A remote mountain community is suddenly beseiged by a rash of grisly murders encroaching upon it from the surrounding forest. Bizarre reports start to spread, describing attacks from viscious creatures, some human...some not. At the centre of these deaths is a dark, secluded mansion belonging to the mysterious Umbrella Corporation. For years Umbrella has laboured within the mansion, unwatched, ostensibly conducting benign genetic research. Deployed to investigate the strange goings on is the Special Tactics and Rescue Squad (S.T.A.R.S), a paramilitary response unit boasting an unusual array of mission specialists. They believe they are ready for anything but nothing prepares them for the terror which awaits them when they penetrate the mansions long-locked doors. Behind the horror of nightmare creatures, results of forbidden experiments gone disasterously wrong, lies a conspiracy so vast in its scope and so insidious in its agenda that the S.T.A.R.S will be betrayed from within to ensure that the world never learns Umbrella's secret. And if any survive...they may well come to envy those who do not. On

By focusing on the story of Hector, James M. Redfield presents an imaginative perspective not only on the Iliad but also on the whole of Homeric culture. In an expansive discussion informed by a reinterpretation of Aristotle's Poetics and a reflection on the human meaning of narrative art, the analysis of Hector leads to an inquiry into the fundamental features of Homeric culture and of culture generally in its relation to nature. Through Hector, as the "true tragic hero of the poem," the events and themes of the Iliad are understood and

the function of tragedy within culture is examined. Redfield's work represents a significant application of anthropological perspectives to Homeric poetry. Originally published in 1975 (University of Chicago Press), this revised edition includes a new preface and concluding chapter by the author. IN GOD AND THE EVOLVING UNIVERSE: THE NEXT STEP IN PERSONAL EVOLUTION, the worldwide bestselling author of THE CELESTINE PROPHECY (half a million copies sold in Australia alone), James Redfield, joins forces with the bestselling author of GOLF IN THE KINGDOM (still a bestseller 27 years after it was published) and THE FUTURE OF THE BODY, Michael Murphy, to help us take the next step in our personal evolution. In a groundbreaking approach to personal development, Redfield and Murphy help readers to journey to the past, present and future of human life to explore the explosion in new abilities, understandings and possibilities to which centuries of development have bought us – and show us how to apply these to improving our everyday life. Distilling the messages of "The Tenth Insight" and drawing material from his bestselling inspirational calendars, James Redfield presents 12 original essays which explore such topics as Sacred Sites, A Gift from the Animals, Believing in Our Intuitions, Overcoming the Fear, and Holding the Vision. This

In his short life (1865–1921), Mikhail Yosef Berdichevsky was a versatile and influential man of letters: an innovative Hebrew prose stylist; a collector of Jewish folklore; a scholar of ancient Jewish and Christian history. He was at once a peer of Friedrich Nietzsche, the Brothers Grimm, and a diverse circle of Jewish writers in the Russian Empire and German-speaking countries. As a Yiddish writer, however, he remains unknown to general readers. Written in 1902-1906, but not published in full until the 1920s, his stories were dismissed by prominent critics and viewed as out of step with the literary taste of his own time. Yet these vivid portraits of a small Jewish town (shtetl) in the southern Russian Empire can speak powerfully to new audiences today. With enchanting humor, social satire, and verbal dexterity, *From a Distant Relation* captures the world of the shtetl in a sharp realist

prose style. Themes of repressed desire, poverty, relations with non-Jews, and historic upheavals echo in a cast of memorable characters. Many of the stories and monologues feature strong female protagonists, while others shed light on misogyny in the culture of the shtetl. At the border between fiction and reportage, with a gritty underbelly and a deceptive naïveté, Berdichevsky's stories explore dynamics of wealth, power, and gender in an intimate setting that resonates profoundly with contemporary Jewish life.

Athens dominates textbook accounts of ancient Greece. But was it, for the Greeks themselves, a model city-state or a creative, even a corrupt, departure from the model? Or was there a model? This book reveals Epizephyrian Locri--a Greek colony on the Adriatic coast of Italy--as a third way in Greek culture, neither Athens nor Sparta. Drawing on a wide range of literary and archaeological evidence, James Redfield offers a fascinating account of this poorly understood Greek city-state, and in particular the distinctive role of women and marriage therein. Redfield devotes much of the book to placing Locri within a more general account of Greek culture, particularly with the institution of marriage in relation to private property, sexual identity, and the fate of the soul. He begins by considering the annual

practice of sending two maidens from old-world Locris, the putative place of origin of the Italian Locrians, to serve in the temple of Athena at Ilion, finding here some key themes of Locrian culture. He goes on to provide a richly detailed overview of the Italian city; in a set of iconographic essays he suggests that marriage was seen in Locri as a life transformation akin to the eternal bliss hoped for after death. Nothing less than a general reevaluation of classical Greek society in both its political and theological dimensions, *The Locrian Maidens* is must reading for students and scholars of classics, while remaining accessible and of particular interest to those in women's studies and to anyone seeking a broader understanding of ancient Greece. *Au coeur des Andes et de l'Amazonie, le héros découvre grâce aux signes et aux coïncidences les Révélation de la Vie*. Avec dix millions de livres vendus, James Redfield est un auteur-phénomène... à lire absolument ! Contains the annual reports of various Ohio state governmental offices, including the Attorney General, Governor, Secretary of State, etc. *The Celestine Prophecy* and *the Tenth Insight* together in a special edition. Baisakhi Saha, international TEDx speaker and author of Life is Abracadabra Internationally acclaimed author, speaker and founder of the Sedona Intensive

Institute, Albert Clayton Gaulden guides readers to finding their authentic selves in *You're Not Who You Think You Are*. *The Book of Celtic Wisdom* is a collection of the poems, proverbs, and aphorisms of the Celtic people that have been passed down from generation to generation for thousands of years. These are the proverbs and blessings that bring the wisdom of the ancient Celts to life. Their thoughts on charity ("Stretch out your hand in giving, and you will never stretch it out in need"), aging ("The older the fiddle, the sweeter the tune"), and work ("The lazy young man and the poor old man; two sides of the same coin") are as relevant today as they were thousands of years ago. A thoughtful and reflective compilation, this book is bound to inspire, enlighten, and entertain readers every-where. It has been referred to as the mysterious phenomenon of spontaneous excellence. It has been applauded as the model for achievement in everything from athletics to child rearing, and it relates to every aspect of our lives, from the food we eat to the art and music we surround ourselves with. "Being 'in the zone' has been popularized greatly by the sports media, and, as so often happens with buzz-words and catch-phrases, it has taken on an aura much greater and more mysterious than its true nature In reality, the zone is nothing more than peak

efficiency, of which we are all capable." From Exploring the Zone, section 1, "The Ranks of the Efficient" This book explores all the aspects of accessing a level of consciousness where the zone can be accessed and prolonged through ten "pathways to the zone," and through understanding what the zone itself is. Celestine Prophecy author James Redfield's contributions expand the spiritual aspects of the zone. The concluding twelve chapters present principles on the unity of heaven, earth, and human, and the essential unities within each realm.
