Living for the City Jan 30 2023 In this nuanced and groundbreaking history, Donna Murch argues that the Black Panther Party (BPP) started with a study group. Drawing on oral history and untapped archival sources, she explains how a relatively small city with a recent history of African

Survival of the City Sep 01 2020 One of our great urbanists and one of our great public health experts join forces to reckon with how cities are changing in the face of existential threats the pandemic has only accelerated Cities can make us sick. They always have—diseases spread more easily when more people are close to one another. And disease is hardly the only ill that accompanies urban density. Cities have been demonized as breeding grounds for vice and crime from Sodom and Gomorrah on. But cities have flourished nonetheless because they are humanity's greatest invention, indispensable engines for creativity, innovation, wealth, and connection, the loom on which the fabric of civilization is woven. But cities now stand at a crossroads. During the global COVID crisis, cities grew silent as people worked from home—if they could work at all. The normal forms of socializing ground to a halt. How permanent are these changes? Advances in digital technology mean that many people can opt out of city life as never before. Will they? Are we on the brink of a post-urban world? City life will survive but individual cities face terrible risks, argue Edward Glaeser and David Cutler, and a wave of urban failure would be absolutely disastrous. In terms of intimacy and inspiration, nothing can replace what cities offer. Great cities have always demanded great management, and our current crisis has exposed fearful gaps in our capacity for good governance. It is possible to drive a city into the ground, pandemic or not. Glaeser and Cutler examine the evolution that is already happening, and describe the possible futures that lie before us: What will distinguish the cities that will flourish from the ones that won't? In America, they argue, deep inequities in health care and education

are a particular blight on the future of our cities; solving them will be the difference between our collective good health and a downward spiral to a much darker place.

The City Apr 28 2020 No.1 New York Times bestselling author Dean Koontz is at the peak of his storytelling powers with this major new novel - a rich, multi-layered story that moves back and forth across decades and generations as a gifted musician relates the 'terrible and wonderful' events of his childhood in 1967. This is the story of a boy and a city... Jonah Kirk's childhood has been punctuated by extraordinary moments - like the time a generous stranger helped him realize his dream of learning the piano. Nothing is more important to him than his family and friends, and the electrifying power of music. But now Jonah has a terrifying secret. And it sets him on a collision course with a group of dangerous people who will change his life forever. For one bright morning, a single earth-shattering event will show Jonah that in his city, good is entwined with malice, and sometimes the dark side of humanity triumphs. But it will also teach him that courage and honour are found in the most unexpected places, and the way forward lies buried deep inside the heart. If he can just survive to find it... 'A story of broken families, race, fathers, sons, love and hate, and how these things can bubble in the cauldron of the city. The most gripping thing I've read in a long, long time. You sense you are reading a master still at the peak of his powers.' Matt Haig, author of *The Humans*

The Heart of the City Jun 22 2022 Downtowns are more than economic engines: they are repositories of knowledge and culture and generators of new ideas, technology, and ventures. They are the heart of the city that drives its future. If we are to have healthy downtowns, we need to understand what downtown is all about; how and why some American downtowns never stopped thriving (such as San Jose and Houston), some have been in decline for half a century (including Detroit and St. Louis), and still others are resurging after temporary decline (many, including Lower Manhattan and Los Angeles). The downtowns that are prospering are those that more easily adapt to changing needs and lifestyles. In *The Heart of the City*, distinguished urban planner Alexander Garvin shares lessons on how to plan for a mix of housing, businesses, and attractions; enhance the public realm; improve mobility; and successfully manage downtown services. Garvin opens the book with diagnoses of downtowns across the United States, including the people, businesses, institutions, and public agencies implementing changes. In a review of prescriptions and treatments for any downtown, Garvin shares brief accounts--of both successes and failures--of what individuals with very different objectives have done to change their downtowns. The final chapters look at what is possible for downtowns in the future, closing with suggested national, state, and local legislation to create standard downtown business improvement districts to better manage downtowns. This book will help public officials, civic organizations, downtown business property owners, and people who care about cities learn from successful recent actions in downtowns across the country, and expand opportunities facing their downtown. Garvin provides recommendations for continuing actions to help any downtown thrive, ensuring a prosperous and thrilling future for the 21st-century American city.

The Affordable City Nov 03 2020 From Los Angeles to Boston and Chicago to Miami, US cities are struggling to address the twin crises of high housing costs and household instability. Debates over the appropriate course of action have been defined by two poles: building more housing or enacting stronger tenant protections. These options are often treated as mutually

exclusive, with support for one implying opposition to the other. Shane Phillips believes that effectively tackling the housing crisis requires that cities support both tenant protections and housing abundance. He offers readers more than 50 policy recommendations, beginning with a set of principles and general recommendations that should apply to all housing policy. The remaining recommendations are organized by what he calls the Three S's of Supply, Stability, and Subsidy. Phillips makes a moral and economic case for why each is essential and recommendations for making them work together. There is no single solution to the housing crisis—it will require a comprehensive approach backed by strong, diverse coalitions. The Affordable City is an essential tool for professionals and advocates working to improve affordability and increase community resilience through local action.

The Book of the City of Ladies Nov 27 2022 In dialogues with three celestial ladies, Reason, Rectitude, and Justice, Christine de Pizan (1365-ca. 1429) builds an allegorical fortified city for women using examples of the important contributions women have made to Western Civilization and arguments that prove their intellectual and moral equality to men. Earl Jeffrey Richards' acclaimed translation is used nationwide in the most eminent colleges and universities in America, from Columbia to Stanford.

The Human City Oct 15 2021 The author of *The Coming of Neo-Feudalism* and *The New Class Conflict* challenges conventions of urban planning. Around the globe, most new urban development has adhered to similar tenets: tall structures, small units, and high density. In *The Human City*, Joel Kotkin—called “America’s uber-geographer” by David Brooks of the *New York Times*—questions these nearly ubiquitous practices, suggesting that they do not consider the needs and desires of the vast majority of people. Built environments, Kotkin argues, must reflect the preferences of most people—even if that means lower-density development. *The Human City* ponders the purpose of the city and investigates the factors that drive most urban development today. Armed with his own astute research, a deep-seated knowledge of urban history, and a sound grasp of economic, political, and social trends, Kotkin pokes holes in what he calls the “retro-urbanist” ideology and offers a refreshing case for dispersion centered on human values. This book is not anti-urban, but it does advocate a greater range of options for people to live the way they want at all stages of their lives. Praise for *The Human City* “Kotkin . . . presents the most cogent, evidence-based and clear-headed exposition of the pro-suburban argument In pithy, readable sections, each addressing a single issue, he debunks one attack on the suburbs after another. But he does more than that. He weaves an impressive array of original observations about cities into his arguments, enriching our understanding of what cities are about and what they can and must become.” —Shlomo Angel, *Wall Street Journal* “The most eloquent expression of urbanism since Jane Jacobs’s *The Death and Life of Great American Cities*. Kotkin writes with a strong sense of place; he recognizes that the geography and traditions of a city create the contours of its urbanity.” —Ronnie Wachter, *Chicago Tribune*

The City on the Sea Jan 24 2020 Brooke knows the rules. Everyone in the city outside the wall does. If you never cause any trouble, you never disappear. Even after her father's mysterious death, she's always known she'll do whatever it takes to live a good life and earn her place on the land one day. But when the watchmen suddenly start following her every move, it doesn't matter

if she's done anything wrong. Now she needs to find out why they are watching before she vanishes without a trace. *The City on the Sea*, book one in the *City on the Sea Series*, is the thrilling first installment to this futuristic dystopian series. Climate change and rising sea levels have forced humanity to survive on the ocean in order to protect the precious bit of land remaining. This richly descriptive and darkly beautiful story will make you wonder if you have what it takes to live in the city on the sea.

Yes to the City Apr 08 2021 A fascinating account of the growing "Yes in My Backyard" urban movement. The exorbitant costs of urban housing and the widening gap in income inequality are fueling a combative new movement in cities around the world. A growing number of influential activists aren't waiting for new public housing to be built. Instead, they're calling for more construction and denser cities in order to increase affordability. *Yes to the City* offers an in-depth look at the "Yes in My Backyard" (YIMBY) movement. From its origins in San Francisco to its current cadre of activists pushing for new apartment towers in places like Boulder, Austin, and London, Max Holleran explores how urban density, once maligned for its association with overpopulated slums, has become a rallying cry for millennial activists locked out of housing markets and unable to pay high rents. Holleran provides a detailed account of YIMBY activists campaigning for construction, new zoning rules, better public transit, and even candidates for local and state office. YIMBY groups draw together an unlikely coalition, from developers and real estate agents to environmentalists, and Holleran looks at the increasingly contentious battles between market-driven pragmatists and rent-control idealists. Arguing that advocates for more housing must carefully weigh their demands for supply with the continuing damage of gentrification, he shows that these individuals see high-density urbanism and walkable urban spaces as progressive statements about the kind of society they would like to create. Chronicling a major shift in housing activism during the past twenty years, *Yes to the City* considers how one movement has reframed conversations about urban growth.

Living for the City Apr 20 2022 *Living for the City* is a social history of the Central African Copperbelt, considered as a single region encompassing the neighbouring mining regions of Zambia and the Democratic Republic of Congo. The Haut Katanga and Zambian Copperbelt mine towns have been understood as the vanguard of urban 'modernity' in Africa. Observers found in these towns new African communities that were experiencing what they wrongly understood as a transition from rural 'traditional' society – stable, superstitious and agricultural – to an urban existence characterised by industrial work discipline, the money economy and conspicuous consumption, Christianity, and nuclear families headed by male breadwinners supported by domesticated housewives. Miles Larmer challenges this representation of Copperbelt society, presenting an original analysis which integrates the region's social history with the production of knowledge about it, shaped by both changing political and intellectual contexts and by Copperbelt communities themselves.

The City of Mirrors Mar 27 2020 #1 NEW YORK TIMES BESTSELLER • “A thrilling finale to a trilogy that will stand as one of the great achievements in American fantasy fiction.”—Stephen King You followed *The Passage*. You faced *The Twelve*. Now enter *The City of Mirrors* for the final reckoning. As the bestselling epic races to its breathtaking finale, Justin Cronin’s band of hardened survivors await the second coming of unspeakable darkness. The world we knew is gone. What world will rise in its place? The Twelve have been destroyed and the terrifying hundred-year reign of darkness that descended upon the world has ended. The survivors are stepping outside their walls, determined to build society anew—and daring to dream of a hopeful future. But far from them, in a dead metropolis, he waits: Zero. The First. Father of the Twelve. The anguish that shattered his human life haunts him, and the hatred spawned by his transformation burns bright. His fury will be quenched only when he destroys Amy—humanity’s only hope, the Girl from Nowhere who grew up to rise against him. One last time light and dark will clash, and at last Amy and her friends will know their fate. Look for the entire *Passage* trilogy: *THE PASSAGE* | *THE TWELVE* | *THE CITY OF MIRRORS* Praise for *The City of Mirrors* “Compulsively readable.”—The New York Times Book Review “The City of Mirrors is poetry. Thrilling in every way it has to be, but poetry just the same . . . The writing is sumptuous, the language lovely, even when the action itself is dark and violent.”—The Huffington Post “This really is the big event you’ve been waiting for . . . A true last stand that builds and comes with a bloody, roaring payoff you won’t see coming, then builds again to the big face off you’ve been waiting for.”—NPR “A masterpiece . . . with *The City of Mirrors*, the third volume in *The Passage* trilogy, Justin Cronin puts paid to what may well be the finest post-apocalyptic epic in our dystopian-glutted times. A stunning achievement by virtually every measure.”—The National Post “Justin Cronin’s *Passage* trilogy is remarkable for the unremitting drive of its narrative, for the breathtaking sweep of its imagined future, and for the clear lucidity of its language.”—Stephen King

The City of Dusk Oct 03 2020 'A glorious tapestry of magic and murderous gods' - BuzzFeed News 'Fans of *A Darker Shade of Magic* and *All of Us Villains* will want to pick this up' - BookRiot 'A delightful, complex, intimate yet explosive debut adult fantasy' - Strange Horizons *DARKNESS FALLS. GODS RISE. The Four Realms - Life, Death, Light, and Darkness - all converge on the City of Dusk. For each realm there is a god, and for each god there is an heir. But the gods have withdrawn their favour from the once vibrant and thriving metropolis. And without it, all the realms are dying. Unwilling to stand by and watch the destruction, the four heirs - Angelica, an elemental with her eyes set on the throne; Risha, a necromancer fighting to keep the peace; Nikolas, a soldier who struggles to see the light; and Taesia, a shadow-wielding rogue with a reckless heart - will become reluctant allies in the quest to save their city. But their rebellion will cost them dearly. Set in a world of bone palaces and shadow magic, of vengeful gods and defiant chosen ones, *The City of Dusk* is Tara Sim's crackling adult fantasy debut.*

For the City Feb 28 2023 What makes a healthy church? Specifically, what defines a successful church in heavily populated, richly diverse areas? This book will: Explore what it means to be a church for the city God has called you to engage. Help you learn from past success stories as well

as past mistakes in urban ministry. Guide you in developing a philosophy of ministry that can lead to restoration and renewal in your city. According to the United States Census Bureau, over 80% of the population lives in urban areas. Churches in or near cities have to work hard to minister effectively to a diverse group of people, welcoming those of different backgrounds, engaging both the poor and marginalized as well as the wealthy and influential. Church-planters Matt Carter and Darrin Patrick explain the biblical, theological, and historical foundations of ministry within the urban core and how to plant churches where the gospel is faithfully shared and brings substantial benefits to those living in the community. For the City relates the wisdom gleaned from years of serving their cities for the sake of God's kingdom. Carter and Patrick practically equip church leaders and Christians to look at their city as a mission field where individuals and churches can faithfully proclaim the gospel and live out the reality of a community changed and transformed by its message.

City of Blades Dec 05 2020 A triumphant return to the world of City of Stairs. A generation ago, the city of Voortyashtan was the stronghold of the god of war and death, the birthplace of fearsome supernatural sentinels who killed and subjugated millions. Now, the city's god is dead. The city itself lies in ruins. And to its new military occupiers, the once-powerful capital is a wasteland of sectarian violence and bloody uprisings. So it makes perfect sense that General Turyin Mulaghesh—foul-mouthed hero of the battle of Bulikov, rumored war criminal, ally of an embattled Prime Minister—has been exiled there to count down the days until she can draw her pension and be forgotten. At least, it makes the perfect cover story. The truth is that the general has been pressed into service one last time, dispatched to investigate a discovery with the potential to change the world—or destroy it. The trouble is that this old soldier isn't sure she's still got what it takes to be the hero.

I Speak of the City Nov 15 2021 *I Speak of the City* is the most extensive collection of poems ever assembled about New York. Beginning with an early piece by Jacob Steendam (from when the city was called New Amsterdam) and continuing through poems written in the aftermath of 9/11, this anthology features voices from more than a dozen countries. It includes two Nobel Prize recipients, fifteen Pulitzer Prize winners, and many other recognizable names, but it also preserves the work of long-neglected poets who celebrate the wild possibilities and colossal achievements of this epic city. Poets capture New York's major moments and transformations, writing of Hudson's arrival, Stuyvesant's prejudice, and the city's astonishing growth and gentrification. They speak of the thrills of a skyscraper's observation deck and the privations of teeming tenements. They portray the immigrant experience at Ellis Island and the decay, fear, and unexpected kindness on a subway ride. They take place on sidewalks, bridges, and docks; in taxis, buses, and ferries; and even within nature. The Brooklyn Bridge, Times Square, Broadway, the Statue of Liberty, and other familiar landmarks are recast through the prism of individual experience yet still reflect the seeming invincibility of New York and its status as a cultural magnet for the freethinking and experimental. While certain subjects and themes can be found in all urban verse, poems about New York have their own restless rhythm and ever-changing style, much like the city itself. Whether writing sonnets, epics, or experimental or imagistic verse, each of these poets has been inspired by the marvels and madness, humor and heartbreak of an enduring city.

When Tenants Claimed the City Jun 10 2021 In postwar America, not everyone wanted to move out of the city and into the suburbs. For decades before World War II, New York's tenants had organized to secure renters' rights. After the war, tenant activists raised the stakes by challenging the newly-dominant ideal of homeownership in racially segregated suburbs. They insisted that renters as well as owners had rights to stable, well-maintained homes, and they proposed that racially diverse urban communities held a right to remain in place--a right that outweighed owners' rights to raise rents, redevelop properties, or exclude tenants of color. Further, the activists asserted that women could participate fully in the political arenas where these matters were decided. Grounded in archival research and oral history, *When Tenants Claimed the City: The Struggle for Citizenship in New York City Housing* shows that New York City's tenant movement made a significant claim to citizenship rights that came to accrue, both ideologically and legally, to homeownership in postwar America. Roberta Gold emphasizes the centrality of housing to the racial and class reorganization of the city after the war; the prominent role of women within the tenant movement; and their fostering of a concept of "community rights" grounded in their experience of living together in heterogeneous urban neighborhoods.

Travelers Leaving for the City Aug 13 2021 *Travelers Leaving for the City* is a long song of arrivals and departures, centered around the murder of the poet's grandfather in 1955 in a Pittsburgh hotel, exploring how such events frame memory, history and language for those they touch. The poems probe the anonymity of cities, and the crucible of travel. The historical impact of arousal, rage, regret, and forgiveness is seen in visions of interrogations and hotels. These poems explore how family bonds, and disruptions shape, the mind and language, all the while urging the reader to listen for traces of ancestors in one's own mind and body.

City Sep 25 2022 This award-winning science fiction classic explores a far-future world inhabited by intelligent canines who pass down the tales of their human forefathers. Thousands of years have passed since humankind abandoned the city—first for the countryside, then for the stars, and ultimately for oblivion—leaving their most loyal animal companions alone on Earth. Granted the power of speech centuries earlier by the revered Bruce Webster, the intelligent, pacifist dogs are the last keepers of human history, raising their pups with bedtime stories, passed down through generations, of the lost “websters” who gave them so much but will never return. With the aid of Jenkins, an ageless service robot, the dogs live in a world of harmony and peace. But they now face serious threats from their own and other dimensions, perhaps the most dangerous of all being the reawakened remnants of a warlike race called “Man.” In the Golden Age of Isaac Asimov and Robert A. Heinlein, Clifford D. Simak's writing blazed as brightly as anyone's in the science fiction firmament. Winner of the International Fantasy Award, *City* is a magnificent literary metropolis filled with an astonishing array of interlinked stories and structures—at once dystopian, transcendent, compassionate, and visionary.

The Death and Life of Great American Cities Jan 18 2022 Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an

editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

A Heart for the City Apr 01 2023 Jesus is still the answer for urban ministries, for ministries to the downtrodden, poor, and distressed in our cities. A Heart for the City is a rich compendium of valuable information on city ministries written by people who are currently ministering in the city, including pastors, Christian school administrators, and directors of homeless missions. It includes many illustrations and case studies that will prove valuable to any who work in the city or who want to understand how to more effectively help in the city. There are 29 chapters, divided into the following seven parts: - Context and History - Biblical and Philosophical Foundations - Education and Training - Local Church Models - Ethnic Communities - Disenfranchised Subcultures - Children and Youth A Heart For the City is a unique treasure of encouragement for those serving in or those with a heart for the inner city. You will surely be blessed!

The City of Dreaming Books Sep 13 2021 In this whimsical fantasy adventure, a novelist's search for an author takes him to a magical city, a villainous literary scholar, and perilous catacombs. Optimus Yarnspinner's search for an author's identity takes him to Bookholm—the so-called City of Dreaming Books. On entering its streets, our hero feels as if he has opened the door of a gigantic second-hand bookshop. His nostrils are assailed by clouds of book dust, the stimulating scent of ancient leather, and the tang of printer's ink. Soon, though, Yarnspinner falls into the clutches of the city's evil genius, Pfistomel Smyke, who treacherously maroons him in the labyrinthine catacombs underneath the city, where reading books can be genuinely dangerous . . . In *The City of Dreaming Books*, Walter Moers transports us to a magical world where reading is a remarkable adventure. Only those intrepid souls who are prepared to join Yarnspinner on his perilous journey should read this book. We wish the rest of you a long, safe, unutterably dull, and boring life! Praise for *The City of Dreaming Books* “German author and cartoonist Moers returns to the mythical lost continent of Zamonía in his uproarious third fantasy adventure to be translated into English, a delightfully imaginative mélange of Shel Silverstein zaniness and oddball anthropomorphism à la Terry Pratchett's *Discworld*. . . . A wonderfully whimsical story that will appeal to readers of all ages.” —Publishers Weekly “A salmagundi of whimsy, imagination and book lore—remarkable fun.” —Cleveland Plain Dealer “Moers puts Tolkien through some sort of Willy Wonka sweetening process and comes up with characters such as Optimus Yarnspinner, who, names being fate and all, just has to be a storyteller.” —Kirkus Reviews

Food and the City Jul 24 2022 A global movement to take back our food is growing. The future of farming is in our hands—and in our cities. This book examines alternative food systems in cities around the globe that are shortening their food chains, growing food within their city limits, and taking their "food security" into their own hands. The author, an award-winning food

journalist, sought out leaders in the urban-agriculture movement and visited cities successfully dealing with "food deserts." What she found was not just a niche concern of activists but a global movement that cuts across the private and public spheres, economic classes, and cultures. She describes a global movement happening from London and Paris to Vancouver and New York to establish alternatives to the monolithic globally integrated supermarket model. A cadre of forward-looking, innovative people has created growing spaces in cities: on rooftops, backyards, vacant lots, along roadways, and even in "vertical farms." Whether it's a community public orchard supplying the needs of local residents or an urban farm that has reclaimed a derelict inner city lot to grow and sell premium market veggies to restaurant chefs, the urban food revolution is clearly underway and working. This book is an exciting, fascinating chronicle of a game-changing movement, a rebellion against the industrial food behemoth, and a reclaiming of communities to grow, distribute, and eat locally.

How to Kill a City Dec 17 2021 A journey to the front lines of the battle for the future of American cities, uncovering the massive, systemic forces behind gentrification -- and the lives that are altered in the process. The term gentrification has become a buzzword to describe the changes in urban neighborhoods across the country, but we don't realize just how threatening it is. It means more than the arrival of trendy shops, much-maligned hipsters, and expensive lattes. The very future of American cities as vibrant, equitable spaces hangs in the balance. Peter Moskowitz's *How to Kill a City* takes readers from the kitchen tables of hurting families who can no longer afford their homes to the corporate boardrooms and political backrooms where destructive housing policies are devised. Along the way, Moskowitz uncovers the massive, systemic forces behind gentrification in New Orleans, Detroit, San Francisco, and New York. The deceptively simple question of who can and cannot afford to pay the rent goes to the heart of America's crises of race and inequality. In the fight for economic opportunity and racial justice, nothing could be more important than housing. A vigorous, hard-hitting expose, *How to Kill a City* reveals who holds power in our cities-and how we can get it back.

For the City Yet to Come Jan 06 2021 Among government officials, urban planners, and development workers, Africa's burgeoning metropolises are frequently understood as failed cities, unable to provide even basic services. Whatever resourcefulness does exist is regarded as only temporary compensation for fundamental failure. In *For the City Yet to Come*, AbdouMalik Simone argues that by overlooking all that does work in Africa's cities, this perspective forecloses opportunities to capitalize on existing informal economies and structures in development efforts within Africa and to apply lessons drawn from them to rapidly growing urban areas around the world. Simone contends that Africa's cities do work on some level and to the extent that they do, they function largely through fluid, makeshift collective actions running parallel to proliferating decentralized local authorities, small-scale enterprises, and community associations. Drawing on his nearly fifteen years of work in African cities—as an activist, teacher, development worker, researcher, and advisor to ngos and local governments—Simone provides a series of case studies illuminating the provisional networks through which most of Africa's urban dwellers procure basic goods and services. He examines informal economies and social networks in Pikine, a large suburb of Dakar, Senegal; in Winterveld, a neighborhood on the edge of Pretoria, South Africa; in Douala, Cameroon; and among Africans seeking work in Jeddah, Saudi Arabia. He

contextualizes these particular cases through an analysis of the broad social, economic, and historical conditions that created present-day urban Africa. For the *City Yet to Come* is a powerful argument that any serious attempt to reinvent African urban centers must acknowledge the particular history of these cities and incorporate the local knowledge reflected in already existing informal urban economic and social systems.

City of Man Aug 01 2020 An era has ended. The political expression that most galvanized evangelicals during the past quarter-century, the Religious Right, is fading. What's ahead is unclear. Millions of faith-based voters still exist, and they continue to care deeply about hot-button issues like abortion and gay marriage, but the shape of their future political engagement remains to be formed. Into this uncertainty, former White House insiders Michael Gerson and Peter Wehner seek to call evangelicals toward a new kind of political engagement -- a kind that is better both for the church and the country, a kind that cannot be co-opted by either political party, a kind that avoids the historic mistakes of both the Religious Left and the Religious Right. Incisive, bold, and marked equally by pragmatism and idealism, Gerson and Wehner's new book has the potential to chart a new political future not just for values voters, but for the nation as a whole.

The City & The City May 22 2022 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE LOS ANGELES TIMES, THE SEATTLE TIMES, AND PUBLISHERS WEEKLY. When a murdered woman is found in the city of Beszel, somewhere at the edge of Europe, it looks to be a routine case for Inspector Tyador Borlú of the Extreme Crime Squad. To investigate, Borlú must travel from the decaying Beszel to its equal, rival, and intimate neighbor, the vibrant city of Ul Qoma. But this is a border crossing like no other, a journey as psychic as it is physical, a seeing of the unseen. With Ul Qoman detective Qussim Dhatt, Borlú is enmeshed in a sordid underworld of nationalists intent on destroying their neighboring city, and unificationists who dream of dissolving the two into one. As the detectives uncover the dead woman's secrets, they begin to suspect a truth that could cost them more than their lives. What stands against them are murderous powers in Beszel and in Ul Qoma: and, most terrifying of all, that which lies between these two cities. **BONUS:** This edition contains a *The City & The City* discussion guide and excerpts from China Miéville's *Kraken* and *Embassytown*.

The City of Brass Jul 12 2021 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY Library Journal | Vulture | The Verge | SYFYWire Step into *The City of Brass*, the spellbinding debut from S. A. Chakrabarty perfect for fans of *The Golem* and *the Jinni*, *The Grace of Kings*, and *Uprooted*, in which the future of a magical Middle Eastern kingdom rests in the hands of a clever and defiant young con artist with miraculous healing gifts. On the streets of eighteenth-century Cairo, Nahri is a con woman of unsurpassed skill. She makes her living swindling Ottoman nobles, hoping to one day earn enough to change her fortunes. But when Nahri accidentally summons Dara, an equally sly, darkly mysterious djinn warrior, during one of her cons, she learns that even the cleverest of schemes can have deadly consequences. Forced to flee Cairo, Dara and Nahri journey together across hot, windswept sands teeming with creatures of fire and rivers where the mythical marid sleep, past ruins of once-magnificent human metropolises and mountains where the circling birds of prey are more than what they seem, to Daevabad, the legendary city of brass. It's a city steeped in magic and fire, where blood can be as

dangerous as any spell; a city where old resentments run deep and the royal court rules with a tenuous grip; a city to which Nahri is irrevocably bound—and where her very presence threatens to ignite a war that has been simmering for centuries. *Finalist for the World Fantasy Award: Best Novel *Nominated for the Locus Award: Best First Novel *Finalist for the British Fantasy Award: Best Newcomer Featuring a stepback and extra content including a bonus scene and an excerpt from *The Kingdom of Copper*.

Together for the City May 02 2023 We need a bigger vision for the city. Pastors Neil Powell and John James contend that to truly transform a city, the gospel compels us to create localized, collaborative church planting movements. The more willing we are to collaborate across denominations and networks, the more effectively we will reach our communities—whatever their size—for Jesus.

The City in a Garden Mar 08 2021 Most people, specialists or not, typically think of New York City or Boston when considering the early development of parks and open spaces in American cities. Despite the size and importance of the Chicago park system, its history is less well known—even to many of those Chicagoans who regularly enjoy its facilities. *City in a Garden*, developed in association with the Chicago Park District itself, changes that: its 184 large—format pages, packed with 140 images and a closely integrated text, provide the first official documentary chronicle of Chicago's parks. Thirty-one of the city's finest spaces are profiled, using photographs—both contemporary and historical—along with detailed vignettes and captions to trace their development. The visual treat of the book's fine-art duotones combines with its emphasis on narrative history to create a rich and magnificent exploration of a city's most beautiful sites.

What a City Is For May 29 2020 An investigation into gentrification and displacement, focusing on the case of Portland, Oregon's systematic dispersal of black residents from its Albina neighborhood. Portland, Oregon, is one of the most beautiful, livable cities in the United States. It has walkable neighborhoods, bike lanes, low-density housing, public transportation, and significant green space—not to mention craft-beer bars and locavore food trucks. But liberal Portland is also the whitest city in the country. This is not circumstance; the city has a long history of officially sanctioned racialized displacement that continues today. Over the last two and half decades, Albina—the one major Black neighborhood in Portland—has been systematically uprooted by market-driven gentrification and city-renewal policies. African Americans in Portland were first pushed into Albina and then contained there through exclusionary zoning, predatory lending, and racist real estate practices. Since the 1990s, they've been aggressively displaced—by rising housing costs, developers eager to get rid of low-income residents, and overt city policies of gentrification. Displacement and disposessions are convulsing cities across the globe, becoming the dominant urban narratives of our time. In *What a City Is For*, Matt Hern uses the case of Albina, as well as similar instances in New Orleans and Vancouver, to investigate gentrification in the twenty-first century. In an engaging narrative, effortlessly mixing anecdote and theory, Hern questions the notions of development, private property, and ownership. Arguing that home ownership drives inequality, he wants us to disown ownership. How can we reimagine the city as a post-ownership, post-sovereign space? Drawing on solidarity economics, cooperative movements, community land trusts, indigenous conceptions

of alternative sovereignty, the global commons movement, and much else, Hern suggests repudiating development in favor of an incrementalist, non-market-driven unfolding of the city. *Treasure Hunters: Quest for the City of Gold* Feb 04 2021 Twins Bick and Beck Kidd and their family of professional treasure hunters race against mercenaries, rival treasure hunters, and a lumber baron through the jungles and mountains of Peru in search of Paititi, the legendary lost Inca city of gold, in hope of conserving the archaeological treasure and preventing deforestation of the rain forest.

Triumph of the City Dec 29 2022 Shortlisted for the Financial Times and McKinsey Best Book of the Year Award in 2011 “A masterpiece.” —Steven D. Levitt, coauthor of *Freakonomics* “Bursting with insights.” —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future.

A Prayer for the City Aug 25 2022 From the Pulitzer Prize-winning author of *Friday Night Lights*, the heart-wrenching and hilarious true story of an American city on its knees and a man who will do anything to save it. *A Prayer for the City* is acclaimed journalist Buzz Bissinger's true epic of Philadelphia mayor Ed Rendell, an utterly unique, unorthodox, and idiosyncratic leader willing to go to any length for the sake of his city: take unions head on, personally lobby President Clinton to save 10,000 defense jobs, or wrestle Smiley the Pig on Hot Dog Day—all the while bearing in mind the eternal fickleness of constituents whose favor may hinge on a missed garbage pick-up or an overzealous meter maid. It is also the story of citizens in crisis: a woman fighting ceaselessly to give her great-grandchildren a better life, a father of six who may lose his job at the Navy Shipyard, and a policy analyst whose experiences as a crime victim tempt her to abandon her job and ideals. "Fascinating, humane" (*The New Yorker*) and alive with detail and insight, *A Prayer for the City* describes the rare combination of political courage and optimism that may be the only hope for America's urban centers.
