writing skills, essay writing skills, email writing skills, report writing skills, review writing and proposal writing. The writing part of the Cambridge CAE exam is often the most intimidating for many Advanced English students. CAE Writing Masterclass will give you the skills, tools, knowledge and practice needed to get excellent marks in this part of the exam. This book is a self-study step-by-step manual on how to be brilliant in the writing test. It will prepare you for all the types of questions that you might have to answer and shows you exactly what examiners are looking for when they mark your writing. CAE Writing Masterclass carefully guides you through answering exam-type questions and builds exam specific grammar skills so that you are as confident as possible on the day of the exam. Authentic writing tasks and guidance on exam technique prepare students for CAE Paper 2. Bestselling author Alain de Botton considers how our private homes and public edifices

influence how we feel, and how we could build dwellings in which we would stand a better chance of happiness. In this witty, erudite look at how we shape, and are shaped by, our surroundings, Alain de Botton applies Stendhal's motto that "Beauty is the promise of happiness" to the spaces we inhabit daily. Why should we pay attention to what architecture has to say to us? de Botton asks provocatively. With his trademark lucidity and humour, de Botton traces how human needs and desires have been served by styles of architecture, from stately Classical to minimalist Modern, arguing that the stylistic choices of a society can represent both its cherished ideals and the qualities it desperately lacks. On an individual level, de Botton has deep sympathy for our need to see our selves reflected in our surroundings; he demonstrates with great wisdom how buildings — just like friends — can serve as guardians of our identity. Worrying about the shape of our sofa or the colour

of our walls might seem self-indulgent, but de Botton considers the hopes and fears we have for our homes at a new level of depth and insight. When shopping for furniture or remodelling the kitchen, we don't just consider functionality but also the major questions of aesthetics and the philosophy of art: What is beauty? Can beautiful surroundings make us good? Can beauty bring happiness? The buildings we find beautiful, de Botton concludes, are those that represent our ideas of a meaningful life. The *Architecture of Happiness* marks a return to what Alain does best — taking on a subject whose allure is at once tantalizing and a little forbidding and offering to readers a completely beguiling and original exploration of the subject. As he did with Proust, philosophy, and travel, now he does with architecture. In addition to the traditional emphasis at this level on skills development, The Cambridge CAE Course focuses on other areas of language such as

pronunciation, vocabulary extension, functional language and style. "Objective Advanced is an updated and revised edition of the best-selling Cambridge English: Advanced (CAE) course.
