Revision guides you can rely on: trusted by lecturers, loved by students... "I have always used OUP revision and Q&A books and genuinely believe they have helped me get better grades" - Anthony Poole, law student, Swansea University "The detail in this revision textbook is phenomenal and is just what is needed to push your exam preparation to the next level" - Stephanie Lomas, law student, University of Central Lancashire "It is a little more in-depth than other revision guides, and also has clear diagrams and teaches ways to obtain extra marks. These features make it unique" - Godwin Tan, law student, University College London "The concentrate revision guides stand out against other revision guides" - Renae Haynes Williams, law student, Bangor University "The exam style questions are brilliant and the series is very detailed, prepares you well" - Frances Easton, law student, University of Birmingham "The accompanying website for Concentrate is the most impressive I've come across" - Alice Munnelly, law student, Kings College London Online Resources Packed with essential information, key

cases, revision tips, exam Q&As, and more, EU Law Concentrate is also supported by extensive online resources to take your learning further (www.oup.com/lawrevision/): - Pinpoint which areas you need to concentrate on with the diagnostic test - Test your knowledge with the multiple-choice questions and receive feedback on your answers - Improve your essay skills using the outline answers for guidance on what to include and how to structure your answer - Revise the facts and principles of key cases using the interactive flashcards - Learn the important terms and definitions using the interactive glossary - Check that you have covered the main points of a topic using the key facts checklists - Achieve better marks following the advice on revision and exam technique by experienced examiner Nigel Foster

Law Express: EU Law is designed to help you to relate all the reading and study throughout your course specifically to exam and assignment situations. Understand quickly what is required, organise your revision, and learn the key points with ease, to get the grades you need. Tested with examiners and students. The introduction by the Amsterdam Treaty of the flexibility clauses, authorising a majority of Member States to cooperate more closely in areas covered by the Treaties, has been received with mixed feelings. Flexibility is by no means a new phenomenon in the EU's development. It has been on the Community's agenda already since the 1970s. The Single European Act introduced several provisions allowing for flexible approaches to the single market, whilst the Maastricht Treaty launched a differentiated approach to the EMU and social policy. In addition to these forms of differentiation in primary Community law, for many years there has also been a number of quite important, though less visible, forms of differentiation in secondary Community law. This book aims to link both levels of differentiation and seeks to unveil the many faces of differentiation in EU law. It analyses whether, and to which extent, there is a shift in European integration from a system of unity and uniformity to one of flexibility and differentiation. A first series of contributions to the book analyse a number of exemplary policy fields (EMU, social policy, environment, free movement of persons, justice and home affairs) in order to identify their degree of differentiation. A second set of contributions examine various 'horizontal' institutional matters of cross-sectoral importance. These two main parts are framed by introductory articles on the development of flexibility and by contributions drawing on the constitutional limits to differentiation. The contributions are made by Dominik Hanf, José M. de Areilza, Jean-Victor Louis, Sean Van Raepenbusch, Ludwig Kramer, Georgia Papagianni, Grainne de Burca, Ellen Vos, Linda Senden, Sacha Prechal, Wouter Devroe, Deirdre Curtin, Bruno De Witte, Eddy De Smijter en Jan Wouters. This book explores the extent to which European Community law confers upon individuals the right to gain access to public services in other Member States. Are European citizens and third country nationals who have moved to other Member States entitled to claim minimum subsistence benefits, to receive

medical care or to be admitted to education? Does Community law provide for a freedom of movement for patients, students and persons in need of social welfare benefits? If so, to what extent does Community law have regard for the Member States' fears for, and concerns about, welfare tourism? Besides addressing numerous detailed questions on the precise degree to which Community law allows for cross-border access to public services, the author analyses how Community law, and the Court of Justice in particular, have sought to reconcile the Community's objectives of realising freedom of movement and ensuring equality of treatment with the need to develop and maintain adequate social services within the Community. In addition, the book contains a detailed analysis of United States constitutional law on cross-border access to public services, exploring the question whether the European Community can possibly learn from the American experience. The EU Law Concentrate is written and designed to help you succeed. Written by experts and covering all key topics, Concentrate guides help focus your revision and maximise your exam performance. Each guide includes revision tips, advice on how to achieve extra marks, and a thorough and focused breakdown of the key topics and cases. Revision guides you can rely on: trusted by lecturers, loved by students... "I have always used OUP revision and Q&A books and genuinely believe they have helped me get better grades" - Anthony Poole, law student, Swansea University "The detail in this revision textbook is phenomenal and is just what is needed to push your exam preparation to the next level". - Stephanie Lomas, law student, University of Central Lancashire "It is a little more in-depth than other revision guides, and also has clear diagrams and teaches ways to obtain extra marks. These features make it unique" - Godwin Tan, law student, University College London "The concentrate revision guides stand out against other revision guides" - Renae Haynes Williams, law student, Bangor University "The exam style questions are brilliant and the series is very detailed, prepares you well" - Frances Easton, law student, University of Birmingham "The accompanying website for Concentrate is the most impressive I've come across" - Alice Munnelly, law student, Kings College London "-it is a fantastic book. It covers absolutely all topics you need for the course". - Emma McGeorge, law student, Strathclyde University This book provides a new analytical framework for legal problems concerning the economic order of the European Union. In order to determine the remaining scope for national economic sovereignty, and the improvement of the economic order of the Community itself, the focus of the book is the contentious relationship between competition and industrial policy under European law. The theoretical perspective used is based on a comparison between the concepts of the Treaty as an economic constitution and as a political constitution. On this basis, the convergence of competition and industrial policy at the Community level is explained as the result of the rationalisation of public policy, and the reduction of the economic independence of the member states. The study concludes that the market

orientation of the European Union is not in doubt, but that a clear link remains to be established between the legitimacy of public intervention in the economy and the distribution of power in the Community system. Despite nearly sixty years of European integration, neither nations nor national loyalties have withered away. On the contrary, national identity rhetoric seems on the rise, not only in politics but also in legal discourse. Lately we have seen a rise in the number of Member States invoking their national identity in an attempt to justify a derogation from a requirement imposed on them by a Treaty article or an EU legislative act, or to legitimize a particular national reading of such an EU norm. Despite this, the European Court of Justice (ECJ) has yet to develop a coherent approach to such arguments, or express a vision of the role national identity should play in EU law. Elke Cloots undertakes this task by providing a principled and coherent scheme for the adjudication of disputes involving claims based on the national identity of a Member State. Should arguments involving national identity be legally relevant? If yes, how should the ECJ approach such identity-related interests? Cloots crafts a normative framework to assist the ECJ in striking the right balance between European integration and respect for the identity concerns at issue. The book combines rigorous theoretical inquiry with thorough analysis of the European Treaties and case law, with particular attention paid to litigation involving domestic measures concerning the national system of government, constitutional rights protections, and language policy. Clarifying the issues at stake and presenting a solution to these problems, this book will be an invaluable resource for the academics, lawyers, and policy makers in the field. From the creators of the UK's bestselling Law Express revision series. Maximise your marks for every answer you write with Law Express Question and Answer. This series is designed to help you understand what examiners are looking for, focus on the question being asked and make even a strong answer stand out. In recent years, the EC has enjoyed a significant increase in its profile at both national and international levels. This book explains how the legal rules which underpin the process of integration in the EC have been shaped in order to give effect to the Community's objectives. It is accordingly suitable as an introductory text designed to expose the reader to the basic constitutional and substantive principles of EC law. Community law exerts an increasingly profound impact on domestic law and this book equips a lawyer unfamiliar with the principles of Community law with an awareness of when and why Community law is of relevance in domestic litigation. The evolution of Community law continues apace. Increasingly, Community law has developed as an instrument of market integration and of market regulation. However, recent years have witnessed controversy about the appropriate allocation of responsibilities between the Community's own institutions and national authorities. This book provides a fully up-to-date assessment of the changing shape of the EC and its legal structure. JOIN OVER HALF A

www.pearsoned.co.uk/lawexpress "The Substantive Law of the EU by Catherine Barnard is the perfect resource for anyone wishing to gain a thorough grasp of the four freedoms in EU law. An introductory chapter outlines the background to EU law in this area: the role of free trade theory, the evolution and expansion of the internal market and the fundamental principles underpinning this process. The following sections then provide a detailed examination of the four freedoms - goods, persons, services, and capital - which make up the core of EU law. The fully revised and updated third edition addresses the significant recent developments in EU legislation including expanded coverage of the free movement of services and more detailed consideration of the derogations and limitations to the four freedoms. Regular case studies help to unlock the subtleties of EU law in operation and frequent diagrams and flow charts clarify the more complex areas of substantive law. The book is accompanied by an Online Resource Centre providing: An additional chapter on Intellectual property and the free movement of goods - useful for anyone needing to study this topic, An interactive map of Europe with hot-spots on all EU Member States providing factual information on each country, A timeline of the EU tracing key dates in EU legal history * Electronic copies of the figures from the book are available to lecturers for re-use in lectures and as handouts * A treaty navigation resource enabling the user to look first hand at the key primary sources of law and trace its development and evolution * Video clips from the EU archive demonstrate the important historical context to EU law helping students to appreciate the wider aspects of the EU's development * Web links to useful sources of information provide the ideal platform to online research"-- This study explores the legal issues arising from the The Common Agricultural Policy, the largest item in the EEC budget and the force behind surplus production and many of the institutions of the Community and its finance, detailing the principles that underlie a complex web of changing legislation. EU Law and International Investment Arbitration thoroughly examines the compatibility of ISDS provisions in extra-EU BITs and the Energy Charter Treaty with the autonomy of EU law, and is a must read for all magistrates and investment practitioners involved in investment arbitrations in or with the EU, as well as for academics interested in the participation of the EU to international dispute resolution or the constitutional construction of the EU judicial system. Law Express Question and Answer: Employment Law is designed to ensure you get the most marks for every answer you write by improving your understanding of what examiners are looking for, helping you to focus in on the question being asked and showing you how to make even a strong answer stand out. This volume is a study into the norms that come into play in the translation of European Union legislation. With a focus on expressions of modality, the study adopts a corpus-based Descriptive Translation Studies approach to analyse the translation strategies used in a bilingual English/Italian parallel corpus of European Union legislation and identify the most frequent translational patterns. The book outlines the principles at the basis of the multilingual policy at the European Union and provides a detailed outline of the context in which the drafting and translation processes take place as a key to understanding the translational choices. The impact of sometimes contrasting factors such as the conventions of legal drafting at the European Union and those within the target culture, the principle of equal authenticity and the attention to the quality and readability of legislative texts is revealed in the analysis. Evidence in support of the theories concerning translation universals is also found and their implications for EU legal translation are discussed. The results lead to the formulation of several hypotheses as regards the norms governing the translation of EU legislative texts. The book also reflects on the impact that the translational choices have on the development of European Union legal language as an independent variety. This volume will be of interest to researchers and students in the fields of Legal Translation Studies and Linguistics, as well as practising translators. Revise with the help of the UK's bestselling law revision series. Designed for students, this book will help you: Understand how to review essential cases, statutes, and legal terms Learn how to assess and approach the

subject by using expert advice Learn how to lead further discussions Find additional support on our Law Express companion website, which contains a host of extra resources to provide you with pre-exam guidance. Visit go.pearson.com/uk/lawexpress Ewan Kirk is a Senior Lecturer and Course Director of the LLB (Hons) Law course in the School of Law at Birmingham City University. This open access book seeks to identify the ethical spirit of European Union (EU) law, a context in which we can observe a trend towards increasing references to the terms 'ethics' and 'morality'. This aspect is all the more important because EU law is now affecting more and more areas of national law, including such sensitive ones as the patentability of human life. Especially when unethical behaviour produces legal consequences, the frequent lack of clearly defined concepts remains a challenge, particularly against the background of the principle of legal certainty. This raises the question to which extent the content of these references is determined and whether it is possible to identify an ethical spirit of EU law. Answering that question, in turn, entails addressing the following questions: In references to ethics concerning EU law, can we identify references to a particular theory of practical philosophy at all; and, if so, to one or more normative ethical theories (deontology, consequentialism, or virtue ethics)? Further, should these non-legal concepts be imported in an unaltered way ("absolute approach"), or be adapted to the legal context ("relative approach")? This book explores the different layers of EU law (primary law, agreements, secondary law, and tertiary law), including the role of ethics in EU lawmaking and in EU case law, as well as the implementation of relevant EU directives in selected Member States. In addition to the above-mentioned normative philosophical lens, the book also analyzes the findings from the legal lens of EU integration, i.e., especially EU values, human rights and the cornerstone of human dignity. "Revising with this series is like having a tutor there..." Mariette Jones, Middlesex University

Maximise your marks for every answer you write with Law Express Question and Answer. This series is designed to help you understand what examiners are looking for, focus on the question being asked, and make your answers stand out. Visit www.pearsoned.co.uk/lawexpressqa This book examines the emergence, role and future of the EU as an actor in world politics. The core areas of European foreign policy are analysed both theoretically and empirically. This fully updated new edition explains and analyses the latest theoretical

developments. A considered balance of depth, detail, context, and critique, Directions books offer the most student-friendly guide to the subject; they empower students to evaluate the law, understand its practical application, and approach assessments with confidence. The Law Express series is designed to help you revise effectively. This book is your guide to understanding essential concepts, remembering and applying key legislation and making your answers stand out! This collection of essays brings together contributions from judges, legal scholars and practitioners in order to provide a comprehensive assessment of the law and practice of exceptions from the principle of free movement. It aims: - to conceptualise how justification arguments relating to exceptions to free movement operate in the case law of the Court of Justice of the European Union and national courts; - to develop a comprehensive and original account of empirical problems on the application of proportionality; - to explore the legal and policy issues which shape the interactions between the EU and national authorities, including national courts, in the context of the efforts made by Member States to protect national differences. The book analyses economic, social, cultural, political, environmental and consumer protection justifications. These are examined in the light of the rebalancing of the EU constitutional order introduced by the Lisbon Treaty and the implications of the financial crisis in the Union. Blueprints provide a unique plan for studying the law, giving a visual overview of the vital building blocks of each topic and the various outside influences that come together in the study of law. This series enables the reader to place everything within memorable context and is useful in providing an overview of the law. Each text offers a clear understanding of legal study and an engaging introduction to each subject; presenting the study of law as both an academic subject and a force in society. The texts map to undergraduate law degree programmes and are tailored for use harmoniously alongside core law material. Routledge QandAs give you the tools to practice and refine your exam technique, showing you how to apply your knowledge to maximum effect in an exam situation. Each book contains up to fifty essay and problem-based questions on the most commonly examined topics, complete with expert guidance and fully worked model answers. These books provide you with the skills you need for your exams by: Helping you to be prepared: each title in the series has an introduction presenting carefully tailored advice on how to approach assessment for your subject Showing you what examiners are looking for: each question is annotated with both a short overview on how to approach your answer, as well as footnoted commentary that demonstrate how model answers meet marking criteria Offering pointers on how to gain marks, as well as what common errors could lose them: ♦Aim Higher♦ and ♦Common Pitfalls♦ offer crucial guidance throughout Helping you to understand and remember the law: diagrams for each answer work to illuminate difficult legal principles and provide overviews of how model answers are structured Books in the series are also supported by a

Companion Website that offers online essay-writing tutorials, podcasts, bonus QandAs and multiple-choice questions to help you focus your revision more effectively. In the post-9/11 world, the European Union has been trying to define its international presence in a way which corresponds to its economic power and enlarged membership. In an effort to assert its identity on the international scene, it has developed a very wide range of economic relations with third countries and international organisations. It has also developed a Common Foreign and Security Policy in the context of which it is gradually shaping its Security and Defence Policy. These policies are carried out on the basis of distinct, albeit interrelated sets of legal rules. This book provides a comprehensive and systematic analysis of these economic, political and security aspects of the relations of the European Union with the rest of the world. It examines their genesis, development and interactions and places them in the specific context of the establishment of the internal market and the broader context of the increasingly interdependent international economic and geopolitical environment. Issues covered include the coexistence of Community and national competence in external relations, the approach of the Court of Justice to international law, the negotiation, conclusion and implementation of international agreements, the relationship between EC and WTO law and the development of the political and security policies of the Union. The book will be of interest to academics, practitioners and students of EU law. This revision guide is designed to help get the most out of every answer by improving your understanding of what examiners are looking for, helping you to focus in on the question being asked and showing how even a good answer can be improved. Making use of legal, economic and political sources, this book offers an analysis of the evolution, operation and regulation of the EU's policies on restrictive practices, monopolies and mergers, and state aid. What is the federal philosophy inspiring the structure of European law? The federal principle stands for constitutional arrangements that find "unity in diversity". The two most influential manifestations of the federal principle emerged under the names of "dual" and "cooperative" federalism in the constitutional history of the United States of America. Dual federalism is based on the idea that the federal government and the State governments are co-equals and each is legislating in a separate sphere. Cooperative federalism, on the other hand, stands for the thought that both governments legislate in the same sphere. They are hierarchically arranged and complement each other in solving a social problem. Can the European Union be understood in federal terms? The book's general part introduces three constitutional traditions of the federal idea. Following the American tradition, the European Union is defined as a Federation of States as it stands on the "middle ground" between international and national law. But what federal philosophy has the European Union followed? The special part of the book investigates the structure of European law. Three arguments are advanced to show the evolution of the

European legal order from dual to cooperative federalism. The first looks at the decline of constitutional exclusivity on the part of the Member States and the European Union. For almost all objects of government, the Union and its States operate in a universe of shared powers. The second argument analyses the decline of legislative exclusivity. European and national legislation - increasingly - complement each other to solve a social problem. The third argument describes the "constitutionalisation" of cooperative federalism in the form of the principle of subsidiarity and the idea of complementary competences. A final Chapter is dedicated to Europe's foreign affairs federalism. It analyses, whether the external sphere must be regarded as subject to different constitutional or federal principles. The book concludes that cooperative federalism will benefit both levels of government - the Union and the Member States - as the constitutional mechanism of uniform European standards complemented by diverse national standards best expresses the federal idea of "unity in diversity". What purpose does the EU serve? Why and how was it set up? How does it work? What has it already achieved for its citizens, and what new challenges does it face today? How can citizens get more involved? In an age of globalisation, can the EU compete successfully with other major economies and maintain its social

standards? Can Europe continue to play a leading role on the world stage and help protect against terrorism? These are just some of the questions Pascal Fontaine - EU expert and former university lecturer - explores in the new 2007 edition of his popular booklet "Europe in 12 lessons." Law Express: EU Law is designed to help you to relate all the reading and study throughout your course specifically to exam and assignment situations. Understand quickly what is required, organise your revision, and learn the key points with ease, to get the grades you need. Tested with examiners and students. 'I used Law Express books (along with other textbooks) to study every module. They were extremely helpful, especially when it came time to revise for my first year exams. I strongly believe that the Law Express books were key in the success I achieved in my first year exams ...

'Graham K. Law of the European Union Sixth Edition John Fairhurst The new edition of Law of the European Union has been fully updated to include all recent changes in this rapidly expanding area of the law. The book clearly and accurately explores constitutional and administrative law as well as the major areas of substantive law which are also considered in the context of implementation within the UK. Topics are extensively illustrated with decisions from the European Court of Justice and Court of First Instance enabling students to consider the principles of law in a realistic context. New to this edition

- *Ratification problems with the proposed Constitutional Treaty and its future.
- *Incorporation of all the changes to the structure of the European Union following Bulgaria and Romania's accession to the EU on 1 January 2007.
- *Significant case law development with particular reference to judicial review, state liability and EU citizenship.
- *Detailed examination of Directive 2004/38 on the right of entry and residence of EU citizens and their family members.
- *Consideration of Directive 2005/36 on the recognition of professional qualifications.

Key features

- *Clearly distinguished case summaries encourage students to quickly recognize the key cases and differentiate them from surrounding commentary.
- *New two colour text design and larger format enable students to follow the text with ease.
- *Chapter summaries highlight the main points covered in each chapter, cementing understanding.
- *Concise, comprehensive coverage combined with a clear principle led approach.
- *Four part structure which clearly highlights the main topics covered.

Online Support Companion Website (www.pearsoned.co.uk/fsls) offers students:

- *Bi-annual legal updates.
- *Tutorial style questions and answers for each topic covered in the textbook.
- *Self-test multiple-choice questions to help students assess their progress.
- *Glossary of legal and commonly-used EU terms.
- *Web links to online European Law resources.
- *Flashcards designed to test understanding of key vocabulary.
- *Lecturers are supported through access to a new European Law Testbank.
