The Federalist Papers Mar 24 2022 Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States.

Master of the Senate Mar 04 2023 'The greatest biography of our era ... Essential reading for those who want to comprehend power and politics' The Times Robert A. Caro's legendary, multi-award-winning biography of US President Lyndon Johnson is a uniquely riveting and revelatory account of power, political genius and the shaping of twentieth-century America. Winner of the Pulitzer Prize and the National Book Award, Master of the Senate takes Johnson's story through one of its most remarkable periods- his twelve years, from 1949 to 1960, in the United States Senate. Once the most august and revered body in politics, by the time Johnson arrived the Senate had become a parody of itself and an obstacle that for decades had blocked desperately needed liberal legislation. Caro shows how Johnson's brilliance, charm and ruthlessness enabled him to become the youngest and most powerful Majority Leader in history and how he used his incomparable legislative genius - seducing both Northern liberals and Southern conservatives - to pass the first Civil Rights legislation since Reconstruction.
