You're not sure you want to stay, but you can't make up your mind to go. You're stagnating ... but feel powerless to do anything about it. Help is at hand! Successful relationship psychologist Beverley Stone will get your life back on track. She uncovers the roots of your confusion and helps you make the big decision: to stay and make a go of it in a radically improved relationship ... or leave, confident and happy. Step by step, she helps you make your decision and put your choice into action. Written by an experienced, no-nonsense counselor who combines sympathy with

realism ... and helps you face the fact that doing nothing is a self-defeating option Goes further than other self-help books by helping you to discover why your previous attempts have failed. Covers all the possible options for your relationship - mending it, maintaining it... and, in the last resort, leaving it. "I've known people trapped in deeply unhappy relationships for years, because of no apparent way out. Indecision only adds to the misery. Beverley Stone's serious guide to honest, clear ways to change, offers men and women the release to be themselves and is inspiring in its lessons." If you don't know exactly where you are heading, how can you expect to get there? Without a clearly defined goal, your life can quickly become a series of frustrating stop-and-go actions. Or you might get stuck with a choice that has never been yours in the first place - someone else made a decision for you and now you tow the line. Neither is a pleasant way to live. The good news is that no matter how long you have been looking for a worthwhile goal, no matter how young or old, rich or poor you are, you can find the best goal for your professional and/or private life. In 'From Confusion to Clarity: 5 Steps to Add Direction, Satisfaction, and Meaning to Your Life' author Katalin Halom provides you with an easy-to-follow and foolproof method for ending your frustration and finding the one objective that truly pleases you - the one goal that reflects your strengths. The book describes the 'Five

Stages' everyone who wants to head into a self-chosen direction must follow. With the help of practical exercises you'll move step-by-step from a lack of direction toward your final destination - a fulfilling, exciting, and meaningful goal. Countless examples of real people who have faced problems similar to yours illustrate each step you have to take in your goal-finding quest. Their examples show that you are not alone in being lost or confused about what to do with your life, and that you will end the cycle of indecision if you really want to. (Two case studies are about two highly creative and wonderful Australians!) Halom also describes the most insidious obstacles along the way to goal finding and goal achievement, and shows you how to avoid or eliminate all of them. Examples of people who dreamed big and made bold decisions reinforce the basic tenet of this practical book: By thoroughly completing all the exercises as described, you can consciously choose your professional and private path - and live a life of happiness and fulfillment. Hill is concerned with the idea of the future in literary texts, and how notions of the future are essential to their very existence. This study, based primarily on material found in the Pennsylvania Slovak language press, follows the activities of Slovaks in the United States just prior to and during the early months of World War I until October 1915. Sixteen Months of Indecision begins with an overview of Slovak attempts in

the Habsburg Empire to gain equal rights with the other nationalities, reasons for mass Slovak emigration, Slovak national life in America, and the formation of Czechoslovakia. The next section focuses on the Pan-Slavic and Anti-German/Austro-Hungarian attitudes of American Slovaks. This form of ethnic nationalism manifested itself in a support of the Allies, especially Russia, and the belief that one could not be a "good" Slovak by sympathizing with Germany and the Habsburg Monarchy. At the outbreak of war, American Slovaks at first advocated Pan-Slavic cooperative efforts to aid those Slavic populations ravaged by the conflict. As the war continued, emphasis changed to focus on assisting the Slovaks only. Collections of goods and money were taken, and a representative was sent to Canada to help gain the release of Slovaks imprisoned as enemy aliens. Citing the Canadian example, Slovak American leaders urged their compatriots to become American citizens. Last, the war caught the Slovaks in the United States by surprise. Their political program centered on gaining equal rights in Hungary through legal means, but a small group advocated instead a Czecho-Slovak solution. Although the Czecho-Slovak concept gained momentum, many Slovaks feared that they would lose their ethnic identity. Cooperation initially did not occur in the United States. When a Parisian organization

of Czechs and Slovaks expressed its willingness to recognize the individuality of the Slovak people, the American Slovaks quickly supported it. An icy reception, however, by American Czechs destroyed any common ground. American Slovaks eventually decided to cooperate with American Czechs when Czech Americans finally agreed that the Slovaks were a separate ethnic group. The Cleveland Agreement, signed in October 1915, was the first formal written accord to unite Czech and Slovak efforts in the struggle for an independent country. "Helps develop a much deeper understanding of story structure, using case studies with short practical lessons which all emerge organically from the example at hand"--

Words have come a long way since they were invented as a nifty tool to help us communicate. We have played with them, made up rules for them, added bits to them and taken bits off. We've gathered them into languages, adopted and defined them. The words we use say so much about who we are, yet most of them slip from our mouths without a second thought... Lawmaking provides many opportunities for proposals to be altered, amended, tabled, or stopped completely. The ideal legislator should assess evidence, update his or her beliefs with new information, and sometimes be willing to change course. In practice, however, lawmakers face criticism from the media, the public, and their colleagues for "flip-flopping." Legislators may also only appear to change positions in some cases as a means of voting strategically. This book presents a systematic examination of legislative indecision in American politics. This might occur via "waffling"—where a legislator cosponsors a bill, then votes against it at roll call. Or it might occur when a legislator votes one way on a bill, then switches her vote to the other side. In *Indecision in American Legislatures*, Jeffrey J. Harden and Justin H. Kirkland develop a theoretical framework to explain indecision itself, as well as the public's attitudes toward indecision. They test their expectations with data sources from American state legislatures, the U.S. Congress, and survey questions administered to American

citizens. Understanding legislative indecision from both the legislator and citizen perspectives is important for discussions about the quality of representation in American politics. Do you often find yourself over thinking situations and events to the point of debilitation; such as, Social events, job related stuff, people interactions and even vacations? Do you feel super tired and fatigued at the end of the day as a result of this non-stop thinking and racing thoughts that wear you down? How many times have you stayed up late at night because you cannot stop worrying about that one little slip-up you had at work? Now, how many times have you lost yourself in your thoughts for long stretches of time about that one embarrassing thing that you did back when you were in high school? This is just the tip of the iceberg when you are suffering from chronic overthinking, right? You might seem a bit confused about what could be wrong about thinking too much, like getting lost in your thoughts is relatively harmless, but that is not what overthinking is. Overthinking is when your mind gets overloaded by a couple of negative thoughts that seem to be on an endless LOOP, that keeps playing faster and faster, multiplying its power. When you do manage to stop overthinking, you will notice that you have already wasted a lot of time, and that you are also mentally and physically drained of energy. This book aims to help you identify the REASONS why you are

constantly overthinking, and you will also learn proven techniques on how you can pull yourself out of the death spiral of overthinking before you can fall in any deeper. This book investigates the dialogic nature of research articles from the perspective of discourse analysis, based on theories of dialogicity. It proposes a theoretical and applied framework for the understanding and exploration of scientific dialogicity. Focusing on some dialogic components, among them citations, concession, inclusive we and interrogatives, a combined model of scientific dialogicity is proposed, that reflects the place and role of various linguistic structures against the background of various theoretical approaches to dialogicity. Taking this combined model as a basis, the analysis demonstrates how scientific dialogicity is realized in an actual scientific dispute and how a scientific project is constructed step by step by means of a dialogue with its readers and discourse community. A number of different patterns of scientific dialogicity are offered, characterized by the different levels of the polemic held with the research world and other specific researchers - from the "classic", moderate and polite dialogicity to a direct and personal confrontation between scientists. The essays in this collection address the current preoccupation with neurological conditions and

disorders in contemporary literature by British and American writers. The book places these fictional treatments within a broader cultural and historical context, exploring such topics as the two cultures debate, the neurological turn, postmodernism and the post-postmodern, and responses to September 11th. Considering a variety of materials including mainstream literary fiction, the graphic novel, popular fiction, autobiographical writing, film, and television, contributors consider the contemporary dimensions of the interface between the sciences and humanities, developing the debate about the post-postmodern as a new humanism or a return to realism and investigating questions of form and genre, and of literary continuities and discontinuities. Further, the essays discuss contemporary writers' attempts to engage the relation between the individual and the social, looking at the relation between the "syndrome syndrome" (referring to the prevalence in contemporary literature of neurological phenomena evident at the biological level) and existing work in the field of trauma studies (where explanations tend to have taken a psychoanalytical form), allowing for perspectives that question some of the assumptions that have marked both these fields. The current literary preoccupation with neurological conditions presents us with a new and distinctive form of trauma literature, one concerned less

with psychoanalysis than with the physical and evolutionary status of human beings. Fate brought us together in the world of the living for us to continue the harmony that once only existed in this underworld. Jacob Livingston is a young man with problems. After losing his parents to a brutal murder, he finds out he has an illegitimate half-sister, Elizabeth Livingston, who has plans to take off with his family's fortune. Believing that Elizabeth had something to do with his parents' deaths, Jacob goes to great lengths to discover just how much she knows. Elizabeth hates men—especially Jacob's father whom she believes is responsible for causing her mother's terminal cancer. Without her mother's protection, Elizabeth becomes an introvert who develops two very complex personalities to deal with situations that she can't handle on her own. In an elaborate scheme to milk Jacob's inheritance—and eventually kill him—Elizabeth involves AJ Taylor, a clinical psychologist chosen to declare Jacob unfit to handle his estate, and Cheryl Gooden, whose involvement in Elizabeth's life is part medicinal and part vengeance. In the end, the situation takes a captivating turn as Elizabeth fights for her life—and Jacob, Cheryl, and AJ come to understand that all may not be what it seems. Beth's arrival at the ancestral home effectively ruins what Brylee and Jake hope will be the beginning of many happy Christmas days, but the much-anticipated holiday turns to complete ruin when Raymond

Tucker interferes in a most galling way. It's a battle against family feelings of betrayal, sinister alliances and catastrophic news as NJ returns to the outback armed with a plan that has the potential of upsetting the very balance of nature. Ongoing confrontations and unmitigated pressure force LeAnn to rethink what is right for her and her children, and Brylee wrestles with feelings of self-doubt and a very uncertain future while trying to keep the family together. Will Jake's final decision bring her the closure and peace she so much desires, or will it turn to ashes everything they have been trying to build? About the Author: Dr. Walter Rollin has

been a marriage and family therapist for over 35 years. He offers his popular Decisions, Decisions workshops and maintains an active therapy practice in Sacramento, California. Visit his website at www.DecisionDr.com. Numerous churches are in decline and closing their doors. Congregations have experienced long term decline to such an extent they find themselves in the death stage in the life cycle of their churches. Once a congregation finds itself in the death stage of the life cycle, chances are slim that they will find church renewal a reality. The purpose of this study in practical theology is to discover the stages of the life cycle of a congregation, to engage dying congregations in self-evaluation resulting in decision-making concerning closure and to assist members of the clergy to move beyond church management to pastoral leadership, of a declining or dying church. Like to laugh one minute and cry the next? This is the right romance for you. At 34, Michael Larson has made himself into a good man, even if he is still far from being a perfect one. He considers himself at least reformed of his previously bad dating habits. Unfortunately, Carrie Addison, the future mother of his child and the woman he loves madly, doesn't agree with that assessment. The challenge he faces is how to keep Carrie in life until he finds a way to change her mind. Despite advice from his meddling family about hanging on to a

woman looking to escape him, Michael pressures Carrie into a marriage of convenience. Her indecision about him and the baby is heart wrenching, but Michael won't let even her doubts stop him. He can't bear the thought of losing her now that he finally has her in his arms at last. This books 1 and considered a standalone in the Can't Help Falling In Love series. Tom Peters--brilliant, original, and perhaps the most inspiring and listened-to business thinker of our time--has a lot on his mind these days. And he wants to share it in The Circle of Innovation. The world of business is in a permanent state of flux, he argues, a state of chaos in which constant innovation is the only survival strategy--for the individual and for the organization. And he presents here a lifesaving handbook--both provocative and practical--designed to turn any organization into a perpetual innovation machine. In 400 seminars in 47 states and 22 countries in the last five years, Peters has reexamined, refined, and reinvented his

views on innovation. Now he brings those seminars--and his passion--to the reader in a landmark book. It is meant, he writes, to both "terrify" and "enlighten." These are "times of matchless peril for those who fail to grasp the nettle...and times of matchless opportunity for those who do." To keep us alert, limber, and ready for action, he provokes and cajoles in chapter after chapter. Among his institutions and revelations: We Are All Michelangelos. leaders of the future must have laser-like focus, tell the truth, and live on the lunatic fringe. The hallmarks of Tom Peters legend are an insatiable curiosity, an agile intellect, a pragmatic perspective, and an uncanny ability to gauge the global zeitgeist. These qualities are all brought to bear as Peters sets out to engage, enrage, and ultimately empower his readers, amid forces that are reshaping not only business but every aspect of human experience. The nuclear issue was a minor political matter when John Diefenbaker became prime minister in 1957. By 1963, it served as a catalyst for his defeat, with many attributing his demise to the indecision with which he handled it. Patricia McMahon tells a more nuanced story in *Essence of Indecision*. Tracing Diefenbaker's deliberations over nuclear policy, McMahon shows that Diefenbaker was politically cautious, not indecisive - he wanted to acquire nuclear weapons and understood from public opinion polls that most Canadians supported this position. However, Diefenbaker worried that the growing anti-nuclear movement might sway public opinion sufficiently to undermine his political support. He also feared that Liberal leader Lester Pearson could use the issue for political advantage. As long as Pearson opposed Canada's membership in the nuclear club, he could portray Diefenbaker's government as an irresponsible proponent of nuclear proliferation. Despite these

reservations, Diefenbaker was involved in nuclear negotiations with the Americans throughout his tenure as prime minister, and an agreement was within reach on a number of occasions. When, in January 1963, Pearson reversed his position, Diefenbaker felt trapped - in making a clear public statement in favour of nuclear weapons it would appear as though he was merely following his opponent's lead. When Canada acquired nuclear weapons in 1963, it was under the leadership of Pearson, not Diefenbaker. The first book to deal exclusively with Diefenbaker's nuclear policy and the influence of the anti-nuclear movement, *Essence of Indecision* is key to understanding Diefenbaker's formulation of nuclear policy, and the environment, both international and domestic, in which that policy was created. In 1983, Goldcrest Films was hailed as the saviour of the British film industry but within two years the company was virtually bankrupt. If you read nothing else on decision making, read these 10 articles. We've combed through hundreds of articles in the Harvard Business Review archive and selected the most important ones to help you and your organization make better choices and avoid common traps. Leading experts such as

Ram Charan, Michael Mankins, and Thomas Davenport provide the insights and advice you need to: Make bold decisions that challenge the status quo Support your decisions with diverse data Evaluate risks and benefits with equal rigor Check for faulty cause-and-effect reasoning Test your decisions with experiments Foster and address constructive criticism Defeat indecisiveness with clear accountability Benjamin Kunkel's brilliantly comic debut novel concerns one of the central maladies of our time—a pathological indecision that turns abundance into an affliction and opportunity into a curse. Dwight B. Wilmerding is only twenty-eight, but he's having a midlife crisis. Of course, living a dissolute, dorm like existence in a tiny apartment and working in tech support at the pharmaceutical giant Pfizer are not especially conducive to wisdom. And a few sessions of psychoanalysis conducted by his sister have distinctly failed to help with his biggest problem: a chronic inability to make up his mind. Encouraged by one of his roommates to try an experimental pharmaceutical meant to banish indecision, Dwight jumps at the chance (not without some meditation on the hazards of jumping) and swallows the first fateful pill. And when all at once he is "pfired" from Pfizer and invited to a rendezvous in exotic Ecuador with the girl of his long-ago prep-school dreams, he finds himself on the brink of a new life. The trouble—well, one of the troubles—is that Dwight can't decide if the pills

are working. Deep in the jungles of the Amazon, in the foreign country of a changed outlook, his would-be romantic escape becomes a hilarious journey into unbidden responsibility and unwelcome knowledge. How to affirm happiness without living in constant denial of the ways of the world? How to commit, and to what? At once funny and poignant, gentle and outrageous, finely intelligent and proudly silly, *Indecision* rings with a voice of great energy and originality, while its deeper inquiries reflect the concerns and style of a generation. "Here's what *Indecision* gives you: sustained social and intellectual comedy, possibly the last but certainly the funniest Superfluous Man in modern literature, drive-by satire, plus detailed set-piece send-ups of Young Adult colgrads at work and play. The mockery is humane. The tale of Dwight Wilmerding is told with style and care. And there's a surprising ending. Benjamin Kunkel, welcome!"—Norman Rush, author of *Mating In 1983*, Goldcrest Films was hailed as the saviour of the British film industry but within two years the company was virtually bankrupt. This book tells the story of Goldcrest Films and was one of *The Financial Times Business Books of the Year*. Sir Ronald Harwood (1934-2020) was one of the most prolific playwrights and screenwriters of his generation. His acclaimed play, *The Dresser*, has been constantly revived since its premiere in 1980 and has been adapted for both cinema and

television, most recently the 2015 BBC production starring Sir Anthony Hopkins and Sir Ian McKellen. Harwood's other notable film adaptations included Roman Polanski's haunting depiction of life in the Warsaw Ghetto, *The Pianist* (2002), Baz Luhrmann's frontier epic, *Australia* (2008), and Dustin Hoffman's poignant celebration of old age, *Quartet* (2012). His many awards included an Oscar for *The Pianist* and a BAFTA for *The Diving Bell and the Butterfly* (2007). *Speak Well of Me* turns the focus onto Harwood himself. Based on extensive interviews with the playwright during his final years, the biography recounts Harwood's gradual transformation from lacklustre South African schoolboy to doyen of theatreland and Hollywood. While dissecting each of his major works, the book candidly explores Harwood's friendships with the likes of Harold Pinter, J. B. Priestley, André Previn, Sir Donald Wolfitt (who inspired *The Dresser*) and, most controversially, Roman Polanski. The result is a biography as gripping and morally complex as one of Harwood's own dramas. This new paperback edition includes memoirs and assessments of Harwood by Gyles Brandreth, Sir Tom Courtenay, Lady Antonia Fraser, Frederic Raphael, Sir Antony Sher and the playwright's oldest friend, Gerald Masters. A wealthy family tries--and fails--to seal themselves off from the chaos of post-World War II life surrounding them in this stunning novel by one of

Germany's most important post-war writers. In East Prussia, January 1945, the German forces are in retreat and the Red Army is approaching. The von Globig family's manor house, the Georgenhof, is falling into disrepair. Auntie runs the estate as best she can since Eberhard von Globig, a special officer in the German army, went to war, leaving behind his beautiful but vague wife, Katharina, and her bookish twelve-year-old son, Peter. As the road fills with Germans fleeing the occupied territories, the Georgenhof begins to receive strange visitors--a Nazi violinist, a dissident painter, a Baltic baron, even a Jewish refugee. Yet in the main, life continues as banal, wondrous, and complicit as ever for the family, until their caution, their hedged bets, and their denial are answered by the wholly expected events they haven't allowed themselves to imagine. *All for Nothing*, published in 2006, was the last novel by Walter Kempowski, one of postwar Germany's most acclaimed and popular writers. Winner of the PEN/Hemingway Award A Washington Post Notable Book One of the Best Books of the Year: NPR, Entertainment Weekly, Ann Patchett on PBS NewsHour, Minnesota Public Radio, PopSugar, Maris Kreizman, The Morning News Winner of Ploughshares' John C. Zacharis Award Winner of a Whiting Award A Belletrist Amuse Book At first glance, the quirky, overworked narrator of Weike Wang's debut novel seems to be on the cusp of a perfect life:

she is studying for a prestigious PhD in chemistry that will make her Chinese parents proud (or at least satisfied), and her successful, supportive boyfriend has just proposed to her. But instead of feeling hopeful, she is wracked with ambivalence: the long, demanding hours at the lab have created an exquisite pressure cooker, and she doesn't know how to answer the marriage question. When it all becomes too much and her life plan veers off course, she finds herself on a new path of discoveries about everything she thought she knew. Smart, moving, and always funny, this unique coming-of-age story is certain to evoke a winning reaction. This romantic coming-of-age love story shows how transitioning into adulthood is more difficult for some than others. Our biggest challenge in life is learning to trust in ourselves. Jadyne was unaware her decision to take a summer away from home would shape her destiny in its entirety. If only the joy it created would have lasted longer and not included some of the most painful times of her young life. Sometimes the voices in our heads are righteous and then there are the ugly, shameful, unsettled thoughts we're embarrassed to admit originated within us. It's difficult to forgive people who've wronged us. It is more difficult to forgive ourselves for our own immoral actions. Even though we did them to stop an impending, emotional drowning. This time of a young woman's life is her Season of Indecision and thankfully one

that doesn't last a lifetime. Trust in oneself comes from accepting we're all flawed and trying again after we fail. This perspective helps to work through what comes of our failures, and uncovers unknown traits we possess, as they emerge from the debris left behind by the ramifications of our actions. As we unravel the tangled threads stitched between us and repair the damage to people we hurt; intentionally or not, trust remains elusive. When it seems the world is against you, self-pity can lead to salvation or damnation. Learning to balance pleasing oneself with pleasing others is vital. Accepting our own actions, leads us to the toughest judge of all, ourselves. Our life stories are of our own making, paintings we show the world. Some stories, too sensitive, remain private and locked away hidden from observers, camouflaged beyond the brushstrokes. A Year on the Brink recounts a year in the life of veteran middle school teacher, Randi Jacobs. Month by month, September to June, the day to day challenges of trying to live a balanced life, while striving to remain a consummate professional, are intertwined with the issues besetting public education and the dramas and traumas, both large and small, of often misunderstood and underestimated early adolescents. Set in the affluent coastal community of Manhattan Beach, California, the plot ebbs and flows, revealing both the struggles and joys of a dedicated classroom teacher who is

gradually coming to the realization that it may be time to retire. Along the way, administrative styles are explored as are legal obligations impacting the classroom teacher, some as seemingly simple as taking attendance and others as complex as First Amendment rights and the administration of the No Child Left Behind legislation. Randi's energy is tapped as she attempts to meet the divergent needs of individual students, consistently deliver meaningful instruction and maintain quality relationships with family members, as well as lend support to close colleagues - one struggling as a single parent and another with an abusive husband. The year is further complicated when Randi is inadvertently drawn into a criminal investigation by an earnest student who comes to her with a story of an odd citing, made while "Trick-or-Treating" at another student's home. As May turns to June and the time for indecision passes amid the end-of-schoolyear hubbub, Randi sorts through the components of her life and considers her options in order to come to a final decision. The 'SS United States' was a great symbol of post-World War II American genius. She was the most advanced ocean liner of her time—modern, innovative and hugely powerful. Designed to be a commercial liner but easily convertible to wartime troopship, she entered service in July 1952, seventy years ago, to rousing triumph and success. She captured the

prized Blue Riband for transatlantic speed, brought glory to America and her owners, and enjoyed great success for a full decade. But after trans-ocean jets arrived, her success slowly faded until fully decommissioned by 1969. Over fifty years of idleness, revival plans and schemes, and neglect and decay followed. To this day, the 'United States' waits silently at a Philadelphia pier. This is the story of a very great and beloved ship—her glory days, but also her days of struggle and indecision. The Last Sovereigns is the story of how Sioux chief Sitting Bull resisted the white man's ways as a last best hope for the survival of an indigenous way of life on the Great Plains—a nomadic life based on buffalo and indigenous plants scattered across the Sioux's historical territories that were sacred to him and his people. Robert M. Utley explores the final four years of Sitting Bull's life of freedom, from 1877 to 1881. To escape American vengeance for his assumed role in the annihilation of Gen. George Armstrong Custer's command at the Little Bighorn, Sitting Bull led his Hunkpapa following into Canada. There he and his people interacted with the North-West Mounted Police, in particular Maj. James M. Walsh. The Mounties welcomed the Lakota and permitted them to remain if they promised to abide by the laws and rules of Queen Victoria, the White Mother. But the Canadian government wanted the Indians to return to their homeland and the police made every effort to persuade

them to leave. They were aided by the diminishing herds of buffalo on which the Indians relied for sustenance and by the aggressions of Canadian Native groups that also relied on the buffalo. Sitting Bull and his people endured hostility, tragedy, heartache, indecision, uncertainty, and starvation and responded with stubborn resistance to the loss of their freedom and way of life. In the end, starvation doomed their sovereignty. This is their story.
