Anna asked Rachel to begin fronting costs—first for flights, then meals and shopping, and, finally, for their \$7,500-per-night private villa. Before Rachel knew it, more than \$62,000 had been charged to her credit cards. Anna swore she would reimburse Rachel the moment they returned to New York. Back in Manhattan, the repayment never materialized, and a shocking pattern of deception emerged. Rachel learned that Anna had left a trail of deceit—and unpaid bills—wherever she'd been. The Secret Life of Books Dec 31 2020 We love books. We take them to bed with us. They weigh down our suitcases on holiday. We display them on our bookshelves, give them as gifts, write our names in them. We take them for granted. And all the time, our books are leading a double life. *The Secret Life of Books* is about everything that isn't just the words. It's about how books transform us as individuals, the stories they tell us about ourselves. It's about how books - and readers - have evolved over time. And it's about why, even with the arrival of other media, books still have the power to change our lives. In this stylish and thought-provoking meditation, Tom Mole looks at everything from binding innovations to binding errors, to books defaced by lovers, to those imprisoning professors in their offices, to books in art, to burned books, to the books that create nations, to those we'll leave behind. A striking text in a stunning package, it will change how you think about books.

True Life Jul 18 2022 "Effortless" and "inevitable" are architect Steven Harris's two favorite words. With sensitivity to the surrounding landscape, Steven Harris Architects designs spaces that are custom-tailored to their clients' daily lives and experiences. His dining rooms are not aggrandizements of tradition, they are places to eat, to gather, or even work; his entry halls are not the primary places of arrival, but rather the final segments of a long trajectory that begins when the resident turns off the main road or exits the elevator. *True Life*, the firm's first monograph, showcases an exceptional range of residential work from the past twenty-five years. Organized by the activities that propel their designs—dine, lounge, study, play, sleep, and so on—it focuses on people rather than objects. The firm's spaces are not meant to set lifestyle changes into motion, but rather cater to those routines already in progress. Herein lies the genius of the work: they let the client speak for the house, not the house for the client. A foreword by writer A.M. Homes places Steven Harris Architects in the context of contemporary architecture and speaks to the understated elegance of the firm's designs.

True Story Dec 11 2021 Named a Best Nonfiction Book of 2022 by *Esquire* A sociological study of reality TV that explores its rise as a culture-dominating medium—and what the genre reveals about our attitudes toward race, gender, class, and sexuality What do we see when we watch reality television? In *True Story: What Reality TV Says About Us*, the sociologist and TV-lover Danielle J. Lindemann takes a long, hard look in the “funhouse mirror” of this genre. From the first episodes of *The Real World* to countless rose ceremonies to the White House, reality TV has not just remade our entertainment and cultural landscape (which it undeniably has). Reality TV, Lindemann argues, uniquely reflects our everyday experiences and social topography back to us. Applying scholarly research—including studies of inequality, culture, and deviance—to specific shows, Lindemann layers sharp insights with social theory, humor, pop cultural references, and anecdotes from her own life to show us who we really are. By taking reality TV seriously, *True Story* argues, we can better understand key institutions (like families, schools, and prisons) and broad social constructs (such as gender, race, class, and sexuality). From *The Bachelor* to *Real Housewives* to *COPS* and more (so much more!), reality programming unveils the major circuits of power that organize our lives—and the extent to which our own realities are, in fact, socially constructed. Whether we're watching conniving *Survivor* contestants or three-year-old beauty queens, these “guilty pleasures” underscore how conservative our society remains, and how steadfastly we cling to our notions about who or what counts as legitimate or “real.” At once an entertaining chronicle of reality TV obsession and a pioneering work of sociology, *True Story* holds up a mirror to our society: the reflection may not always be pretty—but we can't look away.

True to Life Oct 21 2022 Why truth is important in our everyday lives. Why does truth matter when politicians so easily sidestep it and intellectuals scorn it as irrelevant? Why be concerned over an abstract idea like truth when something that isn't true—for example, a report of Iraq's attempting to buy materials for nuclear weapons—gets the desired result: the invasion of Iraq? In this engaging and spirited book, Michael Lynch argues that truth does matter, in both our personal and political lives. Lynch explains that the growing cynicism over truth stems in large part from our confusion over what truth is. “We need to think our way past our confusion and shed our cynicism about the value of truth,” he writes. “Otherwise, we will be unable to act with integrity, to live authentically, and to speak truth to power.” *True to Life* defends four simple claims: that truth is objective; that it is good to believe what is true; that truth is a goal worthy of inquiry; and that truth can be worth caring about for its own sake, not just because it gets us other things we want. In defense of these “truisms about truth”, Lynch diagnoses the sources of our cynicism and argues that many contemporary theories of truth cannot adequately account for its value. He explains why we should care about truth, arguing that truth and its pursuit are part of living a happy life, important in our personal relationships and for our political values.

Say Nothing Jan 20 2020 NEW YORK TIMES BESTSELLER • From the author of Empire of Pain—a stunning, intricate narrative about a notorious killing in Northern Ireland and its devastating repercussions "Masked intruders dragged Jean McConville, a 38-year-old widow and mother of 10, from her Belfast home in 1972. In this meticulously reported book—as finely paced as a novel—Keefe uses McConville's murder as a prism to tell the history of the Troubles in Northern Ireland. Interviewing people on both sides of the conflict, he transforms the tragic damage and waste of the era into a searing, utterly gripping saga." —New York Times Book Review Jean McConville's abduction was one of the most notorious episodes of the vicious conflict known as The Troubles. Everyone in the neighborhood knew the I.R.A. was responsible. But in a climate of fear and paranoia, no one would speak of it. In 2003, five years after an accord brought an uneasy peace to Northern Ireland, a set of human bones was discovered on a beach. McConville's children knew it was their mother when they were told a blue safety pin was attached to the dress—with so many kids, she had always kept it handy for diapers or ripped clothes. Patrick Radden Keefe's mesmerizing book on the bitter conflict in Northern Ireland and its aftermath uses the McConville case as a starting point for the tale of a society wracked by a violent guerrilla war, a war whose consequences have never been reckoned with. The brutal violence seared not only people like the McConville children, but also I.R.A. members embittered by a peace that fell far short of the goal of a united Ireland, and left them wondering whether the killings they committed were not justified acts of war, but simple murders. From radical and impetuous I.R.A. terrorists such as Dolours Price, who, when she was barely out of her teens, was already planting bombs in London and targeting informers for execution, to the ferocious I.R.A. mastermind known as The Dark, to the spy games and dirty schemes of the British Army, to Gerry Adams, who negotiated the peace but betrayed his hardcore comrades by denying his I.R.A. past—Say Nothing conjures a world of passion, betrayal, vengeance, and anguish. Look for Patrick Radden Keefe's latest bestseller, Empire of Pain

Oman Feb 19 2020 Oman is one of the world's most secretive countries, ruled with absolute authority by the Sultan. All information is strictly controlled by the State: British Prime Minister Edward Heath once said that the story of the 1970 Palace Coup and the events that followed would 'not be told in our lifetime'. Following ten years' residency in the country a senior member of Sultan Qaboos's Family suggested that John Beasant write a political history of Oman that would to some extent rehabilitate the maligned name of former Sultan Said, who was deposed in the 1970 Coup. In 'Oman' Beasant catalogues a nature of exploitation woven through all manner of political and commercial interests and casts light on the dark practices so often involved in the sale of arms to Middle Eastern states and illustrates the political use to which the sale of 'black gold' - oil - can be put. Oman is a parable of our times, detailing rivalry and intrigue between people in high places. It is one of the most dramatic tales in Arab history: a chronicle of personal price, rapacious greed and undiluted lust for power.

One True Life May 16 2022 In this groundbreaking, cross-disciplinary work of philosophy and biblical studies, New Testament scholar C. Kavin Rowe explores the promise and problems inherent in engaging rival philosophical claims to what is true. Juxtaposing the Roman Stoics Seneca, Epictetus, and Marcus Aurelius with the Christian saints Paul, Luke, and Justin Martyr, and incorporating the contemporary views of Jeffrey Stout, Alasdair McIntyre, Charles Taylor, Martha Nussbaum, Pierre Hadot, and others, the author suggests that in a world of religious pluralism there is negligible gain in sampling from separate belief systems. This thought-provoking volume reconceives the relationship between ancient philosophy and emergent Christianity as a rivalry between strong traditions of life and offers powerful arguments for the exclusive commitment to a community of belief and a particular form of philosophical life as the path to existential truth.

The Secret Life of Literature Mar 22 2020 An innovative account that brings together cognitive science, ethnography, and literary history to examine patterns of "mindreading" in a wide range of literary works. For over four thousand years, writers have been experimenting with what cognitive scientists call "mindreading": constantly devising new social contexts for making their audiences imagine complex mental states of characters and narrators. In The Secret Life of Literature, Lisa Zunshine uncovers these mindreading patterns, which have, until now, remained invisible to both readers and critics, in works ranging from The Epic of Gilgamesh to Invisible Man. Bringing together cognitive science, ethnography, and literary studies, this engaging book transforms our understanding of literary history. Central to Zunshine's argument is the exploration of mental states "embedded" within each other, as, for instance, when Ellison's Invisible Man is aware of how his white Communist Party comrades pretend not to understand what he means, when they want to reassert their position of power. Paying special attention to how race, class, and gender inform literary embeddings, Zunshine contrasts this dynamic with real-life patterns studied by cognitive and social psychologists. She also considers community-specific mindreading values and looks at the rise and migration of embedding patterns across genres and national literary traditions, noting particularly the use of deception, eavesdropping, and shame as plot devices. Finally, she investigates mindreading in children's literature. Stories for children geared toward different stages of development, she shows, provide cultural scaffolding for initiating young readers into a long-term engagement with the secret life of literature.

The True Life Apr 27 2023 'I'm 79 years old. So why on earth should I concern myself with speaking about youth?' This is the question with which renowned French philosopher Alain Badiou begins his passionate plea to the young. Today young people, at least in the West, are on the brink of a new world. With the decline of old traditions, they now face more choices than ever before. Yet powerful forces are pushing them in dangerous directions, into the vortex of consumerism or into reactive forms of traditionalism. This is a time when young people must be particularly attentive to the signs of the new and have the courage to venture forth and find out what they're capable of, without being constrained by the old prejudices and hierarchical ideas of the past. And if the aim of philosophy is to corrupt youth, as Socrates was accused of doing, this can mean only one thing: to help young people see that they don't have to go down the paths already mapped out for them, that they are not just condemned to obey social customs, that they can create something new and propose a different direction as regards the true life.
