Return to Sunrise Lagoon in this warmhearted sequel, which finds anxious middle child Marina making waves on her journey to trusting herself. If you want to get to know Marina Ali-O'Connor, you need to know three things: One, despite her name, Marina is secretly afraid of the water. Two, she wanted to be one of the Oldest Siblings, but is stuck smack dab in the middle. Three, she's pretty certain she's the Extra Ali-O'Connor kid—the forgotten one. When Boom, a budding filmmaker exactly Marina's age, moves in across the lagoon, she decides that Marina's quest to become someone's favorite Ali-O'Connor would make a perfect documentary. But when each plan goes a little bit

wrong, Marina begins to wonder if she'll ever feel like she belongs, or if she'll always be lost in the middle. From an acclaimed author comes a cheerful, uplifting story of family and belonging, the first in a series perfect for fans of the Vanderbeekers and the Penderwicks. If you want to get to know eleven-year-old Samantha Ali-O'Connor, you need to know three things: One, she isn't the only one of her siblings who is adopted, but she is the only one whose name isn't inspired by the ocean. Two, she and Harbor always compete with each other to be the best Oldest Sibling—and just about everything else. And three, she is determined to prove she's a real Ali-O'Connor by taking over the family business, repairing and chartering boats. Except there's a Capital-P Problem: Her mothers have been Serious Whispering about selling the business before summer's end! Sam needs to come up with a plan, quick, before Harbor finds out. And before Sam loses her chance to inherit the business and be an Ali-O'Connor forever. A brilliant study of Aristotle as biologist

The philosophical classics of Aristotle loom large over the history of Western thought, but the subject he most loved was biology. He wrote vast volumes about animals. He described them, classified them, told us where and how they live and how they develop in the womb or in the egg. He founded a science. It can even be said that he founded science itself. In *The Lagoon*, acclaimed biologist Armand Marie Leroi recovers Aristotle's science. He revisits Aristotle's writings and the places where he worked. He goes to the eastern Aegean island of Lesbos to see the creatures that Aristotle saw, where he saw them. He explores Aristotle's observations, his deep ideas, his inspired guesses—and the things he got wildly wrong. He shows how Aristotle's science is deeply intertwined with his philosophical system and reveals that he was not only the first biologist, but also one of the greatest. *The Lagoon* is both a travelogue and a study of the origins of science. And it shows how a philosopher who lived almost two millennia ago still has so much to teach us today. The fairies in *Never Land* think that mermaids are nothing but trouble. So when Gabby befriends a mermaid, Kate, Mia, and Lainey warn her to stay away. But Gabby doesn't want to lose her new friend! Tinker Bell and the Disney Fairies star in a magical early chapter book series for readers ages 6 to 9—Disney *The Never Girls!* "The Blue Lagoon" centers on two cousins, Dicky and Emmeline Lestranger, who are marooned with a galley cook on an island in the South Pacific following a shipwreck. The galley cook, Paddy Button, assumes responsibility for the children and teaches them how to survive. Two-and-a-half years after the shipwreck, Paddy died following a drinking binge. The children survive on their resourcefulness and the bounty of their remote paradise. They live in a hut and spend their days fishing, swimming, diving for pearls and exploring the island. As the years pass, Dicky and Emmeline grow into physically mature young adults and begin to fall in love. As they deal

with their newfound emotions, Dicky's father Arthur believes the two are still alive and he is determined to find them. "The Garden of God" is a sequel to *The Blue Lagoon* and it picks up precisely where it left off, with Arthur LeStrange in the ship *Raratonga* discovering his son Dicky and niece Emmeline with their own child, lying in their fishing boat which has drifted out to sea. It turns out that Dicky and Emmeline died and the child is drowsy but alive and is picked up by the sailors. Arthur has a dream-vision of the pair; they ask him to come to Palm Tree, the island where they lived, and promise he will see them again. Arthur takes the child, which gets the nickname Dick M, and takes his ship to Palm Tree, where he plans to stay with Dick M and Kearney, a volunteer from the crew who grows fond of Dick. The rest of the crew leave with a promise to return the next year, but they get swallowed up in a storm out at sea, and the trio stays stuck on the island. Rani doesn't fit in. Without wings, she doesn't feel like she belongs with the other fairies. Rani sets off on a perilous journey to find a home, a journey that leads her underwater, deep into the lagoon, where the mermaids live. "Robert McCloskey's unusual and stunning pictures have long been a delight for their fun as well as their spirit of place."—*The Horn Book* Mrs. Mallard was sure that the pond in the Boston Public Gardens would be a perfect place for her and her eight ducklings to live. The problem was how to get them there through the busy streets of Boston. But with a little help from the Boston police, Mrs. Mallard and Jack, Kack, Lack, Nack, Ouack, Pack, and Quack arrive safely at their new home. This brilliantly illustrated, amusingly observed tale of Mallards on the move has won the hearts of generations of readers. Awarded the Caldecott Medal for the most distinguished American picture book for children in 1941, it has since become a favorite of millions. This classic tale of the famous Mallard ducks of Boston is available for the first time in a full-sized paperback edition. *Make Way for Ducklings* has been described as "one of the merriest picture books ever" (*The New York Times*). Ideal for reading aloud, this book deserves a place of honor on every child's bookshelf. "This delightful picture book captures the humor and beauty of one special duckling family. ... McClosky's illustrations are brilliant and filled with humor. The details of the ducklings, along with the popular sights of Boston, come across wonderfully. The image of the entire family proudly walking in line is a classic."—*The Barnes & Noble Review* "The quaint story of the mallard family's search for the perfect place to hatch ducklings. ... For more than fifty years kids have been entertained by this warm and wonderful story."—*Children's Literature* This acclaimed biography shines a light on a trailblazing woman who created a classic movie monster—and the author's quest to rescue her from obscurity. As a teenager, Mallory O'Meara was thrilled to discover that one of her favorite movies, *Creature from the Black Lagoon*, featured a monster designed by a

woman, Millicent Patrick. But while Patrick should have been hailed as a pioneer in the genre, there was little information available about her. As O'Meara discovered, Patrick's contribution had been claimed by a jealous male colleague and her career had been cut short. No one even knew if she was still alive. As a young woman working in the horror film industry, O'Meara set out to right the wrong, and in the process discovered the full, fascinating story of an ambitious, artistic woman ahead of her time. Patrick's contribution to special effects proved to be just the latest chapter in a remarkable, unconventional life, from her youth growing up in the shadow of Hearst Castle, to her career as one of Disney's first female animators. And at last, O'Meara discovered what really had happened to Patrick after *The Creature's* success, and where she went. A true-life detective story and a celebration of a forgotten feminist trailblazer, Mallory O'Meara's *The Lady from the Black Lagoon* establishes Patrick in her rightful place in film history while calling out a Hollywood culture where little has changed since. Fish are people too. Or so it seems on the imaginary island of Kapupu, the setting for the wet and witty sea creatures of Sherman's Lagoon. For more than a decade, creator Jim Toomey has delighted readers with his off-center look at pop culture through the eyes of its namesake character, Sherman, and his coral-reef companions. Now, for the first time, the very best of this cast of lagoonies is captured in a treasury of classics. *Sherman's Lagoon 1991-2001: Greatest Hits and Near Misses* gives readers the opportunity to follow the evolution of the satirical strip from the first day it ran in the Escondido (Calif.) Times-Advocate on May 13, 1991, all the way up to the present day. This comprehensive collection highlights the complete history of the adventures of Sherman, the happy-go-lucky, brain-go-slow shark, and his lagoon-dwelling friends, including: o Fillmore the turtle, Sherman's sensible sidekick Hawthorne, the cranky, beer can-dwelling hermit crab Megan, Sherman's pearl-clad wife Ernest, the big-brained philosophical fisho And Thornton, the surfboard-toting polar bear. The compendium also features the funniest moments from the occasional humans who have inhabited the make-believe lagoon, such as Captain Quigley, the vengeful fisherman who lost his leg to Sherman years ago. This master collection of Jim Toomey's colorful cast of creatures will be treasured by longtime fans-and provide those new to the satirical strip an opportunity to catch up on all the underwater fun they've missed during the last decade. Ducky Doodle realizes the true value of his friends Otto and Uncle Tooth when Sid Rat tries to cheat him. A "colorful family saga" set against the dramatic historical backdrop of twentieth-century Puerto Rico, from an author nominated for the National Book Award (Kirkus Reviews). Elvira Vernet narrates *Eccentric Neighborhoods* as she attempts to

solve the mystery of who her parents truly are. Her mother, the beautiful and aristocratic Clarissa Rivas de Santillana, was born into a rarefied world of privilege, one of five daughters on the family's sugar plantation. Elvira's father, Aurelio Vernet, and his three brothers and two sisters were raised by Santiago, a Cuban immigrant who ruled his family with an iron hand. As Puerto Rico struggles for independence—and Aurelio takes his place among the powerful political gentry—a legacy of violence, infidelity, faith, and sacrifice is born. Set against the backdrop of a country coming of age, *Eccentric Neighborhoods* is a lush, transcendent novel, a family saga about mothers and daughters, husbands and wives, parents and children. In this magnificent follow-up to *The House on the Lagoon*, Rosario Ferré delivers a work of historical fiction influenced by magical realism and infused with forgiveness and love. Wingless Rani is desperate to find somewhere she fits in, but discovers that it's with the fairies in Pixie Hollow she's happiest of all. Celebrates homes in paradise-like settings, bringing together 225 photographs of vernacular architecture by some of the world's most noted designers in jungle, volcanic cliff, and lagoon settings. Caught up in his wife's efforts to write a novel about the history of their families, Quintin Mendizabal sparks a heated rivalry between Isabel and himself when they have different perspectives on the same story. Nominated for the 1995 National Book Award, *The House on the Lagoon* is the story of Isabel Monfort and her husband Quintin Mendizabal—the history of a family whose secrets, conflicts and private mythologies add up to the larger story of a nation: Puerto Rico. Recounts the plots of the 1954 film and its two sequels which followed the career of an unfriendly half-man, half-fish creature discovered in a Brazilian lake. Sophie's world is shattered when disaster bankrupts her family. She's still reeling when she's offered an unexpected solution: Mr. Argenton, a wealthy stranger, has asked for her hand in marriage. Marrying Mr. Argenton will save her family, but it condemns Sophie to a life in Northwood, a vast and unnaturally dark mansion situated hours from civilization. Still, she has no choice but to accept the offer and hope the darkness won't swallow her whole. It's a struggle to adjust to her new position as mistress over the desolate house. Mr. Argenton's relatives are cold, and Mr. Argenton himself is keeping secrets. Even worse, the house is more than it seems. Doors slam. Inhuman figures slink through the surrounding forest. A piano plays itself in the middle of the night. Blood drips a macabre warning down the walls. Day by day, Sophie is inevitably pulled towards the terrifying truth at the heart of this gothic mystery: Northwood's ancient halls are haunted, and the man she married—the man she's coming to love—is hiding an unforgivable truth about his ancestral home...and the spirits that now haunt them both. There are so many different types of families, and *THE FAMILY BOOK* celebrates them all in a funny, silly,

and reassuring way. Todd Parr includes adopted families, step-families, one-parent families, and families with two parents of the same sex, as well as the traditional nuclear family. His quirky humor and bright, childlike illustrations will make children feel good about their families. Parents and teachers can use this book to encourage children to talk about their families and the different kinds of families that exist. These fun-filled chapter books mix school, monsters, and common kid problems with hilarious results. You'll scream with laughter! Where does everyone and everything live? *A House Is a House for Me* is a rollicking rhyme about houses. Some of the houses are familiar, such as an anthill and a dog kennel, while others are surprising, such as a corn husk and a pea pod. This longtime favorite is filled with pictures that parents and children will want to look at again and again in a beautifully produced, deluxe full-sized edition. It's up to a famous rapper, a biologist, and a rogue soldier to handle humanity's first contact with an alien ambassador—and prevent mass extinction—in this novel that blends magical realism with high-stakes action. After word gets out on the Internet that aliens have landed in the waters outside of the world's fifth most populous city, chaos ensues. Soon the military, religious leaders, thieves, and crackpots are trying to control the message on YouTube and on the streets. Meanwhile, the earth's political superpowers are considering a preemptive nuclear launch to eradicate the intruders. All that stands between seventeen million anarchic residents and death is an alien ambassador, a biologist, a rapper, a soldier, and a myth that may be the size of a giant spider, or a god revealed. "The fairies in Never Land think that mermaids are nothing but trouble. So when Gabby befriends a mermaid, Kate, Mia, and Lainey warn her to stay away. But Gabby doesn't want to lose her new friend!"--

Laudada como una obra centra de la literatura latinoamericana, esta novela asombrosa, de una de las más prominentes mujeres de letras de Puerto Rico, es a la vez una rebotante saga multigeneracional y una historia mágica de la isla. En una hermosa mansión con vista a la laguna de Alamares, Isabel Montfort está escribiendo la crónica de su familia. Es un relato de aventura e intriga, de inmigrantes españoles y corsos, de esclavos africanos, de política sexual y de luchas políticas, de maridos autoritarios y esposas que ingeniosamente subvierten esa autoridad. Pero Quintín Mendizábal, el marido de Isabel, ha descubierto su manuscrito y se propone contrarrestarlo con su propia versión de los hechos. Del combate entre sus historias conyugales Rosario Ferré crea una poderosa y astutamente cómica meditación sobre la manera en que construimos la verdad--la de nuestra familia, la de nuestros países y la de nuestras propias vidas. La casa de la laguna es una novela llena de encanto e invención, poblada por personajes de una gran vitalidad. These fun-filled chapter books mix school, monsters, and common kid problems

with hilarious results. You'll scream with laughter! Eric is having a New Year's Eve sleepover, but Hubie has never spent the night away from home. He's going to be in a strange bed, in a strange room, in a strange house. What if Hubie gets sick or has a bad dream? What happens if Eric starts telling his cheesy jokes? And what's all this talk about making a New Year's Revolution?!? The white man, leaning with both arms over the roof of the little house in the stern of the boat, said to the steersman-"We will pass the night in Arsat's clearing. It is late."The Malay only grunted, and went on looking fixedly at the river. The white man rested his chin on his crossed arms and gazed at the wake of the boat. At the end of the straight avenue of forests cut by the intense glitter of the river, the sun appeared unclouded and dazzling, poised low over the water that shone smoothly like a band of metal. The forests, sombre and dull, stood motionless and silent on each side of the broad stream. At the foot of big, towering trees, trunkless nipa palms rose from the mud of the bank, in bunches of leaves enormous and heavy, that hung unstirring over the brown swirl of eddies. In the stillness of the air every tree, every leaf, every bough, every tendril of creeper and every petal of minute blossoms seemed to have been bewitched into an immobility perfect and final. Nothing moved on the river but the eight paddles that rose flashing regularly, dipped together with a single splash; while the steersman swept right and left with a periodic and sudden flourish of his blade describing a glinting semicircle above his head. The churned-up water frothed alongside with a confused murmur. And the white man's canoe, advancing upstream in the short-lived disturbance of its own making, seemed to enter the portals of a land from which the very memory of motion had forever departed.

Finalist for the National Book Award: "A family saga in the manner of Gabriel García Márquez," set in Puerto Rico, from an extraordinary storyteller (The New York Times Book Review). This riveting, multigenerational epic tells the story of two families and the history of Puerto Rico through the eyes of Isabel Monfort and her husband, Quintín Mendizabal. Isabel attempts to immortalize their now-united families—and, by extension, their homeland—in a book. The tale that unfolds in her writing has layers upon layers, exploring the nature of love, marriage, family, and Puerto Rico itself. Weaving the intimate with the expansive on a teeming stage, Ferré crafts a revealing self-portrait of a man and a woman, two fiercely independent people searching for meaning and identity. As Isabel declares: "Nothing is true, nothing is false, everything is the color of the glass you're looking through." A book about freeing oneself from societal and cultural constraints, *The House on the Lagoon* also grapples with bigger issues of life, death, poverty, and racism. Mythological in its breadth and scope, this is a masterwork from an extraordinary storyteller. In this graphic novel for early middle readers, a

fearsome sea serpent comes back to haunt an island in the Pacific Northwest after a 100-year reprieve. A gentle maiden aunt who has been victimized for years unexpectedly retaliates through her talent for making life-sized dolls filled with honey. "The Youngest Doll," based on a family anecdote, is a stunning literary expression of Rosario Ferré's feminist and social concerns. It is the premier story in a collection that was originally published in Spanish in 1976 as *Papeles de Pandora* and is now translated into English by the author. The daughter of a former governor of Puerto Rico, Ferré portrays women loosening the constraints that have bound them to a patriarchal culture. Anger takes creative rather than polemical form in ten stories that started Ferré on her way to becoming a leading woman writer in Latin America. The upper-middle-class women in *The Youngest Doll*, mostly married to macho men, rebel against their doll-like existence or retreat into fantasy, those without money or the right skin color are even more oppressed. In terms of power and influence, these women stand in the same relation to men as Puerto Rico itself does to the United States, and Ferré stretches artistic boundaries in writing about their situation. The stories, moving from the realistic to the nightmarish, are deeply felt, full of irony and black humor, often experimental in form. The imagery is striking: an architect dreams about a beautiful bridge that "would open and close its arches like alligators making love"; a Mercedes Benz "shines in the dark like a chromium rhinoceros." One story, "The Sleeping Beauty," is a collage of letters, announcements, and photo captions that allows chilling conclusions to be drawn from what is not written. The collection includes Ferré's discussion of "When Women Love Men," a story about a prostitute and a society lady who unite in order to survive, and one that illustrates the woman writer's "art of dissembling anger through irony." In closing, she considers how her experience as a Latin American woman with ties to the United States has brought to her writing a dual cultural perspective. Among the emerging generation of crime writers, none is as stylish and intelligent as Michael Dibdin, who, in *Dead Lagoon*, gives us a deliciously creepy new novel featuring the urbane and skeptical Aurelio Zen, a detective whose unenviable task it is to combat crime in a country where today's superiors may be tomorrow's defendants. Zen returns to his native Venice. He is searching for the ghostly tormentors of a half-demented contessa and a vanished American millionaire whose family is paying Zen under the table to determine his whereabouts—dead or alive. But he keeps stumbling over corpses that are distressingly concrete: from the crooked cop found drowned in one of the city's noisome "black wells" to a brand-new skeleton that surfaces on the Isle of the Dead. The result is a mystery rich in character and deduction, and intensely informed about the history, politics, and manners of its Venetian setting.
