Shadow and Substance in British Foreign Policy 1895-1939 Aug 01 2022 No description

The Making of British Foreign Policy Mar 08 2023 How is foreign policy made? Who makes it? To what conscious and unconscious influences are policy-makers subject? What is distinctive about the immensely complex process as it unfolds in Britain? And what, therefore, is distinctive and characteristic about Britain's foreign policy today? Who in Britain, has the decisive word? Why is the Foreign Office the king-pin of the system? Why does Parliament count for so little? Does public opinion count at all? Originally published in 1968, these are some of the questions which this book considers in the course of a tightly argued but very readable analysis. Some had been considered on their own elsewhere, but this study represented the first attempt by a contemporary political scientist to pull together, in brief compass, all the relevant threads – including the constitutional, the political, the institutional and the sociological. It is done, moreover, on the basis of a sharp assessment of the type of foreign policy problem that most notably confronted Britain at the time. The author has been successively journalist, official of the Israel Government, and university lecturer in politics. Throughout, his special interests and activities have been in the sphere of international affairs and it was while teaching International Relations at the University of Sussex that he wrote this book. He combines the experience of one who has seen the policy being made from the inside with the theoretical insight of the political scientist; he assesses with a sympathetic but unemotional detachment the constraints on the formation of British foreign policy.

Historical Dictionary of British Foreign Policy Jan 02 2020 The Historical Dictionary of British Foreign Policy provides an overview of the conduct of British diplomacy since the setting up of the Foreign Office in 1782. This is done through a chronology, an introductory essay, appendixes, an extensive bibliography, and over 300 cross-...

British Foreign Policy Since Versailles, 1919-1963 Oct 03 2022

Winston Churchill and the German Question in British Foreign Policy 1918-1922 Jun 06 2020 It was in the early summer of 1906 that Violet Bonham Carter first met Winston Churchill: an encounter which left an "indelible impression" upon her. "I found myself," she recalled, sitting next to this young man who seemed to me quite different from any other young man I had ever met. For a long time he remained sunk in abstraction. Then he appeared to become aware of my existence. He turned on me a lowering gaze and asked me

abruptly how old I was. I replied that I was nineteen. HAnd I," he said almost despairingly, "am thirty-two already. Younger than anyone else who counts, though," he added, as if to comfort himself. Then savagely: "Curse ruthless time! Curse our own mortality! How cruelly short is the allotted span for all we must cram into it!" And he burst forth into an eloquent diatribe on the shortness of human life, the immensity of possible human accomplishment - a theme so well exploited by the poets, prophets and philosophers of all ages that it might seem difficult to invest it with a new life and startling significance. Yet for me he did so, in a torrent of magnificent language which appeared to be both effortless and inexhaustible and ended up with the words I shall always remember: "We are all worms. But I do believe that I am a glow worm."

British Foreign Policy in the Second World War Feb 24 2022

Between Empire and Continent May 06 2020 Prior to World War I, Britain was at the center of global relations, utilizing tactics of diplomacy as it broke through the old alliances of European states. Historians have regularly interpreted these efforts as a reaction to the aggressive foreign policy of the German Empire. However, as *Between Empire and Continent* demonstrates, British foreign policy was in fact driven by a nexus of intra-British, continental and imperial motivations. Recreating the often heated public sphere of London at the turn of the twentieth century, this groundbreaking study carefully tracks the alliances, conflicts, and political maneuvering from which British foreign and security policy were born.

The Cambridge History of British Foreign Policy 1783-1919: 1783-1815 Apr 04 2020

British Diplomacy and Foreign Policy, 1782-1865 Aug 09 2020

Power and Stability Jun 30 2022 The pursuit of stability drove British foreign policy even before 1865. These papers assess the implications of such a policy during the following 100 years when Britain slid from being the only global power to a regional European state.

British Foreign Policy Dec 05 2022 Britain has been a significant voice in global politics in the last two decades and its impact on world events far outweighs its material resources. But how does a small island on the edge of Europe continue to exercise this level of power on an international scale? What kind of actor is Britain internationally? And what future challenges will confront British foreign policymakers in a multi-polar world of emerging powers? In this comprehensive introduction to British foreign policy today Jamie Gaskarth addresses these and other key questions. Against a rich historical backdrop, he examines the main actors and processes involved in British foreign policy-making as well as the role played by identity in shaping such choices. Later chapters focus on the relationship between economics and foreign policy, what it means to be ethical in this policy sphere, and the justification for and benefits of the UK's continued use of force to achieve its foreign policy goals. Combining interview research, theoretical insight and analysis of contemporary and historical trends, this book charts how British foreign policy has come to be understood and practised in the 21st Century. It will be an invaluable guide for students of British politics, foreign policy, international relations and related courses.

British Foreign Policy during the Curzon Period, 1919-24 Jul 08 2020 A wide-ranging and authoritative study of British foreign policy in the critical years after the 1919 Paris Peace Conference. Policy towards Western and Eastern Europe, Russia, Turkey, the Middle East, United States and Far East is examined alongside such themes as the role of Prime Minister, Foreign Secretary and Cabinet in policy formulation. The evolution and execution of policy is set alongside the limitations imposed on British statesmen by the dominions, armed forces, economic weakness and domestic politics.

British Foreign Policy since 1945 Mar 28 2022 British Foreign Policy since 1945 brings a chronological approach to the study of British foreign policy since the Second World War in order to make the principal events and dynamics accessible within a broader historical and cultural context. The key features included in this book: a detailed chronological survey of developments in post-war British politics; an integrated discussion of foreign and domestic policy developments indicating connections and interlocking themes; illustrations of British foreign policy drawn from popular culture; analysis of Britain's role in the world, particularly in regards to the UK's 'special relationship' with the US and its decision to leave the EU; a range of in-text features including essay questions and seminar/discussion topics. This timely book will be essential reading for anyone interested in British politics, foreign policy analysis and British history.

Debating Foreign Affairs Oct 23 2021

The Foreign Office, Commerce and British Foreign Policy in the Twentieth Century Aug 21 2021 This book addresses the interface of the British Foreign Office, foreign policy and commerce in the twentieth century. Two related questions are considered: what did the Foreign Office do to support British commerce, and how did commerce influence British foreign policy? The editors of this work collect a range of case studies that explore the attitude of the Foreign Office towards commerce and trade promotion, against the backdrop of a century of relative economic decline, while also considering the role of British diplomats in creating markets and supporting UK firms. This highly researched and detailed examination is designed for readers aiming to comprehend the role that commerce played in Britain's foreign relations, in a century when trade and commerce have become an inseparable element in foreign and security policies.

The Changing Structure of British Foreign Policy Jun 18 2021

A Century of British Foreign Policy Dec 13 2020

Chamberlain and Roosevelt Nov 11 2020

British Foreign Policy, 1919-1939 Feb 07 2023 In this comprehensive and accessible account, Paul Doerr examines British foreign policy from the signing of the Treaty of Versailles in 1919 to the outbreak of World War Two in 1939. How did British leaders try to preserve the peace in the years after Versailles? Why did they resort to appeasement when confronted by Adolf Hitler? To what extent were British leaders limited by public opinion, economics, and global commitments? These questions and more are answered in this volume which surveys the results of the Paris Peace conference, and the crushing of the hopes of the 1920s under the impact of the Depression. British leaders are here seen trying to cope with the multiple crises of the 1930s, from Manchuria in 1931 to the final descent into war in 1939. Doerr's survey is enhanced by detailed portraits of the leading actors and accounts of some of the famous meetings and events.

British Foreign Policy Apr 09 2023 Has the 20th century been one of steady decline for British foreign policy? Can there be a distinct British foreign policy in age of regionalism and globalization? This study challenges perceptions of irrevocable decline and suggests a more balanced assessment of Britain's strengths and weaknesses. As "high politics", including security concerns diminish in importance, economic and commercial concerns increasingly seem to dictate foreign policy. On the assumption that what the population seeks is a combination of physical security, prosperity and what could be termed "moral self-approbation", this study suggests ways in which Britain could capitalize on its influence and assets to promote its interests. A framework is provided for thinking about British foreign policy at a time when globalization, multinational companies, NGOs, the European Union and other factors increasingly constrain the freedom of government and the traditional role of the foreign office.

Austen Chamberlain and the Commitment to Europe Feb 01 2020 This book fills a major gap in the study of inter-war British foreign policy: it is the first complete study of Austen Chamberlain's term of office as Stanley Baldwin's Foreign Secretary from 1924-29.

On the Fringes of Diplomacy May 30 2022 In recent decades the study of British foreign policy and diplomacy has broadened in focus. No longer is it enough for historians to look at the actions of the elite figures - diplomats and foreign secretaries - in isolation; increasingly the role of their advisers and subordinates, and those on the fringes of the diplomatic world, is recognised as having exerted critical influence on key decisions and policies. This volume gives further impetus to this revelation, honing in on the fringes of British diplomacy through a selection of case studies of individuals who were able to influence policy. By contextualising each study, the volume explores the wider circles in which these individuals moved, exploring the broader issues affecting the processes of foreign policy. Not the least of these is the issue of official mindsets and of networks of influence in Britain and overseas, inculcated, for example, in the leading public schools, at the Universities of Oxford and Cambridge, and in gentlemen's clubs in London's West End. As such the volume contributes to the growing literature on human agency as well as mentalité studies in the history of international relations. Moreover it also highlights related themes which have been insufficiently studied by international historians, for example, the influence that outside groups such as missionaries and the press had on the shaping of foreign policy and the role that strategy, intelligence and the experience of war played in the diplomatic process. Through such an approach the workings of British diplomacy during the high-tide of empire is revealed in new and intriguing ways.

British Foreign Policy in the Second World War Mar 16 2021 Alle 5 bind indeholder desuden englands udenrigspolitiske forbindelser til USA under 2. Verdenskrig.

British Foreign Policy in the Twentieth Century Sep 02 2022 An account of British foreign policy in the 20th century, discussing the challenging commitments, World Wars, Cold War and readjustments to the present day.

British Foreign Policy, 1955-64 Jan 26 2022 In 1945 Britain was still a world power. Increasingly, however, it had to adapt its international commitments to the financial limitations, technological progress and external challenges of the bipolar postwar world, especially during the premierships of Eden, Macmillan and Douglas-Hume from 1955 to 1964. Based throughout on newly accessible sources, the twelve chapters in this book analyse systematically Britain's foreign policy-making and its regional relationships in the world, thus providing the reader with a comprehensive overview of Britain's foreign relations during this crucial transition.

Pax Britannica? Dec 25 2021 Pax Britannica? is a study of Britain's international role and foreign policy during the century of her imperial greatness. The study shows how her foreign policy was affected, and to some extent, dictated by her domestic political issues. In her stimulating and readable study, Dr Chamberlain explains the how the whole nature of foreign-policy making changed in the nineteenth century. Once the preserve of a small handful of monarchs and professional diplomats, it was transformed by the expansion of the franchise, the influence of the press and the mobilisation of public opinion by men such as Disraeli and Palmerston.

The Future of British Foreign Policy Sep 09 2020 Since 1945, Britain has had to cope with a slow descent from international primacy. The decline in global influence was intended to be offset by the United Kingdom's entry into Europe in 1975, with the result that national foreign policy came to rest on the two pillars of the Atlantic alliance and the Common Foreign and Security Policy of the EU. Yet, with Brexit, one of these pillars is now being removed, leaving Britain facing some serious challenges arising from the prospect of independence. In this incisive book, Christopher Hill explores what lies ahead for British foreign policy in the shadows of Brexit and a more distant and protectionist America under Donald Trump. While there is much talk of a renewed global profile for the UK, Hill cautions that this is going to be difficult to turn into practical reality. Geography, history and

limited resources mean that Britain is doomed to seek a continued foreign policy partnership with the Member States of the Union – only now it will be from outside the room looking in. As a result, there is the distinct possibility that both British and European foreign policies will end up worse off as the result of their divorce.

British Foreign Policy in the Age of the American Revolution Jan 14 2021 The first detailed and comprehensive study of British foreign policy the the age of the American Revolution in the context of Britain's other eighteenth-century conflicts, including the continuing rivalry with the Bourbons.

Documents on British Foreign Policy, 1919-1939 May 10 2023

British Foreign Policy 1880-1895 Sep 21 2021

Thatcher's Diplomacy Nov 04 2022 A wide-ranging, readable and controversial assessment of Thatcher's foreign policy throughout her years in office, 1979-90. Successive chapters cover her partnership with Lord Carrington, the Falklands War, her American policy, her fights with the EC over money and institutional development, her relationship with Gorbachev, and the failure of her German policy. In arguing that Thatcher's attempt to reconcile economic liberalism with political nationalism in a more assertive foreign policy prefigured the emerging statecraft of post-Cold War great power politics, Paul Sharp demonstrates why studying her successes and failures offers an invaluable guide for policy-makers around the world today.

Trade, Empire and British Foreign Policy, 1689-1815 Oct 11 2020 This new volume examines the influence of trade and empire from 1689 to 1815, a crucial period for British foreign policy and state-building. Jeremy Black, a leading expert on British foreign policy, draws on the wide range of archival material, as well as other sources, in order to ask how far, and through what processes and to what ends, foreign p
