The most focused, confident, and ambitious women can find themselves derailed by a tiny little thing: a new baby. While more workplaces are espousing family-friendly cultures, women are still subject to a "parenting penalty" and high-profile conflicts between parenting and the workplace are all over the news: from the controversy over companies covering the costs of egg-freezing to the debate over parental leave and childcare inspired by Mark Zuckerberg's two-month paternity leave. Here's the Plan offers an inventive and inspiring roadmap for working mothers steering their careers through the parenting years. Author Allyson Downey—founder of weeSpring, the “Yelp for baby products,” and mother of two young children—advises readers on all practical aspects of ladder-climbing while parenting, such as negotiating leave, flex time, and promotions. In the style of #GIRLBOSS or Nice Girls Don't Get the Corner Office, Here's the Plan is the definitive guide for ambitious mothers, written by one working mother to another.

The Unspoken Rules Jun 02 2020 A Wall Street Journal Bestseller "...this guide provides readers with much more than just early careers advice; it can help everyone from interns to CEOs." — a Financial Times top title You've landed a job. Now what? No one tells you how to navigate your first day in a new role. No one tells you how to take ownership, manage expectations, or handle workplace politics. No one tells you how to get promoted. The answers to these professional unknowns lie in the unspoken rules—the certain ways of doing things that managers expect but don't explain and that top performers do but don't realize. The problem is, these rules aren't taught in school. Instead, they get passed down over dinner or from mentor to mentee, making for an unlevel playing field, with the insiders getting ahead and the outsiders stumbling along through trial and error. Until now. In this practical guide, Gorick Ng, a first-generation college student and Harvard career adviser, demystifies the unspoken rules of work. Ng distills the wisdom he has gathered from over five hundred interviews with professionals across industries and job types about the biggest mistakes people make at work. Loaded with frameworks, checklists, and talking points, the book provides concrete strategies you can apply immediately to your own situation and will help you navigate inevitable questions, such as: How do I manage my time in the face of conflicting priorities? How do I build relationships when I'm working remotely? How do I ask for help without looking incompetent or lazy? The Unspoken Rules is the only book you need to perform your best, stand out from your peers, and set yourself up for a fulfilling career.

Advance Mar 04 2023 The how-to guide for your career In his previous book, *Lose the Resume, Land the Job*, author Gary Burnison exposed the myths and the ineffective thinking around how to land the job you really want. Now, in *Advance*, he takes readers through the next stage—advancing in their careers. *Advance* is extremely timely and topical in today's do-it-yourself career development world. Average job tenure has fallen to about four years on average and often only one or two years for younger professionals. These "career nomads" simply aren't around long enough to access career

development from their employers. On the other end of the workplace spectrum, many employees find themselves stuck in one job without a promotion, without any raise to speak of, and with no opportunities to learn and grow. In *Advance*, Burnison lays out a mosaic of "how-to" advice that applies every day and at every level—the skills and behaviors that help people navigate their careers and stand out among the crowd. He takes on a "Top 20" of career must-haves: managing for the first time, engaging in the "money conversation" with your boss, dealing with difficult bosses (without quitting), coping with coworkers (without losing your mind), making presentations (that don't put people to sleep), mastering digital communication (and avoiding emails that will get you fired), thinking globally (without leaving your office), taking an overseas assignment, meeting senior leaders for the first time (without putting your foot in your mouth), navigating political waters (without sinking your career), reading and fitting in with the culture, and more.

- Career development tips
- Guidance on being seen and heard
