*, veteran journalist Marie Brenner brilliantly chronicles Jewell’s ordeal to share the story of an ordinary man whose life was shattered by a false narrative. This collection also includes Brenner’s classic encounters with Donald Trump, Roy Cohn, Malala Yousafzai, Marie Colvin, and others. “I couldn’t put it down!” –Lisa Jackson, New York Times bestselling author *Fans of Laura Griffin* and Jayne Ann Krentz won’t want to miss this brand new thriller series by New York Times bestselling author Rebecca Zanetti, as FBI Special Agent Laurel Snow, a rising star profiler, strives to stay one step ahead of the criminal mind—and discovers that her own demons may be the hardest to outrun... “Be prepared to stay up all night...Rebecca Zanetti takes you on a thrill-ride, pitting characters you love against impossible odds.” –Christine Feehan, New York Times bestselling author *Laurel Snow* wouldn’t call hunting a serial killer a vacation, but with a pile of dead bodies unearthed near her Genesis Valley, WA, hometown, she’ll take what she can get. In the 1920s, the richest people per capita in the world were members of the Osage Nation in Oklahoma. After oil was discovered beneath their land, the Osage rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. One of her relatives was shot. Another was poisoned. And it was just the beginning, as more and more Osage were dying under mysterious circumstances, and many of those who dared to investigate the killings were themselves murdered. As the death toll rose, the newly created FBI took up the case, and the young director, J. Edgar Hoover, turned to a former Texas Ranger named Tom White to try to unravel the mystery. White put together an undercover team, including a Native American agent who infiltrated the region, and together with the Osage began to expose one of the most chilling conspiracies in American history. Look for David Grann's latest #1 New York Times bestselling book, *The Wager*! During the Great Depression, writers of True Crime could take the decade off: life was imitating art so dramatically they had nothing to add. In these pages historian

Robert Underhill presents the most notorious criminals of 1930-1934: Wilbur Underhill, Alvin Karpis, the Barker Clan, Pretty Boy Floyd, Baby Face Nelson, the Barrows (Buck, Blanche, Clyde, and Bonnie), and John Dillinger along with supporting material on their henchmen and the rise of the FBI. Often armed better than the police, criminals of the 1930s committed deeds ranging from stealing chickens to kidnappings, bank robberies, and killing innocent victims. Yet such crimes were often taken in stride by avid readers. Cooperation among local, state and federal lawmen was rare as each sought to protect his own turf. Criminals and lawmen made mistakes battling one another, but in most cases the law triumphed and the wanted fugitive died under a hail of bullets. His death would start myths and raise his reputation to national status. The author of 'Against the Grain: Six Men Who Shaped America' and 'The Rise and Fall of Franklin D. Roosevelt' shows us another aspect of the Roosevelt era and portrays a series of figures who contributed to pop culture as well helping to shape the security forces in America. Robbing the banks and driving fast cars, they did what many Americans dreamed of, and gave a depressed populace some excitement to distract from everyday worries. With the Great Depression, some citizens came to regard bank robbers as modern Robin Hoods seeking to avenge depositors whose life earnings had been wiped out by a bank's failure or malfeasance by its owners. No small wonder that criminals were given colorful sobriquets and fact and fiction became intertwined. Underhill shows how such heists, and kidnappings especially, helped create the modern FBI, overcoming the complaints of those who alleged that a federal force was the first step toward an American Gestapo. The belief that federal government had nothing to do with fighting crime was rooted in the U.S. Constitution and its provisions for states' rights. Local police were expected to provide security and to apprehend criminals without Washington getting involved. In the big cities, Prohibition era mobsters still ruled, but in the Midwest

especially, smaller bands, "gangsters," began to make headlines. They tended to be blue-collar criminals whose favorite targets were filling stations, grocery stores, and small town banks. Prior to 1930, corruption was rife and cooperation among local, state, and federal police was little to none; criminals often got away. Only in 1935 was the FBI formally anointed and its agents were permitted to carry guns. Now, there was a federal agency that could supply sheriffs all over the country with information on suspected criminals. By 1935, the hardest times of the Depression were beginning to ease and the thrill of watching these cops-and-robber stories play out was combined with a renewed interest in the lives of the rich and famous, previously scorned for their role in ripping off the average man. All in all, the early 1930s were a uniquely dramatic time for crime and crimestoppers in America. Only 200 people have ever been in Christopher Whitcomb's elite branch of the F.B.I. The Hostage Rescue Team is its most highly trained and specialized squadron -- equivalent to the Navy's Seals and the Army's Delta Force -- charged with terrorist capture, hostage situations, and other large-scale emergencies in the U.S. and around the world. Whitcomb is the first HRT member ever to write about his experience. With breathtaking immediacy, Whitcomb describes the brutal training, the weapons and tactics, and the unbreakable camaraderie of the HRT. In short order, after joining HRT in 1991, Whitcomb was sent on missions to Ruby Ridge and Waco, and his frank assessment of those missions is must reading for anyone interested in modern law enforcement. Only rarely does a writer this accomplished have a life this dramatic. Cold Zero is a book of rare action and emotion, and one that introduces a remarkable new writer to the world. Under the expert leadership of Danny O. Coulson, these highly trained agents of the FBI's Hostage Rescue Team execute perilous missions in crises too volatile for SWAT teams, and in explosive situations where there are.... No Heroes Danny O. Coulson is the founder of the Federal Bureau of Investigation's Hostage Rescue Team, or HRT. In an FBI career that spans three decades, he led the arrest of Oklahoma City bomber Timothy McVeigh, convinced McVeigh's friend Michael Fortier to become the government's star witness, and has helped bring hundreds of murderous extremists and killers to justice -- from the Black Liberation Army police assassins to the treacherous white supremacist terrorists of the Order, and the Covenant, Sword and Arm of the Lord. In No Heroes, Coulson opens a long-locked door into the secretive world of the HRT, the civilian equivalent of the U.S. military's elite Delta Force. Coulson's stories spring to life with nerve-jangling electricity as he discloses the tactics and teamwork of HRT snipers, operators, negotiators, and experts in assaults, electronics and explosives. Coulson takes the reader inside famous cases and provides riveting first person accounts of such

high-profile investigations as the Atlanta prison riots -- and tense showdowns including the disastrous sieges at Ruby Ridge and Waco. He sheds new light on the deadliest terrorist attack in American history -- the Oklahoma City bombing that took 168 lives -- with never-before-revealed details of the FBI's massive efforts to locate the conspirators before they struck again. Finally, Coulson exposes the frightening rise of domestic terrorism and its implications for the 21st Century. For him and the men and women who have followed him, the path to justice is never too steep, too dark or too narrow. Though equipped with high tech weapons and physically fit bodies, these agents consider their razor sharp minds to be their best weapons. They use deadly force only in defense of life. Because, when people die, there are No Heroes. The history books are filled with the names of World War II heroes. Among these heroes are Teddy Sheerin and Steve Ryler, who first meet in Iwo Jima, as both face the possibility of death. Their paths cross again later after the war at Matties Tap, where Teddy works as a bartender and Steve feeds his alcoholism. Over the bar, the two seal their friendship and compare war stories. They both decide to become Boston policemen and join the motorcycle force. From here, their lives diverge Steve follows the path of drink, while Teddy thrives on crime and corruption. Teddy has it all from lust to love, ethical to corrupt, plus an illegal income of \$45,000 a day. A veteran who chooses a different lifestyle than that of his returning fellow veterans, he believes in the adage: Might makes all things right.
