**A Citizen's Guide to American Foreign Policy** Aug 30 2020 American foreign policy often looks like a trail of man-made debris and disaster. Of course, the explanations for many poorly-made decisions are rather complex. In this brief and cogent analysis, Houghton shows us that understanding American foreign policy often comes down to recognizing the cognitive limitations of the decision-makers, which affects the foreign policy process. Then there is the nature of the decisions themselves. Quite a few decisions in American foreign policy involve 'tragic' choices, where leaders are effectively confronted with a series of progressively bad or uncomfortable options. And it is equally clear that some policies are not the product of any one individual's preferences, but emerge as a consequence of the way in which complex modern governments with large bureaucracies operate. Written with the interested layperson in mind, as well as students of international affairs, this Citizen's Guide to American Foreign Policy asks questions like, "Why do presidents so often do things which seem to be directly against the national interests of the United States – not just in retrospect, but even at the time?" "Why do there seem to be so many fiascoes in US foreign policy?" "Why does Congress sometimes tie the hands of the president in foreign affairs?" "Why do presidents seem to respond more to opinion polls or to what's on CNN and Fox News than they do to the core interests of the United States?" Houghton's overview helps us see past the partisan in-fighting that too often obscures the central issues in foreign affairs. This is vital, required reading for all readers who wish to better understand America's involvement in the world.

The African American Guide to the Bible Mar 05 2021 The African American Guide to the Bible makes the case for the relevance of the Bible from the perspective of people of color. It presents a comprehensive biblical view of topics of interest to African Americans and clarifies racial issues for white people. Part 1 addresses the inspiration of the Bible by giving evidence for its authenticity. A considerable amount of time is spent on examining the original text of the Bible, the archeological evidence, and the evidence from predictive prophecy to demonstrate the uniqueness of the Bible. Part 2 deals with the black presence in the Bible by demonstrating the prominence of people of color and black people in particular by highlighting their importance in the plan of God. It explains what it means to be black and demonstrates that the scientific and biblical evidence are both consistent with respect to race. Part 3 is a response to the arguments of racism used by critics of the Bible, for example, "Christianity is the white man's religion" and "Bible supports slavery and racism." These arguments are examined and evaluated in light of scripture and the context of history. Part 4 deals with the unity of humanity from a biblical perspective. It shows why racism is not only unbiblical but is evil when understood from the perspective of God.
