An award-winning writer examines the life and work of some of the greatest authors of the past two centuries, figures whose homosexuality remained hidden or oblique for much of their lives. Toibin looks both at writers forced to disguise their true experience on the page, and at readers who find solace and sexual identity by reading between the lines. The long period from the Renaissance to the nineteenth century supplied numerous sources for Kierkegaard's thought in any number of different fields. The present, rather heterogeneous volume covers the long period from the birth of Savonarola in 1452 through the beginning of the nineteenth century and into Kierkegaard's own time. The Danish thinker read authors representing vastly different traditions and time periods. Moreover, he also read a diverse range of genres. His interests concerned not just philosophy, theology and literature but also drama and music. The present volume consists of three tomes that are intended to cover Kierkegaard's sources in these different fields of thought. Tome III covers the sources that are relevant for literature, drama and music. Kierkegaard was well read in the European literature of the seventeenth and eighteenth century. He was captivated by the figure of Cervantes' Don Quixote, who is

used as a model for humor and irony. He also enjoyed French literature, represented here by articles on Chateaubriand, Lamartine, and Mérimée. French dramatists were popular on the Danish stage, and Kierkegaard demonstrated an interest in, among others, Molière and Scribe. Although he never possessed strong English skills, this did not prevent him from familiarizing himself with English literature, primarily with the help of German translations. While there is an established body of secondary material on Kierkegaard's relation to Shakespeare, little has been said about his use of the Irish dramatist Sheridan. It is obvious from, among other things, *The Concept of Irony* that Kierkegaard knew in detail the works of some of the main writers of the German Romantic movement. However, his use of the leading figures of the British Romantic movement, Byron and Shelley, remains largely unexplored terrain. The classic Danish authors of the eighteenth century, Holberg, Wessel and Ewald, were influential figures who prepared the way for the Golden Age of Danish poetry. Kierkegaard constantly refers to their dramatic characters, whom he often employs to illustrate a philosophical idea with a pregnant example or turn of phrase. Finally, while Kierkegaard is not an obvious name in musicology, his analysis of Mozart's *Don Giovanni* shows that he had a keen interest in music on many different levels. In recent years interest in the thought of Kierkegaard has grown dramatically, and with it the body of secondary literature has expanded so quickly that it has become impossible for even the most conscientious scholar to keep pace. The problem of the explosion of secondary literature is made more acute by the fact that much of what is written about Kierkegaard appears in languages that most Kierkegaard scholars do not know. Kierkegaard has become a global phenomenon, and new research traditions have emerged in different languages, countries, and regions. The present volume is dedicated to

trying to help to resolve these two problems in Kierkegaard studies. Its purpose is, first, to provide book reviews of some of the leading monographic studies in the Kierkegaard secondary literature so as to assist the community of scholars to become familiar with the works that they have not read for themselves. The aim is thus to offer students and scholars of Kierkegaard a comprehensive survey of works that have played a more or less significant role in the research. Second, the present volume also tries to make accessible many works in the Kierkegaard secondary literature that are written in different languages and thus to give a glimpse into various and lesser-known research traditions. The six tomes of the present volume present reviews of works written in Catalan, Chinese, Czech, Danish, Dutch, English, Finnish, French, Galician, German, Greek, Hebrew, Hungarian, Italian, Japanese, Norwegian, Polish, Portuguese, Romanian, Russian, Slovak, Spanish, and Swedish. This volume explores in detail Kierkegaard's various relations to his German contemporaries. Kierkegaard read German fluently and made extensive use of the writings of German-speaking authors. It can certainly be argued that, apart from his contemporary Danish sources, the German sources were probably the most important in the development of his thought generally. The volume has been divided into three tomes reflecting Kierkegaard's main areas of interest with regard to the German-speaking sources, namely, philosophy, theology and a more loosely conceived category, which has here been designated "literature and aesthetics." This third tome is dedicated to the German literary sources that were significant for Kierkegaard; in particular the work of authors from German Classicism and Romanticism. Important forerunners for many of Kierkegaard's literary motifs and characters can be found in the German literature of the day. His use of pseudonyms and his interest in irony were both profoundly influenced by German Romanticism. This volume demonstrates the extent to which Kierkegaard's views of criticism and aesthetics were decisively shaped by the work of German authors.
