Public Opinion in the United States May 07 2023 Public Opinion in the United States tracks developments in American society since World War II through the lens of public opinion. The authors assess national public opinion poll data from 1945 to 2008, targeting opinions about African Americans, Jews, Muslim Americans, gays and lesbians, immigration, abortion, and affirmative action. The authors consider whether American attitudes have developed faster than Supreme Court decisions in the areas surveyed. They assess how social change is processed by the public, how people responded to the race riots of the 1950s and 1960s, and how the war in Vietnam shaped new perspectives on issues such as race, citizenship rights, and the role of the individual. Each chapter begins by introducing the political, social, or international events that were critical in setting the stage for influencing public opinion in each decade since World War II. The volume provides a unique portrait of American society and how it has changed over the last sixty plus years. The reader will learn whether Americans are more or less prejudiced against blacks, Jews, and Muslims than they were in earlier years; whether their views on

immigration, affirmative action, and abortion have changed; and when views have changed, in what direction. Do men and women, rich and poor, more and less educated, secular versus religious share the same views? And if there are differences, what directions do those differences take? Th is work describes American society in 2008 compared to the post-World War II era, and it offers stunning glimpses at the future.

The Observations Apr 06 2023 'Vastly original. Bessy is surely one of the most striking characters in recent fiction: cynical, disruptive, tender and very, very funny.' Independent on SundayShortlisted for the Orange PrizeScotland, 1863. In an attempt to escape her past, Bessy Buckley takes a job working as a maid in a big country house. But when Arabella, her beautiful mistress, asks her to undertake a series of bizarre tasks, Bessy begins to realise that she hasn't quite landed on her feet. In one of the most acclaimed debuts of recent years, Jane Harris has created a heroine who will make you laugh and cry as she narrates this unforgettable story about secrets and suspicions and the redemptive power of love and friendship.

"Deserves a place alongside George Orwell's 'Politics and the English Language'. . . . one of the most important political books of this perilous summer."—The Washington Post "A must-read"—Salon "Highly recommended"—Jack Shafer, Politico Featured in "The Best New Books to Read This Summer" and "Lit Hub's Most Anticipated Books of 2020"—Literary Hub Historic levels of polarization, a disaffected and frustrated electorate, and widespread distrust of government, the news media, and traditional political leadership set the stage in 2016 for an unexpected, unlikely, and unprecedented presidential contest. Donald Trump's campaign speeches and other rhetoric seemed on the surface to be simplistic, repetitive, and disorganized to many. As Demagogue for President shows, Trump's campaign strategy was anything but simple. Political communication expert Jennifer Mercieca shows how the Trump campaign expertly used the common rhetorical techniques of a demagogue, a word with two contradictory definitions—"a leader who makes use of popular prejudices and false claims and promises in order to gain power" or "a leader championing the cause of the common people in ancient times" (Merriam-Webster, 2019). These strategies, in conjunction with post-rhetorical public relations techniques, were meant to appeal to a segment of an already distrustful electorate. It was an effective tactic. Mercieca analyzes rhetorical strategies such as argument ad hominem, argument ad baculum, argument ad populum, reification, paralipsis, and more to reveal a campaign that was morally repugnant to some but to others a brilliant appeal to American exceptionalism. By all accounts, it fundamentally changed the discourse of the

American public sphere.

[Globalization and Austerity Politics in Latin America](#) Feb 04 2023 In an age of financial globalization, are markets and democracy compatible? For developing countries, the dramatic internationalization of financial markets over the last two decades deepens tensions between politics and markets.

Notwithstanding the rise of left-leaning governments in regions like Latin America, macroeconomic policies often have a neoliberal appearance. When is austerity imposed externally and when is it a domestic political choice? By combining statistical tests with extensive field research across Latin America, this book examines the effect of financial globalization on economic policymaking. Kaplan argues that a country's structural composition of international borrowing and its individual technocratic understanding of past economic crises combine to produce dramatically different outcomes in national policy choices. Incorporating these factors into an electoral politics framework, the book then challenges the conventional wisdom that political business cycles are prevalent in newly democratizing regions. This book is accessible to a broad audience and scholars with an interest in the political economy of finance, development and democracy, and Latin American politics.

[Introduction to Comparative Politics: Political Challenges and Changing Agendas](#) May 27 2022 Updated to reflect today's political climate, the seventh edition of INTRODUCTION TO COMPARATIVE POLITICS offers a country-by-country approach that allows students to fully examine similarities and differences among countries and within and between political systems. Each chapter offers an analysis of political challenges and changing agendas within countries and provides detailed descriptions and analyses of the politics of individual countries. The text offers a condensed narrative and student-friendly pedagogy, such as marginal key terms and questions that will help them make meaningful connections and comparisons about the countries presented. This edition consists of 13 country case studies, as well as a case study on the European Union, providing an interesting sample of political regimes, levels of economic

development, and geographic regions.

Governance Reform Dec 02 2022 Developing-country governance and its monitoring have risen to the top of the development agenda. This mounting interest is in response to compelling evidence that links governance to development performance-policy quality, public service provision, the investment climate, and the extent of corruption. 'Governance Reform: Bridging, Monitoring, and Action' lays out a broad framework for analyzing and monitoring governance in developing countries. It identifies fourteen core indicators for governance monitoring both broad measures of overall patterns and specific 'actionable' measures that can be used to guide reforms and track progress. The book also summarizes good practices for reforming public bureaucracies and checks and balances institutions (including parliaments, the justice system, media and information, and local governance); highlights improvements in transparency as a relatively low-cost and low-key way of deepening government accountability to civil society; and suggests ways to complement top-down reforms with approaches that focus directly on improving service provision and the investment climate (such as strengthening the bottom-up accountabilities of service providers to communities, firms, and citizens). 'Governance Reform' has no universally applicable trajectory of change. Rather, the aims are: to find country-specific entry points for reform which have development impact in the short-term; to address binding public management constraints, and to help build momentum for further change.

Slavery and Freedom in the Bluegrass State Jul 29 2022 Stephen Foster's "My Old Kentucky Home" has been designated as the official state song and performed at the Kentucky Derby for decades. In light of the ongoing social justice movement to end racial inequality, many have questioned whether the song should be played at public events, given its inaccurate depiction of slavery in the state. In *Slavery and Freedom in the Bluegrass State*, editor Gerald L. Smith presents a collection of powerful essays that uncover the long-forgotten stories of pain, protest, and perseverance of African Americans in Kentucky. Using the song and the museum site of My Old Kentucky Home as a central motif, the chapters move beyond historical myths to bring into sharper focus the many nuances of Black life. Chronologically arranged, they present fresh insights on topics such as the domestic slave trade, Black Shakers, rebellion and racial violence prior to the Civil War, Reconstruction, the fortitude of Black women as they pressed for political and educational equality, the intersection of race and sports, and the controversy over a historic monument. Taken as a whole, this groundbreaking collection introduces readers to the strategies African Americans cultivated to negotiate race and place within the context of a border state. Ultimately, the book gives voice to the thoughts, desires, and sacrifices of generations of African Americans whose stories have been buried in the past.

Democratic Transition in Myanmar Mar 25 2022 The Singapore Lecture series was inaugurated in 1980 by the ISEAS - Yusof Ishak Institute (formerly Institute of Southeast Asian Studies) with a founding endowment from the Monetary Authority of Singapore (MAS), and augmented by a generous donation in 1983 from ExxonMobil Asia Pacific. The 43rd Singapore Lecture was delivered by Her Excellency Daw Aung San Suu Kyi, State Counsellor of the Republic of the Union of Myanmar, on 21 August 2018 under the distinguished Chairmanship of Mr Teo Chee Hean, Deputy Prime Minister and Coordinating Minister for National Security, Singapore.
Depicting the Veil Aug 30 2022 This powerful book exposes how gendered Orientalism is wielded to justify Western imperialism. Over the last ten years, Western governments and mainstream media have utilized concepts of white masculine supremacy and feminine helplessness, juxtaposed with Orientalist images depicting women of color as mysterious, sinister, and dangerous, to support war. Oscillating between Mrs Anthrax, female suicide bomber and tragic, helpless victim, representations of 'brown women' have spawned both rescue narratives and terrorist alerts. Examining media and pop culture from *Sex and the City 2* to *Vanity Fair* and *Time* magazine, Robin Riley uses transnational feminist analysis to reveal how this kind of transnational sexism towards Muslim women in general and Afghan and Iraqi women in particular has led to a new form of gender imperialism.
