Contains more than 2,500 Western signs, arranged into 54 groups according to their graphic characteristics. In 1,600 articles their histories, uses, and meanings are thoroughly discussed. The signs range from ideograms carved in mammoth teeth by Cro-Magnon men, to hobo signs and subway graffiti. An indepth look at reading treasure maps symbol by symbol. The book also proposes solutions for several well known Spanish treasure maps and symbols found in the Superstition Mountains of Arizona. It goes even further and sixcusses cactus markers for treasure trails in the deserts of the Southwest US and Mexico. Investigates the possible meanings of hex-sign barn decorations, both historically and at the present. An insightful guide and visual directory of over 1000 signs and symbols, richly illustrated with paintings and graphic motifs. "When we are alert to the coincidences in our lives, we experience them more frequently - and they take on greater significance. And once we recognize synchronicities as meaningful, they open us to new information, new possibilities. We suddenly find that we're in the right place at the right time, meet the right people at the right moment, and our lives are changed for the better." --From the Introduction There are signs everywhere, pointing the way to a better life, if you know how to read them. Signs are the stuff that synchronicity is made of - harness the power of synchronicity, and you can transform your life. In this groundbreaking book, bestselling authors Trish and Rob MacGregor reveal the seven secrets that allow you to recognize synchronicity when it happens - and make the most of it. You'll learn to interpret the meaning of the signs you encounter every day, and use such tools as the tarot, I-Ching, and astrology to understand your past, inform your present, and guide your future. Synchronicity - your key to making magic in your own life! In *The 7 Secrets of Synchronicity*, you'll see why there really is no such thing as coincidence - and how your life can be the better for it. Synchronicity is the universal language of transformation - and its secrets reveal how you can live a life rich in fulfillment and meaning and wonder. With this enlightening guide, you'll learn to read the signs all around you and transform your world - one amazing synchronicity at a time! A fascinating insight into the origins of ancient signs and symbols and how to harness their power to benefit your life. Improve your life by embracing the guidance that Spirit sends you each day. Everyone receives sacred signs, messages, and synchronicities, but we don't always notice or know how to interpret them. With *Sacred Signs & Symbols*, you'll develop the ability to recognize, understand, and be guided by the signs all around you. Featuring a glossary of hundreds of signs and their meanings, this comprehensive guide helps you build a personal oracle system for invoking messages in your daily life. Explore a variety of methods for increasing your awareness, including exercises and divination techniques that you can personalize to your needs. You'll also discover ways to connect with loved ones in the spirit realm and expand your perception of the world. No matter where you are or what you're doing, a loving, wise, spiritual presence is offering you advice and comfort through divine messages. Praise: "Sacred Signs & Symbols is a wonderfully grounded and inspiring guide to connecting with the divine in your daily life. With helpful background information, numerous examples, an extensive signs glossary, and Sherrie's beautiful personal insights, this book is a true treasure for your spiritual journey."—Laurie Bonser, author of *The Law of Attraction Meets Financial Stewardship* "Sherrie Dillard has managed to translate the language of the Universe to everyone in such a simple yet powerful way, so that we can all understand it...[Sacred Signs & Symbols is] an amazing translation of the vibrational language of the Universe."—Nianell, multi-award winning singer-songwriter and author of *Knowing Who I Am If You Want To Know What's Behind Your Horoscope... You've Come To The Right Place!* What do you think of astrology and numerology? Are they ancient occult sciences, harmless entertainment, or potentially dangerous frauds? Whatever your opinion, it's always worth learning more about astrology. Maybe you're really serious about understanding the influence of cosmic events and numbers on your life. Maybe you'd like to know that astrology is much more than the horoscopes you find in the newspapers. Or maybe you're just curious about what makes numerology so popular. Unlike most other astrology and numerology books, this one seeks to offer a balanced view. It doesn't force you to believe anything, but rather educates and guides you through all the different schools of thought. And if you decide that you'd like to try astrology or numerology, the book offers handy lists of the best apps that

will provide your horoscope or do all the numerological calculations for you. Here's what you'll learn: - Everything about the connection and the conflict between astronomy and astrology - Why your typical daily and weekly horoscopes are just the tip of the iceberg - Which astrology apps provide you with the most accurate predictions - Is numerology a real science? There's no single answer! - How to simplify your numerological analysis by using apps This book will also educate you about the history of astrology and numerology so you'll know how they developed and where they're heading. It will satisfy your curiosity without forcing any beliefs that you're not ready to accept. That's why this book is PERFECT for skeptics and people who are just curious about astrology and numerology. The Dictionary of Dreams provides the necessary tools to interpret almost every dream object and its hidden meaning to better understand what your subconscious is telling you. Now in a pocket-size edition for easy, on-the-go instruction. Dreams can be fun and adventurous, but also frightening and distorted, and still again, they can be an endless combination of both. From spitting teeth out (a sign of aging), to creepy, crawly spiders (a sign that one feels like an outsider), dreams can mean much more to us once we learn how to decipher their hidden meanings. Whether positive or negative, The Dictionary of Dreams gives you all the tools, symbols, and their true meanings to translate our cryptic nightly images. Starting with selections from classic texts like Interpretation of Dreams by Sigmund Freud, the father of psychoanalysis, and 10,000 Dreams Interpreted by Gustavus Hindman Miller, one of the first authors to complete a thorough study of all the symbols that appear in our dreamscape, this updated edition features revisions (such as the addition of cell phones, computers, televisions, and more) of Miller's original interpretations to bring the book up to speed with our modern life. Unravels dream symbols and their meanings What do reoccurring dreams reveal? What's the purpose of nightmares—and can they be stopped? Why do some people show up in dreams? Are some dreams actually warnings? Going beyond superficial explanations, The Dream Interpretation Dictionary: Symbols, Signs and Meanings brings a deep and rich understanding to a variety of images, signs, and symbols. It considers the context to help anyone complete their own personal jigsaw puzzle. It provides the tools to allow anyone to sort through possible connections and to make sense of their dreams. From entries ranging from "Abandonment" to "Zoo," this massive tome analyzes sex dreams, money dreams, dreams of falling, running, or paralysis and much, much more. It brings profound insights to thousands of dream messages. It shows what to look for and what to ignore and teaches how to master dream interpretation. Examples of symbols are given. The complexity and context of a dream are explored. Signs and their meanings are illustrated. Illuminating the intelligence of dreams, decoding clues, explaining symbols, and revealing the universal meanings of each as well as their subtler associations, The Dream Interpretation Dictionary: Symbols, Signs, and Meanings explores the messages delivered by the unconscious mind during sleep. It examines how dreams connect to daily life. It shows how dreams can lead to deeper understanding and self-awareness. Also included are a helpful bibliography and an extensive index, adding to the book's usefulness. Presents an alphabetical listing of more than twenty-five thousand of the most common dream interpretations and symbols, explaining how dreams convey messages about the past, present, and future. "Messages, Signs, and Meanings can be used directly in introductory courses in semiotics, communications, media, or culture studies. Additionally, it can be used as a complementary or supplementary text in courses dealing with cognate areas of investigation (psychology, mythology, education, literary studies, anthropology, linguistics). The text builds upon what readers already know intuitively about signs, and then leads them to think critically about the world in which they live - a world saturated with images of all kinds that a basic knowledge of semiotics can help filter and deconstruct. The text also provides opportunities for readers to do "hands-on" semiotics through the exercises and questions for discussion that accompany each chapter. Biographical sketches of the major figures in the field are also included, as is a convenient glossary of technical terms." "The overall plan of the book is to illustrate how message-making and meaning-making can be studied from the specific vantage point of the discipline of semiotics. This third edition also includes updated discussions of information technology throughout, focusing especially on how meanings are now negotiated through such channels as websites, chat rooms, and instant messages."--Jacket. This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work. This book details a simple memory system that can teach anyone to recall the star sign for a given birth date. Not only that, it teaches a unique way to remember the character traits of each sign and their compatibility with one another. Comes with ten downloadable FLASH CARDS and AUDIO so you can learn on the go! Do you find remembering the exact dates for the star signs a bit of a challenge? Do you find yourself referring to your favourite star signs book more often than you'd like? IF SO, THIS IS THE BOOK FOR YOU. This book details a simple memory system that can teach anyone to recall the star sign for a given birth date. Not only that, it teaches a unique way to remember the character traits of each sign and their compatibility with one another. If you're fed up being vague about star sign dates and meanings of the star signs instead of looking truly knowledgeable then this book can help you learn this information once and for all. If you're fairly well versed in star signs but still find the dates a problem, this book can help you too (as well as giving you some interesting food for thought.) Seasoned professionals need not apply, this is a book for the rest of us so get our star signs book today! First published in 1969, Signs and Meaning in the Cinema transformed the emerging discipline of film studies. Remarkably eclectic and informed, Peter Wollen's highly influential and groundbreaking work remains a brilliant and accessible theorisation of film as an art form and as a sign system. The book is divided into three main sections. The first explores the work of Sergei Eisenstein as film-maker, designer and aesthetician. The second, which contains a celebrated comparison of the films of John Ford and Howard Hawks, is an exposition and defence of the auteur theory. The third formulates a semiology of the cinema, invoking cinema as an exemplary test-case for comparative aesthetics and general theories of signification. Wollen's Conclusion argues for an avant-garde cinema, bringing post-structuralist ideas into his discussion of Godard and other contemporaries. Published as part of the BFI Silver series, this fifth edition features a new foreword by film theorist David Rodowick and brings together material from the four previous editions, inviting the reader to trace the development of Wollen's thinking, and the unfolding of the discourse of cinema. C.S. Peirce was the founder of pragmatism and a pioneer in the field of semiotics. His work investigated the problem of meaning, which is the core aspect of semiosis as well as a significant issue in many academic fields. Floyd Merrell demonstrates throughout Peirce, Signs, and Meaning that Peirce's views remain dynamically relevant to the analysis of subsequent work in the philosophy of language. Merrell discusses Peirce's thought in relation to that of early twentieth-century philosophers such as Frege, Russell, and Quine, and contemporaries such as Goodman, Putnam, Davidson, and Rorty. In doing so, Merrell demonstrates how quests for meaning inevitably fall victim to vagueness in pursuit of generality, and how vagueness manifests an inevitable tinge of inconsistency, just as generalities always remain incomplete. He suggests that vagueness and incompleteness/generality, overdetermination and underdetermination, and Peirce's phenomenological categories of Firstness, Secondness, and Thirdness must be incorporated into notions of sign structure for a proper treatment of meaning. He also argues that the twentieth-century search for meaning has placed overbearing stress on language while ignoring nonlinguistic sign modes and means. Peirce, Signs, and Meaning is an important sequel to Merrell's trilogy, Signs Becoming Signs', Semiosis in the Postmodern Age, and Signs Grow. This book is not only a significant contribution to the field of semiotics, it has much to offer scholars in literature, philosophy, linguistics, cultural studies, and other academic disciplines in which meaning is a central concern. It feels like each and every day there are more and more issues that drive us apart. Where once it was easy to agree with our fellow man, we now have basic truths where we hold different viewpoints, driving a wedge in our fragile society. Astrology offers the ability to better understand your fellow man the people in your life. There are twelve basic archetype personalities, and these are expressed in the signs of the zodiac. An in-depth study of the sacred meanings behind ancient and enduring symbols • Explains the multiple forms and uses of symbols from ancient times to the present day, reflecting their roots in folk magic and the Western Mystery tradition • Examines more than 40 glyphs, such as the cross, fleur de lis, and pentagram, as well as several families of symbols, such as craftsmen's marks and runes • Includes more than 300

unique woodcuts, drawings, calligraphy, and photographs—many never before reproduced—From ancient rock and cave art to the contemporary brand logos of politics and business, human beings have always created symbols to denote specific ideas, groups, or important objects as well as to convey deeper information than can be communicated in words. Many glyphs have retained their meanings over millennia whereas some have modern meanings vastly different from the original connotation. In this study of symbols, Nigel Pennick explores glyphs as agents of higher consciousness and ports of access to the collective unconscious, acknowledging the continuity of tradition, both deliberate and not, as well as how interpretations of some symbols, such as the swastika, have changed dramatically. With more than 300 unique woodcuts, drawings, calligraphy, and photographs—many never before reproduced—Pennick examines ancient and enduring glyphs in detail, such as the circle, cross, eye, pentagram, fleur de lis, tree of life, and horseshoe, as well as several families of symbols, such as craftsmen's marks, runes, symbolic beasts, human heads and skulls, and the sigils of Mammon. The author explains the multiple forms and uses of each from ancient times to the present day, reflecting their roots in the Western Mystery tradition. He explores the symbols of high magic such as the glyph of John Dee's monad, those of folk magic such as the traditional cock on the weather vane, and the creation of modern glyphs such as the peace sign and the anarchy symbol. Contrasting the hijacked use of power symbols in modern advertising with the vital role of symbols in traditional arts and crafts, Pennick reveals how symbols link the cosmic with the terrestrial and allow us to infuse the mundane with the numinous. How might our understanding of God's Word be deepened if we recognized the significance of the signs and symbols found within its pages—signs that would have been obvious to the original readers? From the tree of life to Noah's ark, from circumcision to animal sacrifice. From the feasts, the Passover lamb, and the manna in the wilderness to the furniture in the tabernacle and the visions of prophets. From the Lord's Supper to baptism and from the cross to the empty tomb. Throughout the Scriptures, signs and symbols weave a consistent message of God's presence, grace, and faithfulness. This illustrated resource will help readers understand key biblical images that reveal God's purposes and truth. Each entry includes multiple illustrations, explanations, and key Bible passages. Sidebars, quotes, and photos make this guide approachable and engaging. This informative and engaging illustrated reference provides the stories behind 1,001 signs and symbols, from ancient hieroglyphs to modern-day political and subculture symbols. What in the world does ? mean? And what about its meaning might have led my coffee date to tattoo it on his entire forearm? Where did the symbol ? originate, and what was its first meaning? How did the ampersand symbol & come about and how was it applied daily in book publishing? And what is the full story behind that staring eye on top of the pyramid on our American dollar bill? This comprehensive guide to signs and symbols explains. Find within: More than 1,000 illustrations An extensive collection of written and cultural symbols, including animals, instruments, stones, shapes, numbers, colors, plants, food, parts of the body, religious and astrological symbols, emojis, and gestures Historical facts culled from a wide variety of sources Learn all about the signs and symbols that surround us and their part in our rich world history. Unlock the lost and hidden meanings of the world's ancient and modern signs and symbols with the latest in the hugely popular series of 'Element Encyclopedias'. This is the biggest A-Z reference book on symbolic objects you'll ever find. This book is based on the author's Forwood Lectures for 1995 in the University of Liverpool. The first two chapters incorporate the full text of these and study early Christian conceptions of signs and signification, and investigate the ways in which Christian authors, especially Augustine of Hippo and Gregory the Great, made use of theories of meaning in their ways of interpreting scriptures. Their interest in the notions of communities based on shared traditions of reading, understanding and interpretation is given special attention. Markus also considers the question of the ways in which different approaches to the Bible have had more far-reaching implications for their authors' world-views: to what extent biblical hermeneutics helped to shape their hermeneutics of experience. Their differing ways of approaching the Bible is related to the huge change in Christian self-understanding between Augustine (c. AD 400) and Gregory the Great (c. 600): ascetic habits of reading come to shape a general response to the world as well as to the biblical text. The lecture texts are complemented by further chapters devoted specifically to the theory of signs and meaning, and to some of its applications in special contexts, such as magic and ritual. Danesi studies the culture, its symbols, myths, and problems of teenage culture as both a serious academic and a parent needing to understand. A guide to hundreds of symbols, signs and ideographs and their meanings, with 1200 images. From ancient hieroglyphs to modern-day graffiti, discover the secrets, origins and meanings of over 2,000 signs and symbols The world around us is filled with signs and symbols. Modern signs like alphabets and flags are universally recognisable, whereas many symbols of ancient derivation are hard to decipher. Explore the fascinating origins and meanings of the signs and symbols people have used over the centuries and discover how they have been interpreted in myth, religion, folklore, art and contemporary culture. Find out why a flag at half-mast is a symbol of mourning, why a heart pierced by an arrow is a symbol of love and the ancient roots of fertility symbols. A study of C. S. Peirce's conception of the sign, with a critique of Saussure and Hjelmslev, Dialogic Semiosis presents a semiotics of the production, transmission, and interpretation of signs in human communication. Jørgen Dines Johansen studies the process of sign creation, how signs fulfill their office of transmitting information between human agents, chiefly through a study of human speech. In the first part of the book, Johansen focuses on Hjelmslev's concept of the sign and the study of semiotic systems. In Part II, he undertakes a detailed explication of Peirce's concepts of the process of signification with the intention of inducing readers to think semiotics with Peirce. In the conclusion, Johansen analyzes a specific micro system from both Hjelmslevian and Peircean perspectives and summarizes the basic features of an intentionally produced semiotic. Originally published: New York: Thunder's Mouth Press, 2006. This monograph is intended as a contribution to the integral description of language and verbal communication. Chapter I and Chapters VII and VIII are concerned with general problems of emotivity and expressivity in language as such and on all linguistic levels. These chapters describe emotivity from a new semiotic perspective and suggest a typology of emotive signs and meanings. Chapter II discusses general methodology of investigating and "measuring" emotive meaning in the area of word-formation (with examples from Russian). Chapters III, IV and V treat Russian diminutives from general-structural, lexical-contextual and pragmatic perspectives, while Chapter VI presents a comparison of the semantic structures of the various types of emotive noun derivatives which exist in Russian. The book thus begins with a general treatment on emotivity, goes on to consider the specific case of emotive noun-formation, giving special attention to the Russian diminutives, and then returns, by way of a comparison of the semantic structures of various types of emotive nouns, to more general problems of emotivity in language and to semiotic typology. An examination of the fundamental principles of astrology discusses the meanings of the various signs of the zodiac and the influence of the planets on human life. "There is nothing quite like this well-researched book."—Library Journal From early cave drawings to modern corporate logos, graphic symbols have been used to convey meanings both tangible and abstract. In this unique dictionary, Carl G. Liungman puts approximately 2,500 Western graphic symbols at your fingertips. Each entry includes the sign's history, its meanings, and the systems in which it is used. Symbols are cross-referenced to other signs with the same meanings and to structurally similar signs with different meanings. Locating an entry is as easy as looking up a word in a dictionary, due to a system that classifies each sign on the basis of three of its structural features. Enhancing the dictionary is a series of fascinating discussions of various aspects of ideograms. These include a discussion of signs and meanings, an overview of the historical development of signs, as well as sections on ancient American ideograms, the astrological system of symbols, the mystical pentagram, and the signs of the alchemists. Two indexes aid the reader. The Word Index specifies signs with a given name or meaning, along with subject headings. The Graphic Index displays symbols based on their structural features. Dictionary of Symbols serves both as a valuable reference on Western cultural history and as a professional tool for those working in design and the arts. This wide-ranging compendium traces symbolism to its ancient roots, examining a vast variety of symbolic images. Covers the basics of astrology, then examines each of the 12 zodiac signs, including their unique traits and meanings and their ideal partners, and how this information can help you better understand the true spiritual essence of yourself and others. Written by leading authorities in psychology and psychotherapy, the book contains chapters on symbols in society, in nature, in myth and sacred tradition, and in the human life cycle, as well as abstract symbols. The structure of the book is thematic, related signs and symbols are complemented and contrasted, giving a unique guide to their cross-cultural aspects. Some of those symbols that have the most complex meanings - such as the cross, the serpent, the rainbow and the wheel - have been singled out and are discussed in individual essays. Learn about the signs you encounter in everyday life with this nonfiction book. Ideal for young readers, this book teaches students all about signs with simple text, vibrant images, a bonus project, a fiction piece related to the topic, and other helpful features. This 20-page full-color book gives examples of relevant signs and conveys their meanings. It also covers important concepts such as following directions and safety, and includes an extension activity for kindergarten. Perfect for the classroom, at-home learning, or homeschool to learn about signs, symbols, and being responsible. Decode the secrets and uncover the origins and meanings of over 2,000 signs and symbols, from ancient hieroglyphs to modern-day logos. Why is a heart pierced by an arrow a classic symbol of love? What are the ancient roots of fertility symbols? Why are scales a symbol of justice? Delve into the meaning of each symbol and investigate how they have been interpreted in myth, religion, folklore, and art over time, with authoritative text from experts in the field and striking line drawings and photography that emphasize the visual strength and beauty of signs. Divided into six thematic sections - the cosmos, the natural world, human life, myths and religions, society and culture, and symbol systems - this guide to the secret language of signs and symbols is a must-have for those who want to understand the world around them.
