Macrocognition: The Science and Engineering of Sociotechnical Work Systems May 26 2020 The increasing complexity of work systems and changes in the nature of workplace technology over the past century have resulted in an exponential shift in the nature of work activities, from physical labor to cognitive work. Modern work systems have many characteristics that make them cognitively complex: They can be highly interactive; comprised of multiple agents and artifacts; information may be limited and distributed across space and time; task goals are frequently ill-defined, conflicting, dynamic and emergent; planning may only be possible at general levels of abstraction or require adaptive solutions; some degree of proficiency or expertise is required; the stakes are often high; and uncertainty, time-constraints and stress are seldom absent. To complicate matters further, cognition in complex work settings is typically constrained by broader professional, organizational, and

institutional practice and policy. These features of cognitive work present significant challenges to scientific methodology and theory, and subsequent design of reliable interventions. Historically, philosophers and scientists have attempted to understand the mental activities experienced during cognitive work at multiple levels of analysis using divergent methods. Some have examined cognition at an associative, contextual, functional or holistic level, relying on naturalistic methods to understand the higher mental processes as they work in harmony during goal-directed behavior. Others have embraced experimental methods and favored internal over external validity, often reducing cognition to a psychology of fundamental acts, such as short-term memory access with millisecond shifts in attention. More recently, Macro-cognition has evolved as a complementary paradigm. Macro-cognitive researchers have studied the cognitive functions and processes associated with skilled, adaptive, collaborative, and resilient cognitive work in the context of the aforementioned complexities of psychotechnical and sociotechnical work systems. Typically, this research has been carried out using cognitive task analytic techniques that draw on both naturalistic and (quasi-)experimental methods. The primary goals of research in Macro-cognition are to better understand cognitive adaptations to complexity, to increase our theoretical understanding of the organism-environment relations by studying the mapping between cognitive work and real-world demands, and to promote use-inspired research capable of improving system performance.

Destined to Witness Aug 29 2020 This is a story of the unexpected. In *Destined to Witness*, Hans Massaquoi has crafted a beautifully rendered memoir -- an astonishing true tale of how he came of age as a black child in Nazi Germany. The son of a prominent African and a German nurse, Hans remained behind with his mother when Hitler came to power, due to concerns about his fragile health, after his father returned to Liberia. Like other German boys, Hans went to school; like other German boys, he swiftly fell under the Fuhrer's spell. So he was crushed to learn that, as a black child, he was ineligible for the Hitler Youth. His path to a secondary education and an eventual profession was blocked. He now lived in fear that, at any moment, he might hear the Gestapo banging on the door -- or Allied bombs falling on his home. Ironic,, moving, and deeply human, Massaquoi's account of this lonely struggle for survival brims with courage and intelligence.

Give Us This Day [Illustrated Edition] Jan 02 2021 Includes *The Prisoners Of War In Japanese Hands During World War Two* pack with 130 photos, plans and photos. In *Give Us This Day* a young Oklahoman, a survivor of Bataan, reveals the terrible truth about a little-known aspect of the Pacific war as he experienced it from the beginning in the Philippines. He was a captive of the Japanese for more than three years; he knew one after another all the torments of confinement in conditions of primitive barbarism. True though his story is, it almost defies belief. With touching simplicity he recounts the stark and shocking details of one of the most shameful features of that war -- the treatment of American soldiers who fell into the hands of the Japanese. At first Stewart hated his captors, but in the end hatred gave place to a dawning comprehension that the Japanese were as different from us as the men of Genghis Khan. "It is one of the most harrowing and debilitating chronicles that I have read. . . . He describes the ordeal brilliantly; he harbors no resentments apparently, and he has emerged from an inferno of bestiality with utter serenity." -- Maxwell Geismar, *Saturday Review* "An impressive and moving book." -- David Dempsey, *New York Times* "His is no ordinary prisoner-of-war story; better written than most, it contains no tales of swashbuckling defiance. . . . The force of this book is its testimony to the indomitable strength of the human spirit." -- *Manchester Guardian* "The plain narrative of this story would by itself have been fascinating, but this book is far more than a story, it is a work of art." -- André Siegfried, *Academie Francaise* "Sidney Stewart's composed narrative is one of the most noble documents ever penned by a prisoner of war. The companions he writes

about remained men to the end, until at last only one man remained; he survived to write this unforgettable, this magnificent story." – George Slocombe, New York Herald Tribune [Paris]

While There's Life... Nov 24 2022 "Surviving one more day in the camps was spiritual resistance. The poems in this collection were written by Riva Minska (Ruth Minsky Sender) during her incarceration as prisoner #55082 in the Nazi slave labor camp in Mittelsteine, Germany. She wrote them in little notebooks while hiding in her bunk. Every Sunday, she would read these moving verses aloud to the 50 other women in the room. They were her critical and faithful audience. She endeavored to depict scenes from their lives—their anguish, their pain and their longings—to give everyone a little courage and the will to continue. As her mother, Nacha Minska, used to say: 'While there's life, there's hope.' This was how they spent their Sundays, and anyone who had a bit of talent did their best to bring a little happiness into their tragic lives"—back cover.

Paper Hearts Apr 05 2021 A forbidden gift helps two teenage girls find hope, friendship, and the will to live in this "beautifully told true story about brave young women who refused to be victims and walked out of Auschwitz with their heads unbowed" (*School Library Journal*). An act of defiance. A statement of hope. A crime punishable by death. Making a birthday card in Auschwitz was all of those things. But that is what Zlatka did, in 1944, for her best friend, Fania. She stole and bartered for paper and scissors, secretly creating an origami heart. Then she passed it to every girl at the work tables to sign with their hopes and wishes for happiness, for love, and most of all—for freedom. Fania knew what that heart meant, for herself and all the other girls. And she kept it hidden, through the bitter days in the camp and through the death marches. She kept it always. This novel is based on the true story of Fania and Zlatka, the story of the bond that helped them both to hope for the best in the face of the worst. Their heart is one of the few objects created in Auschwitz, and can be seen today in the Montreal Holocaust Memorial Centre.

After the Holocaust Mar 04 2021 With excerpts from personal interviews and more than sixty-five of the survivors' own black-and-white photographs as well as archival pictures, Howard Greenfeld's landmark book presents an important chapter in

history: the story of young men and women after the Holocaust. Ann, George, Civia, Alicia, Akiva, Judith, Larry, and Tonia. In many ways, these young people are just like all of us. But their stories are extraordinary, because they lived through one of the unspeakable tragedies in human history -- the Holocaust of World War II. On May 8, 1945, when the Allies announced the unconditional surrender of Germany, the war in Europe was over. But the stories of these eight young survivors were far from over. Often adrift and alone, they found themselves fighting to survive in a world that didn't always want them and didn't know where they belonged. In their own words, these Holocaust survivors describe their journeys after liberation, from hiding places and concentration camps through displaced persons camps, illicit border crossings, emigration, and beyond.
