**Pop's Bridge** Dec 16 2021 The Golden Gate Bridge. The impossible bridge, some call it. They say it can't be built. But Robert's father is building it. He's a skywalker--a brave, high-climbing ironworker. Robert is convinced his pop has the most important job on the crew . . . until a frightening event makes him see that it takes an entire team to accomplish the impossible. When it was completed in 1937, San Francisco's Golden Gate Bridge was hailed as an international marvel. Eve Bunting's riveting story salutes the ingenuity and courage of every person who helped raise this majestic American icon. Includes an author's note about the construction of the Golden Gate Bridge.

**The Family Under the Bridge** Apr 27 2020 This is the delightfully warm and enjoyable story of an old Parisian named Armand, who relished his solitary life. Children, he said, were like starlings, and one was better off without them. But the children who lived under the bridge recognized a true friend when they met one, even if the friend seemed a trifle unwilling at the start. And it did not take Armand very long to realize that he had gotten himself ready-made family; one that he loved with all his heart, and one for whom he would have to find a better home than the bridge. Armand and the children's adventures around Paris -- complete with gypsies and a Santa Claus -- make a story which children will treasure.

**Drawdown** Feb 24 2020 • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, *What We Think About When We Try Not To Think About Global Warming* “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, *Vox* “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

*The Bridge Home* May 09 2021 "Readers will be captivated by this beautifully written novel about young people who must use their instincts and grit to survive. Padma infuses her story with hope and bravery that will inspire readers."--Aisha Saeed, author of the New York Times Bestseller *Amal Unbound* Four determined homeless children make a life for themselves in Padma Venkatraman's stirring middle-grade debut. Life is harsh on the teeming streets of Chennai, India, so when runaway sisters Viji and Rukku arrive, their prospects look grim. Very quickly, eleven-year-old Viji discovers how vulnerable they are in this uncaring, dangerous world. Fortunately, the girls find shelter--and friendship--on an abandoned bridge that's also the hideout of Muthi and Arul, two homeless boys, and the four of them soon form a family of sorts. And while making their living scavenging the city's trash heaps is the pits, the kids find plenty to take pride in, too. After all, they are now the bosses of themselves and no longer

dependent on untrustworthy adults. But when illness strikes, Viji must decide whether to risk seeking help from strangers or to keep holding on to their fragile, hard-fought freedom.
