Safety -- Drawings -- Wire types and preparation -- Soldering and termination -- Cable forming -- Hardware -- Components (active) -- Components (passive) -- Switches and lamps -- Earthing and screening -- Index. Four wiring manuals bound together. Written by a certified electrical inspector and endorsed by the International Association of Electrical Inspectors (IAEI), the Electrical Inspection Manual carefully reviews the items inspectors are required to check on all types of electrical installations. Updated for the 2008 National Electrical Code, this book contains over 70 checklists for residential, commercial, and industrial jobs, including special occupancies, fire alarm circuits, and more. Fully illustrated chapters explain significant tasks, define terms, outline key questions, and provide a concise overview of the electrical inspection process.
