Yes, It's Possible to Build a Business around Your Expertise, Ideas, Message, and Personality. But First You Need to Realize — YOU ARE THE BRAND. It's no secret that more people than ever before are building thriving businesses around their personal brands. But why do some create six- or even seven-figure businesses while so many others strive to make a consistent income? Much of the personal brand space plays out in two ways. The first group of people sells a false version of themselves, thinking that image or perception alone will get them the results they seek. These folks don't realize that attention isn't owed, it's earned. The flip side of presenting a false version of yourself is oversharing in the name of authenticity. They talk nonstop about their issues, sometimes revealing way more than what is even comfortable to read about. It's as if these people are trying to sell their struggles, and it doesn't work in the long run. Like a car wreck, these folks garner attention, but it's short-lived. Here's a simple question that can serve as a litmus test for you: "Can I build a campfire around what I'm sharing?" Is there warmth? Are you building something that is attractive and inviting to others? Can you build a community around it? Are you someone whom others want to invite onto their stages, in front of their employees, or into their lives? In *You Are the Brand*, Mike Kim shares his proven 8-step blueprint that has helped build the brands for some of today's most influential thought leaders — as well as his own personal brand. In this practical and inspiring book, you will learn: How to identify and showcase your unique expertise How to gain clarity on your message, market, and business model Why the most effective marketing strategy is to simply tell the truth How-To-Preneur vs. Ideapreneur — Which one are you? Marketers and business owners struggle to effectively connect with their customers, costing them and their companies millions in lost revenue. In a world filled with constant, on-demand distractions, it has become near-impossible for business owners to effectively cut through the noise to reach their customers, something Donald Miller knows first-hand. In this book, he shares the proven system he has created to help you engage and truly influence customers.
