Early Years Workbooks 1-4 Nov 18 2021 A pack of 4 workbooks that provide pre-schoolers with reinforcement and consolidation of skills. Each workbook covers one section of the alphabet.

Homeschooling: The Early Years Nov 30 2022 Discover the Rewards of Homeschooling Your Young Child Young children are full of curiosity, imagination, and a sense of wonder. They're willing to try new things and possess a natural joy of discovery. Yet in a traditional school, these natural behavior traits are too often squelched. That's why more and more parents just like you are choosing to teach their children at home during these critical years—the years that lay the foundation for developing learning skills that last a lifetime. Inside, respected homeschooling author Linda Dobson shows you how homeschooling can work for you and your young child. You'll discover how to: ·Tailor homeschooling to fit your family's unique needs ·Know when your child is ready to learn to read ·Teach your child arithmetic without fear—even if you're math-challenged ·Give your child unlimited learning on a limited budget ·And much more! "Brings dazzling clarity to the otherwise nerve-wracking confusion of early learning—and the adventure of becoming fully human. Highly recommended."—John Taylor Gatto, former New York State Teacher of the Year and author of *Dumbing Us Down* "Provides a much-needed introduction to living and learning with young children. Open the book to any page and you'll find inspiring anecdotes and approaches to learning that leave the reader thinking, 'That just makes so much sense!' Highly recommended for anyone who lives, works, or plays with young children."—Helen Hegener, managing editor of *Home Education Magazine* "An information-packed delight; I only wish it had been around when our three boys were three to eight years old."—Rebecca Rupp, author of *The Complete Home Learning Sourcebook* "This book brings together the experience and wisdom of a great variety of homeschooling families—tied together with warm encouragement and wonderful simplification of processes that can seem so mysterious and daunting to the beginner. A very solid resource!"—Lillian Jones, homeschooling activist, writer, and reviewer

Language and Literacy for the Early Years Apr 23 2022 <http://www.uk.sagepub.com/repository/binaries/img/common/nurseryworld13.gif> width="175" height="152" border="0" align="right" /> Shortlisted for the 2013 Nursery World Awards! This is a focused text on early years' language and literacy for all students studying for degrees and foundation degrees in early childhood, early years and related disciplines and for candidates on EYPS pathways. It discusses language acquisition and development and covers development theory, talking with babies and the factors that affect development. Practical guidance on how to support children's language acquisition through rhymes, songs, story books and storytelling helps students see how theory links to practice. The text also examines the question 'what comes before phonics?' and includes interactive activities and theory focus features. About the Early Childhood Studies Series This series has been designed to support students of Early Years, Early Childhood Studies and related disciplines in popular modules of their course. Each text takes a focused look at a specific topic and approaches it in an accessible and user-friendly way. Features have been developed to help readers engage with the text and understand the subject from a number of different viewpoints. Activities pose questions to prompt thought and discussion and 'Theory Focus' boxes examine essential theory close-up for better understanding. This series is also applicable to EYPS candidates on all pathways. Other titles in the series include *Early Childhood Studies*, *Childhood in Society for Early Childhood Studies*, *Child Development for Early Childhood Studies* and *Exploring Play for Early*

Childhood Studies.

Early Years Practice Jan 09 2021 'I would recommend this book to students and trainees who wish to extend their knowledge and understanding of early years practice beyond level 3. This book is accessible, up to date and focuses on translating theory into practice, incorporating the essential higher order skill of reflection. The pedagogical foundations within place children firmly at the centre, whilst acknowledging the highly influential early years practitioner in the wider context of family, community and inclusive practice.' Sarah Barton, Senior Lecturer and EY ITT Programme Leader, School of Education and Continuing Studies, University of Portsmouth Are you studying to become an early years teacher or educator, or studying for an early years degree, and looking for a book to guide you through your qualification? With stories of practice, questions for reflection, further reading and links to the Teachers' Standards (Early Years), this book links professional practice with theory and research and will help you: · understand how children learn and develop · engage with the curriculum and the practice of teaching · learn more about the structure and reality of early years provision and practice for children aged from 0–8 years · develop ways to reflect upon your practice · develop professional skills and attributes needed to take a leading role · understand how to apply all of this to practice. This core textbook is ideal for students of early years and early childhood courses and will support you in your practice in the early years.

Child Development for Early Years Students and Practitioners Jul 15 2021 This accessible guide to child development is for students of degrees and foundation degrees in Early Years, Early Childhood Studies and related disciplines and for early years practitioners. *Introduces the context of child development *Develops an understanding of development and of how early years practitioners can support this *Explores the biological/social debate, and the importance of holistic development *Examines factors affecting development and includes a chapter on reflective practice *Considers the complexity of children's development and argues that it is not always a straight forward progression This fifth edition: *is updated in line with the new EYFS and the updated Development Matters; *is updated to include child development learning from 0-8 *includes up-to-date guidance on assessment processes in the Early Years; *includes a new section with key knowledge on well known theories of child development.

The Really Useful Book of ICT in the Early Years Apr 04 2023 Practitioners and students wishing to know how very young children develop an awareness of ICT will find this text invaluable. ICT has arguably one of the biggest impacts on every-day 21st century life, so its inclusion in the Early Years Foundation Stage curriculum reflects the need to encourage forward-looking practice in classrooms and nurseries. This book enables you to help young children develop their knowledge, understanding and skill in the use of ICT, with chapters from contributors with a wide range of practical experience. Full of ideas and new thinking, this practical guide shows you how to: promote independence in children's use of ICT through resources like digital cameras and role-play toys. explore the nature of creativity through ICT, using it to support the more traditional areas of art, music, dance and writing use ICT to enhance the physical and sensory aspects of outdoor learning experiences. harness the potential of ICT in reaching children with a variety of different learning needs, particularly those with profound and multiple learning difficulties, or autistic spectrum disorders. value children's home experiences of ICT and build on what they already know, and how to work with parents in developing their child's ICT capability. ICT can underpin all areas of learning for young children; this highly practical, inspirational and informative text is therefore relevant to all practitioners and students training in Early Years education.

Digital Technologies and Learning in the Early Years Sep 28 2022 iPads, mobile phones, tablets and many other digital devices feature in the lives of children from the moment they are born, but what is the place of these technologies in children's early years and learning experiences? In the age of the 'Techno-Tot' this edited collection focuses on exploring the potential of what children can do with technologies, rather than what technologies can do for children. With chapters written by a range of international authors, this book: offers an evidence-based discussion of children's experiences with technologies in early years education broadens our understanding of technologies in early years, beyond the typical focus on screen-based media details the child's 'story' with technology offers a range of case studies from the UK, USA, Australia and Europe. Lorna Arnott will be discussing key ideas from Digital Technologies and Learning in the Early Years in the SAGE Early Years Masterclass, a free professional development experience hosted by Kathy Brodie. Mathematics in Early Years Education May 05 2023 This fourth edition of the bestselling *Mathematics in Early Years Education* provides an accessible introduction to the teaching of mathematics in the early years. Covering all areas of mathematics – number and counting, calculation, pattern, shape, measures and data handling – it provides a wide range of practical activities and guidance on how to support young children’s mathematical development. There is also guidance on managing the transition to KS1 and a strong emphasis throughout on creating home links and working in partnership with parents. This new edition has been fully updated to incorporate the latest research and thinking in this area and includes: why mathematics is important as a way of making sense of the world how attitudes to mathematics can influence teaching and learning how children learn mathematics and what they are capable of learning how technology can support maths teaching maths phobia and the impact society has on maths teaching material on sorting, matching and handling data the importance of educating about finance in today’s world ideas for observation and questioning to assess children’s understanding examples of planned activities suggestions for language development assessment criteria. This textbook is ideal for those training to be teachers through an undergraduate or PGCE route, those training for Early Years Professional Status and those studying early childhood on foundation or honours degrees, as well as parents looking to explore how their young children learn mathematics. This will be an essential text for any early years practitioner looking to make mathematics interesting, exciting and engaging in their classroom.

Effective and Caring Leadership in the Early Years Dec 28 2019 'This book introduces an intriguing juxtaposition of "caring" alongside "effective", and it is a thought-provoking book. Including examples of early years leaders on their own reflective learning journeys, it provides a rich source of ideas for relational leadership that are firmly based in research and professional experience.' - Professor Margaret Carr, University of Waikato, New Zealand *Effective and caring leadership* is an essential part of raising standards and increasing the quality of learning in early childhood settings. This book explains leadership practices that can make a positive difference to the provision offered and improve outcomes for both children and families. With theoretical, practical and research-informed perspectives, this book: Uses case studies to provide examples of effective leadership Integrates education and care with key practices in effective leadership Explores directional, collaborative, empowering and pedagogical leadership Offers readers opportunity to reflect upon their own leadership practices This is a key text for anyone studying Early Childhood, existing and aspiring leaders, graduate Early Years Leaders and those training to work in settings, schools and children’s services. Professor Iram Siraj is Professor of Early Childhood Education at the Institute of Education, University of London. Dr. Elaine Hallet is a Lecturer in Early Childhood Education at the Institute of Education, University of London.

Ict In The Early Years Feb 28 2020 This book considers the potential of ICT to provide opportunities for young children to learn through playful and creative activities, examining research and practice in relation to the educational uses of ICT with young children. The book raises important issues about teaching in the early years using ICT, such as giving pupils control, co-operative working, access and assessment.

Technology and Digital Media in the Early Years Oct 30 2022 A Co-Publication of Routledge and NAEYC *Technology and Digital Media in the Early Years* offers early childhood teacher educators, professional development providers, and early childhood educators in pre-service, in-service, and continuing education settings a thought-provoking guide to effective, appropriate, and intentional use of technology with young children. This book provides strategies, theoretical frameworks, links to research evidence, descriptions of best practice, and resources to develop essential digital literacy knowledge, skills and experiences for early childhood educators in the digital age. *Technology and Digital Media in the Early Years* puts educators right at the intersections of child development, early learning, developmentally appropriate practice, early childhood teaching practices, children’s media research, teacher education, and professional development practices. The book is based on current research, promising programs and practices, and a set of best practices for teaching with technology in early childhood education that are based on the NAEYC/FRC Position Statement on Technology and Interactive Media and the Fred Rogers Center Framework for Quality in Children’s Digital Media. Pedagogical principles, classroom practices, and teaching strategies are presented in a practical,

straightforward way informed by child development theory, developmentally appropriate practice, and research on effective, appropriate, and intentional use of technology in early childhood settings. A companion website (<http://teccenter.erikson.edu/tech-in-the-early-years/>) provides additional resources and links to further illustrate principles and best practices for teaching and learning in the digital age.

Theories and Approaches to Learning in the Early Years Jan 01 2023 By focusing on key figures in early years education and care, this book considers the influential thinkers and ground-breaking approaches that have revolutionized practice. With contributions from leading authorities in the field, chapters provide an explanation of the approach, an analysis of the theoretical background, case studies, questions and discussion points to facilitate critical thinking. Included are chapters on: - Froebel - Psychoanalytical theories - Maria Montessori - Steiner Waldorf education - High/Scope - Post-modern and post-structuralist perspectives - Forest Schools - Vivian Gussin Paley - Te Whāitūheri Written in an accessible style and relevant to all levels of early years courses, the book has staggered levels of Further Reading that encourage reflection and promotes progression. Linda Miller is Professor Emeritus of Early Years, The Open University Linda Pound is a consultant and author, renowned for her work in early years education and care.

Advanced Early Years Care and Education Jan 21 2022 This core textbook for foundation degrees covers the content of the 12 core outcomes at the appropriate depth and breadth giving students a complete grounding in the basics of the subject.

The Early Years Handbook for Students and Practitioners May 13 2021 The Early Years Handbook for Students and Practitioners is a comprehensive and accessible course text for all students studying at levels 4 and 5, including on Foundation Degrees and Early Childhood Studies degrees. Designed and written by the Chair of the SEFDEY (Sector-Endorsed Foundation Degree in Early Years) Network and a team of expert contributors, this book covers the essential skills, knowledge and understanding you need to become an inspiring and effective early years practitioner. Divided into four parts: The Student-Practitioner-Professional; The Learning and Development of Children 0-5; The Child, Family and Society; and The Senior Practitioner-Professional, the book covers all aspects of working with young children and engages you with theory that is explicitly linked to your practice. Throughout there is a strong emphasis on supporting your transition to undergraduate study, developing your academic skills and encouraging you to be an active learner. In every chapter, the book seeks to help you develop your professional identity and features: Activities to help you to reflect on your own practice 'Provocations' to promote discussion and debate Case study examples and photographs to illustrate key points 'From Research to Practice' boxes outlining key research in the field and implications for practice. The book is supported by a companion website featuring, for students, links to useful websites and video material, and an interactive flashcard glossary. Online support for lecturers includes ideas for tasks and activities to use in class and the diagrams and images in the book available to download.

Learning and Teaching in Early Childhood Jan 27 2020 Learning and Teaching in Early Childhood: Pedagogies of Inquiry and Relationships is an introduction for early childhood educators beginning their studies. Reflecting the fact that there is no single correct approach to the challenges of teaching, this book explores teaching through two lenses: teaching as inquiry and teaching as relating. The first part of the book focuses on inquiry, covering early childhood learning environments, learning theories, play pedagogies, approaches to teaching and learning, documentation and assessment, and the policy, curriculum and regulatory requirements in Australia. The second part explores relationships in early childhood contexts and covers topics such as fostering meaningful and respectful relationships with children, and working with families, staff and the wider community. Written by well-respected academics in the field, Learning and Teaching in Early Childhood is a vital resource for those entering the early childhood education and care profession.

The Early Years Matter Jul 27 2022 This accessible and engaging work introduces current and future teachers, child care providers, and others interested in early childhood education to the importance for the early years in children's well-being and success. It summarizes their research on the value of high-quality services for young children, families, and society, showing why early education matters both today and into the future. Emphasizing the need to understand and respect young children's strengths and unique characteristics, the authors offer inspiration for working in the field, as well as addressing the realistic challenges of implementing developmentally appropriate care and education.

Learning Through Play Jul 03 2020 Learning Through Play translates the theory of play into practice while seamlessly integrating the Australian Curriculum, government policy and current trends. It aims to create a shared understanding of play and play-based pedagogies that positively influence the everyday practices of educators and improve the learning experiences of children. The book extensively covers the various contexts that children may engage with during the early years - the period from birth to age 8. Learning Through Play is structured to complement the Early Years Learning Framework and early childhood education studies. It begins by drawing on theories to discuss the centrality of play to children's development and learning, then delves into the practicalities and challenges of implementing these play-based approaches, and finally discusses the future of play in early childhood contexts. With several learning features that blend theory, context and practical skills, Learning Through Play will not only help pre-service teachers to understand play in principle and in practice, but also to advocate articulately for play-based approaches.

Teaching STEM in the Early Years Sep 16 2021 The foundation for science, technology, engineering, and mathematics (STEM) education begins in the early years. This book provides more than ninety activities and learning center ideas that seamlessly integrate STEM throughout early childhood classrooms. These hands-on STEM experiences enhance cooking, art, and music activities, block play and sensory table exploration, and field trips and outdoor time. Information on assessment and early learning standards is also provided. Sally Moomaw, EdD, has spent much of her career researching and teaching STEM education. She is an assistant professor at the University of Cincinnati and the author of several early education books.

Physical Activity and Health Promotion in the Early Years Sep 04 2020 This book focuses on improving well-being among young children. It provides a theoretical base explaining why physical activity is important, and offers practical strategies for increasing health and well-being in early childhood settings. It takes ancient wisdom on the mind and body connection, applies it to the youngest children, and supports it with current empirical and international evidence—all with an eye toward improving wellness across the lifespan. The many topics discussed in the book include children's motor skills, movement, interaction, physical literacy, the use of video games, dog ownership, developmental delays, as well as strategies to improve physical activities in the classroom and broader contexts. In recent years, children's health has become a priority worldwide. Topics such as "screen time" "sedentary behavior" and "childhood obesity" have become important issues everywhere- in the news, in schools, in community and commercial settings, and among health care providers. Limiting sedentary behavior, increasing physical activity, and maintaining a nutritious diet are three fundamental needs during early childhood. Preschool years are a time when children begin to explore the world around them, and develop more vivid understandings of their surroundings. As this book shows, the early years may be the best time to teach wellness concepts and assist young children in establishing healthy lifestyle habits.

Mathematics in the Early Years Mar 30 2020 The Clemsons' clear and readable book takes the reader from debates about how children learn and what children know and can do when they start school; through to a discussion of how mathematics can be managed, assessed and evaluated in the school and classroom. Linking these two parts of the book is a section on the subject of mathematics itself, from which the non-specialist reader can gain a view of what mathematics is, what needs to be thought about in planning and offering a curriculum and the special dilemmas faced in teaching and learning mathematics as a subject. A bank of case studies offers an opportunity to see mathematics in action in a variety of classrooms.

EBOOK: Leading Change in the Early Years Mar 11 2021 Leading Change in the Early Years focuses on the type of leadership skill needed for leading the reform and change agendas that challenge the early years sector. Early years professionals are expected to implement a range of government initiatives, as well as professionally endorsed changes, aimed at raising the quality of early years provision. The ease and success with which such initiatives are implemented relies on the competent leadership of change, that is, knowledge, understanding and expertise in encouraging, supporting and working with everyone involved with implementing and sustaining change. This resource helps to unpick the principles, processes and practice of effecting change and offers early years professionals a practical guide to the important elements relevant for meeting the political agenda for quality improvement and the professional challenge of effecting responsible change. Key content includes: the link between competent leadership and successful change dimensions, models and processes of change

leadership skills for effecting change strategies for reducing reluctance and resistance This book is ideal for early years leaders who understand the general principles and practice of leadership, but who are interested in exploring and expanding their understanding and expertise in leading reform and change. Jillian Rodd is an educational and developmental psychologist and has published widely in the early childhood field throughout the world. This is a powerful text that utilises the voices of early years leaders to clearly articulate the challenges of leading change and demonstrate how the sector is rising to that challenge. It is, therefore, an excellent and vital resource for all working in the early years sector and comes at absolutely the right time as the pace of change in the sector continues to be fast flowing. This book comprehensively and accessibly draws together theory and practice enabling a thorough exploration of the subtle nuances within current debates as to the interrelationship and interaction of leadership and change. The closing thoughts at the end of each chapter are inspired; not simply a summary of the chapter, but an opportunity to underline the importance of key issues. The constructive and helpful strategies offered throughout the text give considerable support for those charged with leading change in the early years sector and, consequently, should be on the bookshelf of every early years setting. Dr Caroline Leeson, Associate Professor of Early Childhood Studies, Plymouth University In a constantly changing world strong leadership and change management skills become of paramount importance and there is an increasing expectation that early years professionals are able to negotiate these domains. This text draws on research evidence and case studies from practice to support those dealing with change on a daily basis. By encouraging early years professionals to draw on their skills of leadership and interpersonal relationships, Jillian provides clear strategies to enact change. This is a 'must have' book for all those working in the Early Years. Nikki Fairchild, Early Years Initial Teacher Training Programme Coordinator, University of Chichester At a time when early years practitioners everywhere are feeling pressure to respond to the children's policy agenda, this accessible guide offers support in implementing and sustaining change. Underpinned by theoretical models, Rodd explores the relationship between leadership and quality and identifies the dynamics of change within the processes of leadership. The text is complemented by comments from a wide of practitioners illustrating how professionals in different contexts experience and respond to the complexity of change. Rory McDowall Clark, Senior Lecturer in Early Childhood, Worcester University Jillian Rodd gives a contemporary view of leadership and change incorporating the latest research from the early years sector. Practitioner voices are evident throughout the book and bring the text to life, helping to contextualise theory explained in the chapters to real issues practitioners encounter in everyday practice. The book provides insight to the complexities of leadership and change, essential understanding for both early years students and practitioners. Natalie Canning, Lecturer in Education - Early Years, The Open University This latest book from Jillian Rodd is timely as early childhood services continue to respond to the demands of policy and funding changes arising from continuing government interest in the early years. Another important application lies in responding to complexity arising from diverse communities and the challenges of improving and developing pedagogy and curriculum to enhance each child's learning and wellbeing. Currently there is little available that specifically addresses change in the early years. 'Leading change in the early years' progressively develops an argument that change is complex and multi-faceted, conceptualising change as encompassing quality improvement as a core function of early years services rather than as a special event to be managed. The role of leadership is presented as embedded within change where multiple leaders have responsibilities to contribute to change through building professional relationships that support collective endeavours within services. In recognising the complexity of change the work draws on current research offering comprehensive coverage of the issues and significant factors associated with change, including the importance of establishing and nurturing a culture of learning within a service. This latest work is very accessible and will be invaluable for existing early childhood leaders, aspiring leaders and tertiary students. I have no doubt this book will be valued as a companion to the acclaimed Leadership in Early Childhood now in the 4th edition. Kaye Colmer, CEO Gowrie SA Change is the big 'c' word in contemporary educational environments. Information overload, turbulence and complexity characterise our everyday practice and our paths up ahead. The inevitability of change means we must be prepared and can be proactive in responding to external drivers, as well as in initiating reform. Most of all we must be willing to learn and to grow in our thinking. In this book, Jillian Rodd, a pioneer leadership researcher is once again, on the front foot, engaging early childhood readers with inquiry, insights and innovation. Rodd's approach to leading change makes it possible to

embrace challenges as opportunities. This book is a 'must read' for intentional leaders seeking practical strategies for the everyday realities of early childhood settings. Manjula Waniganayake (PhD), Associate Professor at the Institute of Early Childhood, Macquarie University

Developmentally Appropriate Practice in Early Childhood Programs Serving Children from Birth Through Age 8, Fourth Edition (Fully Revised and Updated) Aug 16 2021 The long-awaited new edition of NAEYC's book Developmentally Appropriate Practice in Early Childhood Programs is here, fully revised and updated! Since the first edition in 1987, it has been an essential resource for the early childhood education field. Early childhood educators have a professional responsibility to plan and implement intentional, developmentally appropriate learning experiences that promote the social and emotional development, physical development and health, cognitive development, and general learning competencies of each child served. But what is developmentally appropriate practice (DAP)? DAP is a framework designed to promote young children's optimal learning and development through a strengths-based approach to joyful, engaged learning. As educators make decisions to support each child's learning and development, they consider what they know about (1) commonality in children's development and learning, (2) each child as an individual (within the context of their family and community), and (3) everything discernible about the social and cultural contexts for each child, each educator, and the program as a whole. This latest edition of the book is fully revised to underscore the critical role social and cultural contexts play in child development and learning, including new research about implicit bias and teachers' own context and consideration of advances in neuroscience. Educators implement developmentally appropriate practice by recognizing the many assets all young children bring to the early learning program as individuals and as members of families and communities. They also develop an awareness of their own context. Building on each child's strengths, educators design and implement learning settings to help each child achieve their full potential across all domains of development and across all content areas.

The Story of You Feb 02 2023 The actions we take and the words we speak play a big part in who we are as a person. This empowering picture book shows children they can be the authors of their own life stories. No one can tell you who you are—it's all up to you! You write your story with your actions and words. This dynamic picture book for readers of all ages features lush illustrations that bring universal situations to light, including ways to be brave, bold, and kind, as well as knowing when you've made a mistake. A perfect gift for new parents, young graduates, as well as children and adults in any stage of their life, this is a book with a message: You are what you say and do.

CACHE Level 3 Early Years Educator for the Work-Based Learner Jun 13 2021 Master the knowledge and skills you need to obtain the new work-based CACHE Level 3 Diploma for the Early Years Workforce (Early Years Educator) qualification. Written by bestselling author and early years expert Penny Tassoni, this is the only textbook for work-based learners endorsed by CACHE. Tassoni makes learning the key concepts on the job both easy and enjoyable. This book will support you through your assessment and the start of your career. - Understand all the requirements of the new qualification fully with clearly stated learning outcomes and key terms - See how concepts are applied to a range of settings with numerous case studies - Learn to reflect on your own skills and experiences with numerous 'Reflection' boxes - Practise what you've learned with 'In practice' and 'In your setting' activity boxes - Prepare for examinations and assessment with confidence via activities linked to assessment criteria

Play in the Early Years Jun 01 2020 Play in the Early Years provides an accessible overview of key concepts, debates and approaches to children's Play. This book: · Considers play from a variety of perspectives · Offers expert insights into theory and research in each area · Encourages the reader to critically reflect on both theory and practice With features including key terms, case studies, reflective questions, spotlights on research and an accompanying glossary, this text is perfect for everyone who is interested in Play - from those just starting undergraduate degrees through to those with more advanced knowledge or experience.

Working with Children Aged 0–3 and Their Families Nov 06 2020 This inspiring book shows how Early Years staff can support the best possible practice for children under three and their families whilst making use of the limited funding available. Promoting the idea of infants as powerful learners, the authors focus

on 0-3 years as the vital first phase of education and care, which can require a very specific pedagogical approach. They discuss the principles that underpin the practice of working with the youngest children, the critical nature of highly effective pedagogical practice and the important role of family workers in building relationships with parents and the extended family. Working with Children Aged 0-3 and Their Families explores the challenges and responsibilities of working with young children and communicates the 'Pen Green approach'. Pen Green has become a focal point for Early Years professionals due to its outstanding Early Years provision. The innovative approach chronicled in this book will encourage practitioners to research their own practice and use the outcomes to create a radical, unique and yet highly effective provision for infants, toddlers and their families. The book will be of interest to Early Years professionals, foundation and undergraduate students, and early childhood educators.

Play in the Early Years Feb 19 2022 The second edition of Play in the Early Years provides a comprehensive introduction to pedagogy and play in early years education settings. Drawing on classical and contemporary theories, this text examines social, cultural and institutional approaches to play, and explores a range of strategies for successfully integrating play into classrooms. Thoroughly revised to include the latest methods and research, this edition features new material on intentional teaching, play as learning, digital play, and discipline-specific content. Two new chapters discuss post-structuralist and cultural-historical conceptions of play, and extended practical examples link pedagogical practice to the Early Years Learning Framework (EYLF) and the Australian Curriculum. The text is pedagogically rich, and each chapter is supported by a comprehensive companion website which provides links to videos, readings and supplementary activities. Freshly presented in a new full colour layout and written in an engaging style, Play in the Early Years remains an essential resource for pre-service students and practitioners.

Kiss Oct 18 2021 With over 150 photos--most of which are published here for the first time--Gene Simmons and Paul Stanley take readers on an intimate tour of the early days of KISS. Full color and b&w.

Assessment for Learning in the Early Years Foundation Stage Aug 04 2020 Are you struggling with the complexities of assessment? Demystifying the process of assessment for learning in the Early Years Foundation Stage (EYFS), Assessment for Learning in the Early Years Foundation Stage explains in straightforward language how to put principles into practice. Looking at models of assessment, the book draws heavily on examples of real assessments from practice, and the relevant theory is explained in context. Lessons from research are applied to best practice, and issues covered include: self-assessment and peer assessmentcollecting evidence as a basis for making judgementshow to track the child's development in the six areas of learningusing assessment to inform future planningsummative assessment in the EYFSinvolving parents and carers in the assessment processusing assessment to support children with additional needsmoderation "

Music and Singing in the Early Years Jun 25 2022 Music and singing are an inherent part of children's lives and offer a wonderful opportunity to promote young children's learning and development. This how-to guide is full of useful information to support musical understanding and assist practitioners in developing their knowledge, skills and confidence in planning and leading successful and enjoyable musical activities in a range of early years settings. Focusing on the role of singing and children's musical learning at various stages of development, Music and Singing in the Early Years aims to demystify music by providing practical tips, ideas and information on the integration of musical activities in the early years curriculum and environment, and provides clear explanations of musical concepts. Chapters consider topics such as: vocal strategies and development using song, rhyme and movement integrating instrumental accompaniments observation and assessment planning and delivery resources for music making. This book is essential reading for all early years practitioners looking to improve their musical understanding and plan successful musical activities with young children.

The Early Years Mar 03 2023 Here, gathered into one easy-to-read volume, are Charlotte Mason's timeless words to mothers of preschoolers, as well as modern examples, inspiring quotes, and practical tips.

Success with Your Early Years Research Project May 01 2020 'Action research and Early Years practices go together, as naturally as the new day rising.

This book is a celebration of new days. Early Years research is a practice for creative thinking for new tomorrows; the book shows us how to do this, and is to be commended for anyone who wishes to find innovative ways to think and act for all new beginnings.' -Jean McNiff, Professor of Educational Research, York St John University Where do you start with a research project? How do you choose a good question? What are tutors looking for in an outstanding project? This book will help you answer all of the above and that is just the beginning. With examples of real research projects from students just like you, it takes you through each step of the process including: Choosing your question and approach Making sure your research is ethical Gathering and analysing data Reaching conclusions Putting your findings into practice. After each example the authors provide commentary on what made each project so good, or what needed more work, helping you see what a good project really looks like. Suitable for anyone tackling a research project as part of the Early Years course, at foundation or degree level, this book will help you make sure your project is interesting, relevant and impacts on your practice.

Learning in the Early Years 3-7 Dec 08 2020 '[T]his second edition book is a welcome contribution to the early years literature base, providing much needed information and a somewhat innovative response concerning how effectively to translate the Early Years Foundation Stage into practice' - Early Years 'This second edition of Learning in the Early Years has been fully updated to bring it in line with the Statutory Framework for the Early Years Foundation Stage...The presentation and style...is very readable and accessible and as such the book provides an excellent resource for students and experienced early years practitioners alike' - Early Years Update Praise for the First Edition: 'It was a joy to read this book... This book provides a wealth of ideas for reflection, as well as guidance to promote knowledge and skills essential in early years teaching.' Dario Pellegrini, Educational Psychologist 'I found it hard to put it down. I particularly liked the way it followed through into Key Stage 1' - Who Minds 'An important contribution to difficult work' - Elizabeth Quintero, The Steinhardt School of Education, New York University This fully updated Second Edition of 'Learning in the Early Years 3-7' has been written to support early years practitioners understand and implement the new curriculum guidance document 'The Early Years Foundation Stage' (DfES, 2007). In this book, Jeni Riley clearly explains how to meet the requirements of the EYFS document and how this relates to the National Curriculum and the Primary National Strategy: Framework for teaching for literacy and mathematics. Offering informative and inspirational guidance on planning learning and teaching opportunities across the curriculum, this book will help you to promote social, intellectual, aesthetic, spiritual and physical development in your setting. Topics covered include: - appropriate and lively ways of working with young children - developing subject knowledge - supporting children for whom English is an additional language - the role of adults when interacting with children to support learning - the place of information and communications technology - the transition between the Foundation Stage and Key Stage 1. The book also draws on recent research on child development, on how babies think and on effective learning and teaching for children aged 3-7. All early years students and practitioners will want to have this book to hand to guide them through the new guidance and to support them daily to implement successful practice. Jeni Riley, Reader in Literacy in Primary Education, Institute of Education, University of London.

Working with Children in the Early Years May 25 2022 Working with Children in the Early Years is an accessible introduction to early years theories, policy and practice, offering practitioners in a diverse range of settings the opportunity to develop their knowledge, understanding and skills for working with young children. This fully updated second edition builds on new government agendas and interests in supporting quality provision for young children and their families. Bringing together current research and thinking in a broad range of areas, it covers: the diversity of practitioner roles and multi-agency working working with families listening to children observing and assessing developing professional roles health and well being curriculum and pedagogy the importance of play and learning in the early years All contributions are strongly practical and underpinned by relevant theory, and will support students and practitioners studying in the field of early years and early childhood studies as well as those aiming to achieve Early Years Professional Status. The book will also appeal to training providers, equipping them with a valuable and unique source to support a range of early years courses.

Young Investigators Dec 20 2021 This bestselling book has been completely updated and expanded to help teachers use the project approach in child care centers, in preschools, and in kindergarten, 1st grade, and early childhood special education classrooms. For those new to using projects, the book introduces

the approach and provides step-by-step guidance for conducting meaningful projects. Experienced teachers will find the teacher interviews, children's work, photographs (including full colour), and teacher journal entries used to document the project process in actual classrooms very useful. This popular, easy-to-use resource has been expanded to include these new features: explicit instructions and examples for incorporating standards into the topic selection and planning process; a variety of nature experiences, with examples that show how project work is an excellent way to connect children to the natural world; an update of the use of technology for both documentation and investigations, including use of the Web as well as and video and digital cameras; and more toddler projects that reflect our increased knowledge from recent mind/brain research about toddler understanding and learning.

Science in Early Childhood Mar 23 2022 Science education is crucial to young children's discovery and understanding of the world around them. This third edition of *Science in Early Childhood* has been substantially updated to include the most current research, bringing together an author team of respected science education researchers from across Australia. New chapters address changing priorities in early childhood science education, introducing coverage of STEM, inclusivity, Indigenous understandings of science, science in outdoor settings, intentional teaching, and reflective practice. This text complements the Australian Early Years Learning Framework and the Australian Curriculum: Science. Concepts are brought to life through detailed case studies, practical tasks and activity plans. Instructors can further supplement learning with the extensive materials located on the new companion website. Renowned for its accessible and comprehensive content, *Science in Early Childhood* is an essential tool for all pre-service early childhood educators.

Science in the Early Years Apr 11 2021 Giving early years practitioners and students the confidence to effectively support scientific exploration and investigation with young children, this book explains the science behind young children's knowledge and understanding of the world. Linking theory to good early years practice, the emphasis throughout the book is on recognizing young children as competent, creative thinkers and building on their ideas. The reader is encouraged to think carefully about the role of the adult in supporting child-initiated learning and discovery by providing open ended resources, asking productive questions and observing carefully. The authors provide essential background information for all the key areas of scientific knowledge supported by practical ideas suitable for babies, toddlers and children aged 3 to 5 years. For each of these ideas, practice and theory are linked by highlighting the skills, attitudes and dispositions to observe and the questions to ask to challenge young children's thinking and plan for the next stages in their learning. Chapters cover: - the place of science in early years curricula in the UK - the processes of science and the role of the adult in supporting young children's scientific learning - using open ended resources to create a science-rich environment - essential background knowledge, covering all areas of early years science - ideas to use as starting points for exploration and investigation, indoors and outdoors - pointers for observational assessment and planning - suppliers of resources and equipment By making clear links to practice, and providing ideas to use with babies and toddlers as well as with 3-5 year old children, this book enables the reader to fully exploit the potential for exploration and investigation in any early years setting. Pat Brunton and Linda Thornton are both Education Consultants based in Cheltenham. They run their own training and consultancy company *alc associates*, and edit *Early Years Update*.

Early Childhood Themes Through the Year Feb 07 2021 Each of 36 weekly themes is accompanied by a list of materials, patterns, activities, and more.
