Union of Parts Apr 03 2023 Union of Parts examines one of the central puzzles in the economic and political successes of West Germany (FRG). In the decades between world war and reunification with the East, the FRG provided a model for combining high rates of unionization and substantial labor peace—indeed, for collaboration between organized labor and organized capital as both groups faced the dislocations involved in adjusting to a changing global marketplace.

Effective Car Dealer May 24 2022 This is my fourth book on the auto industry, and I have written it because this business is complicated, sophisticated, and ever-changing. Automotive retail is changing slowly, and one of the main reasons for that are the franchise laws. I want to urge you to operate as though franchise laws don't exist to protect you. Carvana is not going anywhere and neither is Amazon. At some point they will join forces. Also, OEM's such as Tesla, Rivian, and many more are going to go directly to the consumer, bypassing the dealer network altogether. At the end of the day, awesome customer service, whether in sales, service, or parts, will keep your customers coming back for more. Poor service and a cumbersome sales experience will drive them elsewhere-Carvana, CarMax, Tesla, Jiffy Lube, Firestone, Good Year, Valvoline, NAPA Parts, Pep Boys, etc.COVID-19 is already having a profound effect on consumer behavior and the way in which we buy and service cars. I predict that there will be two

types of dealers after this pandemic abates-the first will change their business operations, adopting frictionless digital and showroom retail; the second will hope that things go back to normal and that nothing needs to change. Unfortunately, the second type of dealer will be out of business. It is ultimately your choice whether to accept change. Consumers will continue to purchase cars. The only question is: Will they will be buying from you?

Parts and Labor Dec 31 2022 Parts & Labor is poet and playwright Gregory Hischak's new book, which contains poetry, a play, and an author interview. Here's an excerpt from the interview. "Pond Road Press: Parts & Labor sparkles with insight about the intersection of artist endeavor and getting a living. You earn your living as a graphic artist. Could you comment on the balance, or lack of balance, between your artistic life and your work life?" "Gregory Hischak: Well right there you've cut to the bone. So much of the work in this collection, and across all my work in general, is about the seeking of that balance. These disparate, rather jarring elements of my life are seeking some sort of harmony, or at least a place where they won't kill each other-and there's the origin of my writing."
