Wind is the circulatory system of the earth, and its nervous system, too. Energy and information flow through it. It brings warmth and water, enriches and strips away the soil, aerates the globe. Wind shapes the lives of animals, humans among them. Trade follows the path of the wind, as empire also does. Wind made the difference in wars between the Greeks and Persians, the Mongols and the Japanese. Wind helped to destroy the Spanish Armada. NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • People • NPR • The Washington Post • Slate • Harper's Bazaar • Time Out New York • Publishers Weekly • BookPage Finalist for the PEN Center USA Literary Award in Creative Nonfiction and the Books for a Better Life Award in Inspirational Memoir At the age of thirty-six, on the verge of completing a decade's worth of training as a neurosurgeon, Paul Kalanithi was diagnosed with stage IV lung cancer. One day he was a doctor treating the dying, and the next he was a patient struggling to live. And just like that, the future he and his wife had imagined evaporated. When *Breath Becomes Air* chronicles Kalanithi's transformation from a naïve medical student "possessed," as he wrote, "by the question of what, given that all organisms die, makes a virtuous and meaningful life" into a neurosurgeon at Stanford working in the brain, the most critical place for human identity, and finally into a patient and new father confronting his own mortality. What makes life worth living in the face of death? What do you do when the future, no longer a ladder toward your goals in life, flattens out into a perpetual present? What does it mean to have a child, to nurture a new life as another fades away? These are some of the questions Kalanithi wrestles with in this profoundly moving, exquisitely observed memoir. Paul Kalanithi died in March 2015, while working on this book, yet his words live on as a guide and a gift to us all. "I began to realize that coming face to face with my own mortality, in a sense, had changed nothing and everything," he wrote. "Seven words from Samuel Beckett began to repeat in my head: 'I can't go on. I'll go on.'" When *Breath Becomes Air* is an unforgettable, life-affirming reflection on the challenge of facing death and on the relationship between doctor and patient, from a brilliant writer who became both. Bestselling Author Ava Miles' family series, *The Merriams*, returns for its finale with two long-lost lovers fighting for a second chance despite the odds—with everyone's favorite matchmakers along to pave their way. Quinn recognized Francesca Maroun as his soulmate the moment he met her in grad school. Of course he did. The Merriams always recognize their soulmates instantly. It just never occurred to him that world events could drive them apart so they wouldn't end up together. Knowing there was no one else for him, Quinn devoted himself to the family business instead. Since he's taken the reins of the troubled company, he doesn't have the time to dwell on Francesca—much. But with all his siblings falling in love and marrying, the emptiness of his life stretches before him, lonely and bleak. But when world events take a turn again, Quinn knows it's now or never. Given that Francesca has become one of the most sought-after business consultants for the Fortune 500, he contacts her to come help him steer Merriams Enterprises clear of disaster. When Quinn calls her about working with him to right his business, Francesca knows she should say no. She prides herself on what she's built, and working with Quinn offers temptations she doesn't want to feel. But she's never healed from their shattering break-up, and perhaps this is the opportunity for closure. It's time to move on. What better way than proving to herself that they're over, once and for all? Except events take a dark turn and threaten to destroy everything they've both worked so hard for. Even with the Merriam family at his back (and the matchmaking trio he can always count) he's not sure there's a solution in sight—for Merriam Enterprises or Francesca and him. ----- If you love books by Nora Roberts, Nicholas Sparks, Susan Elizabeth Phillips, Debbie Macomber, Robyn Carr, Elin Hilderbrand, Danielle Steele, Barbara O'Neal, Susan Mallery, Kristan Higgins, Sherryl Woods, Jill Shalvis, Roisin Meaney, Melody Grace, Melissa Foster, Addison Cole, Bella Andre, Lucy Kevin, Brenda Novak, Catherine Bybee, Tricia O'Malley, Kathryn Andrews, RaeAnne Thayne, Sheila O'Flanagan, Cathy Kelly, Ruth Hogan, Jenny Colgan, Shari Low, Sophie Cousens, Portia MacIntosh. It's invisible. It's ever-present. Without it, you would die in minutes. And it has an epic story to tell. In Caesar's Last Breath, New York Times bestselling author Sam Kean takes us on a journey through the periodic table, around the globe, and across time to tell the story of the air we breathe, which, it turns out, is also the story of earth and our existence on it. With every breath, you literally inhale the history of the world. On the ides of March, 44 BC, Julius Caesar died of stab wounds on the Senate floor, but the story of his last breath is still unfolding; in fact, you're probably inhaling some of it

now. Of the sextillions of molecules entering or leaving your lungs at this moment, some might well bear traces of Cleopatra's perfumes, German mustard gas, particles exhaled by dinosaurs or emitted by atomic bombs, even remnants of stardust from the universe's creation. Tracing the origins and ingredients of our atmosphere, Kean reveals how the alchemy of air reshaped our continents, steered human progress, powered revolutions, and continues to influence everything we do. Along the way, we'll swim with radioactive pigs, witness the most important chemical reactions humans have discovered, and join the crowd at the Moulin Rouge for some of the crudest performance art of all time. Lively, witty, and filled with the astounding science of ordinary life, *Caesar's Last Breath* illuminates the science stories swirling around us every second. On the night of December 3, 1984, Anjali waits for her army officer husband to pick her up at the train station in Bhopal, India. In an instant, her world changes forever. Her anger at his being late turns to horror when a catastrophic gas leak poisons the city air. Anjali miraculously survives. Her marriage does not. A smart, successful schoolteacher, Anjali is now remarried to Sandeep, a loving and stable professor. Their lives would be nearly perfect, if not for their young son's declining health. But when Anjali's first husband suddenly reappears in her life, she is thrown back to the troubling days of their marriage with a force that impacts everyone around her. Her first husband's return brings back all the uncertainty Anjali thought time and conviction had healed—about her decision to divorce, and about her place in a society that views her as scandalous for having walked away from her arranged marriage. As events unfold, feelings she had guarded like gold begin to leak away from her, spreading out into the world and challenging her once firm beliefs. Rich in insight into Indian culture and psychology, *A Breath of Fresh Air* resonates with meaning and the abiding power of love. In a landscape as intriguing as it is unfamiliar, Anjali's struggles to reconcile the roles of wife and ex-wife, working woman and mother, illuminate both the fascinating duality of the modern Indian woman and the difficult choices all women must make. A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR “A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we’ve all been doing it wrong for a long, long time.” —Elizabeth Gilbert, author of *Big Magic* and *Eat Pray Love* No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you’re not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren’t found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, *Breath* turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again. The second book of the action packed fan-fiction *Legend of Zelda* Continues Series. Eagerly anticipated by her legions of fans, this sixth novel in Diana Gabaldon’s bestselling *Outlander* saga is a masterpiece

of historical fiction from one of the most popular authors of our time. Since the initial publication of *Outlander* fifteen years ago, Diana Gabaldon's New York Times bestselling saga has won the hearts of readers the world over — and sold more than twelve million books. Now, *A Breath of Snow and Ashes* continues the extraordinary story of 18th-century Scotsman Jamie Fraser and his 20th-century wife, Claire. The year is 1772, and on the eve of the American Revolution, the long fuse of rebellion has already been lit. Men lie dead in the streets of Boston, and in the backwoods of North Carolina, isolated cabins burn in the forest. With chaos brewing, the governor calls upon Jamie Fraser to unite the backcountry and safeguard the colony for King and Crown. But from his wife Jamie knows that three years hence the shot heard round the world will be fired, and the result will be independence — with those loyal to the King either dead or in exile. And there is also the matter of a tiny clipping from *The Wilmington Gazette*, dated 1776, which reports Jamie's death, along with his kin. For once, he hopes, his time-traveling family may be wrong about the future.

A unique approach to Biodynamic Craniosacral Therapy, a whole-body healing therapy focused on working with the forces underlying health and healing Cherionna Menzam-Sills draws on her extensive background in pre- and perinatal psychology, embryology, bodywork, Continuum Movement, and other somatic therapies—as well as years of working with her husband, Biodynamics pioneer Franklyn Sills—to present this accessible introduction to the meditative healing practice of Biodynamic Craniosacral Therapy (BCST). This book offers a personal journey of embodied inquiry into each element of biodynamic session work, using meditative explorations, personal descriptions, and illustrations to convey the essence of Biodynamics. It emphasizes breathing and body awareness exercises that help the practitioner become more attuned to her own body so that she can create an effective relational field with her client. An essential guide for new practitioners, students, and clients—as well as a valuable reference for experienced practitioners—this book illuminates the path toward the intelligent formative forces of the mysterious presence called "the breath of life" and its transformative power for health and wholeness.

Emma Day and her two cousins, Gretchen and Penelope, are uninterested in their debutante lives. All the boring balls, tiresome curtsying and polite conversation leave much to be desired. Then a girl is found dead, frost clinging to her lifeless body, and the murder is traced to Emma. As their world is turned upside down, Emma discovers more about herself and her cousins, from her connection to the murders to the secrets of her family legacy. Now the girls must embrace their true Lovegrove inheritance in order to stop the chaos, even if that means risking their lives. Dangerously handsome Cormac Fairfax wants to help Emma — but, with secrets of his own to hide, can she trust him? The first book in a deliciously dark new trilogy. Perfect for fans of Cassandra Clare and Ruth Warburton. This is the story of Emma, of the Ducal House of Normandy, the wife of two kings, the mother of two kings, who spent her life struggling to exert power and control over the English throne, much of it battling her son, King and Saint, Edward the Confessor. *Farrington* deals with the realities of the Norman, Saxon, Danish medieval world: violent, crude,

difficult, mystical, filthy, corrupt, imbued with sex, but dominated by religion. This is the time just before the Conquest with Athelred, the unready, Canute the Great and the powerful Saxon Godwins. Adhering to the historical accuracy of events, Farrington brings to life with graphic details, this tumultuous period of English history, the last reigns of the Saxons and Danes over England. It's a book you can stick your teeth in and stay with for a good read. The work was originally published by Doubleday in the mid eighties, now out of print, it is being rereleased here. When the Nazis invade a Jewish village, the villagers use mud and clay from the river to give life to the golem, who fights for their freedom and their future. This volume addresses the concept of an immortal soul in a mortal body and focuses on early Judaism and Christianity, where the issue of dualistic anthropology is often related to the interpretation of Gen 2:7 and questioned in different ways. "A mystical meditation on creation and death in which a man (a thinly disguised Clarice Lispector) infuses the "breath of life" into his creation [and] forms a dialogue between the god-like author and the speaking, breathing, dying creature herself: Angela Pralini"--P. [4] of cover. Offers a theological narrative of the Creator Spirit as a story with four continuing episodes--creation, grace, the Christ-event, and the church. This simple little book from a great spiritual giant attends to what we human beings are most inclined to forget: preparing for and engaging in prayer. It is an examination of what we ourselves must bring to the discipline of prayer--whatever form it takes--in order to make prayer authentic and real, a deep and profound part of our lives. None of the brief reflections in this book are ever finished, ever closed, ever fully resolved. They are all ongoing steps along the way, steps we retrace over and over again as we do all the other parts of life, until they become the very breath we breathe, the vision and energy of our souls. From the author of *The Hidden Lives of Owls*, an exploration of the elusive lives of whales in the Pacific Ocean, home to orcas, humpbacks, sperm, blue, and gray whales. Leigh Calvez has spent a dozen years researching, observing, and probing the lives of the giants of the deep. Here, she relates the stories of nature's most remarkable creatures, including the familial orcas in the waters of Washington State and British Columbia; the migratory humpbacks; the ancient, deep-diving blue whales, the largest animals on the planet. The lives of these whales are conveyed through the work of dedicated researchers who have spent decades tracking them along their secretive routes that extend for thousands of miles, gleaned their habits and sounds and distinguishing peculiarities. The author invites the reader onto a small research catamaran maneuvering among 100-foot long blue whales off the coast of California; or to join the task of monitoring patterns of humpback whale movements at the ocean surface: tail throw, flipper slap, fluke up, or blow. To experience whales is breathtaking. To understand their lives deepens our connection with the natural world.
