The Grammar of Fantasy Dec 27 2022 A collection of essays from the visionary storyteller Gianni Rodari about fairy tales and folk tales and their great advantages in teaching creative storytelling. "Rodari grasped children's need to play with life's rules by using the grammar of their own imaginations. They must be encouraged to question, challenge, destroy, mock, eliminate, generate, and reproduce their own language and meanings through stories that will enable them to narrate their own lives." --Jack Zipes "I hope this small book," writes renowned children's author Gianni Rodari, "can be useful for all those people who believe it is necessary for the imagination to have a place in education; for all those who trust in the creativity of children; and for all those who know the liberating value of the word." Full of ideas, glosses on fairytales, stories, and wide-ranging activities, including the fantastic binomial, this book changed how creative arts were taught in Italian schools. Translated into English by acclaimed children's historian Jack Zipes and illustrated for the first time ever by Matthew Forsythe, this edition of *The Grammar of Fantasy* is one to live with and return to for its humor, intelligence, and truly deep understanding of children. A groundbreaking pedagogical work that is also a

handbook for writers of all ages and kinds, *The Grammar of Fantasy* gives each of us a playful, practical path to finding our own voice through the power of storytelling. Gianni Rodari (1920-1980) grew up in Northern Italy and wrote hundreds of stories, poems, and songs for children. In 1960, he collaborated with the Education Cooperation Movement to develop exercises to encourage children's creative and critical thinking abilities. Jack Zipes is a renowned children's historian and folklorist who has written, translated, and edited dozens of books on fairytales. He is a professor at the University of Minnesota. Matthew Forsythe lives in Montreal where he draws and paints for picture books, comics, and animations.

Critique of Fantasy, Vol. 2 Mar 18 2022 In the "Introduction; or, How Star Wars Became Our Oldest Cultural Memory" of the first volume of *Critique of Fantasy*, the gambit of a contest between science fiction and fantasy was already sketched out. J.R.R. Tolkien and C.S. Lewis aimed to separate the fantasy from the techno-science foregrounded in works by H.G. Wells, for example, and raise the fantasy or fairy-story to the power of an alternate adult literary genre. My study of the contest between the B-genres for ownership of the evolution of the social relation of art out of the condemned site of day dreaming required in the first place a reading apparatus, which the first volume derived from psychoanalytic theories of daydreaming's relationship to conscious thought, the unconscious, and artistic production as well as from their prehistory, the philosophies of dreams, ghosts, willing and wishing.

Rhetorics of Fantasy Mar 30 2023

Transcending arguments over the definition of fantasy literature, *Rhetorics of Fantasy* introduces a provocative new system of classification for the genre. Utilizing nearly two hundred examples of modern fantasy, author Farah Mendlesohn uses this system to explore how fiction writers construct their fantastic worlds. Mendlesohn posits four categories of fantasy—portal-quest, immersive, intrusion, and liminal—that arise out of the relationship of the protagonist to the fantasy world. Using these sets, Mendlesohn argues that the author's stylistic decisions are then shaped by the inescapably political demands of the category in which they choose to write. Each chapter covers at least twenty books in detail, ranging from nineteenth-century fantasy and horror to extensive coverage of some of the best books in the contemporary field. Offering a wide-ranging discussion and penetrating comparative analysis, *Rhetorics of Fantasy* will excite fans and provide a wealth of material for scholarly and classroom discussion. Includes discussion of works by over 100 authors, including Lloyd Alexander, Peter Beagle, Marion Zimmer Bradley, John Crowley, Stephen R. Donaldson, Stephen King, C. S. Lewis, Gregory Maguire, Robin McKinley, China Miéville, Suniti Namjoshi, Philip Pullman, J. K. Rowling, Sheri S. Tepper, J. R. R. Tolkien, Tad Williams

[Reflections of Fantasy](#) Jul 30 2020 In Victorian

England non-realistic fiction was largely forced underground, with Alice, into such marginal fiction as fantasy for children. Only now is fantasy beginning to receive the attention it deserves, in both fiction and literary criticism. Beverly Lyon Clark's *Reflections of Fantasy* extends recent theoretical work on fantasy by exploring the technique of the mirror-world. Tracing the fantasy mirror-world in Carroll, Nabokov, and Pynchon allows Clark to shed light on the dialectic central to fantasy, that between the real and the not-real, and also on Victorian and contemporary views of fictional reality, on the use of metaphoric and metonymic modes, on the ramifications of self-consciousness. She explores these themes in analyses of Alice's *Adventures in Wonderland*, *Through the Looking-Glass*, *Anya v strane chudes*, *Pale Fire*, *Ada*, and *The Crying of Lot 49*.
