Electronic Governance and Open Society: Challenges in Eurasia Jan 11 2021 This book constitutes the refereed proceedings of the 7th Conference on Electronic Governance and Open Society: Challenges in Eurasia, EGOSE 2020, held in St. Petersburg, Russia, in November 2020. The 35 full papers and 5 short papers were carefully reviewed and selected from 59 submissions. The papers are organized in topical sections on ?digital government: services, policies, laws, practices, surveillance; digital society: openness, participation, trust, competences; digital data: data science, methods, modelling, AI, NLP.

New Directions in Architectural and Engineering Practice Mar 13 2021 Covers general firm and legal organization, legal issues in design practice, insurance, personnel management, business planning, marketing, project fee budgeting and status reporting, cash management and collection, computerizing, managing CADD use, noncomputerized production systems and tools, scheduling, cost control. Techniques and guidelines for establishing a profitable practice. Annotation copyrighted by Book News, Inc., Portland, OR

The Semantic Web. Latest Advances and New Domains Feb 09 2021 This book constitutes the refereed proceedings of the 12th Extended Semantic Web Conference, ESWC 2014, held in Anissaras, Portoroz, Slovenia, in May/June 2015. The 43 revised full papers presented together with three invited talks were carefully reviewed and selected from 164 submissions. This program was completed by a demonstration and poster session, in which researchers had the chance to present their latest results and advances in the form of live demos. In addition, the PhD Symposium program included 12 contributions, selected out of 16 submissions. The core tracks of the research conference were complemented with new tracks focusing on linking machine and human computation at web scale (cognition and Semantic Web, Human Computation and Crowdsourcing) beside the following subjects Vocabularies, Schemas, Ontologies, Reasoning, Linked Data, Semantic Web and Web Science, Semantic Data Management, Big data, Scalability, Natural Language Processing and Information Retrieval, Machine Learning, Mobile Web, Internet of Things and Semantic Streams, Services, Web APIs and the Web of Things, Cognition and Semantic Web, Human Computation and Crowdsourcing and In-Use Industrial Track as well.

Clinical Cardiology: Current Practice Guidelines Aug 18 2021 Clinical Cardiology: Current Practice Guidelines Updated Edition is an essential tool for the busy clinician, offering succinct yet detailed access to the most recent trial and guideline data supporting practice and patient management in cardiology. ESC and ACC/AHA guidelines are continually updated and often overlap in their advice, making it difficult for the cardiologist to obtain a clear picture of the right way to diagnose and treat disease according to the latest evidence base. Written by leading authorities in the field, this book, together with its regularly-updated online version, provides a unique solution. The authors have scrutinized all available guidelines and research from both ACC/AHA and ESC on every clinical issue. The result is a rigorous examination of the implications of published guidance, illustrated by more than 600 easy-to-follow tables and 200 full-colour images, which reinforce key points and clarify difficult concepts. 87 comprehensive chapters explore the definition, epidemiology, pathophysiology, diagnosis and management of cardiac disease. Two new chapters examine the univentricular heart and venous thrombembolism. Each chapter encompasses the latest published research, followed by discussions of possible presentations and investigations, offering detailed insights for clinicians into best practice for diagnosis and treatment. Providing at-a-glance access to the best guidance in cardiology, this book offers a diagnosis and management toolkit which no practising cardiologist can afford to be without.

The Family Court Practice Feb 04 2023 'The Family Court Practice 2015' autumn supplement updates the 2015 edition of 'Family Court Practice' with changes to legislation, rules and practice directions and includes revised commentary together with the latest case reports and summaries.

The Family Court Practice Nov 01 2022 "The Family Court Practice (Red Book), covers the entire range of family business and contains all the essential materials you need to practise in the Family Court. The new edition is fully updated to include the latest case-law, full coverage of new and amended legislation, Practice Directions and guidance. It also contains fully and expertly annotated statutes and rules together with scores of unique step-by-step procedural guides, which direct you effortlessly to the relevant rules and annotation."--Provided by publisher.

Corpus Linguistics Dec 22 2021 This handbook provides an up-to-date survey of corpus linguistics. Spoken, written, or multimodal corpora serve as the basis for quantitative and qualitative research on many questions of linguistic interest. The volume comprises 61 articles by internationally renowned experts. They sketch the history of corpus linguistics and its relationship with neighboring disciplines, show its potential, discuss its problems, and describe various methods of collecting, annotating, and searching corpora, as well as processing corpus data. Key features: up-to-date and complete handbook includes both an overview and detailed discussions gathers together a great number of experts

The Family Court Practice 2018 Mar 05 2023 The Family Court Practice (the Red Book), covers the entire range of family business and contains all the essential materials you need to practice in the Family Court. The new edition will be fully updated to include the latest case-law, full coverage of new and amended legislation, Practice Directions and guidance. It will also contain fully and expertly annotated statutes and rules together with scores of unique step-by-step procedural guides, which direct you effortlessly to the relevant rules and annotation.

The Lawyers Reports Annotated, Book 1-70 Mar 25 2022

The Family Court Practice May 07 2023 The Family Court Practice (Red Book), covers the entire range of family business and contains all the essential materials you need to practise in the Family Court. The 25th edition is fully updated to include the latest case-law, full coverage of new and amended legislation, Practice Directions and guidance. It also contains fully and expertly annotated statutes and rules together with scores of unique step-by-step procedural guides, which direct you effortlessly to the relevant rules and annotation.

The New Civil Costs Regime Aug 30 2022 This work contains the full text of the Civil Procedure Rules relating to Costs and the supporting Practice Direction, together with annotation and expert comment upon the new regime and its implications. It also sets out or refers to other costs rules in the Civil Procedure Rules, to give the reader guidance on the costs regime in operation. The Costs Rules introduce a regime with new factors such as the conduct of the parties, including failure to negotiate and the concept of proportionality being relevant both to the entitlement to costs and their quantification. It also examines changes to payments into court and without prejudice offers with consequences to costs. Offers may now be made by claimants as well as defendants and judgments may be made before the commencement proceedings. The new provisions are contained in parts 43-48 of the Civil Procedure Rules and in the Costs Practice Direction.

The Family Court Practice Sep 30 2022 "The Family Court Practice (Red Book), covers the entire range of family business and contains all the essential materials you need to practise in the Family Court. The new edition is fully updated to include the latest case-law, full coverage of new and amended legislation, Practice Directions and guidance. It also contains fully and expertly annotated statutes and rules together with scores of unique step-by-step procedural guides, which direct you effortlessly to the relevant rules and annotation." -- Provided by publisher.

Draft Practice Directions Apr 06 2023 Annotation pending.

Guidelines for Clinical Practice Jun 03 2020 This report of an Institute of Medicine study presents a balanced view of guidelines--their strengths, their limitations, and how they can be more effectively used to benefit health care. It offers recommendations and a proposed framework for strengthening the development and use of guidelines, numerous illustrations of guidelines, a ready-to-use instrument for assessing the soundness of guidelines, and six case studies exploring issues involved in the day-to-day use of guidelines. Annotation copyrighted by Book News, Inc., Portland, OR

Annotated Guide to the Insolvency Legislation Jul 29 2022 Sealy & Milman: Annotated Guide to the Insolvency Legislation is widely regarded as the definitive work for those advising on Insolvency. This long-established legislation handbook provides annotated commentary and clarification on the legal and practical implications of the latest insolvency legislation

Family Court Practice 2010 Aug 06 2020 More details coming soon.

Intelligent Natural Language Processing: Trends and Applications May 03 2020 This book brings together scientists, researchers, practitioners, and students from academia and industry to present recent and ongoing research activities concerning the latest advances, techniques, and applications of natural language processing systems, and to promote the exchange of new ideas and lessons learned. Taken together, the chapters of this book provide a collection of high-quality research works that address broad challenges in both theoretical and applied aspects of intelligent natural language processing. The book presents the state-of-the-art in research on natural language processing, computational linguistics, applied Arabic linguistics and related areas. New trends in natural language processing systems are rapidly emerging – and finding application in various domains including education, travel and tourism, and healthcare, among others. Many issues encountered during the development of these applications can be resolved by incorporating language technology solutions. The topics covered by the book include: Character and Speech Recognition; Morphological, Syntactic, and Semantic Processing; Information Extraction; Information Retrieval and Question Answering; Text Classification and Text Mining; Text Summarization; Sentiment Analysis; Machine Translation Building and Evaluating Linguistic Resources; and Intelligent Language Tutoring Systems.

Adult-Gerontology Acute Care Practice Guidelines Jun 15 2021 Praise for the first edition from Doody's Medical Reviews- Score: 93 "This well-developed book provides

acute care guidelines for the geriatric population in an easy-to-follow format that uses structural elements such as numbering and multilevel lists for each system. It is an excellent reference for advanced practice prepared clinicians to help identify, diagnose, and develop a treatment plan for acute health issues in older adults and geriatric patients." -Tho Nguyen, DNP, MSN, RN Newly updated, this evidence-based resource--the first of its kind--provides NPs, PAs, and other advance practice providers with the essential clinical knowledge they need to effectively practice adult-gerontology acute care. The second edition covers 10 new conditions and delivers numerous clinical updates on drugs, pain management, sedation, nutritional management, and clinical and screening guidelines. Along with relevant information on Covid-19, it examines more acid-base and neurological disorders and explains the use of Point of Care Ultrasound (POCUS). New unfolding case scenarios include questions to reinforce knowledge, and step-by-step procedural videos provide clear, detailed guidance. The addition of a section on Billing provides clinicians with a working understanding of this process. In quick reference format, this system-based text describes more than 100 common conditions health providers are likely to see in their acute care practice. With contributions from NPs, PAs, and physicians, it provides expert insight into each condition, enabling readers to categorize symptoms, be alert to the distinguishing features of disease symptoms and clusters, and locate associated diagnoses. This handy text also includes perioperative considerations, discharge guidelines, treatment and disease management algorithms, and procedural guidelines. Numerous clinical updates and clinical scenarios incorporated throughout the text validate knowledge and competency. Purchase includes digital access for use on most mobile devices or computers. New to the Second Edition: Provides updated information on drugs, pain management, moderate sedation, nutritional management, and clinical and screening guidelines Addresses new conditions Offers current information on Covid-19 Includes additional acid-base and neurological disorders Covers Point of Care Ultrasound (POCUS) Provides brief, unfolding case scenarios with questions to reinforce knowledge Addresses the basics of Billing Delivers NEW, step-by-step procedural videos demonstrating arterial line placement, digital nerve blocks, and lumbar puncture Key Features: Presents key points for more than 100 acute care conditions in quick-reference format Includes considerations for preoperative, intraoperative, and postoperative evaluation and management Offers discharge guidelines for inpatient conditions Disseminates over 20 procedural guidelines such as central and arterial line insertion, bronchoscopy, ECMO, endotracheal intubation, and more

Guidelines for Clinical Practice May 15 2021 Guidelines for the clinical practice of medicine have been proposed as the solution to the whole range of current health care problems. This new book presents the first balanced and highly practical view of guidelines--their strengths, their limitations, and how they can be used most effectively to benefit health care. The volume offers: Recommendations and a proposed framework for strengthening development and use of guidelines. Numerous examples of guidelines. A ready-to-use instrument for assessing the soundness of guidelines. Six case studies exploring issues involved when practitioners use guidelines on a daily basis. With a real-world outlook, the volume reviews efforts by agencies and organizations to disseminate guidelines and examines how well guidelines are functioning--exploring issues such as patient information, liability, costs, computerization, and the adaptation of national guidelines to local needs.

Civil Court Service 2008 Jun 27 2022 Covering the whole range of cases in the civil courts, Civil Court Service (the Brown Book) is used by thousands of lawyers and judges nationwide, with every District Judge owning a personal copy of the current edition. Offering detailed procedural guidance and authoritative, concise annotation in one volume, Civil Court Service is the perfect solution to those who want fast and reliable answers to a wide range of civil litigation problems from a team of prominent judges and leading practitioners. Portable and comprehensive, Civil Court Service is the natural choice for the general civil litigator, especially in the county court. In addition to the respected coverage of mainstream civil procedure matters, Civil Court Service has been recently expanded to include practical detailed coverage of the following, specialist specialised areas: Estates, Trusts and Charities Patents and other Intellectual Property claims Immigration and Judicial review Defamation Commercial and Mercantile Courts Procedural Guides Over 60 Procedural Guides lead you through the procedural steps of key applications to the court. Each guide is cross-referenced to the relevant CPR Rule, Practice Direction or Statute. The guides are grouped according to the following subject areas: Starting a Claim Costs Responding Enforcement Track Tenancies and Possession of Land General Procedure Miscellaneous Judgment Appeals and Judicial Review Fully Annotated Rules and Practice Directions Rules and Practice Directions are annotated as appropriate by expert contributors. All Pre-Action Protocols and Court Guides are included. Easy Navigation The index is referenced to page numbers (as opposed to confusing paragraph numbers) for easy navigation. Subheadings in each annotation allow easy reference. Each procedural guide is cross-referenced to the relevant CPR Rule, Practice Direction or Statute as an alternative, subject-based, index to the main provisions. What's New for 2008? The 2008 edition is completely up-to-date with all the latest changes to the CPR and case-law, including: Extended commentary to Parts 64 (Estates, Trusts and Charities), and 67 (Proceedings Relating to Solicitors) Significant amendments to Parts 54 (Judicial Review) and 75 (Traffic Enforcement) Introduction of new Part 77 (Provisions in Support of Criminal Justice) and PD77 (Applications for and Relating to Serious Crime), as well as new PD3D (Mesothelioma claims) Civil Court Service Online Civil Court Service is also available online and includes: Interim Commentary between editions of the printed work including cases - added every two weeks Cases archived back to 1999 which can be fully cross referenced with the alerters and commentary Request your FREE online trial now! For just £199 you receive: CIVIL COURT SERVICE 2008 hardback, published March 2008. FREE REISSUE you will be sent a completely updated reissue volume in Autumn 2008. FREE CD-ROM contains the entire text of the book together with an additional library of over 100 statutes and statutory instruments. A number of forms are also available for completion on screen. Published in March and reissued in Autumn 2008 along with the book. FREE NEWSLETTER published six times a year, keeping you up-to-date with all the latest important decisions in civil cases and the latest changes to the Rules.

Ontologies in Medicine Apr 13 2021 Title Page -- Contents -- If Ontology is the Solution, What is the Problem? -- Biodynamic Ontology: Applying BFO in the Biomedical Domain -- Bodily Systems and the Spatial-Functional Structure of the Human Body -- Inflammation Ontology Design Pattern: An Exercise in Building a Core Biomedical Ontology With Descriptions and Situations -- Context-Based Task Ontologies for Clinical Guidelines -- An Ontological Framework for the Implementation of Clinical Guidelines in Health Care Organizations -- Gene Ontology Application to Genomic Functional Annotation, Statistical Analysis and Knowledge Mining -- Evolving from Standard Vocabularies to Formal Ontology for an Information System Dedicated to Organ Transplantation -- Mistakes in Medical Ontologies: Where Do They Come From and How Can They Be Detected? -- Author Index

OECD Best Practice Guidelines for Biological Resource Centres Jul 17 2021 These best practice guidelines are intended to serve as a target for the quality management of biological resource center collections. They are the result of discussions held by OECD member countries together with a number of key partner countries ...

Intelligent Technologies and Applications Jan 29 2020 This book constitutes the refereed proceedings of the 4th International Conference on Intelligent Technologies and Applications, INTAP 2021, held in Grimstad, Norway, October 11-13, 2021. The 33 full papers included in this book were carefully reviewed and selected from 243 submissions. They were organized in topical sections as follows: Intelligence, Decision support systems, IoT; Robotics; ML and AI for Intelligent Health, Applications of intelligent technologies in Emergency Management; Smart Electrical Energy Systems, AI and ML in Security; ML and AI for sensing technologies, Social Media Analytics; ML in energy sectors and materials; and Miscellaneous.

The Semantic Web Nov 08 2020 The two volumes LNCS 10249 and 10250 constitute the refereed proceedings of the 14th International Semantic Web Conference, ESWC 2017, held in Portorož, Slovenia. The 51 revised full papers presented were carefully reviewed and selected from 183 submissions. In addition, 10 PhD papers are included, selected out of 14 submissions. The papers are organized in the following tracks: semantic data management, big data, and scalability; linked data; machine learning; mobile web, sensors, and semantic streams; natural language processing and information retrieval; vocabularies, schemas, and ontologies; reasoning; social web and web science; semantic web and transparency; in use and industrial track; and PhD symposium. The paper 'Linked Data Notifications: A Resource-Centric Communication Protocol' is published open access under a CC BY 4.0 license at link.springer.com.

The English and Empire Digest Feb 21 2022

Handbook of Linguistic Annotation Jan 23 2022 This handbook offers a thorough treatment of the science of linguistic annotation. Leaders in the field guide the reader through the process of modeling, creating an annotation language, building a corpus and evaluating it for correctness. Essential reading for both computer scientists and linguistic researchers. Linguistic annotation is an increasingly important activity in the field of computational linguistics because of its critical role in the development of language models for natural language processing applications. Part one of this book covers all phases of the linguistic annotation process, from annotation scheme design and choice of representation format through both the manual and automatic annotation process, evaluation, and iterative improvement of annotation accuracy. The second part of the book includes case studies of annotation projects across the spectrum of linguistic annotation types, including morpho-syntactic tagging, syntactic analyses, a range of semantic analyses (semantic roles, named entities, sentiment and opinion), time and event and spatial analyses, and discourse level analyses including discourse structure, co-reference, etc. Each case study addresses the various phases and processes discussed in the chapters of part one.

Civil Court Service 2005 Apr 25 2022 Used daily by thousands of lawyers and judges nationwide for the whole range of civil cases Civil Court Service combines detailed procedural guidance with authoritative, concise annotation in one volume. Procedural Guides Over 60 Procedural Guides lead you through the procedural steps of key applications to the court. Each guide is prepared by a leading civil litigation practitioner and is cross-referenced to the relevant CPR Rule, Practice Direction or Statute. The guides are ordered/grouped according to the following subject areas: Starting a Claim; Responding; Track; General Procedures; Judgment; Costs; Enforcement; Tenancies and Possession of Land; Miscellaneous. Fully Annotated Rules and Practice Directions Rules and Practice Directions are annotated as appropriate by one of the panel of leading civil litigators. All Pre-Action Protocols and Court Guides are included. Easy navigation The index is referenced to page numbers (as opposed to confusing paragraph numbers) for easy navigation. Sub-headings in each annotation allow easy reference. With each guide cross-referenced to the relevant CPR Rule, Practice Direction or Statute you will always know exactly where you are. For just 195 you receive: Civil Court Service 2005 - hardback, published March 2005; FREE Reissue - unlike any other CPR reference you will be sent a completely updated reissue volume in the Autumn; FREE CD-ROM - contains the entire text of the book

together with an additional library of over 100 statutes and statutory instruments. A number of forms are also available for completion on screen. Published in March and reissued in Autumn 2005 along with the book; FREE Newsletter - published six times a year, it will keep you up to date with all the latest important decisions in civil cases and the latest changes to the Rules.

The Oxford Handbook of Corpus Phonology Oct 20 2021 This handbook presents the first systematic account of corpus phonology - the employment of corpora for studying speakers' and listeners' acquisition and knowledge of the sound system of their native languages and the principles underlying those systems. The first part of the book discusses the design, compilation, and use of phonological corpora, while the second looks at specific applications. Part 3 presents the tools and methods used, while the final part examines a number of currently available phonological corpora in various languages. It will appeal not only to those working with phonological corpora, but also to researchers and students of phonology and phonetics more generally, as well as to all those interested in language variation, dialectology, language acquisition, and sociolinguistics.

Health Information Processing Dec 30 2019 This book constitutes refereed proceedings of the 8th China Conference on China Health Information Processing Conference 2022 held in Hangzhou, China from August 26–28, 2022. The 14 full papers presented in this volume were carefully reviewed and selected from a total of 35 submissions. The papers in the volume are organised according to the following topical headings: healthcare natural language processing; healthcare data mining and applications

The Family Court Practice Jan 03 2023 "The Family Court Practice (Red Book), covers the entire range of family business and contains all the essential materials you need to practise in the Family Court. The new edition is fully updated to include the latest case-law, full coverage of new and amended legislation, Practice Directions and guidance. It also contains fully and expertly annotated statutes and rules together with scores of unique step-by-step procedural guides, which direct you effortlessly to the relevant rules and annotation." -- Provided by publisher.

Pediatric Clinical Practice Guidelines & Policies Mar 01 2020 Annotation New 14th Edition! Keep up with current practice guidelines and policies from the American Academy of Pediatrics with the latest, most up-to-date edition of this clinical reference classic. This evidence-based decision-making tool for managing common pediatric conditions has been revised and updated for 2014, with the latest clinical practice guidelines for more than 30 conditions, plus every AAP policy statement, clinical report, and technical report through December 2013. Updated and expanded for 2014 including:- 3 new pediatric clinical practice guidelines including Management of Newly Diagnosed Type 2 Diabetes Mellitus (T2DM) in Children and Adolescents Diagnosis and Management of Acute Otitis Media Diagnosis and Management of Acute Bacterial Sinusitis in Children Aged 1 to 18 Years- New Periodicity Schedule- Full text of more than 60 new or revised AAP policies- CD-ROM includes the full text of more than 400 AAP clinical practice guidelines, policy statements, clinical reports, and technical reports.- More than 30 clinical practice guidelines including Sleep Apnea guideline, as well as ADHD, bronchiolitis, dysplasia of the hip, gastroenteritis, otitis media, urinary tract infection, and more.- 2014 immunization schedule.

Annotated Guide to the Insolvency Legislation Volume 2. May 27 2022 This long-established legislation handbook provides annotated commentary and clarification on the legal and practical implications of the latest insolvency legislation. It is the standard work for accountants, lawyers and government officers dealing with insolvency.

Encyclopedia of Medical Decision Making Dec 10 2020 Decision making is a critical element in the field of medicine that can lead to life-or-death outcomes, yet it is an element fraught with complex and conflicting variables, diagnostic and therapeutic uncertainties, patient preferences and values, and costs. Together, decisions made by physicians, patients, insurers, and policymakers determine the quality of health care, quality that depends inherently on counterbalancing risks and benefits and competing objectives such as maximizing life expectancy versus optimizing quality of life or quality of care versus economic realities. Broadly speaking, concepts in medical decision making (MDM) may be divided into two major categories: prescriptive and descriptive. Work in the area of prescriptive MDM investigates how medical decisions should be done using complicated analyses and algorithms to determine cost-effectiveness measures, prediction methods, and so on. In contrast, descriptive MDM studies how decisions actually are made involving human judgment, biases, social influences, patient factors, and so on. The Encyclopedia of Medical Decision Making gives a gentle introduction to both categories, revealing how medical and healthcare decisions are actually made—and constrained—and how physician, healthcare management, and patient decision making can be improved to optimize health outcomes. Key Features Discusses very general issues that span many aspects of MDM, including bioethics; health policy and economics; disaster simulation modeling; medical informatics; the psychology of decision making; shared and team medical decision making; social, moral, and religious factors; end-of-life decision making; assessing patient preference and patient adherence; and more Incorporates both quantity and quality of life in optimizing a medical decision Considers characteristics of the decisionmaker and how those characteristics influence their decisions Presents outcome measures to judge the quality or impact of a medical decision Examines some of the more commonly encountered biostatistical methods used in prescriptive decision making Provides utility assessment techniques that facilitate quantitative medical decision making Addresses the many different assumption perspectives the decision maker might choose from when trying to optimize a decision Offers mechanisms for defining MDM algorithms With comprehensive and authoritative coverage by experts in the fields of medicine, decision science and cognitive psychology, and healthcare management, this two-volume Encyclopedia is a must-have resource for any academic library.

Civil Court Service 2011 Dec 02 2022 Offering detailed procedural guidance and authoritative, concise annotation in one volume, the Civil Court Service 2011 is the perfect solution to those who want fast and reliable answers to a wide range of civil litigation problems from a team of prominent judges and leading practitioners. Portable and comprehensive, Civil Court Service 2011 is the natural choice for the general civil litigator, especially in the county court. With over 60 procedural guides leading you through the key applications to the court, and concise expert commentary on the rules and relevant statutes, Civil Court Service 2011 gives you everything you need in one volume. New for 2011 Reissue The 2011 Reissue edition is completely up to date with all the latest changes, incorporating CPR Updates 56 and 57, including: • Changes to Part 6 allowing a solicitor's address in Scotland or Northern Ireland to be an address for service, and allowing use Money Claims Online in Northern Ireland and Scotland • New CPR r 36(14)(1A) reversing Carver v BAA [2008] EWCA Civ 412 • Changes to Costs Practice Direction and PD51D, PD51G and PD64B to control costs • Changes to clarify the Protocol for Low Value PI Claims in Road Traffic Accidents Key Features: Procedural Guides Over 60 Procedural Guides lead you through the procedural steps of key applications to the court. Each guide is cross-referenced to the relevant CPR Rule, Practice Direction or Statute. The guides are grouped according to the following subject areas: • Starting a Claim • Costs • Responding • Enforcement • Track • Tenancies and Possession of Land • General Procedure • Miscellaneous • Judgment • Appeals and Judicial Review Fully Annotated Rules and Practice Directions Rules and Practice Directions are annotated as appropriate by expert contributors. All Pre-Action Protocols and Court Guides are included. Easy Navigation The index is referenced to page numbers (as opposed to confusing paragraph numbers) for easy navigation. Subheadings in each annotation allow easy reference. Each procedural guide is cross-referenced to the relevant CPR Rule, Practice Direction or Statute acting as an alternative, subject-based, index to the main provisions. Also includes ...FREE CD-ROM Contains the entire text of the book together with an additional library of approximately 100 statutes and over 20 statutory instruments. A number of forms are also available for completion on screen. Published in March and reissued in Autumn 2011 along with the book. FREE Newsletter Published six times a year, and keeping you up-to-date with all the latest important decisions in civil cases and the latest changes to the Rules. Customers will be placed on standing order to receive copies of the Civil Court Service Newsletter, free re-issues and new editions until countermanded. *This CD-ROM is designed to run on Windows based systems. To check your system compatibility please contact our helpdesk on 0117 918 1496

The English and Empire Digest Nov 20 2021

The Practice of Crowdsourcing Sep 18 2021 Many data-intensive applications that use machine learning or artificial intelligence techniques depend on humans providing the initial dataset, enabling algorithms to process the rest or for other humans to evaluate the performance of such algorithms. Not only can labeled data for training and evaluation be collected faster, cheaper, and easier than ever before, but we now see the emergence of hybrid human-machine software that combines computations performed by humans and machines in conjunction. There are, however, real-world practical issues with the adoption of human computation and crowdsourcing. Building systems and data processing pipelines that require crowd computing remains difficult. In this book, we present practical considerations for designing and implementing tasks that require the use of humans and machines in combination with the goal of producing high-quality labels.

Arbitration Act 1996 Apr 01 2020 This book is an essential resource for any legal practitioner involved in any aspect of English arbitration law. It provides a thorough annotation of the Arbitration Act 1996, and contains comprehensive explanations of developments in the relevant case law to each section of the Act. Since the fourth edition of this book, the English courts have decided many important new cases on virtually every aspect of arbitration law. The most important developments relate to: The growth of anti-arbitration injunctions; The use of freezing injunctions against third party assets and the availability of anti-suit injunctions in EU proceedings; The definition of seat, the appointment of arbitrators, choice of applicable law, jurisdiction, the form of the award and the slip rule; Enforcement of foreign awards, and challenges to domestic awards by way of jurisdictional attacks, serious irregularity or error of law In this 5th edition, the notes to each section contain helpful sub-headings and a new Appendix will contain a fully annotated version of CPR Part 62 and the Practice Direction. The book will also be useful for academics and university students of law at all levels seeking an understanding of the 1996 Act, including those on the Legal Practice Course.

Contemporary Empirical Methods in Software Engineering Jul 05 2020 This book presents contemporary empirical methods in software engineering related to the plurality of research methodologies, human factors, data collection and processing, aggregation and synthesis of evidence, and impact of software engineering research. The individual chapters discuss methods that impact the current evolution of empirical software engineering and form the backbone of future research. Following an introductory chapter that outlines the background of and developments in empirical software engineering over the last 50 years and provides an overview of the subsequent contributions, the remainder of the book is divided into four parts: Study Strategies (including e.g. guidelines for surveys or design science); Data Collection, Production, and Analysis (highlighting approaches from e.g. data science, biometric measurement, and simulation-based studies); Knowledge Acquisition and Aggregation (highlighting literature research, threats to validity, and evidence aggregation); and Knowledge Transfer (discussing open science and knowledge transfer with industry). Empirical methods like experimentation have become a powerful means of advancing the field of software engineering by providing scientific evidence on software

development, operation, and maintenance, but also by supporting practitioners in their decision-making and learning processes. Thus the book is equally suitable for academics aiming to expand the field and for industrial researchers and practitioners looking for novel ways to check the validity of their assumptions and experiences. Chapter 17 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

The Family Court Practice 2015 Sep 06 2020 Busy practitioners find that, whether in preparation for a conference, in drafting a skeleton argument, or before setting off to court, they repeatedly have to search for the same authorities and the same crucial paragraphs within each authority. The Family Law Case Library (Children) addresses this need by providing a quick method of sourcing the key extracts from the seminal authorities, all collated in a single volume and presented thematically with cross-references to the full case report in the Family Law Reports. This valuable time saving reference book takes account of all Family Law Reports cases reported up to early 2015, allowing readers to refer to the very latest authority on any topic with confidence. Includes a free CD-ROM containing all of the extracts found in the book – ideal for copying and pasting when preparing documents such as skeleton arguments, or for printing and submitting in court.
