Yamaha YZF-R6 1994-2004 Ton Up! A Century
of Café Racer Speed and Style focuses on the
story of the ton-up boys and their café racers.
But it's much more than just that. Illustrated
with historic and modern photos and featuring
a text by one of the world's motorcycle
historians, it's really the story of motorcycle
speed and style evolved from the early 1900s
right through today. Cafe racers are most
associated with the young, rebellious rock-and-
rollers of 1960s Britain. These riders created
the quintessential café racers—fast motorcycles
customized to resemble the racing bikes of the
period. They were called “café racers” because
their riders raced on public roads, from one
café to the next. The goal was to do “the ton”
(exceed 100 miles per hour) on these runs,
which led to their designation as “ton-up boys.”
Today, ton-up culture is more popular than ever
and recognized worldwide with a following of
young and long-time riders alike. With Ton Up!,
enjoy a scenic ride through the history of this
vibrant scene. Conjure up these adorable
figures of "the boy who lived" and his friends.
All the spells needed to make amigurumi dolls
of Harry Potter and Dobby are included: yarn,
stuffing, needle and thread, safety eye beads,
and the special magic wand crochet hook.

She sifts through myth and hyperbole: misrepresentations about danger, about the type of people who ride and why they do so. The Perfect Vehicle is not a mere recitation of facts, nor is it a polemic or apologia. Its vivid historical accounts—the beginnings of the machine, the often hidden tradition of women who ride, the tale of the

defiant ones who taunt death on the racetrack—are intertwined with Pierson's own story, which, in itself, shows that although you may think you know what kind of person rides a motorcycle, you probably don't.
