Teaching History Online Sep 30 2022 Bringing history teaching into the twenty-first century, Teaching History Online is a concise guide to developing and using internet resources in history instruction. It offers practical, jargon-free advice to help the history teacher develop online assignments, and provides an informed introduction to the myriad resources and tools available for use in the online classroom. Beginning with a chapter on the benefits of teaching and studying online, John F. Lyons goes on to address instructors' most commonly asked questions and concerns, including: designing an online class providing online alternatives to the lecture developing a user-friendly discussion board conducting assessment and dealing with classroom management issues. For historians interested in providing an online element to their traditional face-to-face classroom teaching, the final chapter shows how to develop successful hybrid/blended classes. An accessible introduction and valuable resource, Teaching History Online includes sample lesson plans, examples of online learning tools, and suggestions for further reading, helping those who use – or want to use – online resources to create exciting, interactive and rewarding learning environments. Visit the companion website which includes extra reading and resources information at: www.routledge.com/textbooks/9780415482226.

ICSSSED 2020 Apr 01 2020 The theme of the conference is "Reconstructing Morals, Education, and Social Sciences for Achieving Sustainable Development Goals". This theme was formulated due to several considerations. First, the symptoms of moral decline that have the potential to destroy the nation. Morals guide humanity towards truth and civilization. The phenomenon of the dehumanization process in the industrial era that pushed people to be part of abstract societies tends to ignore humanity. The education process as a humanitarian system is increasingly marginalized, especially during discussions about the industrial revolution 4.0 and Society 5.0. The conference placed six sub-themes for speakers and participants to share ideas, namely: Social Sciences and Laws, History and Cultural Studies, Interdisciplinary Studies, Morals and Humanities, Policy, Politics, and Communication, Education. The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.

The Essential Guide to Writing History Essays ~~Nov~~ Nov 08 2020 The Essential Guide to Writing History Essays is a step-by-step guide to the typical assignments of any undergraduate or master's-level history program in North America. Effective writing is a process of discovery, achieved through the continual act of making choices--what to include or exclude, how to organize elements, and which style to choose--each according to the author's goals and the intended audience. The book integrates reading and specialized vocabulary with writing and revision and addresses the evolving nature of digital media while teaching the terms and logic of traditional sources and the reasons for citation as well as the styles. This approach to writing not only helps students produce an effective final product and build from writing simple, short essays to completing a full research thesis, it also teaches students why and how an essay is

effective, empowering them to approach new writing challenges with the freedom to find their own voice.

The Music History Classroom Jun 15 2021 The Music History Classroom brings together essays written by recognized and experienced teachers to assist in the design, implementation, and revision of college-level music history courses. This includes the traditional music history survey for music majors, but the materials presented here are applicable to other music history courses for music majors and general education students alike, including period classes, composer or repertory courses, and special topics classes and seminars. The authors bring current thought on the scholarship of teaching and learning together with practical experience into the unique environment of the music history classroom. While many of the issues confronting teachers in other disciplines are pertinent to music history classes, this collection addresses the unique nature of musical materials and the challenges involved in negotiating between historical information, complex technical musical issues, and the aesthetics of performing and listening. This single volume provides a systematic outline of practical teaching advice on all facets of music history pedagogy, including course design, classroom technology, listening and writing assignments, and more. The Music History Classroom presents the 'nuts-and-bolts' of teaching music history suitable for graduate students, junior faculty, and seasoned teachers alike.

Doing HistoryApr 25 2022 Now in its sixth edition, *Doing History* offers a unique perspective on teaching and learning history in the elementary and middle grades. Through case studies of teachers and students in diverse classrooms and from diverse backgrounds, it shows children engaging in authentic historical investigations, often in the context of an integrated social studies curriculum. The book is grounded in the view that children can engage in valid forms of historical inquiry—asking questions, collecting and analyzing evidence, examining the varied perspectives and experiences of people in the past, and creating evidence-based historical accounts and interpretations. Grounded in contemporary sociocultural theory and research, the text features vignettes in each chapter showing communities of teachers and students doing history in environments rich in literature, art, writing, and discussion. The authors explain how these classrooms reflect contemporary principles of teaching and learning, and thus, the descriptions not only provide specific examples of successful activities but also place them in context that allows teachers to adapt and apply them in a wide range of settings. *Doing History* emphasizes diversity in two ways: Readers encounter students from a variety of backgrounds and see how their diverse experiences can form the foundation for learning, and they also see examples of how teachers can engage students with diverse experiences and perspectives in the past, including those that led to conflict and oppression. The book also discusses principles for working with English learners and newcomers, and it provides guidance in using multiple forms of assessment to evaluate the specifically historical aspects of children's learning. Updates to this edition include updated historical and instructional examples to ensure currency, new suggestions for children's literature to support good teaching, expanded attention to teaching about oppressed groups in history, and greater attention to when historical perspective taking is and is not appropriate.

Was the American Revolution a Mistake? Dec 22 2021 Why was George Washington dismayed by the outcome of the American Revolution? Would slavery still exist if the South had not seceded from the Union in 1861? Might socialists rule America today if Teddy Roosevelt had not run for President and lost in 1912? History is full of contingencies. People confront problems and debate options for solving them. Then they make a choice and face the consequences of their choice. Often they wonder if a different choice might have been better. Was the American Revolution a mistake? Was racial segregation inevitable? Was the Cold War necessary? Americans have repeatedly asked these sorts of questions as they examined the consequences of their choices. This is a book about revisiting crucial choices people made in history and examining the consequences of those choices for them and for us. It demonstrates a method of teaching history that recreates events as people experienced them and asks important questions that troubled them but that rarely appear in conventional textbooks. Unlike conventional methods that often reduce history to names, dates and facts for students to memorize, it is a method that brings past debates to life, the losers' as well as the winners' points of view, and makes the subject exciting. In studying history as choice, students examine the problems people faced, their options for solving them, their decision-making processes, and the choices they made. Then students evaluate the consequences of those choices both for people in the past and us today. They explore what might have happened if different choices had been made. Finally, students relate the consequences of those past choices to problems we face today and the choices we need to make. History as choice is a practical and practicable method. It has been designed to satisfy the curriculum goals of the National Council for the Social Studies, and the book explains how it can be used to satisfy any state or local curriculum standards. The book also identifies and illustrates resources that can be used with this method -- from data bases to popular music -- and explains how teachers can gradually integrate it into their courses. In the first part of the book the method of history as choice is explained using the question of whether the American Revolution was a mistake as a case in point. The second part of the book explores thirteen other questions about significant issues and events in American history as additional examples of how one might teach history as choice.

Hong Kong's Chinese History Curriculum from 1945 Nov 13 2021 Hong Kong's Chinese History Curriculum from 1945: Politics and Identity investigates the ways in which Chinese history has evolved as a subject in Hong Kong secondary schools since 1945, and the various social, political and economic factors that have shaped the curriculum, through an examination

of a wide range of primary and secondary source materials and interviews. This book examines how the aims, content, teaching, learning and assessment of the Chinese history curriculum have evolved since 1945. It describes how Chinese history became an independent subject in secondary schools in Hong Kong despite the political sensitivity of the subject, how it consolidated its status during the colonial period, and how it has faced threats to its independence since the return of Hong Kong to China in 1997. An important element of the book is its in-depth analysis of the major socio-political and socio-economic forces that have been involved in the development of Chinese history. This book will be of interest to all who are interested in history education and curriculum development, and readers who are concerned with history education.
