This early work by Arthur

Conan Doyle was originally published in 1905 and we are now republishing it with a brand new introductory biography as part of our Sherlock Holmes series. Arthur Conan Doyle was born in Edinburgh, Scotland, in 1859. It was between 1876 and 1881, while studying medicine at the University of Edinburgh, that he began writing short stories, and his first piece was published in Chambers's Edinburgh Journal before he was 20. In 1887, Conan Doyle's first significant work, *A Study in Scarlet*, appeared in Beeton's Christmas Annual. It featured the first appearance of detective

Sherlock Holmes, the protagonist who was to eventually make Conan Doyle's reputation. A prolific writer, Conan Doyle continued to produce a range of fictional works over the following years. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork. WINNER OF THE PULITZER PRIZE • NEW YORK TIMES BESTSELLER • The epic, beloved novel of two boy geniuses dreaming up superheroes in New York's Golden Age of comics, now with special bonus material by the author—soon to be a Showtime limited series "It's

absolutely gosh-wow, super-colossal—smart, funny, and a continual pleasure to read.”—The Washington Post Book World Named one of the 10 Best Books of the Decade by Entertainment Weekly • Finalist for the PEN/Faulkner Award, National Book Critics Circle Award, and Los Angeles Times Book Prize A “towering, swash-buckling thrill of a book” (Newsweek), hailed as Chabon’s “magnum opus” (The New York Review of Books), *The Amazing Adventures of Kavalier & Clay* is a triumph of originality, imagination, and storytelling, an

exuberant, irresistible novel that begins in New York City in 1939. A young escape artist and budding magician named Joe Kavalier arrives on the doorstep of his cousin, Sammy Clay. While the long shadow of Hitler falls across Europe, America is happily in thrall to the Golden Age of comic books, and in a distant corner of Brooklyn, Sammy is looking for a way to cash in on the craze. He finds the ideal partner in the aloof, artistically gifted Joe, and together they embark on an adventure that takes them deep into the heart of Manhattan, and the heart of old-fashioned American ambition. From the

shared fears, dreams, and desires of two teenage boys, they spin comic book tales of the heroic, fascist-fighting Escapist and the beautiful, mysterious Luna Moth, otherworldly mistress of the night. Climbing from the streets of Brooklyn to the top of the Empire State Building, Joe and Sammy carve out lives, and careers, as vivid as cyan and magenta ink. Spanning continents and eras, this superb book by one of America’s finest writers remains one of the defining novels of our modern American age. Winner of the Bay Area Book Reviewers Award and the New York Society Library

Book Award "... I put my head in my hands for a few moments to try to grasp the situation. I was sitting in a dusty 18th century room with a young man dressed in a brown waistcoat, white ruffled shirt, and knee-length pants with silk stockings who was telling me in some sort of archaic German that it was 1770." Corno da Capo is a fantasy historical novel written especially for French horn players and musicians interested in historical performance and music history. The general reader will also enjoy the story and learn much about European court musicians and traveling soloists in the last quarter of

the 18th century. The story follows the adventures of John Paulson, 21st century American horn player, who finds himself dropped into Paris in the year 1770, and how he survives and pursues a brilliant career as the 18th century Bohemian horn soloist Johann Palsa. Upon his arrival, he is befriended by horn player Carl Türschmidt, and during their many adventures together, they become the most celebrated horn duo of the time. This fictionalized story of these actual 18th century horn players, who were superstars during their lifetimes, is based on the relatively little

information that has come down to us about them. The documented information about their lives is presented in the notes at the back of the book. Adventure is a state of mind. An addiction to the unexpected, the unknown, freedom, and risk. It's Steve McQueen driving his speeding bullets during the shooting of Le Mans; Dian Fossey with her gorillas in Rwanda; Lawrence of Arabia fascinated by the Jordanian desert; Dennis Hopper and Peter Fonda crossing New Mexico on their Harleys; and Harry Potter at Hogwarts. In this book, Francisca Matteoli follows the paths of these adventurers

and brings their legendary films to life, connecting each narrative with an unusual hotel. A unique and personal guidebook, full of anecdotes, information, and souvenirs." The classic work on the music of Afrofuturism, from jazz to jungle *More Brilliant than the Sun: Adventures in Sonic Fiction* is one of the most extraordinary books on music ever written. Part manifesto for a militant posthumanism, part journey through the unacknowledged traditions of diasporic science fiction, this book finds the future shock in Afrofuturist sounds from jazz, dub and techno to funk, hip

hop and jungle. By exploring the music of such musical luminaries as Sun Ra, Alice Coltrane, Lee Perry, Dr Octagon, Parliament and Underground Resistance, theorist and artist Kodwo Eshun mobilises their concepts in order to open the possibilities of sonic fiction: the hitherto unexplored intersections between science fiction and organised sound. Situated between electronic music history, media theory, science fiction and Afrodiasporic studies, *More Brilliant than the Sun* is one of the key works to stake a claim for the generative possibilities of

Afrofuturism. Much referenced since its original publication in 1998, but long unavailable, this new edition includes an introduction by Kodwo Eshun as well as texts by filmmaker John Akomfrah and producer Steve Goodman aka kode9. Sherlock Holmes arrives at a large, dark, seemingly deserted house with Dr. Watson. Heavily loaded carriages with luggage are visible outside the house. Our intrepid team find a window ajar, and climb into the apartment where they find they are not alone. Arthur Conan Doyle's Sherlock Holmes Adventures are legendary classics of crime

writing, and are all gripping mysteries for a listener to delight in cracking before the sleuthing duo find the answers for themselves! Continually enmeshed in controversy, perhaps no other figure in the history of world cinema has been so reviled - and so revered. Why take the shortest, most direct route through life, when you could choose the wiggliest, most mountainous one possible? Armed with a limited grasp of Spanish and determined to meet as many llamas as possible, Anna and her friend Faye set off on a 6-month journey along the spine of the largest mountain range in

the world - the Andes. Beginning in the bustling city of La Paz, the duo pedal south - through dense jungle, across pristine white salt flats and past towering volcanoes, following the path of thundering glacial rivers to the snow-tipped peaks of Patagonia. Sleeping wild in their tents most nights, they endure 50-mph crosswinds and catastrophic crashes, and go head to head with one very determined saddle sore called Sally. By the time they make it to the southernmost tip of the continent, they have cycled 5,500 miles and ascended over 100,000 metres through the mighty Andes -

equivalent to 11 times the height of Everest. Told from the seat of Anna's bicycle, Llama Drama is a witty and compelling account of life at its rawest and most rich. For anyone who has ever wanted to journey through the stunning natural landscapes of South America - this story is for you. Nick Butter became  
the first person to

run a marathon in every country on Earth. This is Nick's story of his world record-breaking adventure and the extraordinary people who joined him along the way. On January 6th 2018, Nick Butter tied his laces and stepped out on to an icy pavement in Toronto, where he began to take the first steps of an epic journey that would see him run 196 marathons in every one of the world's 196 countries. Spending almost two years on the road and relying on the kindness of strangers to keep him moving, Nick's odyssey allowed him to travel slowly, on foot, immersing himself in the diverse

cultures and customs of his host nations. Running through capital cities and deserts, around islands and through spectacular landscapes, Nick dodges bullets in Guinea-Bissau, crosses battlefields in Syria, survives a wild dog attack in Tunisia and runs around an erupting volcano in Guatemala. Along the way, he is often joined by local supporters and fellow runners, curious children and bemused passers-by. Telling their stories alongside his own, Nick captures the unique spirit of each place he visits and forges a new relationship with the world around him. Running the World captures

Nick's journey as he sets three world records and covers over five thousand miles. As he recounts his adventures, he shares his unique perspective on our glorious planet, celebrates the diversity of human experience, and reflects on the overwhelming power of running. Sherlock Holmes and Dr. Watson traverse the British Isles and the Italian peninsula in a rousing series of new adventures. After a thrilling jaunt in the Far East, Holmes and Watson return to England to address an inheritance left by one of Watson's relatives in Cornwall, half of which is entrusted to Sherlock Holmes.

Financially secure, the two are now free to spend as much time on Baker Street and the Continent as they please, and the duo find themselves as comfortable in Rome on the banks of the Tiber as they do on the Thames. As Holmes rationalizes and ratiocinates his way through adventure after adventure, from *The Case of Two Bohemes* to *A Singular Event in Tranquebar*, it is all in a day's work, until clues surface that his great nemesis, Professor James Moriarty, might still be alive . . . "There's no way to dance around it: Ted Riccardi's work is absolutely brilliant. It is as if he is channeling Conan Doyle. Once

you're a few pages into these stories, you would swear that these were newly discovered manuscripts, unearthed by Conan Doyle's estate. Or, better yet, I had the feeling that I had stumbled upon some pulp magazines where Conan Doyle was still writing. Riccardi has it all down - the cadence, the language, everything. He doesn't try to subtly update Holmes for the modern audience, either. It is as if each and every tale was written at the turn of the century, and not the twenty-first." Ted Riccardi is a professor emeritus in the Department of

Middle East and Asian Languages and Cultures at Columbia University. He has served as the counselor of cultural affairs at the United States embassy in New Delhi. Ted and his wife split their time between New York City, New Mexico and Nepal. "Kip and Petra, the bonded, time-traveling Symbiont pair, are enthralling." - Laura, verified reviewer What price would you pay to end the Civil War? As *The General*, a legendary steam engine from the American Civil War, disappears into the distance, Petra and Kipp join a small group of determined men in pursuit, and *The*

Great Locomotive Chase begins. To the average human, Petra appears to be a young woman while Kipp masks his true identity in the guise of her canine companion. But they are, in reality, highly skilled investigators in pursuit of past mysteries, who have also been pressed into service as mentors for a new pair of travelers. While Peter and Elani share the same talents as their advisors, it falls to Petra and Kipp to train them in the way of their species. But when Peter's impulsiveness puts the entire mission in jeopardy, Petra and Kipp must solve the dilemma and find a way to get

them all safely home without altering the course of the Great Locomotive Chase "b>"The author has a wonderful vocabulary; her descriptions of places make me feel like I am there." - Lee, verified reviewer THE SYMBIONT TIME TRAVEL ADVENTURES, i>The Symbiont Tombstone, 1881 Whitechapel, 1888 The Great Locomotive Chase, 1862 Titanic, 1912 A Conspiracy to Murder, 1865 Robin Hood, 1192 The adventures of Mum and Princess are six breathtaking thriller stories with brilliant narrative spinning out the tales of suspense so that your heart thumps rapidly as

She has an unexpectedly brilliant and problem-solving mind and enjoys the guise of a harmless little lady. Everyone knows Mum has a precise type of mind and she is very observant which leads her to solve cases which puzzles the police with the just exact clues which has been overlooked. She has a personal insight, she can study people, observe their behaviour and determine what lies underneath. Her daughter Princess is very ill but

doesn't spend time brooding over it. She is intelligent and she helps Mum with her cases. She also amuses herself by her mischievous talk with Arin and Varma-Sharma detective duo. Arin is the inspector in the homicide department. Arin is dedicated to his work and performs it with integrity. He depends a lot on Mum's deductions. Everyone in the police headquarters holds Mum in high esteem and sometimes asks for her help to sort out impossible crimes. The Varma-Sharma detective duo are the avatar of Thomson and Thompson. Their stories about detection are never known before and they are told in the

department in attempts at jocularly. The captivating tense narration of their adventures have a page-turning tempo and are absolutely unputdownable until you reach the very end. Felonious games are running rampant in a small seaside town, but Bobby the Bedlington Terrier is on the case, with his trusty owner, Kevin. adventure comic books for young people in India with a particular focus on vernacular superheroism. It chronicles popular and youth culture in the subcontinent from the mid-twentieth century to the contemporary era dominated by creative audio-video-digital outlets. The authors highlight early precedents in adventures set by the avuncular detective Chacha Chaudhary with his 'faster than a computer brain', the forays of the film veteran Amitabh Bachchan's superheroic alter ego called Supremo, the Protectors of Earth and Mankind

(P.O.E.M.), along with the exploits of key comic book characters, such as Nagraj, Super Commando Dhruv, Parmanu, Doga, Shakti and Chandika. The book considers how pulp literature, western comics, television programmes, technological developments and major space ventures sparked a thirst for extraterrestrial action and how these laid the grounds for vernacular ventures in the Indian superhero comics genre. It contains descriptions, textual and contextual analyses, excerpts of interviews with comic book creators, producers, retailers

and distributors, together with the views, dreams and fantasies of young readers of adventure comics. These narratives touch upon special powers, super-intelligence, phenomenal technologies, justice, vengeance, geopolitics, romance, sex and the amazing potentials of masked identities enabled by navigation of the internet. With its lucid style and rich illustrations, this book will be essential reading for scholars and researchers of popular and visual cultures, comics studies, literature, media and cultural studies, social anthropology and sociology, and

South Asian studies. 'A wonderful time-travelling adventure with more twists and turns than the hands of a clock on a helter-skelter.
