Who Feb 03 2021 In this instant New York Times Bestseller, Geoff Smart and Randy Street provide a simple, practical, and effective solution to what The Economist calls "the single biggest problem in business today": unsuccessful hiring. The average hiring mistake costs a company \$1.5 million or more a year and countless wasted hours. This statistic becomes even more startling when you consider that the typical hiring success rate of managers is only 50 percent. The silver lining is that "who" problems are easily preventable. Based on more than 1,300 hours of interviews with more than 20 billionaires and 300 CEOs, Who presents Smart and Street's A Method for Hiring. Refined through the largest research study of its kind ever undertaken, the A Method stresses fundamental elements that anyone can implement—and it has a 90 percent success rate. Whether you're a member of a board of directors looking for a new CEO, the owner of a small business searching for the right people to make your company grow, or a parent in need of a new babysitter, it's all about Who. Inside you'll learn how to □ avoid common "voodoo hiring" methods □ define the outcomes you seek □ generate a flow of A Players to your team—by implementing the #1 tactic used by successful businesspeople □ ask the right interview questions to dramatically improve your ability to quickly distinguish an A Player from a B or C candidate □ attract the person you want to hire, by emphasizing the points the candidate cares about most In business, you are who you hire. In Who, Geoff Smart and Randy Street offer simple, easy-to-follow steps that will put the right people in place for optimal success.

Computer Science Resumes and Job-Finding Guide Jun 09 2021 This brand-new book is must-read material for job-hunting computer software engineers, applications and systems programmers, database developers and administrators, systems analysts, security engineers, network engineers, test engineers, and many other specialists in the IT (information technology) profession. An opening chapter gives an overview of today's IT job market with projections through the year 2010, current top job opportunities, and a discussion of new and evolving IT employment opportunities. A following chapter discusses the job-winning process, with advice on rÂ©sumÂ© writing and distribution, getting interviews, and landing a position. The remaining chapters describe the needed IT skill requirements, advise on developing a job-finding strategy, explain how to assess one's own skills, discuss employment strategies and career planning, and cover virtually every other aspect of IT job hunting. The book concludes with 30 sample rÂ©sumÂ©s for today's leading information technology job opportunities.

Effective Management of Student Employment Aug 31 2020 Building on proven methods of effective supervision, this book offers academic librarians a practical guide for the day-to-day challenges that arise in supervising student employees. The authors describe the roles of employees and supervisors and review general management principles. They then explain how to organize for student employment. Hiring,

compensation, orientation and training, and supervision strategies are covered in addition to common problem areas, performance appraisal, employee/employer rights, corrective discipline, and termination procedures. A revision of Baldwin's *Supervising Student Employees in Academic Libraries* (Libraries Unlimited, 1991), this new work has been thoroughly updated. It contains a complete list of job descriptions and detailed information on funding. Answers to frequently asked questions and a glossary of financial aid terms conclude the book.

*The Unwritten Rules of the Highly Effective Job Search: The Proven Program Used by the World's Leading Career Services Company* Feb 27 2023 *The Proven Program Used by 600,000 Job Hunters!* You put hours and hours of hard work into your job search and the companies you've contacted never call. It's a story all too common in the fast-paced, highly competitive world of job hunting. Nothing is more discouraging than sending one resumé after another into the job-hunting void. Eventually, you expect silence from the other end. *The Unwritten Rules of the Highly Effective Job Search* was written so this never happens to you again. These techniques, developed by author Orville Pierson, have been used successfully for ten years by Lee Hecht Harrison (LHH), the world's premier career services company. Here, Pierson provides you with the job-search techniques that up to now have been limited to the LHH consultants he trains. Orville Pierson has helped thousands of job hunters during his career, taking note of the characteristics that have led to success as well as failure. In *The Unwritten Rules of the Highly Effective Job Search*, he supplies key information on how professional job search consultants structure the job search project so you can apply the same winning strategies to your own search. You'll also be privy to inside information on how decision makers operate, enabling you to get the inside track on job

openings before they are announced. This insider's guide covers every phase of the job search, leading you step by step through the process of creating a clear-cut plan-essential to every job search. Using the Pierson Method, you'll learn how to Develop a Target List (the key ingredient to every job search) Measure your progress Create a "core message" about yourself that decision makers won't forget Present yourself in the best possible light to prospective employers Using these strategies, Orville Pierson and LHH have helped 600,000 people land great new jobs. Employ the Pierson Method in your hunt for employment and you'll soon be doing what you love in the company that's right for you.
