L'énonciation Médiatisée II Le Traitement
Épistémologique de L'information May 07 2023 Avec ce
recueil qui reunit dix-huit contributions, nous poursuivons
la quête collective entreprise dans le volume
L'enonciation mediatisee ou, pour eviter toute confusion
conceptuelle et terminologique, une distinction avait ete
introduite entre mediatif et enonciation mediatisee.
Rappelons que, selon cette distinction, le terme de
mediatif designe une categorie grammaticale qui, fondee
sur des oppositions formelles au sein du systeme
grammatical d'une langue, permet a l'enonciateur de
presenter des situations (...) dont il n'assume pas la

responsabilite pour en avoir eu connaissance par voie indirecte, d'ou la possibilite pour lui de manifester divers degres de distance par rapport au contenu de son propre message (Guentcheva 1996: 11). Notons que le mediatif exclut de son champ semantique tout fait presente comme un constat ou lie a la perception visuelle, que les degres de distance que l'enonciateur manifeste a l'egard du contenu propositionnel du message transmis, laissent l'enonce en dehors de toute assignation en vrai ou en faux (ibid.) et qu'il ne releve pas de la modalite epistemique. En revanche, l'enonciation mediatisee n'implique pas necessairement de procedes grammaticalises qui s'organisent en un systeme coherent au sein de la langue, bien que, dans un contexte particulier, une forme verbale puisse recevoir une valeur mediative ou qu'un element syntaxique comme certains adverbes ou expressions adverbiales puisse conduire a une interpretation mediative de la phrase. Rappelons egalement que les contributions au recueil en question attestaient de la complexite du phenomene mediatif, de la variete de procedes morphosyntaxiques et lexicaux mis en uvre dans l'expression de la notion de mediation (ou de mediatisation) et de la relation complexe que la categorie du mediatif entretient d'une part avec la valeur de resultativite liee au parfait et d'autre part, avec la modalite epistemique. C'est le questionnement sur cette

variete de procedes morphosyntaxiques et sur la pertinence de la notion de mediation ou de mediatization dans d'autres langues du monde qui est a l'origine de ce second volume.
