This is heart breaking for me simply because I am responsible as a parent to teach them my religion until they become adults. I will be asked about it on the Day of Judgment and I must answer. The lessons of *Simple steps of five daily prayers in ENGLISH* are simplified for the English speakers. I am grateful for the fact that my children can read Qu'ran verses during the five daily prayers, memorize them and can freely practice their religion. I will continue to encourage them to read them in the Arabic language as well. This book is ideal for newly converts and any English speaker, struggling to read in Arabic. This book is not published to discourage anyone from reading the Qu'ran in Arabic. 5 Simple Steps to Financial Freedom Jan 16 2022 As a young and naïve pastor, Dan Willis maxed out twenty-three credit cards and ruined his credit to support his ministry. It wasn't until massive debt caused the cards to stop working that he realized that God never asked him to do this. Through his candor and honesty, Dan reveals the five steps God showed him to get out of debt: stop spending, create a budget, develop a debt payoff plan, begin saving, and repair bad credit. This led him to becoming a thriving and financially-free

ministry. Now, Dan is on a mission to teach this to the world. Using biblical principles, but not relying on miracles or “name-it-and-claim-it” theology, Dan provides easy-to-follow, practical steps that can be used by anyone to escape financial bondage. Finally, he encourages readers to use their financial freedom to help others and advance God’s kingdom, and to use their newfound fiscal wisdom to store up wealth. Without shaming those who struggle financially, *5 Simple Steps to Financial Freedom* is the perfect combination of spiritual wisdom and practical advice for those who desperately need it.

Busting Breast Cancer Jan 22 2020 Avoid mammograms. Switch off birth control drugs-and progestin menopausal drugs, too. Lose your excess fat NOW! Stop holding onto those highly stressful jobs and relationships. Counterintuitive as these may seem, each is among *Busting Breast Cancer's Five Simple Steps*, documented to effectively prevent breast cancer, thanks to recent developments in our metabolic understanding of cancer. Each reduces your risk of breast cancer by 30 to 80 percent! Dr. Susan Wadia-Ells' shocking new book questions the presumed wisdom of most so-called authorities: National Academy of Medicine, American Cancer Society, Susan Komen, and mainstream cancer centers. And why wouldn't we question their wisdom? At least 30 percent of women treated for early-stage breast cancer go on to develop metastatic breast cancer-practically guaranteeing their early death. Physicians must report each recurrence to state registries. But you may be surprised to learn the industry and its federal partners keep these numbers hidden. Perhaps they're just too embarrassing to share. Dr. Wadia-Ells does not pussyfoot around. A journalist with graduate degrees in political economy and women's studies, she aims to change US culture on women's behalf. Reviewing thousands of studies while researching this book, she discovered the 2012 landmark text, *Cancer as a Metabolic Disease*, by Boston College biologist Thomas Seyfried, PhD who lays out the complete biological explanation of how a person's first cancer cell develops. Effective prevention is now possible! Take off the pink ribbons. Stop running for the cure. Keep vitamin D3 above 60 ng/ml. Get rid of the carbs. Practice meditation. Stop suffocating your breast cells' "batteries"-your fragile mitochondria. Take charge; stop that first breast cancer cell before it's ever born. *Busting Breast Cancer* also proposes political actions: demand the FDA allow affordable \$30 hormone-free IUDs; promote breast self-exams; mandate equal insurance coverage for ultrasound screenings and early-prevention thermography. Against a multibillion-dollar industry with too much financial incentive to abandon its failing direction, who can change the course of breast cancer prevention and treatment? YOU can! Only women have the self-interest to do it. And now, with *Busting Breast Cancer*, you'll have the knowledge, too.
