The Blade sold like hot cakes and demand soon outstripped supply as riders quickly recognized its class breaking qualities. New models followed and in 2002 Honda released the 'all new' 954cc Fireblade to a rapturous welcome and for many this was the best looking Fireblade since the early Foxeye of 1994. This charming book, packed with unique artwork and engaging photographs, celebrates scooter mania. In a feast of nostalgia, it takes us through the evolution of the scooter, focusing naturally on all things Lambretta and Vespa, but also covering plenty of obscure and eccentric machinery along the way. Scooter enthusiasm in all its forms receives generous attention, whether as fashion accessory for fifties movie stars, style-conscious transport choice for the Mod generation.

or object of worship for today's retro-loving adherents. Scooters take off: rising from rubble of post-war Italy, Piaggio emerged first with its Vespa (meaning 'wasp'), soon followed by Innocenti and its Lambretta (named after a Milan suburb). Evolution: numerous Lambretta and Vespa models over the years are illustrated and explained, accompanied by a look at the myriad accessories available for them. Not just in Italy: a survey of classic-era scooters from Britain (such as Brockhouse Corgi, Sun Wasp and Triumph Tigress), Germany (such as Glas Goggo, Zündapp Bella and Heinkel Tourist), Japan (such as Fuji Rabbit, Mitsubishi Silver Pigeon and Honda Juno) and elsewhere. Mod culture: emerging in the sixties and entwined with music and fashion, it made a unique contribution to scooter fandom that has since embraced the globe. Scooters as classics: the resurgence of interest since the late seventies and all that has come with it from restoration and racing to customising and clubs. Scooter tales worldwide: Cesare Bataglini's round-the-world Lambretta odyssey; Mod revivalists in Tokyo; elderly scooter soldiering on in Africa; Indonesia's Rebel Riders and their crazy Vespa-derived creations scaling Ben Nevis on a Lambretta; and much more. Quotes in the book such as "The scooters, clothes and music -- an unforgettable time of my life" and "Exciting, fun and carefree days when anything seemed possible" sum up the enduring appeal of classic scooters. Anyone afflicted with the obsession will adore this book. From the forgotten Aberdale, of Llwynypia, Wales, to the ingeniously eccentric Wooler, of north-west London, British Motorcycles 1945-1965 offers alphabetical coverage – in no less than 600 pages – of the British motorcycle makes of the period 1945-1965, among them great names such as BSA, Matchless, Norton, Royal Enfield, Triumph and Vincent. The two decades covered by this book represent the final flowering of the motorcycle industry in Britain, a period when British bikes were shipped all over the world, when America discovered high-performance British twins and when ton-up boys vied with each other in feats of horrendous daring. In the meantime, rush-hour roads resounded to the buzz and crackle of ride-to-work two-strokes, men hidden in cumbersome waterproof coats slogged along on unwieldy sidecar outfits, wife on the pillion, kids alongside, and courting couples, carefree, hugging tight, enjoyed a sunlit ride to the seaside or into the hills. In this intensely detailed study, author Rinsey Mills gives the histories of the motorcycle manufacturers and then provides information on the models they produced, year by year, using original material from sales brochures for the illustrations, not only to identify the bikes and to highlight model changes and revisions, but also to give the flavour of the times when they were to be going about their business. Whether your taste is for the obscure and the might-have-beens, for workaday two-strokes, nimble scramblers, thumping singles, ton-up twins or fiery road racers, all are here, offering an unrivaled store of knowledge and information as well as more than 1,500 illustrations that provide a powerful evocation of motorcycling in these two decades. The illustrations are accompanied by generous and informative captions which help to convey the strengths, weaknesses and character of the machines as well as provide intriguing technical insights. At 23, James Toseland was the youngest winner of the World Superbike Championship and with more racing experience than riders twice his age, has overtaken previous champions Carl Fogarty and Neil Hodgson.

become the next biking superstar. Toseland's success has been driven by a lifetime of tragedy. Using racing as a release, he became a fearless daredevil and had moved his way up through the ranks of British Superbikes by the time he was sixteen. But there was more turmoil to come - a career of dramatic crashes and a collision in Monza, Italy which left James seriously injured and his Honda team-mate dead. This is a story of genius, tragedy and James' overwhelming will to succeed. There are some people who've done a little. There are some people who've done a lot. There are others who've done more than that. Then there was Colin Seeley. He'd done more than pretty much everyone. Colin passed away just after his 84th birthday. He packed so much into his life, which began on January 2, 1936, when he was born in Kent, the only child of Percy and Hilda. By 20 Colin was running his own business, soon after he was racing, and just two years into his career was a podium finisher at the IoM TT. Aged 30, he was a motorcycle manufacturer, then going on to all manner of other disciplines, including running car racing Formula One teams. Post that, he was a successful ace team manager and mentor to young riders, going on to work for auctioneers Bonhams becoming one of the company's foremost and most trusted consultants. During recent years, Colin had been a popular figure at classic events far and wide, often demonstrating period machines, eyes twinkling and lips smiling enduringly positive, endearingly modest, and always full of enthusiasm. He pretty much did it all. The Big Book of Motorbikes showcases the wonderful world of motorbikes to a new and vibrant generation. Valentino Rossi once said, "To be a great motorbike racer, the most important thing is passion for the bike." Vintage motocross enthusiast Keith Geisner has this passion, and it leads him on a journey of discovery when he finds an old Harley-Davidson dirt bike for sale online. A mere moment's pause on a photograph, and Keith becomes both restorationist and researcher of a piece of American motocross history. Through social media, emails, phone calls and sheer tenacity, Keith uncovers the bike's

unique history. His extensive research led him to motocross legends and Bill Davidson, great-grandson of Harley-Davidson Motorcycle Co. founder William Davidson. His story is a detective novel for motorcycle enthusiasts where every page, like an enduro, is full of twists and turns. # I like to refer to the author as "Detective Geisner." His tireless efforts to unearth historical details about the Harley-Davidson motocross project have no bounds and his enthusiasm for the subject borders on obsession. He has traveled extensively to meet and interview the riders, mechanics, and engineers who were involved. His "investigations" have turned up details about the MX project that were sometimes unknown even to those of us who worked on the H-D Factory team in those days. So, it is fair and correct to say that this book is the definitive study of Harley-Davidson's controversial participation in American motocross. Well done, Keith Geisner! This officially licensed 120th anniversary edition of Indian Motorcycle tells the complete story of Indian Motorcycle, America's first mass-produced motorcycle maker, from its start as a bicycle manufacturer to the purchase of the brand by Polaris Industries in 2003 and the subsequent new Indian motorcycles—updated to include new photography, the story of the latest models, including the FTR1200, Chieftain, Challenger, and Roadmaster and Indian Motorcycle's return to racing. In the early years of the 20th century, Indian Motorcycle dominated the world's racetracks and showrooms, earning the brand a worldwide reputation for quality, performance, reliability, and technical innovation with such classic machines as the Chief, Scout and Four. But the once-mighty company fell in hard times and in 1953 was forced to file bankruptcy. The Indian Motorcycle brand nearly died, however, thanks in large part to fanatically devoted enthusiasts, who tried to resurrect it for over half a century. Finally, Polaris, maker of the highly regarded Victory brand of motorcycles, purchased the brand and released the Chief and Scout, models that once again restored Indian Motorcycle to its rightful place in the motorcycle pantheon. Indian Motorcycle is the most complete and up-to-date history of this classic American motorcycle. Praise for Jennifer Beckstrand and Abraham “This is an endearing romance that fans of Wanda Brunstetter will love.” —Publishers Weekly [...] it didn’t matter, because one word, “sure” in the context of motorcycle ownership, gave Pete permission to buy one. All he had to do was earn the money. [...] When Ms. Strickland answered the door she looked at the street and noticed that it had been shoveled. Since they were both holding shovels, the first she said in a rhetorical tone was “Did you guys do that? Thank you!” Before they could get a word out, she continued with “I guess you are here to shovel my drive! Or did you do that too and now you want your money?” Without missing a beat, Mel replied, “Yup! Twenty bucks!” In a scolding almost frantic tone she replied with, “Well I’m not paying. I have the lawn service under contract. Not very smart business boys. You can’t just ask people to pay for a service they didn’t request!” Pete just stood there in shock when Mel said, “OK, we’ll put it back.” She paused for a moment with a look of horror on her face until she realized Mel was joking and started laughing. She said “I’m sorry boys, but I’m already committed.” Mel replied, “That’s OK, we understand.” As they were walking toward the next house, they heard Ms. Strickland’s door open and she started yelling, “Boys!? Boys!? Wait!” Mel and Pete exchanged glances wondering what now? “Come back! I changed my mind! You can shovel my drive!” Pete jokingly said to Mel, “It looks like we’re both gonna make \$20 on this drive since our price just doubled!” Welcome to the ever so slightly psychotic world of the Honda CBR900RR and CBR1000RR! Psychotic? Absolutely.
