ONE FAMILY, ONE PLACE AND THE WOMAN WHO HELD THEM TOGETHER... Madge was four years old when she first saw the Cornish sea and fell in love with it, and it was there that her family grew and suffered and loved. It was there she and her mother went to recover from a heartrending family tragedy; there she was forced reluctantly into marriage; there she fell into a wild and passionate wartime love. And it was there she saw her children grow

and love and cope with the secret legacies the years had left them, until finally they became more than just summer visitors. Readers have the chance to meet the Pittsburgh Penguins, one of the wildest, wackiest, most wonderful sports franchises that ever waddled its way across North America. If Penguins fans are not shedding tears of sadness, they are crying for joy or simply laughing so hard they cannot stop. No franchise has survived more near-death experiences than this one, which twice went bankrupt and many times escaped the threat of relocation. In 1975, things were so tough that players had their postgame oranges taken away. Nevertheless, they have persevered. Known across the league as lovable losers for its first 24 years, the team began the climb to the top in the 1990s, winning the Stanley Cup twice in that decade and again in 2009 and 2016. In *Tales from the Pittsburgh Penguins Locker Room*, sportswriter Joe Starkey takes fans inside the locker rooms, onto the team buses (including the one defenseman Bryan “Bugsy” Watson hijacked), and behind the personalities that have shaped Penguins hockey since 1967.

An Army Aviator's personal story of a year in Vietnam flying low and flying slow over the canals and rice paddies of the always dangerous Mekong Delta. They were known as the Shotguns ... dependable, always by the side of America's advisors engaged in battle below, and ready to do whatever was asked of them. As the savage Clone Wars rage unchecked, the Republic's deadliest warriors face the grim truth that the Separatists aren't their only enemy—or even their worst. In the Grand Army's desperate fight to crush the Separatists, the secret special ops missions of its elite clone warriors have never been more

critical . . . or more dangerous. A growing menace threatens Republic victory, and the members of Omega Squad make a shocking discovery that shakes their very loyalty. As the lines continue to blur between friend and enemy, citizens—from civilians and sergeants to Jedi and generals—find themselves up against a new foe: the doubt in their own hearts and minds. The truth is a fragile, shifting illusion—and only the approaching inferno will reveal both sides in their true colors. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years! Who is making so much noise and how will Jackson ever get to sleep? Despite some silly, sleepy mistakes, genteel Jackson finds a fun and quiet activity for each of his noisy neighbors. He finally gets a great night's sleep—and discovers three new friends in the morning. Cozier than a mole in fuzzy pajamas, *No More Noisy Nights* is an underground, under-the covers read-aloud, perfect for calming bedtime boogety-woogeties. Ten years from now the United States as we know it will cease to exist. Since the secession of the Southern Fourteen, the Reformed United States has faced its share of crises, from ravaging wildfires to extreme desertification to toxic water supplies. Now, a man has been murdered at a research facility in the Arctic Circle and a deadly alien creature is on the loose. Inspired by his time working in the arctic and spurred on by our current political climate, Ryan Winters' *Zeroland* follows a group of characters, each with pasts they'd prefer stay buried, doing all they can to survive in a world where life has become defined by environmental

devastation. Under the eye of shadowy governmental oversight, the intertwined fates of these people—and perhaps the world—are on the line. From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory.

Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. A *New York Times* Notable Book A *Los Angeles Times* and *Cleveland Plain Dealer* Best Book of the Year Winner of the PEN/E. O. Wilson Literary Science Writing Award

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) This special edition of The Templeton Twins Have an Idea: Book One also includes a sneak preview of The Templeton Twins Make a Scene: Book Two and a Q&A with the author. Suppose there were 12-year-old twins, a boy and girl named John and Abigail Templeton. Let's say John was pragmatic and played the drums, and Abigail was theoretical and solved cryptic

crosswords. Now suppose their father was a brilliant, if sometimes confused, inventor. And suppose that another set of twins—adults—named Dean D. Dean and Dan D. Dean, kidnapped the Templeton twins and their ridiculous dog in order to get their father to turn over one of his genius (sort of) inventions. Yes, I said kidnapped. Wouldn't it be fun to read about that? Oh please. It would so. Luckily for you, this is just the first in a series perfect for boys and girls who are smart, clever, and funny (just like the twins), and enjoy reading adventurous stories (who doesn't?!). I should've never agreed to this arrangement... Thirty days ago, my boss (Mr. Wolf of Wall Street), came to me with an offer I couldn't refuse: Sign my name on the dotted line and pretend to be his fiancée for one month. If I agreed, he would let me out of my employment contract with a "very generous" severance package. The rules were pretty simple: No intimate kissing, no actual sex. Just

pretend to love each other for the press, even though I've secretly wanted to knock that sexy smirk off his face since the first day we met. I definitely didn't need to think twice about this. I signed my name and started counting down the seconds to when I would never have to deal with his special brand of ass-holery again. I only made it to one minute... We argued the entire four-hour flight to his hometown, failed to make a convincing impression with the welcoming press, and right when I was about to knock that arrogant look off his face in real life? He purposely dropped his bath towel in front of me, distracting me with his nine-inch cock to "show me who the bigger person was" in our relationship. Then he gave me his trademark smirk once again and asked if I wanted to consummate our marriage. Tragically, this is only day one. We still have 29 more days to go... The Ninth Necromancer needs a swordswoman. Gideon has a sword, some dirty magazines, and no more time for undead nonsense. Tamsyn Muir's Gideon the Ninth unveils a solar system of swordplay, cut-

throat politics, and lesbian necromancers. Her characters leap off the page, as skillfully animated as arcane revenants. The result is a heart-pounding epic science fantasy. Brought up by unfriendly, ossifying nuns, ancient retainers, and countless skeletons, Gideon is ready to abandon a life of servitude and an afterlife as a reanimated corpse. She packs up her sword, her shoes, and her dirty magazines, and prepares to launch her daring escape. But her childhood nemesis won't set her free without a service. Harrowhark Nonagesimus, Reverend Daughter of the Ninth House and bone witch extraordinaire, has been summoned into action. The Emperor has invited the heirs to each of his loyal Houses to a deadly trial of wits and skill. If Harrowhark succeeds she will be become an immortal, all-powerful servant of the Resurrection, but no necromancer can ascend without their cavalier. Without Gideon's sword, Harrow will fail, and the Ninth House will die. Of course, some things are better left dead.
