From 1861 to 1865, the region along the Missouri-Kansas border was the scene of unbelievable death and destruction. Thousands died, millions of dollars in property was lost, entire populations were violently uprooted. It was here also that some of the greatest atrocities in American history occurred. Yet in the great national tragedy of the Civil War, this savage warfare has seemed a minor episode. Drawing from a wide array of contemporary documents - including diaries, letters, and firsthand newspaper accounts - Thomas Goodrich presents a hair-raising report of life in this merciless guerrilla war. Filled with dramatic detail, Black Flag reveals war at its very worst, told in the words of the participants themselves. Bushwhackers and Jayhawkers, soldiers and civilians, scouts, spies, runaway slaves, the generals and the guerrillas - all step forward to tell of their terrifying ordeals. A journalist's provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with the publication of *Self-Made Man*, her take on just how hard it is to be a man, even in a man's world. Following in the tradition of John Howard Griffin (*Black Like Me*), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren't around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men's therapy group. At once thought-provoking and pure fun to read, *Self-Made Man* is a sympathetic and thrilling tour de force of immersion journalism. In 2008, President Barack Obama gave a speech in Chicago, Illinois declaring that black men in America have abandoned the responsibility of fatherhood. At that moment I became inspired to write in response to the speech on the behalf of black fathers in this country. The more I researched and wrote I came to the conclusion that this is an American problem not an African-American issue. The details in this book are written in the form of an autobiography and memoir of my life. But in particular chapters I take the opportunity to offer a contributed solution to the baby daddy and baby mamma drama, discrimination, and homosexual relationships. I feel that if Trayvon Martin and George Zimmerman had an applicable understanding of the contributed solution which is in the form of an equation in this book. The event at the night of the Trayvon murder would have not taken place and both individuals could have walked away in peace. In addition to the

documentation and story in this book I have also included my three rap albums in which I have recorded throughout my life over the course of 10 years. Each album represents different stages of my life. The most current album is "The Resurrection" which is not completed as of August 2013 but will be available for download soon. I want to capture the emotion of my experiences as I am inspired and be able to share the recordings with my fans as soon as I am done. However, this brings a new excitement to the rap industry because I have a book that enables readers to download rap music at any given time. So all in reality my fans and supporters can take this journey of recording with me. So I offer my story, wisdom, and music. The classic comic travelogue about an ill-fated boating holiday on the River Thames "Three Men in a Boat" is the irreverent tale of a group of friends who, along with a fox terrier named Montmorency, embark on a two-week boating journey up the Thames. The National Book Critics Circle Award-winning author delivers a collection of essays that serve as the perfect "antidote to mansplaining" (The Stranger). In her comic, scathing essay "Men Explain Things to Me," Rebecca Solnit took on what often goes wrong in conversations between men and women. She wrote about men who wrongly assume they know things and wrongly assume women don't, about why this arises, and how this aspect of the gender wars works, airing some of her own hilariously awful encounters. She ends on a serious note—because the ultimate problem is the silencing of women who have something to say, including those saying things like, "He's trying to kill me!" This book features that now-classic essay with six perfect complements, including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original inquiry into marriage equality, and a terrifying survey of the scope of contemporary violence against women. "In this series of personal but unsentimental essays, Solnit gives succinct shorthand to a familiar female experience that before had gone unarticulated, perhaps even unrecognized." —The New York Times "Essential feminist reading." —The New Republic "This slim book hums with power and wit." —Boston Globe

"Solnit tackles big themes of gender and power in these accessible essays. Honest and full of wit, this is an integral read that furthers the conversation on feminism and contemporary society." —San Francisco Chronicle "Essential." —Marketplace "Feminist, frequently funny, unflinchingly honest and often scathing in its conclusions." —Salon

Reproduction of the original. An indispensable relationship guide for every woman who has ever told her partner, "Really, don't go to any trouble for my birthday"...And then been disappointed when he didn't. He says: "That dress looks great! Let's buy it!" You hear: "He really loves being with me. I feel as though we've truly bonded." He means: "For the love of God, the last eight black dresses you tried on looked identical! Just buy one, so we can get home in time for the game!"

In *What Men Say, What Women Hear*, Dr. Linda Papadopoulos tackles the saying, hearing, and listening gap between men and women that can complicate every step of a relationship, from first dates and first sex to meeting the parents and living happily ever after. An expert on Cognitive Behavior Therapy, which connects people's initial and often misguided perception of something to the emotional reaction that follows, Dr. Linda deconstructs the common thinking errors that can hinder communication—such as personalizing everything ("He's in a bad mood. Clearly he's thinking of a way to dump me.") and jumping to conclusions ("He asked how much younger my sister is than me. I bet he thinks I look like an old bat compared to her."). By applying clinical techniques to fun—and oh-so-familiar—examples, Dr. Linda helps readers eliminate unnecessary relationship anxiety and reevaluate the way they think about themselves, their partners, and the world around them.

Black. Lives. Matter. Not more, and definitely not less. Why is a statement about lives having value, controversial? As SNL's Michael Che stated, "Black Lives Matter. Just Matter." George Floyd's murder was as shocking as it was common. In fact, there is an entire museum in Montgomery, Alabama, dedicated to 4,400 lynching victims. But, the sad truth is, 4,400 were only the reported ones. And, if you look into the statistics, many of the lynchings were perpetrated by, or sanctioned by law

enforcement. This compilation of lost lives is more of an encyclopedia and serves as a record for the 101 deaths of unarmed people of color attributed to law enforcement. From Tamir Rice to Breonna Taylor, Ahmaud Aubrey to James Earl Chaney; many you have heard about, and many you have not. We document who they were as people, the details surrounding their deaths, as well as if there were any arrests or convictions of officers involved. Unfortunately, this is an incomplete record, but an important reminder just the same. We owe them that much. Essential reading for our times, as women are pulling together to demand their rights— A landmark portrait of women, men, and power in a transformed world. “Anchored by data and aromatized by anecdotes, [Rosin] concludes that women are gaining the upper hand.” -The Washington Post Men have been the dominant sex since, well, the dawn of mankind. But Hanna Rosin was the first to notice that this long-held truth is, astonishingly, no longer true. Today, by almost every measure, women are no longer gaining on men: They have pulled decisively ahead. And “the end of men”—the title of Rosin’s Atlantic cover story on the subject—has entered the lexicon as dramatically as Betty Friedan’s “feminine mystique,” Simone de Beauvoir’s “second sex,” Susan Faludi’s “backlash,” and Naomi Wolf’s “beauty myth” once did. In this landmark book, Rosin reveals how our current state of affairs is radically shifting the power dynamics between men and women at every level of society, with profound implications for marriage, sex, children, work, and more. With wide-ranging curiosity and insight unhampered by assumptions or ideology, Rosin shows how the radically different ways men and women today earn, learn, spend, couple up—even kill—has turned the big picture upside down. And in *The End of Men* she helps us see how, regardless of gender, we can adapt to the new reality and channel it for a better future. Mars and Venus head to work... Day-to-day, face-to-face workplace communication between men and women is often dysfunctional because each gender employs different speech patterns. When careers and paychecks are on the line, clear communication is crucial - from the mailroom to the boardroom. *Code Switching* explains what to say, how to say it, how to be taken seriously, and

how to act while speaking with the opposite sex for maximum effectiveness in the workplace. Included are: ?How men and women manage conversation, and the value of 'chitchat' prior to a meeting. ?How men use language to impart information and women use language to build or indicate relationship. ?How men use e-mail to emphasize control while women use it to share and build rapport. ?How women can use language to build their credibility. ?How humor is used as a power play, to build territory, or to exclude others. ?How gender talk creates and shapes work relationships. Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife. Offers over one hundred tips about women, gathered from women of a wide range of ages and backgrounds, that cover the topics of love, sex, beauty, lying, and listening. 999 Ways 2 Say No 2 A "No-Good Man" takes an uncensored look into the ways of the no-good man and exposes him for who he truly is: a dog disguised as a human. While promoting women to think with the head and not with the heart in matters of love, this book unveils what every woman may or may not want to know but needs to know about the canine, who may not currently be in her life, but may someday bring his paws to her doorstep. 999 Ways reveals the internal pollution that allows a woman to tolerate his ways, encouraging her to confront and transform this into strength. It reemphasizes the fact that the very structure of a woman is composed of strength. It is just a matter of finding its location then continuing on with application. From "Love 2 Be Defined" to the "Colorful Commentary" and "Excerpts of Encouragement," the usage of poetic expression will provoke thought and laughter to uplift the spirit. A.A.D. is the phrase that pays: Acknowledge, Act, Depart. So enter at your risk because only the brave souls will survive this literary experience. Going beyond the message of *Lean In* and *The Confidence Code*, Gannett’s Chief Content Officer contends that to achieve parity in the office, women don’t have to change—men do—and in this inclusive and realistic handbook, offers solutions to help professionals solve gender gap issues and achieve parity at work. Companies with more

women in senior leadership perform better by virtually every financial measure, and women employees help boost creativity and can temper risky behavior—such as the financial gambles behind the 2008 economic collapse. Yet in the United States, ninety-five percent of Fortune 500 chief executives are men, and women hold only seventeen percent of seats on corporate boards. More men are reaching across the gender divide, genuinely trying to reinvent the culture and transform the way we work together. Despite these good intentions, fumbles, missteps, frustration, and misunderstanding continue to inflict real and lasting damage on women’s careers. What can the Enron scandal teach us about the way men and women communicate professionally? How does brain circuitry help explain men’s fear of women’s emotions at work? Why did Kimberly Clark blindly have an all-male team of executives in charge of their Kotex tampon line? In *That’s What She Said*, veteran media executive Joanne Lipman raises these intriguing questions and more to find workable solutions that individual managers, organizations, and policy makers can employ to make work more equitable and rewarding for all professionals. Filled with illuminating anecdotes, data from the most recent relevant studies, and stories from Lipman’s own journey to the top of a male-dominated industry, *That’s What She Said* is a book about success that persuasively shows why empowering women as true equals is an essential goal for us all—and offers a roadmap for getting there. Featuring contributions from James Lee Burke, Ian McEwan, Salman Rushdie and Amy Bloom, this collection, penned to help launch the literary nonprofit Narrative 4, contains 80 stories that ponder what it means to be a man. 30,000 first printing. No matter one’s political persuasion, most of us agree there’s something deeply wrong in America today. Conflict has reached a fever pitch as our nation has become alarmingly polarized in the political arena. Many look to politicians and public policies for solutions, but journalist Andrew Breitbart rightly said that politics couldn’t be fixed if culture is ignored, because “politics is downstream from culture.” McAllister would take this observation a step further—politics might be downstream from culture, but culture is downstream from relationships. If we don’t focus on the personal building blocks of society, we will fail to fix problems in culture and the politics that flow from it. If relationships are sick or broken—especially those between men and women—then everything else is affected. If there’s little love, respect, and trust there, you won’t find it anywhere else. Men are tired of being dumped on. They have a lot to say to women about sex, equality in the workplace, raising boys, and the lie of “toxic masculinity,” but modern feminism and a politically correct culture have silenced them. This “war on men” has disrupted relationships and caused men to question their place in American society. “Misogyny,” “male privilege,” and “the Patriarchy” are buzzwords that shut men down.

Some are so frustrated they've given up entirely—"Who needs women if all they're going to do is use you and treat you like garbage?" Anger, separation, and simply giving up aren't solutions to a festering problem. Instead, we need to heal relationships by learning to respect the designed purposes of masculinity and femininity. For this to happen, women will need to hear some hard truths about themselves and those they love. In *What Men Want to Say to Women (But Can't)*, cultural commentator and New York Times bestselling author Denise McAllister speaks to women on men's behalf—exposing the lies of modern feminism and offering insights on how to rebuild broken relationships in the workplace, at home, and in the bedroom. Here's a sneak peek at a few things men would like to say to women, but can't: • "When I look at your cleavage, it doesn't mean I want to rape you." • "Stop complaining about equal pay when you don't do equal work." • "Children need their father—stop shutting men out of the picture because you think you do everything better." • "I will teach my son to compete—now go toss that participation trophy in the trash!" "A triumph of compassion, insight, and good sense. Denise McAllister doesn't just want to fix how men and women talk to each other. She wants to heal a fraying holy sacrament. Read this book to save your marriage—or to find one." —Milo Yiannopoulos

Adherence to the Old Testament by Christians and the insistence that the entire Bible is literal fact is essential in order to validate the early Church's claim of Jesus' divinity. This claim was heatedly debated among early Christians and rejected by Jews who possessed unaltered and correctly translated scriptures. The Council of Nicaea (325 A.D.) purged any writings that expressed doubts concerning Jesus' origins. The four narratives of the New Testament that were accepted were not written by any of his disciples, nor anyone who ever met him. Subsequently, who Yeshua was and what he taught can never in truth be known. This work of Biblical fiction is based upon that premise and the philosophy contained in "The One Tree", which is included here. Originally published in 1982, *All the Women Are White*, All

*the Blacks Are Men, But Some of Us Are Brave: Black Women's Studies* is the first comprehensive collection of black feminist scholarship. Featuring contributions from Alice Walker and the Combahee River Collective, this book is vital to today's conversation on race and gender in America. With an afterword from Salon columnist Brittney Cooper. Coeditors Akasha (Gloria T.) Hull, Patricia Bell-Scott, and Barbara Smith are authors and former women's studies professors. Brittney Cooper is an assistant professor of women and gender studies and Africana studies at Rutgers University and a co-founder of the Crunk Feminist Collective. "[W]e can't come off as a bunch of angry white men." Robert Bennett, chairman of the Ohio Republican Party

One of the enduring legacies of the 2012 Presidential campaign was the demise of the white American male voter as a dominant force in the political landscape. On election night, after Obama was announced the winner, a distressed Bill O'Reilly lamented that he didn't live in "a traditional America anymore." He was joined by others who bellowed their grief on the talk radio airwaves, the traditional redoubt of angry white men. Why were they so angry? Sociologist Michael Kimmel, one of the leading writers on men and masculinity in the world today, has spent hundreds of hours in the company of America's angry white men - from white supremacists to men's rights activists to young students - in pursuit of an answer. *Angry White Men* presents a comprehensive diagnosis of their fears, anxieties, and rage. Kimmel locates this increase in anger in the seismic economic, social and political shifts that have so transformed the American landscape. Downward mobility, increased racial and gender equality, and a tenacious clinging to an anachronistic ideology of masculinity has left many men feeling betrayed and bewildered. Raised to expect unparalleled social and economic privilege, white men are suffering today from what Kimmel calls "aggrieved entitlement": a sense that those benefits that white men believed were their due have been snatched away from them. *Angry White Men* discusses, among others, the sons of small town America, scarred by underemployment and wage stagnation. When America's white men feel they've lived their lives the 'right' way - worked

hard and stayed out of trouble - and still do not get economic rewards, then they have to blame somebody else. Even more terrifying is the phenomenon of angry young boys. School shootings in the United States are not just the work of "misguided youth" or "troubled teens"—they're all committed by boys. These alienated young men are transformed into mass murderers by a sense that using violence against others is their right. The future of America is more inclusive and diverse. The choice for angry white men is not whether or not they can stem the tide of history: they cannot. Their choice is whether or not they will be dragged kicking and screaming into that inevitable future, or whether they will walk openly and honorably - far happier and healthier incidentally - alongside those they've spent so long trying to exclude.
