**Social Media Impacts on Conflict and Democracy** Nov 12 2021 Social media technology is having a dramatic impact on social and political dynamics around the world. The contributors to this book document and illustrate this "tectonic" shift on violent conflict and democratic processes. They present vivid examples and case studies from countries in Africa, South and Southeast Asia, Latin America as well as Northern Ireland. Each author maps an array of peacebuilding solutions to social media threats, including coordinated action by civil society, governments and tech companies to protect human minds, relationships and institutions. Solutions presented include inoculating society with a new digital literacy agenda, designing technology for positive social impacts, and regulating technology to prohibit the worst behaviours. A must-read both for political scientists and policymakers trying to understand the impact of social media, and media studies scholars looking for a global perspective.

*Technocracy and the Epistemology of Human Behavior* Sep 29 2020 In Power Without Knowledge: A Critique of Technocracy (2019), Jeffrey Friedman presented a sweeping reinterpretation of modern politics and government as

technocratic, even in many of its democratic dimensions. Building on a new definition of technocracy as governance aimed at solving social and economic problems, Friedman showed that the epistemic demands that such governance places on political elites and ordinary people alike may be overwhelming if technocrats fail to attend to the ideational heterogeneity of the human beings whose control is the object of technocratic power. Yet a recognition of ideational heterogeneity considerably complicates the task of predicting behavior, which is essential to technocratic control—as Friedman demonstrated with pathbreaking critiques of the homogenizing strategies of neoclassical economics, positivist social science, behavioral economics, and populist democratic politics. In *Technocracy and the Epistemology of Human Behavior*, thirteen political theorists, including Friedman himself, debate the implications of *Power Without Knowledge* for social science, modern governance, the politics of expertise, post-structuralism, anarchism, and democratic theory; and Friedman responds to his critics with an expansive defense of his vision of contemporary politics and his political epistemology of ideationally diverse human beings. This book was originally published as a special issue of the *Critical Review*.

**Articulating Intersex: A Crisis at the Intersection of Scientific Facts and Social Ideals** Aug 21 2022 This book explores the ethical dilemma clinicians may face when disclosing a diagnosis of atypical sex. The moment of disclosure reveals an epistemic incompatibility between scientific fact and social meaning in relation to sex. Attempting to assess the bio-psychosocial implications of this dilemma highlights a complex historic antagonism between fact and meaning making satisfactory resolution of this dilemma difficult. Drawing on David Hume, WVO Quine and Michel Foucault the author presents an integrative model, which views scientific fact and social meaning as codetermining threads in one fabric of knowledge. From this epistemic perspective, the ethical dilemma is understood as a tear in the fabric signifying a rupturing of ontological integrity. To mend this tear and resolve the ethical dilemma three metaphysical perspectives are considered: essentialism, naturalism and emergentism. The book's unique features include: an exploration of the impact of diagnostic disclosure on people with atypical sex (intersex); a synthesis of the epistemic perspectives of social and natural science facilitating interdisciplinary collaboration; a critical evaluation of three metaphysical perspectives on atypical sex (intersex); the application of Hume's epistemological and moral distinctions to contemporary biomedicine and bioethics. The book's target audience includes academics, students and professionals whose work intersects the natural and social sciences, and individuals interested in the metaphysics, epistemology and meta-ethics of sex.

**Data Democracy** Dec 25 2022 *Data Democracy: At the Nexus of Artificial Intelligence, Software Development, and Knowledge Engineering* provides a manifesto to data democracy. After reading the chapters of this book, you are informed

and suitably warned! You are already part of the data republic, and you (and all of us) need to ensure that our data fall in the right hands. Everything you click, buy, swipe, try, sell, drive, or fly is a data point. But who owns the data? At this point, not you! You do not even have access to most of it. The next best empire of our planet is one who owns and controls the world's best dataset. If you consume or create data, if you are a citizen of the data republic (willingly or grudgingly), and if you are interested in making a decision or finding the truth through data-driven analysis, this book is for you. A group of experts, academics, data science researchers, and industry practitioners gathered to write this manifesto about data democracy. The future of the data republic, life within a data democracy, and our digital freedoms An in-depth analysis of open science, open data, open source software, and their future challenges A comprehensive review of data democracy's implications within domains such as: healthcare, space exploration, earth sciences, business, and psychology The democratization of Artificial Intelligence (AI), and data issues such as: Bias, imbalance, context, and knowledge extraction A systematic review of AI methods applied to software engineering problems

**Let Them See You** Dec 01 2020 The guide to getting hired, being promoted, and thriving professionally for the 40 million people of color in the workplace—from the CEO and cofounder of Jopwell, the leading career advancement platform for Black, Latinx, and Native American students and professionals. *Let Them See You* is a collection of Braswell's straight-talking advice and mentorship for diverse careerists, from college students to mid-level professionals. It's also an invitation for diversity champions to listen in on the guidance and perspective Braswell provides, particularly for young diverse workers—the population that will make up the majority of the US workforce by 2030. In *Let Them See You*, Braswell briefly chronicles how the majority-culture workplace evolved and why it's a business imperative to have a more diverse workforce, and then explains how you can:

- overcome not-so-invisible obstacles
- create perceived value
- get recognition
- be true to yourself at work
- build a personal brand
- harness fear of failure
- embrace uncomfortable conversations, and
- drive diversity and inclusion, whether you're entry-level or in management

In essence, Braswell delivers all the context, tactics, and language you need to let them see you.

*Social Statistics for a Diverse Society* Apr 29 2023 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. The Ninth Edition of *Social Statistics for a Diverse Society* continues to emphasize intuition and common sense, while demonstrating the link between the practice of statistics and important social issues. Recognizing that we live in a world characterized by a growing diversity and richness of social differences, best-selling

authors Frankfort-Nachmias, Leon-Guerrero, and Davis help students learn key statistical concepts through real research examples related to the dynamic interplay of race, class, gender, and other social variables. The text also helps readers develop important skills such as problem-solving (through a rich variety of exercises), use of statistical software (both SPSS and Excel), and interpreting research literature. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. **The New Marketing** Oct 11 2021 In our hyper-connected world that is changing at warp speed, marketers recognize the need to shift from traditional marketing methods to a new way that can help them better navigate the unpredictable environment. For traditionalists, this change has posed a challenge. Many have tried to incorporate new approaches into the old models they grew up with, only to be frustrated with the results. From the bestselling authors of *The Social Employee*, and LinkedIn Learning course authors, comes a powerful new textbook that cracks the marketing code in our hyper-focused digital age. *The New Marketing*, with contributions spanning CMO trailblazers to martech disruptors, behavioral economics luminaries at Yale to leading marketing thinkers at Kellogg and Wharton, is a GPS for navigating in a digital world and moves the craft of marketing through the forces of marketing transformation. We can't predict the future. But our goal is to help make Masters/MBA students and marketing practitioners future-ready and successful.

*A review of school feeding programmes in the Caribbean Community* Aug 09 2021 This review provides a snapshot of the state-of-art of School Feeding Programmes in 14 of the 15 CARICOM Member States. It provides an overview of the different models of school feeding programmes that currently exist in the Caribbean, challenges faced and recommendations for improvement. Among the aspects evaluated include: the governance structure, nutritional quality of meal served, linkages with small farmers for the procurement of products used in the meals, involvement of children in school gardens related activities, etc. The document includes a case study for each of the participating countries (namely Antigua and Barbuda, Bahamas, Barbados, Belize, Dominica, Grenada, Guyana, Haiti, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Suriname and Trinidad and Tobago). For each of these countries, an Annual Net Benefit Analysis was conducted, using information collected in 2017. The aim is that the document can provide preliminary information and recommendations that can be relevant for governments, public organizations, donors, opinion leaders, private sectors, and

others toward strengthening school feeding programmes in the Caribbean. It was developed with the support of the University of the West Indies and the Caribbean Agro-Economic Society under the leadership of Prof. Carlisle Pemberton and Dr. Hazel Paterson-Andrews.

Principles of Integrated Marketing Communications Nov 24 2022 Marketing in the digital age poses major challenges for traditional and established practices of communication. To help readers meet these challenges *Principles of Integrated Marketing Communications: An Evidence-based Approach* provides a comprehensive foundation to the principles and practices of integrated marketing communications (IMC). It examines a variety of traditional and digital channels used by professionals to create wide-reaching and effective campaigns that are adapted for the aims of their organisations. This edition has been thoroughly revised and each chapter includes: case studies of significant and award-winning campaigns from both Australian and international brands that illustrate the application of explored concepts; discussion and case study questions that enable readers to critically evaluate concepts and campaigns; a managerial application section that illustrates how concepts can be applied effectively in a real situation; a 'further thinking' section that expands knowledge of advanced concepts and challenges readers to think more broadly about IMC.

*Accessibility and Diversity in the 21st Century University* Jun 07 2021 In higher education institutions across the world, rapid changes are occurring as the socio-economic composition of these universities is shifting. The participation of females, ethnic minority groups, and low-income students has increased exponentially, leading to major changes in student activities, curriculum, and overall campus culture. Significant research is a necessity for understanding the need of broader educational access and promoting a newly empowered diverse population of students in today's universities. *Accessibility and Diversity in the 21st Century University* is a pivotal reference source that provides vital research on the provision of higher educational access to a more diverse population with a specific focus on the growing population of women in the university, key intersections with race and sexual preference, and the experiences of low-income students, mid-career and reentry students, and special needs populations. While highlighting topics such as adult learning, race-based achievement gaps, and women's studies, this publication is ideally designed for educators, higher education faculty, deans, provosts, chancellors, policymakers, sociologists, anthropologists, researchers, scholars, and students seeking current research on modern

advancements of diversity in higher education systems.

*How to Conduct Qualitative Research in Social Science* Feb 21 2020 Explaining both the theoretical and practical aspects of doing qualitative research, the book uses examples from real-world research projects to emphasise how to conduct qualitative research in the social sciences. Pranee Liamputtong draws together contributions covering qualitative research in cultural and medical anthropology, sociology, gender studies, political science, criminology, demography, economic sciences, social work, and education.

**Circular Economy and Sustainability** Jan 02 2021 The concept of circular economy is based on strategies, practices, policies, and technologies to achieve principles related to reusing, recycling, redesigning, repurposing, remanufacturing, refurbishing, and recovering water, waste materials, and nutrients to preserve natural resources. It provides the necessary conditions to encourage economic and social actors to adopt strategies toward sustainability. However, the increasing complexity of sustainability aspects means that traditional engineering and management/economics alone cannot face the new challenges and reach the appropriate solutions. Thus, this book highlights the role of engineering and management in building a sustainable society by developing a circular economy that establishes and protects strong social and cultural structures based on cross-disciplinary knowledge and diverse skills. It includes theoretical justification, research studies, and case studies to provide researchers, practitioners, professionals, and policymakers the appropriate context to work together in promoting sustainability and circular economy thinking. Volume 1, *Circular Economy and Sustainability: Management and Policy*, discusses the content of circular economy principles and how they can be realized in the fields of economy, management, and policy. It gives an outline of the current status and perception of circular economy at the micro-, meso-, and macro-levels to provide a better understanding of its role in achieving sustainability. Volume 2, *Circular Economy and Sustainability: Environmental Engineering*, presents various technological and developmental tools that emphasize the implementation of these principles in practice (micro-level). It demonstrates the necessity to establish a fundamental connection between sustainable engineering and circular economy. Presents a novel approach, linking circular economy concepts to environmental engineering and management to promote sustainability goals in modern societies Approaches the topic on production and consumption at both the micro and macro levels, integrating principles with practice Offers a range of theoretical and foundational knowledge in addition to case studies that demonstrate the potential impact of circular economy principles on both economic and societal progress

**Shaping the Future of Education, Communication and Technology** Apr 05 2021 This book gathers selected papers from the Hong Kong Association for Educational Communications and Technology 2019 International Conference on the theme of "Shaping the Future of Education, Communication and Technology." It contributes to a scholarly discussion that looks beyond what future media and technology can offer for education, and reflects on best practices and lessons learned from applying new media and technology in a wide range of fields. Scholars from educational technology, communication, and higher education share their research work in various formats such as empirical research, best-practice case studies, literature reviews, etc. The topics of the papers are divided into four main areas, including curriculum, pedagogy and instructional design; teaching and learning experiences with technology; online learning and open education resources; and communication and media. The book's unique quality is its combination of perspectives and research work on communication, education and technology. Thus, it will encourage an interdisciplinary discourse and exchange concerning communication, new media, and educational practices.

**Military Social Work Around the Globe** Jun 19 2022 This is the first book to focus on the scope of social work practice within military settings from an international perspective, and therefore addresses what has been a significant gap in the literature. Given the critical support needs of military personnel and their families worldwide, and the expanding role of social work in responding to these needs, this book offers a comprehensive global understanding of the common military social work (MilSW) practices with active duty military service members and their families, as well as the forms of practice and approaches that are unique, or potentially transferable across nations. Based on a systematic inquiry conducted by the Editors, there are at least 25 countries that have social workers working directly within their country's military in either a

civilian or uniformed capacity, or both. This book includes contributions from experts in Australia, Canada, Denmark, Finland, Ireland, Israel, the Netherlands, New Zealand, South Africa, the UK, and the USA, who describe various aspects of the MilSW role within their country and the research that informs what military social workers do. The MilSW similarities and differences among these countries are highlighted, including developmental milestones, practice settings, practice orientation and approach, ethical dilemmas, military to veteran transition support, and past and current challenges. Experts from countries that do not yet have MilSW but are interested in developing it (Japan, Ukraine) or are in the process of establishing this area of practice (Slovakia), also contribute chapters about these developments and the evidence base that supports this direction. *Military Social Work Around the Globe* is a valuable resource for social work programs and essential reading for instructors and students in MilSW electives and specializations. It is also pertinent reading for occupational social work and international social work courses. In addition, this book is an important source of information for military social workers who would like to gain insights into existing programs and the possibilities for international collaboration, and for countries interested in developing MilSW.

**Shaping Summertime Experiences** May 26 2020 For children and youth, summertime presents a unique break from the traditional structure, resources, and support systems that exist during the school year. For some students, this time involves opportunities to engage in fun and enriching activities and programs, while others face additional challenges as they lose a variety of supports, including healthy meals, medical care, supervision, and structured programs that enhance development. Children that are limited by their social, economic, or physical environments during the summer months are at higher risk for worse academic, health, social and emotional, and safety outcomes. In contrast, structured summertime activities and programs support basic developmental needs and positive outcomes for children and youth who can access and afford these programs. These discrepancies in summertime experiences exacerbate pre-existing academic inequities. While further research is needed regarding the impact of summertime on developmental domains outside of the academic setting, extensive literature exists regarding the impact of summertime on academic development trajectories. However, this knowledge is not sufficiently applied to policy and practice, and it is important to address these inequalities. *Shaping Summertime Experiences* examines the impact of summertime experiences on the developmental trajectories of school-age children and youth across four areas of well-being, including academic learning, social and emotional development, physical and mental health, and health-promoting and safety behaviors. It also reviews the state of science and available literature regarding the impact of summertime experiences. In addition, this report provides recommendations to improve the experiences of children

over the summertime regarding planning, access and equity, and opportunities for further research and data collection.

**Social Justice for Children and Young People** Oct 23 2022 According to the Convention on the Rights of the Child, the goal of a social justice approach for children is to ensure that children “are better served and protected by justice systems, including the security and social welfare sectors.” Despite this worthy goal, the UN documents how children are rarely viewed as stakeholders in justice rules of law; child justice issues are often dealt with separate from larger justice and security issues; and when justice issues for children are addressed, it is often through a siloed, rather than a comprehensive approach. This volume actively challenges the current youth social justice paradigm through terminology and new approaches that place children and young people front and center in the social justice conversation. Through international consideration, children and young people worldwide are incorporated into the social justice conversation.

**Social Psychology, Third Edition** Jan 14 2022 This definitive work--now extensively revised with virtually all new chapters--has introduced generations of researchers to the psychological processes that underlie social behavior. What sets the book apart is its unique focus on the basic principles that guide theory building and research. Since work in the field increasingly transcends such boundaries as biological versus cultural or cognitive versus motivational systems, the third edition has a new organizational framework. Leading scholars identify and explain the principles that govern intrapersonal, interpersonal, intragroup, and intergroup processes, in chapters that range over multiple levels of analysis. The book's concluding section illustrates how social psychology principles come into play in specific contexts, including politics, organizational life, the legal arena, sports, and negotiation. New to This Edition \*Most of the book is entirely new. \*Stronger emphasis on the contextual factors that influence how and why the basic principles work as they do. \*Incorporates up-to-date findings and promising research programs. \*Integrates key advances in such areas as evolutionary theory and neuroscience.

**The Death of Truth** May 18 2022 NEW YORK TIMES BESTSELLER • From the Pulitzer Prize–winning critic comes an impassioned critique of America’s retreat from reason We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right

and the left—that have combined to elevate subjectivity over factuality, science, and common values. And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times.

The Routledge Handbook on Financial Social Work Apr 24 2020 The Routledge Handbook on Financial Social Work explicates the financial needs, issues, and interventions within populations and theoretical approaches, and it assists clinician practitioners in intervening expertly and comprehensively. This book covers a range of issues in populations seeking services around complex financial needs and struggles, including those in the child welfare system; those with housing issues or facing homelessness; those coping with chronic and acute medical and psychiatric illnesses; those recovering from interpersonal violence; those facing recovery from incarceration; children and families involved in the child welfare system; and much more. In addition, policies will be woven in to inform the work. This book thoroughly explores research and evidence-based interventions around each population, and teaches clinicians to understand and treat financial distress holistically and empathically. This handbook will explain why understanding financial capability in these populations is so critical and how clinicians can step up their practices to meet those needs. Professionals from multiple disciplines ranging from financial therapists to social workers to financial coaches to financial planners will find this handbook eminently useful.

**Out-Innovate** Dec 21 2019 The new playbook for innovation and startup success is emerging from beyond Silicon Valley-- at the "frontier." Startups have changed the world. In the United States, many startups, such as Tesla, Apple, and Amazon, have become household names. The economic value of startups has doubled since 1992 and is projected to double again in the next fifteen years. For decades, the hot center of this phenomenon has been Silicon Valley. This is changing fast. Thanks to technology, startups are now taking root everywhere, from Delhi to Detroit to Nairobi to Sao Paulo. Yet despite this globalization of startup activity, our knowledge of how to build successful startups is still drawn primarily from Silicon Valley. As venture capitalist Alexandre Lazarow shows in this insightful and instructive book, this Silicon Valley "gospel" is due for a refresh--and it comes from what he calls the "frontier," the growing constellation of startup ecosystems, outside of the Valley and other major economic centers, that now stretches across the globe. The frontier is a truly different world where startups often must cope with political or economic instability and lack of infrastructure, and where there might be little or no access to angel investors, venture capitalists, or experienced employee pools. Under such conditions, entrepreneurs must be creators who build industries rather than disruptors who change them because there are few existing businesses to disrupt. The companies they create must be global from birth because local markets are too small. They focus on resiliency and sustainability rather than unicorn-style growth at any cost. With rich and wide-ranging stories of frontier innovators from around the world, *Out-Innovate* is the new playbook for innovation--wherever it has the potential to happen.

**Truth Decay** Jul 08 2021 Political and civil discourse in the United States is characterized by "Truth Decay," defined as increasing disagreement about facts, a blurring of the line between opinion and fact, an increase in the relative volume of opinion compared with fact, and lowered trust in formerly respected sources of factual information. This report explores the causes and wide-ranging consequences of Truth Decay and proposes strategies for further action.

*Cases on Applying Knowledge Economy Principles for Economic Growth in Developing Nations* May 06 2021 The knowledge economy is the added non-monetary value that society accrues from increased access to data, information, and knowledge in the new, globally connected world. ICT and technology innovation are paving the way for significant economic development opportunities for countries that have embarked in a concerted effort to model their economies according to the knowledge economy principles. Among developing countries, knowledge economy principles are being applied mostly in a sector-wise level, where government intervention with enabling policies coupled with joint efforts by the private sector, academia, and other actors are resulting in durable and sustainable benefits. *Cases on Applying Knowledge Economy Principles for Economic Growth in Developing Nations* examines cases from developing countries in order to

derive an adapted model of knowledge economy that could be applied to developing country conditions. This book contributes to the change of paradigm on how to help developing countries in advancing to better conditions by using ICT-related technology. Covering topics such as learning organizations, green technology, and sustainable organizations, this is a dynamic resource for emerging economies, researchers, students, professors, academicians, and multilateral organizations helping developing countries.

**The World Politics of Social Investment: Volume II** Sep 10 2021 Welfare states around the globe are changing, challenged by the development of knowledge economies. In many countries, policy-makers' main response has been to modernize welfare states by focusing on future-oriented social investment policies that focus on creating, mobilizing, and preserving human skills and capabilities. Yet, there is massive variance in the development of social investment strategies. *The World Politics of Social Investment: Political Dynamics of Reform* is the second of two volumes of the World Politics of Social Investment (WOPSI) project, which systematically maps and explains different welfare reform strategies in democratic countries around the world. This volume traces the development of social investment reforms across the regions of Nordic, Continental, and Southern Europe, as well as Central and Eastern Europe, North and Latin America, and North East Asia. The chapters in this volume study the impact of different structural drivers for social investment (e.g., demographic, poverty, demand for skill, or lack of an available workforce), the salience of social investment in the public debates, and the different political coalitions that led to or prevented the adoption of social investment strategies. The chapters are written by leading social policy scholars from different world regions. They all apply a joint theoretical framework (developed in the first of the two volumes) to explain the politics of social investment in a range of contexts and policy fields. Jointly with the first volume, the WOPSI project offers the first worldwide analysis of social investment reforms around the globe.

Why We Can't Sleep Aug 29 2020 When Ada Calhoun found herself in the throes of a midlife crisis, she thought that she had no right to complain. She was married with children and a good career. So why did she feel miserable? And why did it seem that other Generation X women were miserable, too? Calhoun decided to find some answers. She looked into housing costs, HR trends, credit card debt averages, and divorce data. At every turn, she saw a pattern: sandwiched between the

Boomers and the Millennials, Gen X women were facing new problems as they entered middle age, problems that were being largely overlooked. Speaking with women across America about their experiences as the generation raised to “have it all,” Calhoun found that most were exhausted, terrified about money, under-employed, and overwhelmed. Instead of their issues being heard, they were told instead to lean in, take “me-time,” or make a chore chart to get their lives and homes in order. In *Why We Can't Sleep*, Calhoun opens up the cultural and political contexts of Gen X's predicament and offers solutions for how to pull oneself out of the abyss—and keep the next generation of women from falling in. The result is reassuring, empowering, and essential reading for all middle-aged women, and anyone who hopes to understand them.
