Advances in Distance Learning in Times of Pandemic Oct 14 2021 The book *Advances in Distance Learning in Times of Pandemic* is devoted to the issues and challenges faced by universities in the field of distance learning in COVID-19 times. It covers both the theoretical and practical

aspects connected to distance education. It elaborates on issues regarding distance learning, its challenges, assessment by students and their expectations, the use of tools to improve distance learning, and the functioning of e-learning in the industry 4.0 and society 5.0 eras. The book also devotes a lot of space to the issues of Web 3.0 in university e-learning, quality assurance, and knowledge management. The aim and scope of this book is to draw a holistic picture of ongoing online teaching-activities before and during the lockdown period and present the meaning and future of e-learning from students' points of view, taking into consideration their attitudes and expectations as well as industry 4.0 and society 5.0 aspects. The book presents the approach to distance learning and how it has changed, especially during a pandemic that revolutionized education. It highlights • the function of online education and how that has changed before and during

the pandemic. • how e-learning is beneficial in promoting digital citizenship. • distance learning characteristic in the era of industry 4.0 and society 5.0. • how the era of industry 4.0 treats distance learning as a desirable form of education. The book covers both scientific and educational aspects and can be useful for university-level undergraduate, postgraduate and research-grade courses and can be referred to by anyone interested in exploring the diverse aspects of distance learning.

Rethinking Languages

Education Feb 03 2021

Rethinking Languages Education assembles innovative research from experts in the fields of sociocultural theory, applied linguistics and education. The contributors interrogate innovative and recent thinking and broach controversies about the theoretical and practical considerations that underpin the implementation of effective Languages pedagogy in twenty-first-century classrooms.

Crucially, Rethinking Languages Education explores established understandings about language, culture and education to provide a more comprehensive and flexible understanding of Languages education that responds to local classrooms impacted by global and transnational change, and the politics of language, culture and identity. Rethinking Languages Education focuses on questions about ways that we can develop farsighted and successful Languages education for diverse students in globalised contexts. The response to these questions is multi-layered, and takes into account the complex interactions between policy, curriculum and practice, as well as their contention and implementation. In doing so, this book addresses and integrates innovative perspectives of contemporary theory and pedagogy for Languages, TESOL and EAL/D education. It includes diverse discussions around practice, and addresses issues of the

dominance of prestige Languages programs for 'minority' and 'heritage' languages, as well as discussing controversies about the current provision of English and Languages programs around the world.

Technological Resources for Second Language

Pronunciation Learning and Teaching Nov 14 2021 This book introduces research on a wide variety of technologies that can support second language pronunciation learning. While working to introduce practitioners to numerous technologies available, it also dives into the research-basis for their use, providing new studies and data for language-learning contexts.

OECD Reviews of Integrity in Education: Ukraine 2017

Jun 21 2022 Education in Ukraine is marked by integrity violations from early childhood education and care through postgraduate study. In the past decade policy makers and civic organisations have made progress in addressing these challenges. However, much

remains to be done.

The Oxford Handbook of Deaf Studies in Language

Dec 24 2019 Language development, and the challenges it can present for individuals who are deaf or hard-of-hearing, have long been a focus of research, theory, and practice in D/deaf studies and deaf education. Over the past 150 years, but most especially near the end of the 20th and beginning of the 21st century, advances in the acquisition and development of language competencies and skills have been increasing rapidly. This volume addresses many of those accomplishments as well as remaining challenges and new questions that have arisen from multiple perspectives: theoretical, linguistic, social-emotional, neuro-biological, and socio-cultural. Contributors comprise an international group of prominent scholars and practitioners from a variety of academic and clinical backgrounds. The result is a volume that addresses, in

detail, current knowledge, emerging questions, and innovative educational practice in a variety of contexts. The volume takes on topics such as discussion of the transformation of efforts to identify a "best" language approach (the "sign" versus "speech" debate) to a stronger focus on individual strengths, potentials, and choices for selecting and even combining approaches; the effects of language on other areas of development as well as effects from other domains on language itself; and how neurological, socio-cognitive, and linguistic bases of learning are leading to more specialized approaches to instruction that address the challenges that remain for deaf and hard-of-hearing individuals. This volume both complements and extends *The Oxford Handbook of Deaf Studies and Deaf Education, Volumes 1 and 2*, going further into the unique challenges and demands for deaf or hard-of-hearing individuals than any other text and providing not only

compilations of what is known but setting the course for investigating what is still to be learned.

It is very comprehensive and well written, providing a superb reference for Kiswahili noun

classes, one of the most difficult aspects of learning this beautiful language. In fact, it is one of the finest language reference documents I have seen in my 40 years of learning and teaching languages, and I give it my strongest possible recommendation. If you are a student of Kiswahili, from beginning to advanced level, you should obtain and utilize this excellent reference - you'll be very glad you did." Barbara Jordan, Jacksonville, Florida

Challenges in Language Testing Around the World

Mar 19 2022 This book combines insights from language assessment literacy and critical language testing through critical analyses and research about challenges in language assessment around the world. It investigates problematic practices in language testing which are relevant to language test users such as language program directors, testing centers, and language teachers, as well as teachers-in-training in Graduate Diploma and Master of Arts in Applied Linguistics

programs. These issues involve aspects of language testing such as test development, test administration, scoring, and interpretation/use of test results. Chapters in this volume discuss insights about language testing policy, testing world languages, developing program-level language tests and tests of specific language skills, and language assessment literacy. In addition, this book identifies two needs in language testing for further examination: the need for collaboration between language test developers, language test users, and language users, and the need to base language tests on real-world language use.

Curriculum Development in

English for Academic Purposes

Nov 02 2020 This book introduces and explains a series of tools for curriculum renewal and revitalization in English for Academic Purposes (EAP) programs, based on the experiences of the authors in successfully implementing a new curriculum in a large EAP program in North America. The book focuses on the why and how of introducing curriculum change, while also engaging critically with the realities of day-to-day classroom practice and the important issue of teacher engagement. While maintaining a principles-driven approach, each chapter is also filled with tools, samples and case study examples, grounding the book in practice and making it an essential resource for language teachers, teacher trainers, and students on TESOL and related courses.

The Politics of English

Second Language Writing Assessment in Global Contexts

Sep 12 2021

Reflecting the internationalization of the field of second language writing, this book focuses on political aspects and pedagogical issues of writing instruction and testing in a global context. High-stakes assessment impacts the lives of second language (L2) writers and their teachers around the world, be it the College English Test in China, Common Core-aligned assessments in the U.S., English proficiency tests in Poland, or the material conditions (such as access to technology, training, and other resources) affecting a classroom. With contributions from authors working in ten different countries in a variety of institutional contexts, the chapters examine the uses and abuses of various writing-related assessments, and the policies that determine their form and use. Representing a diverse range of contexts, methods, and disciplines, the authors jointly call for more

equitable testing systems that consider the socioeconomic, psychometric, affective, institutional, and needs of all students who strive to gain access to education and employment opportunities related to English language proficiency.

Final Exam May 28 2020 A brilliant transplant surgeon brings compassion and narrative drama to the fearful

reality that every doctor must face: the inevitability of mortality. "Uncommonly moving ... A revealing and heartfelt book." —Atul Gawande, #1 New York bestselling author of *Being Mortal*

When Pauline Chen began medical school, she dreamed of saving lives. What she could not predict was how much death would be a part of her work. Almost immediately, she found herself wrestling with medicine's most profound paradox—that a profession premised on caring for the ill also systematically depersonalizes dying. Final Exam follows Chen over the course of her education and practice as she struggles to reconcile the lessons of her training with her innate sense of empathy and humanity. A superb addition to the best medical literature of our time.

Escape from Communism
Feb 24 2020 Life under communism is cruel and inhumane. Commit the smallest

political infraction, and the secret police will arrest you. The only ray of hope is the West, but getting out from communism is difficult. Communist countries have a "Berlin Wall" around them. It is a crime to escape by crossing the border illegally, and anyone caught is beaten and imprisoned, sometimes even shot. I was eighteen, and I was living in hell. However, I would rather have died than keep living as a communist slave. This is my story of what happened and how I reached freedom.

AAUSC 2014 Volume - Issues in Language Program Direction: Innovation and Accountability in Language Program Evaluation May 21 2022

Despite rapid globalization within contemporary society and the seemingly obvious need for the study of foreign languages (FL) and cultures; recruitment to undergraduate FL degrees has dwindled, graduate programs have disappeared; and institutions have restructured independent language departments into

mega-departments of languages, literatures, and cultures. At the same time, the FL and humanities disciplines have engaged in “soul-searching” exercises in an effort to understand and express a renewed sense of value for the study of foreign language and culture. As a result of these kinds of societal and disciplinary movements, FL programs, along with other educational sectors, are facing the increased need to engage with peripheral forces like accountability and accreditation, to express and ensure their value through outcomes assessment, and to begin to think, innovate, and behave programmatically. Key to enacting these changes systematically and effectively is heightened awareness of the importance of program evaluation, not only as a means to demonstrate how and why FL study is a valuable pursuit in today’s world, but also as a process through which sound improvements can be made, participants can learn, and educational relevance can be

sought. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Languages for Specific Purposes in the Digital Era Aug 31 2020 Explores the direct relation of modern CALL (Computer-Assisted Language Learning) to aspects of natural language processing for theoretical and practical applications, and worldwide demand for formal language education and training that focuses on restricted or specialized professional domains. Unique in its broad-based, state-of-the-art, coverage of current knowledge and research in the interrelated fields of computer-based learning and teaching and processing of specialized linguistic domains. The articles in this book offer insights on or analyses of the current state and future directions of many recent key concepts regarding

the application of computers to natural languages, such as: authenticity, personalization, normalization, evaluation. Other articles present fundamental research on major techniques, strategies and methodologies that are currently the focus of international language research projects, both of a theoretical and an applied nature.

Vistas of English for Specific Purposes May 09 2021 English for Specific Purposes (ESP) is one of the most needed forms of English Language Teaching with regards to the adult population in today's global market economy where the English language is a prerequisite for the exchange and communication of professional ideas, best practices, and experiences, and a necessary skill for advancement in one's career. This comprehensive volume brings together the most insightful papers from the First International Conference on Teaching English for Specific and Academic

Purposes, titled "Connect and Share", held at the Faculty of Electronic Engineering of the University of Niš, Serbia, in May 2013. The collection covers a diverse and extensive list of topics, and provides a number of invaluable contributions which prove the presence of ESP in all continents, and in many different professions, sciences, and businesses. Also of interest is the fact these papers highlight the interrelatedness of ESP and linguistics, the methodology of teaching, sociolinguistics, and a number of other fields relevant to the study and practice of languages. The chapters of this book prove that immense, original, creative and worthwhile research is being conducted in the ever-growing and increasingly relevant field of ESP. At the same time, the book also offers rich insights into many innovative teaching practices that justify ESP as an important area of academic study.

16 2021 Classroom tests are an everyday feature of second and foreign language classrooms worldwide. Teachers spend a lot of time and energy making and using tests, and learners spend a lot of time and energy taking them. Nonetheless, such assessments are under-studied, as they are considered routine. This volume illuminates this little-researched area. Featuring fifteen classroom language tests made and used by Chinese, English, French, German, Italian, Japanese, Russian, and Spanish teachers, the book includes parallel teacher commentary and testing content chapters that transparently probe the teachers' processes of making and using their tests. Rather than view teachers' tests as poor shadows of what professional test writers do, this work identifies the reasoning behind teachers' tests. In addition, focused testing content chapters take examples directly from the actual tests and the accompanying teacher commentary. This book is an

accessible, applied resource for second and foreign language teachers, language program administrators working with teachers, students in teacher preparation and enrichment programs, and scholars in language teaching, learning, and testing.

Research on Translator and Interpreter Training

Apr 19 2022 This book comprehensively examines the development of translator and interpreter training using bibliometric reviews of the state of the field and empirical studies on classroom practice. It starts by introducing databases in bibliometric reviews and presents a detailed account of the reasons behind the project and its objectives as well as a description of the methods of constructing databases. The introduction is followed by full-scale review studies on various aspects of translator and interpreter training, providing not only an overall picture of the research themes and methods, but also valuable information on active authors, institutions and

countries in the subfields of translator training, interpreter training, and translator and interpreter training in general. The book also compares publications from different subfields of research, regions and journals to show the special features within this discipline. Further, it provides a series of empirical studies conducted by the authors, covering a wide array of topics in translator and interpreter training, with an emphasis on learner factors. This collective volume, with its unique perspective on bibliometric data and empirical studies, highlights the latest development in the field of translator and interpreter training research. The findings presented will help researchers, trainers and practitioners to reflect on the important issues in the discipline and find possible new directions for future research.

Language and Composition,

5th Edition Jan 23 2020 "Your complete guide to a higher score on the AP English Language and Composition Exam" --

The Power of Tests Jun 29 2020 Language in Social Life is a major series which highlights the importance of language to an understanding of issues of social and professional

concern. It will be of practical relevance to all those wanting to understand how the ways we communicate both influence and are influenced by the structures and forces of contemporary social institutions. In all modern societies individuals are subject to tests, whether to enter educational programs, to pass from one level to the next or to grant certificates to practice. Yet, tests are powerful tools which are often introduced in undemocratic and unethical ways as disciplinary tools for carrying out various policy agendas. Tests can be detrimental to people's lives as they are capable of affecting and defining the knowledge and behaviour of those who are being tested. The Power of Tests applies a critical perspective of language tests by examining their uses and consequences in education and society and by viewing tests not as isolated events but rather as embedded in social, educational and political contexts. The book is divided

into four parts: the first part establishes the power of tests through echoing the voices of test takers, describing the features of the power of tests, and the temptations that tests offer to bureaucrats who use them for power and control. The second part reports on studies that provide empirical evidence about intentions and effects of a number of large scale language tests. The third part interprets the results by examining their consequences on education and society, arriving at a model of tests' use. The final section of the book offers strategies for controlling and minimising the misuses of tests by introducing the notion of Critical Language Testing which calls for the examination of the consequences and misuses of tests, monitoring of power and pointing to their unethical uses. It also provides a comprehensive discussion of the responsibilities of language testers, including a new Code of Ethics, as well as strategies for guarding and protecting the rights of test takers.
