[Auditing Corporate Surveillance Systems](#) Jan 21 2021 News headlines about privacy invasions, discrimination, and biases discovered in the platforms of big technology companies are commonplace today, and big tech's reluctance to disclose how they operate counteracts ideals of transparency, openness, and accountability. This book is for computer science students and researchers who want to study big tech's corporate surveillance from an experimental, empirical, or quantitative point of view and thereby contribute to holding big tech accountable. As a comprehensive technical resource, it guides readers through the corporate surveillance landscape and describes in detail how corporate surveillance works, how it can be studied experimentally, and what existing studies have found. It provides a thorough foundation in the necessary research methods and tools, and introduces the current research landscape along with a wide range of open issues and challenges. The book also explains how to consider ethical issues and how to turn research results into real-world change.

Tor and the Dark Art of Anonymity (FREE) Apr 11 2020 Tired of being spied on? Sometimes a victim decides to stop being a victim. Master the dark art of anonymity today and get instant access to thousands of deep web hidden websites, portals and secret files plus access to the Hidden Wiki, all for free. The evidence is in: It's 1984 and the surveillance powers that be possess a special hatred for individual thought, free speech and online privacy. That means most 3 letter agencies as well as most Big Brother groups like Google, Facebook and Twitter. You're being tracked left, right and center. Today's written word will be used against you in the future. Minority Report and 1984 are just around the corner. Master anonymity, encryption and counter-surveillance in a weekend, not years. Don't let a tyrannical future bite you in your backside. It's time to FIGHT BACK. Other books tell you to install this or that and leave it at that. This book goes much deeper, delving into the very heart of invisibility, offline and on: how to create a new darknet persona and leave no electronic trail...with Tor or a hundred other apps. In essence, how to be anonymous without looking like you're trying to be anonymous. On Android, Windows or Linux. Doesn't matter. I go through them all in easy step by step fashion. Tor's Odyssey Sep 16 2020 Facing destruction by a neutron star, Earth sends out seed ships into the cosmos to perpetuate the human race. Ship 94 arrives at its destination, an earth-like planet, where it completes its mission to produce at least three hundred human breeding pairs, along with animals that would be of use to them, and training resources to give the new colony a jump-start into the Iron Age. Five-hundred ninety-seven years later, Tor, a young man, and his mastiff dog, Benjy, returns from hunting to find his entire village massacred by invading soldiers of the Nurtiska Empire. With no other choice, he must flee. Thus begins an odyssey of revenge that turns into a search for a place of refuge for himself and the survivors of the Delta Clans. In his travels, he meets and takes as mate Koreen, a young woman of his own age. Will they find a refuge for themselves and the survivors of the Delta Clans where the Nurtiska Empire can never find them?

Protecting Your Internet Identity Jun 25 2021 People research everything online – shopping, school, jobs, travel – and other people. Your online persona is your new front door. It is likely the first thing that new friends and colleagues learn about you. In the years since this book was first published, the Internet profile and reputation have grown more important in the vital human activities of work, school and relationships. This updated edition explores the various ways that people may use your Internet identity, including the ways bad guys can bully, stalk or steal from you aided by the information they find about you online. The authors look into the Edward Snowden revelations and the government's voracious appetite for personal data. A new chapter on the right to be forgotten explores the origins and current effects of this new legal concept, and shows how the new right could affect us all. Timely information helping to protect your children on the Internet and guarding your business's online reputation has also been added. The state of Internet anonymity has been exposed to scrutiny lately, and the authors explore how anonymous you can really choose to be when conducting activity on the web. The growth of social networks is also addressed as a way to project your best image and to protect yourself from embarrassing statements. Building on the first book, this new edition has everything you need to know to protect yourself, your family, and your reputation online.

Tor and the Deep Web: Bitcoin, DarkNet & Cryptocurrency (2 in 1 Book) Jun 06 2022 THE ULTIMATE TOR BROWSER & SECURITY GUIDE: A 2-for-1 Limited Offer Just three questions you need to ask yourself: ? Do You Value Online Privacy? ? Do You Value Freedom? ? Do You Want to be Anonymous? If you answered yes, then these are your books. Two books on instant anonymity, right now, can be yours for the taking. As science fiction author Hugh Howey once stated: When Pursuing a Dream, Don't Wait. Do it now. Because tomorrow may be too late. People sling words across the internet without regard for their future. They don't know it but they are digging their own graves by attacking Goliath without a shield. Every word you say on forums, Usenet, Facebook, and News outlets is out there forever whether you are Republican, Democrat, Libertarian or Green Party. Doesn't matter. One day you may wake up to discover a state power wants a 'type' of voter out of the equation altogether: You. How do you erase every critical forum comment you ever made? How do you scrub your Facebook page? How do you make anonymous online comments so that your new employer doesn't fire you? This is the ultimate guide with easy take-you-by-the-hand instructions to teach you not only Tor, but VPNs, Bitcoins, Hacking tricks, Darknet Personas and even how to evade the Sauronic Eye that is the NSA. Culture, Clichés, and Conversations Feb 19 2021 In today's school systems, educational clichés are ending essential dialogue when they should begin and maintain it. Messages like "That's why you make the big bucks" or "It is what it is" hinder our capacity to construct critical connections with each other. The focus of *Clichés, Conversations and Culture: Cultivating Relations Between Teachers and Administrators* is to unveil these clichés and explore alternatives that will foster connectedness.

Delphi Complete Works of Howard Pyle (Illustrated) Nov 18 2020 The American illustrator and author Howard Pyle is best known for his celebrated children's books. His magazine and book illustrations are regarded as among the finest of the turn-of-the-century period in the Art Nouveau style. Pyle achieved especial fame as an accomplished and original illustrator of historical legends and fairy stories, noted for the vivid richness and historical accuracy of his work — both as a writer and an artist. Many of Pyle's children's stories are now regarded as American classics, including 'The Merry Adventures of Robin Hood', 'Otto of the Silver Hand', 'Jack Ballister's Fortunes' and his magical tales of Arthurian legend. For the first time in publishing history, this eBook presents Pyle's complete published works, with hundreds of illustrations, rare texts, informative introductions and the usual Delphi bonus material. (Version 1) * Beautifully illustrated with images relating to Pyle's life and works * Concise introductions to the novels and other texts * All 14 novels, with individual contents tables * Features rare novels appearing for the first time in digital publishing, including 'The Garden behind the Moon' * All of the novels feature Pyle's original illustrations — over a 1,000 illustrations * Images of how the books were first published, giving your eReader a taste of the original texts * Excellent formatting of the texts * Rare uncollected short stories available in no other collection * Special chronological and alphabetical contents tables for the short stories * Easily locate the short stories you want to read * Includes a wide range of Pyle's illustration work for other novelists * Scholarly ordering of texts into chronological order and genres Please visit
