Explorations in Social Theory Oct 21 2022 George Ritzer is one of the leading social and cultural commentators of the present day. In this essential new book he considers some of the main tendencies in contemporary social theory. Included here are Ritzer's latest reflections on the uses and misuses of metatheory. According to Ritzer, sociology is a multiparadigm science. The differences and intensities of rivalries between paradigms are often very confusing for students and even for professional sociologists. This book seeks to find a way out of the confusion by sketching out the lineaments of a new integrated sociological paradigm and demonstrates how this paradigm can be applied. It shows the various ways in which Ritzer has developed rationalization theory to shed light on professional integration, the shape of consumer culture, hyperrationality and the state of sociology today.

Althusser and Law Dec 11 2021 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well as theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Pat Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective

on the place of law in contemporary life.

Slave Stealers Feb 13 2022 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Rusch to Glory Apr 15 2022 Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's *Eco Challenge* series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in

the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. Rusch's Glory is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

Amen May 04 2021 On 31 August 2008, Sister Jesme left the Congregation of Mother of Carmel. The authorities repeated attempts to have her declared insane, she says, left her no other option. This book, a first of its kind in India, is an outpouring of her experiences as a nun for thirty-three years. Spirited and fun-loving, from a good family, deeply-rooted in Catholicism, Jesme was drawn to religious life at seventeen after a Retreat at junior college. As a nun, seven years later, she felt distressed at the many ills growing inside the convent and being forced to remain silent about them. There was corruption, by way of donations for college seats; sexual relations between some priests and nuns, and between nuns; class distinctions whereby the cheduthies, or poorer and less-educated sisters, did menial jobs; and a wide gap

between comforts and facilities enjoyed by the priests and nuns. Jesme was permitted to complete her doctorate in English Literature, to pursue her passion for literature, cinema and teaching college students. She exposed them to classic films, believing that aesthetics enhances spirituality. But these joys were clouded by the troubles she faced. Searing, sincere and sensitive, Amen is a plea for a reformation of the Church and comes at a time of its growing concern about nuns and priests. It affirms Jesme's unbroken spirit and faith in Jesus and the Church, living like a nun, but outside the Four Walls of the convent.

Freedom from Necessity Apr 27 2023 This book, first published in 1987, is about the classic free will problem, construed in terms of the implications of moral responsibility. The principal thesis is that the core issue is metaphysical: can scientific laws postulate objectively necessary connections between an action and its causal antecedents? The author concludes they cannot and that, therefore, free will and determinism can be reconciled.

The Book of L Mar 14 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "O" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between O (zero) and O (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

From Niggas to Gods Dec 31 2020 ...a message to the Black Youth. This is a compilation of individual essays written during the summer-fall of 1992. The essays are designed to inspire thought within the Black Mind. These writings are primarily targeted toward the Black Youth of this day, of which I am a part of. I am not a Master of these teachings, but these teachings I wish to Master. They say that my generation is not intelligent enough to read a book. I say they are wrong. It is just that they are not writing about anything of interest that is relevant to our lives! And when they do write something, they have to write in the perfect King's English to impress their Harvard Professors! Here we are with a book in one hand, and a dictionary in the other, trying to understand what in the hell the author is talking about! If you have got something to say, just say it! We are not impressed by your 27-letter words, or your Shakespearian style of writing. The Black Youth of today don't give a damn about Shakespeare!!! This ain't no damn poetry contest! We are dealing with the life, blood, and salvation of our entire Black Nation! If you want to reach the People, you have to embrace us where we are, and then take us where we need to go. So, these writings are from my generation and for my generation with respect and love. If no one will teach, love and guide us, then we will teach, love and guide ourselves. Peace.
