A Reference Grammar of Modern Italian Mar 03

2023 This Italian reference grammar provides students, teachers and others interested in the Italian language with a comprehensive, accessible and jargon-free guide to the forms and structure of Italian. Whatever their level of knowledge of the language, learners of Italian will find this book indispensable: it gives clear and detailed explanations of everything from the most elementary facts such as the relation between spelling and pronunciation, or the forms of the article, to more advanced points such as the various nuances of the subjunctive. Formal or archaic discourse is distinguished from informal, everyday usage, and regionalisms are also indicated where appropriate. The authors have taken care to make it an easy and illuminating reference tool: extensive cross-referencing enables readers to quickly find the information they require, and also stimulates them to discover new, related facts.

Annotated Bibliographies of Mineral Deposits in Europe Apr 11 2021 This volume

provides bibliographic and textural information which gives a real understanding of the 40 ore deposits in Western and West Central Europe. Each deposit is introduced by a selected bibliography listing the most important literature. This is followed by a detailed discussion covering geological characteristics including the position, grade and tonnage of the ore produced together with potential reserve, the stratigraphy and structure of the rocks of the district, and the characteristics and age of the ore body. The book also includes a section of maps, pin-pointing the most important mineral deposits in each region, making this work a valuable reference source for all those working in the fields of ore-deposit geology and exploration.

Drawing on a wide range of languages, Cinque argues that all relative clause types derive from a single, double-headed, structure.

The Influence of Pre-Raphaelitism on Fin de Siècle Italy Aug 16 2021
This volume is the first comprehensive study of the influence of English Pre-Raphaelitism on Italian art and culture in the late nineteenth century. Analysis of the cultural relations between Italy and Britain has focused traditionally on the special place that Italy had in the British imagination, but the cultural and artistic exchanges between the two countries have been much misunderstood. This book aims to correct this imbalance by placing Pre-Rapahelitism in its European context. It explores the nature of its influence on Italy, how it was transmitted, and how it was manifested, by focusing on the role of Italian Anglophiles,

the English communities in Florence and Rome, the writings of Gabriele D'Annunzio, and a number of Italian artists active in Tuscany and Rome. The works of Cellini, Ricci, Gioja, De Carolis, and Sartorio in particular fully demonstrate the impact of Pre-Raphaelitism on the young Italian school of painting which found in the English movement an ideal link with its glorious past on which it could build a new artistic identity. These artists show that English Pre-Raphaelitism was one of the most powerful single influences on fin-de-siecle Italian culture.

Edges, Heads, and Projections Mar 30 2020

This collection deals with central issues in the syntax of clauses and their interfaces with the conceptual-intentional system. The book targets the syntactic properties that have an impact on the interpretation of discourse and temporal

dependencies, functional fields including CP, pragmatic markers at the syntax-pragmatic interface, and on the possible parameterization of these properties. The papers in this volume bring to the fore the role of the edges (specifier and adjuncts), heads and projections in the grammar and at the interfaces. They address the question to what extent the relevant configurations at the level of edges, head, and projections determine the syntax/semantic, semantic/pragmatic connections. The contributions clarify the notion of edge and bring evidence that this notion is core to the analysis of various phenomena at the left periphery of clauses and phrases. This volume also discusses functional heads and their projections, particularly insofar as the properties of these heads determine the composition of the CP field, and cases where a CP may or may not be projected.

Force of Circumstance Jul 03 2020 Covering the years 1944 to 1952, this volume of the autobiography of legendary feminist and writer Simone de Beauvoir gives us not only an intimate account of her relationship with Sartre, but also a wonderful portrait of Parisian intellectual life. During this troubled period, French intellectuals grappled with the horrors of the Holocaust, the onset of the Cold War, and the beginning of colonial wars in Vietnam and Algeria. Beauvoir weaves memorable

descriptions and anecdotes about leading members of the French postwar scene, including Genet, Camus, Richard Wright, Artaud, and Cocteau, with an account of her travels in Europe, Africa, and the United States. She also gives us an unforgettable chronicle of her romance with novelist Nelson Algren and of her struggle to live as an independent woman and writer.

Alfabeto Christiano by Juan de Valdes, a Faithful Reprint of the Italian of 1546 with Modern Translations in Spanish and in English Sep 28 2022

The Fourth Crusade: Event, Aftermath, and Perceptions Jun 01 2020 The Fourth Crusade (1201-1204), launched to restore Jerusalem to Christian control, veered widely off course, finally landing at Constantinople which it conquered and sacked. The effects of the crusade were far-reaching during the Middle Ages and remain powerful even today, which

explains the continued vibrancy of its historiography. This volume, based on studies presented at the Sixth Conference of the Society for the Study of the Crusades and the Latin East in Istanbul, Turkey in 2004, represents some of the best new research on this fascinating event. With the "Diversion Question" of the past centuries now largely settled, these studies focus on three aspects of current scholarship: evaluations of the event itself, investigations into the aftermath of the conquest of Constantinople in 1204, and analyses of the evolving perceptions and memories of the event in Europe and the Middle East. Together these essays help to place the Fourth Crusade within the larger context of medieval Mediterranean history as well as larger issues such as agency, accommodation, and memory that inform new aspects of modern historiography.
